PRESIDENT ELLIOTT HONORED AT SOCIETY OF EMERITI EVENT

L to R, President Lloyd H. Elliott, Mrs. Elliott, Dr. John F. Latimer, Board of Trustees Chairman Everett H. Bellows.

Members of the University's Society of the Emeriti turned out in record numbers, some 89, for the group's December 20 luncheon when President Lloyd H. Elliott was the honor guest in observance of his 20 years as president. A suprise guest at the event was Mrs. Elliott, who had been invited without the president's knowledge.

Professor Emeritus of Classics Dr. John F. Latimer, society president, presided at the luncheon, introducing many who had come from distances for the occasion.

In response to Dr. Latimer's words of praise and cordial introduction, President Elliott gave brief remarks.

"It's wonderful to be in the right place at the right time," he said, "and for the small part I've had in what happened the last few years, I'm grateful, but it takes many people, doing a lot of different jobs in different ways, but all effectively, to move a university along, and I've been privileged to be a part of this one.

"I just want to say, the president's job is very easy and since there is a preponderance of faculty here, I ought to make it clear what the division is between the job of the faculty and the job of the president. It's the job of the faculty to do the work. It's the job of the president to do the bragging. I like that division and let's keep it that way. . . I could give a long speech. I'm not going to but I could do it with great enthusiasm because as I've said to others, I am high on this institution.

"I believe we have every right to be proud of this university, proud of both its past history, proud of where it is today, and proud to be a part of its future, because this institution is emerging as one of the central places of learning in our country, even in our world today, and the future looks very bright. On behalf of Betty and me, I thank you for allowing us to be part of it."

COLONNADE GALLERY PRESENTS EXHIBITION ON WELLNESS

"Wellness in Today's World" is the title of the current exhibit in the Colonnade Gallery of the Marvin Center. The exhibit, sponsored by the Governing Board of the Marvin Center, the Department of Human Kinetics and Leisure Studies (HKLS)-Wellness Resource Center and the Colonnade Gallery, is described as an artistic exploration of wellness through photography and accompanying text.

Selected works of photographer Jean Marsh are being shown. Mrs. Marsh's works have been exhibited extensively in various parts of the United States including the Center for Music, Drama and Art in Lake Placid, New York; Friend Art Gallery in the Boston Museum of Science; the Wellesley Art Festival, and most recently Howard Community College in Columbia, Maryland, and the Rockland Art Center in Ellicott City, Maryland.

Mrs. Marsh's work was part of the International Exhibition of Color Photography shown at the Metropolitan Museum of Art in New York, the Smithsonian Institution and other galleries in the United States, Great Britain and Scandinavia. Mrs. Marsh has received numerous honors for her nature color photography.

"Wellness in Today's world" is part of the program of the HKLS-Wellness Resource Center to raise consciousness towards wellness.

The exhibit can be seen in the Colonnade Gallery on the third floor of the Marvin Center through Thursday, February 13. Gallery hours are 10 am to 7 pm daily.

Everyone is invited to a reception in the gallery on Thursday, January 16, from 4 to 6 pm.

NOON POETRY READINGS

The Friday Noon Poetry Series resumes for Spring semester, 1986, on January 17. Ernest Kroll and Barbara Lefcowitz will be the featured readers. On January 24, Robert Bowie and Carl Conover will present their works. The series, sponsored by the Department of English, takes place from 12 noon to 1 pm in the atrium at 2000 Pennsylvania Avenue, NW. For further information, call 676-6180.

GW TO MARK FIRST NATIONAL OBSERVANCE OF MARTIN LUTHER KING JR.'S BIRTHDAY

The George Washington University will pay tribute to Martin Luther King Jr. on Monday, January 20, the first annual national observance of his birthday. The theme of the event, being co-sponsored with Washington television station WJLA-TV, will be "We Share the Dream."

At a special 5 pm ceremony in the University's Marvin Center Theatre, the many legacies of Dr. King will be recalled. The event is free and open to everyone.

President Lloyd H. Elliott will make introductory remarks. Mary Braxton, WJLA-TV's manager of community affairs and editorials, will preside.

The Honorable David A. Clarke, chairman of the D.C. City Council, will deliver the keynote address. Clarke, a 1965 GW graduate (B.A. with a major in religion), has been active in the civil rights movement. In the 1960s, he served with the U.S. Commission on Civil Rights, assisting in a project which examined discrimination in state and local government. He also worked as a law clerk to the NAACP Legal Defense Fund and in various capacities with the Washington Bureau of the Southern Christian Leadership Conference (SCLC). With the latter organization, Clarke handled court litigation and project coordination of the Martin Luther King Jr. Holiday March and the D.C. Martin Luther King Jr. film project.

GW faculty scholars James O. Horton, James P. Chandler, Harry E. Yeide Jr. and Robert Paul Churchill will make brief presentations tracing Dr. King's contributions to history, law, ethics, and peace and human rights, respectively.

The ceremony will conclude with a "procession of pledges." Participants in the commemoration will be invited to sign pledge cards which read, in part, "I pledge to do everything I can to make America and the world a place where equality and justice, freedom and peace will grow and flourish." The pledge cards will be kept in the archives of the Atlanta-based King Center.

President Elliott comments, "It is our hope that this ceremony will help each individual to consider his or her responsibilities in a world marked by a continuing struggle for human dignity. Dramatic goals confront us -- from equality in South Africa to peace in the Middle East, from reconciliation in Ireland to human rights in the Soviet Union. Equally serious concerns mark our life in this nation -- decent housing, equal opportunity for education and work, health and well-being for all. This event provides a time for reflection about these issues of daily life."

NATIONAL AIDS TELECONFERENCE SCHEDULED HERE JANUARY 23

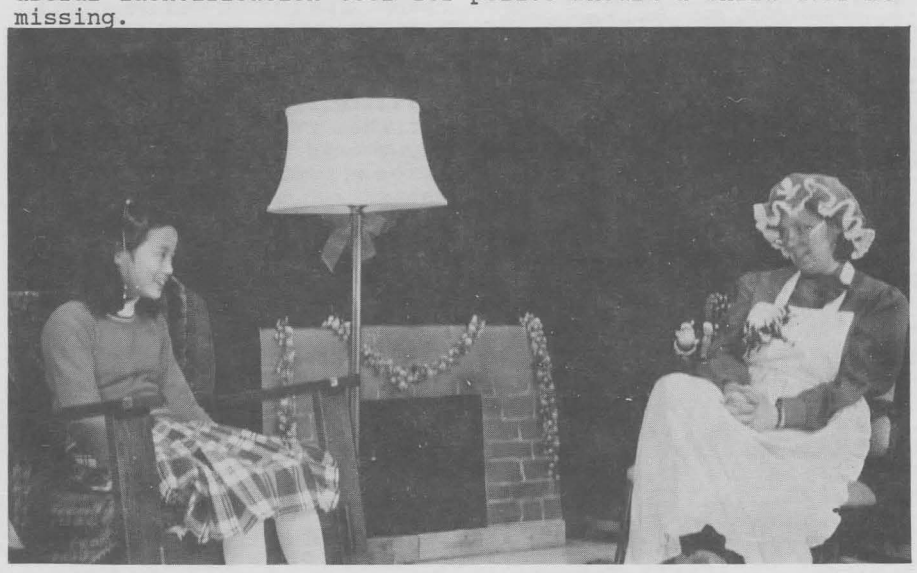
A nationally broadcast teleconference presented by the American Hospital Association will be available for viewing by members of the University community, from 1 p.m. until 4 p.m. in the GW Hospital Auditorium, Thursday, January 23. Admission is free.

The program is entitled, "The AIDS Dilemma: Confronting Fears with Facts," and is sponsored, as part of the University's AIDS education program, by the University Office of News and Public Affairs and the Medical Center Public Relations Office.

The program is designed for hospital and community service personnel, and will feature live question-and-answer sessions with officials from the Center for Disease Control, the American Hospital Association, and other public health representatives.

GWTV HOSTS CHILDREN'S HOSPITAL BENEFIT

GWTV opened its studios, December 26 through January 3, for the first annual "Project Video Scrapbook." Children 10 and under were videotaped at $1.00 per minute, up to ten minutes, with all proceeds going to Children's Hospital. According to Project Coordinator, Judy Farrar, the videotape serves as a useful identification tool for police should a child ever be missing.



Amy Lee, left, chats with "Mrs. Claus," GWTV Production Assistant Susan Brown, during "Project Video Scrapbook."

WORLD CONFERENCE ON PRINTING AND PUBLISHING JANUARY 22-24

A World Conference on Electronic Printing and Publishing will be held at the University January 22 through 24. The conference is jointly sponsored by the University and Electronet Information Systems, Inc.

The Wednesday through Friday meeting will present sessions on government publishing; traditional printing and publishing; telecommunications applied to publishing; electronic page makeup and assembly; imaging; and electronic publishing.

Dean Harold Liebowitz of the School of Engineering and Applied Science will give the welcome address on Wednesday morning. Serving as conference chairman is Henry B. Freedman, chief executive officer of Electronet Information Systems, Inc.

A banquet is scheduled on Thursday evening, January 23, in the Omni Shoreham Hotel with Dr. Frank B. Wood, project director, Communication and Information Technologies, U.S. Congressional Office of Technology Assessment, as the speaker.

The newsletter "Technology Watch" will sponsor the Second Annual Electronic Printing Art Exhibition at the hotel in conjunction with the conference. The exhibition, which is designed to expand understanding, appreciation and application of electronic printing techniques, can be seen Thursday evening, before and after the banquet.

Proceedings of the conference will be transcribed and published electronically. They will be available to all those attending the conference and will be available for purchase by those unable to attend.

For conference information, call (202) 822-8804.

HOSPITAL WOMEN'S BOARD FUNDS EQUIPMENT FOR HIMMELFARB

The Women's Board of The George Washington University Hospital has granted the Himmelfarb Health Sciences Library the funding to purchase equipment for its microcomputer laboratory. The gift was presented to honor Dr. Dennis O'Leary, retiring dean for clinical affairs.

"The Library is extremely grateful to the Women's Board for considering the needs of GWUMC students, faculty and staff through such a generous gift," says Shelley Bader, Himmelfarb Library director. "The gift is being used to support a microcomputer learning laboratory and public access terminals for end-user database searching. Equipment purchased with the gift will include three IBM PCs with printers; one IBM XT with printer; and a MacIntosh computer. The grant has also enabled us to acquire the latest in educational technology, a laser videodisc player and high-resolution color monitor."

UNIVERSITY THEATRE AUDITIONS

The University Theatre will hold audtions for William Saroyan's "The Cave Dwellers" on Tuesday and Wednesday, January 21 and 22, at 7 pm in the Downstage (formerly Studio A) in Lower Lisner Auditorium. All members of the University community are encouraged to audition. Dancers and mimes are needed as well as actors. For more information, call Ext. 8072.

BARBARA J. STEPHANIC is shown with Joseph Pennell's "The Waiting Room, Union Station, Washington," etching, 1919, one of the the 62 works by Pennell in the Dimock Gallery's recent show. The exhibition grew out of Stephanic's work for the Master of Fine Arts which she received from the University in 1985.

GRADUATE TUITION BENEFITS NOW TAXABLE FOR SOME EMPLOYEES

Additional federal tax will have to be paid by some University employees who have received graduate tuition benefits for dependents, or who have received more than $5,000 of free graduate tuition for themselves since July 1, 1985.

It had been hoped that these new provisions would only affect employees in the future, but, according to the Internal Revenue Service, graduate school benefits for dependents, or for more than $5,000 of an employee's own graduate tuition, will be taxable effective retroactively to July 1, 1985.

Each employee affected should have received a letter from the Office of the Comptroller with specific details, including announcement of a provision for the required taxes to be paid by deduction from 1986 earnings. Further information may be obtained from the Office of the Comptroller.

GW SIGNS LEASE WITH UNITED CHURCH

The University has signed a lease with The United Church for the church's building on 20th Street, between H and I Streets, to be used by GW for academic programs in radio and television.

Church representatives at the December signing were Dr. Hall Taylor, chairman of the Board of Trustees of The United Church; Mrs. Louise Haack, a member of the church's board; and Dr. John Cooper, former president and trustees chairman of the church. Signing for the University was Vice President and Treasurer Charles E. Diehl.

The exterior of the building will be preserved as an entrance to the new facilities.

The church building being leased was formerly occupied by the Union United Methodist Church. That church and Concordia United Church of Christ of 20th and G Streets, NW, merged on January 1, 1975, with the name the United Church. That congregation now worships in the building at 20th and G Streets. NW.

The signing of the lease on the church was made possible by the issuance of $31 million dollars in revenue bonds by the District of Columbia. In addition to the radio and TV facilities to be constructed in the church building, the balance of the funds will be used to support the new telecommunications system which has been contracted with AT&T and to cover the cost of construction of the CAD CAM Laboratory in Tompkins Hall, the renovations to science departments in Corcoran Hall and to the Gelman Library, first and third floors.

DIMOCK GALLERY TO SHOW PAINTINGS BY CLARICE SMITH

The Dimock Gallery will present an exhibition entitled, "Clarice Smith: Remembered Moments," from January 15 to February 21.

The exhibition, organized by the Cedar Rapids Museum of Arts (Iowa), is one of the stops on the first national tour of Clarice Smith's work. Thirty-two paintings, done between 1978 and 1985, constitute the exhibition.

Stylistically, Smith's work is said to reflect strong influences from Northern Renaissance and 17th century Dutch painting. In portraiture, she has adopted a style of posing her figures to achieve the impression of a temporary state while conveying a sense of physical isolation which seems to transcend the moment. In the works with travel themes, there is a comparison to be made with the painter Edward Hopper in terms of Smith's thematic preoccupation with the psychology of travel without the apprehension and uncertainty associated with travel often seen in Hopper's work.

An assistant professorial lecturer in art in the University's Department of Art, Clarice Smith's work is represented in numerous collections in this country and abroad. She received her B.A. and M.F.A. degrees from George Washington and has also studied at the Corcoran School of Art and the University of Maryland. At George Washington, she teaches both portrait and watercolor painting. Smith is currently on the board of the Washington Opera and the advisory board for the arts at the University of Maryland.

Sponsored by the Dimock Gallery, Art Department, the exhibition will be open from 10 am to 5 pm, Monday through Friday.

GAA EVENING IN SPACE

The University's General Alumni Association is sponsoring "An Evening in Space" at the National Air and Space Museum, Tuesday, January 28, at 7:30 pm. The event, co-sponsored with the Georgetown University Alumni Club, features a movie, "The Dream is Alive," inflight footage of space shuttle activities, and a presentation from Senator Jake Garn (R-Utah), the first U.S. Senator to fly in the space shuttle. A reception will follow. The event is for alumni, faculty, and staff and is not open to the general public. The cost of the evening is $12.50 per person and reservations must be made by January 24. For further information, call Ext. 6435.

GARST, FINDLEY, FLEMING IN FACULTY RECITAL

The first Faculty Recital of Spring semester, 1986, is Monday, January 27, at 8 pm, in the Marvin Theatre. The featured artists are: Marilyn Mangold Garst, piano; Mary Findley, violin; and Keith Fleming, cello. They will perform music of Mozart, Brahms, and Ravel. Tickets, available at the door are: general admission, $4; faculty, alumni, and staff, $2; and students and senior citizens, $1. For more information, call Ext. 6245.

PERSONNEL NOTICES

POSTDOCTORAL POSITION, full-time, Department of Microbiology. (Position available for study of glycolipids in organs targeted by respiratory and neurotropic viruses. Previous experience in working with glycolipids essential; additional training in membrane biology, tissue culture, or virology desirable; and a willingness to learn new techniques.) Send curriculum vitae to: Dr. Mary Ann K. Markwell, GWU Medical Center - Microbiolgy, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSISTANT, part-time, The Biostatistics Center. (Person needed to assist biostatisticians with management and analysis of medical research studies. Required: B.A./B.S. and experience with SAS programming and medical research.) Send resumes to: Sonnia Tidwell, The Biostatistics Center, 7979 Old Georgetown Road, Bethesda, MD 20814. No phone calls, please.

RESEARCH ASSISTANT, half-time, Center for Family Research, Department of Psychiatry. (Individual needed to work on family research project. Data analysis, computer skills, and experience with interviewing research subjects is necessary. Required: bachelor's degree.) Contact: Em Sause, Ext. 2624.

RESEARCH ASSOCIATE, full-time, Division of Rheumatology. (Individual needed for laboratory studying murine B cell differentiation. Required: M.S. in biology/chemistry and skills in sterile tissue culture and cell isolation techniques.) Contact: Dr. D. Greenblatt, Division of Rheumatology, GWU Medical Center, Ext. 4416.

The George Washington University is an equal opportunity/affirmative action employer.

NEWSNOTES

PROFESSIONAL ACTIVITIES

WILLIAM C. ADAMS, professor of public administration, lectured on the topic of media coverage of the Iran and Beirut hostage crises at an SGBA alumni breakfast, October 8. On the same subject, he spoke to a U.S.I.A. foreign visitors program on October 17; as a visiting lecturer at Baylor University in Waco, Texas, October 25; and at a conference on "Terrorism and the Responsibilities of a Free Press," held at the Russell Senate Office Building, November 7.

DAVID ALTSHULER, associate professor of religion in the Charles E. Smith Chair of Judaic Studies, led a study session on "Judaism and American Democracy" at the General Assembly of the Council of Jewish Federations and Welfare Funds, in Washington, November 16. He also delivered a presentation on "Conceptual and Pragmatic Aspects of Planning Holocaust Museums and Exhibitions" at the Yale Holocaust Conference, November 18, in New Haven, Connecticut.

SHELLEY BADER, director of the Himmelfarb Health Services Library, was named president-elect of the Association of Academic Health Science Library Directors at its annual meeting held in conjunction with the Association of American Medical Colleges annual meeting.

DIANE APOSTOLOS-CAPPADONA, lecturer in religion, presented the Dillenberger Lecture in the Visual Arts during the 1985 Annual Meeting of the American Academy of Religion, in Anaheim, California. The topic of her slide-illustrated lecture was "Sojourn of Communion with Stone: On the art and philosophy of Isamu Noguchi." She also chaired a panel discussion on the implications for religious studies of Leo Steinberg's "The Sexuality of Christ in Renaissance Art and in Modern Oblivion," during the 1985 meeting.

PETER J. CAWS, university professor of philosophy, attended the XI Interamerican Congress of Philosophy in Guadalajara, Mexico, November 10 to 15. He presented a paper entitled, "Comrades and Strangers: Philosophy and the Problems of National Self-Determination" and participated in a roundtable discussion of "Cultural Relativism and Philosophy" with participants from Brazil, Peru, Canada, and Argentina. On November 25, he spoke to the Senior Seminar of the Department of State Foreign Service Institute in Arlington, Virginia, on the "Role of the Arts in American Society."

JOSEPH F. COATES, adjunct professor of international affairs, received an Honorary Doctorate of Science from the Claremont Graduate School, Claremont, California, this past summer. The citation commended Professor Coates for "practicing and fostering interdisciplinary approaches to science."

NEIL B. COHEN, associate professor of business administration, presented two papers at national meetings: "Beyond Spreadsheets: Creative Courseware for Personal Computers," at the annual meeting of the Financial Management Association; and "Asset Allocation Techniques for Personal Financial Planners: A Model for Plan Implementation, Quality Control, and Managerial Review," at the annual meeting of the Academic Symposium of the International Association for Financial Planning.

"The Road Less Travelled," an article about an experimental course in personal financial planning, to be taught by Professor Cohen during Spring Semester, 1986, appeared in the September, 1985 issue of Financial Planning.

HERBERT J. DAVIS, associate professor of business adminstration, presented a paper entitled, "Managerial Values in Four Cultures: Implications for Multinationals," at the 1985 Annual Meeting of the Southern Managemment Association in Orlando, Florida. The paper appears in the Proceedings of that organization.

AMITAI ETZIONI, university professor, participated in the Annual Economic Panel of the Conference Board which forecasts economic trends, on November 4. On November 5, he testified before the U.S. Senate Committee on Rules and Administration.

KEN EVERINGHAM, assistant director of the Career Services Center, presented two sessions of a "Computer-Connected Careers" workshop for a local Computer Careers (Without Fears) Conference, November 7, at Mount Vernon College. The event was sponsored by the Fairfax County Re-entry Women's Employment Center.

JAMES D. FOLEY, professor of electrical engineering and computer science, recently gave one of the two keynote addresses at the NICOGRAPH'85 computer graphics conference in Tokyo. His lecture was entitled, "Managing the Design of User-Computer Interfaces."

STEPHEN S. FULLER, professor of urban and regional planning, was a featured speaker at the Maryland-Washington Developers Seminar held in Columbia, Maryland, on November 20. He spoke on the region's economic recovery and the extra economic benefits resulting from the interdependencies within the Washington and Baltimore metropolitan areas. On November 21, he was the luncheon speaker at the Washington/Baltimore Regional Association Executive Committee meeting in Baltimore. His presentation concerned the economic health of the bi-regional Common Market.

HOWARD GILLETTE, associate professor of American civilization, delivered a talk entitled, "Major Characteristics of American Culture," for members of the political and cultural affairs sections of the Embassy of the People's Republic of China. On November 26, he presented a paper, "Washington's Changing Metropolitan Framework," at the 40th annual meeting of the Southeast Division of the Association of American Geographers.

NROTC Change of Command -- Second Class Midshipman Catherine Cook, right, an SPIA junior, succeeds Second Class Midshipman Stuart Merrell, a Columbian College junior, as battalion commander for 1986.

WARREN GREENBERG, associate professor of health services administration, spoke on "Utilization Review and Cost Containment" at the annual meeting of the Maryland Health Care Coalition, October 25, in Baltimore, Maryland.

SHERWIN GREENE, professor of urban and regional planning, has been elected to membership in Lambda Alpha International, a professional interdisciplinary honorary society dedicated to the study of land economics.

PHILLIP D. GRUB, Aryamehr professor of multinational management, and **Alex Anckonie III**, associate professor of business administration, addressed the Tenth National Conference on Student Services on, "Computer Literacy Becoming a Basic." The conference, held November 8 in Washington, DC, focused on educational programs and student services.

WALTER A. HAHN, visiting professor of government and business and futurist-in-residence, was a member of the National Commission on Space Workshop on Life in the 21st Century. This Presidential Commission was authorized to develop views of the social, political, and economic context in which space research and operations will be conducted out to the year 2035. The results of the workshop will be in the first chapter of the Commission's report to the President in March 1986.

MAX HALPERIN, research professor of statistics, was honored by the American Public Health Association (APHA) at its November 1985 meeting in Washington, DC. He was given special recognition for collaborations with scientists in studies of coronary heart disease and cardiovascular disease, for seminal contributions to statistical methods used in clinical trials, and for sustained contributions to the theory and analysis of censored data.

GAIL SHORT HANSON, dean of students, delivered the luncheon address, "Support for Women's Advancement," at the 1985 Conference of the Pennsylvania Committee of the American Council on Education - National Identification Program for the Advancement of Women in Higher Education Administration, on November 14. The two day conference in Hershey, Pennsylvania, was attended by over 90 institutional representatives of colleges and universities in the state.

JEFFREY R. HENIG, associate professor of political science, delivered a paper, "Neighborhood Watch Approaches to Reducing Violent Crime and Fear," to a panel at the annual meeting of the American Society of Criminology, November 14, in San Diego.

ALF HILTEBEITEL, professor of religion, was a guest respondent at the First Annual President's Colloquium at Coppin State College in Baltimore, October 25-26; the theme was,"Myth and the Cultural Crisis of the West." On November 2, he was the respondent to a panel on the Mahabharata at the 14th Annual Conference on South Asia held at the University of Wisconsin, Madison.

JAMES O. HORTON, associate professor of American history and civilization, recently presented his views on "South Africa: An Historical Perspective," at a panel debate sponsored by the University of South Florida at St. Petersburg, Florida.

CHRISTOPHER C. JOYNER, associate professor of political science, presented a paper, entitled, "The Strategic Defense Initiative and International Law," to a symposium on "Strategic Defense: The Pros and Cons of Star Wars," at the Georgia Institute of Technology on November 15.

JAMES A. KILPATRICK, professorial lecturer in economics, was a discussant on a panel concerning Japan-Soviet trade on November 3. The panel was part of the Third World Congress for Soviet and East European Studies sponsored by the American Association for the Advancement of Slavic Studies in Washington.

JAMES C. KING, professor of German, spoke on the theme, "Germanic (pre-Christian) Elements in the Celebration of Christmas," at a meeting of the Phi Beta Kappa Association of the District of Columbia, December 7, in Arlington, Virginia.

PETER F. KLAREN, professor of history, was a speaker and discussant at a conference on "Peru: Overview of Political and Economic Issues," held November 6 at the Department of State.

JOHN M. LACHIN, professor of statistics, participated in the Fourth Advanced Course in Gastroenterology, "Fields of Research in Cirrhosis," sponsored by the Italian Society for Gastoenterology in San Miniato, Italy, from October 28 to November 2. His lecture, co-authored with **Elizabeth Wright**, assistant research professor of statistics, was entitled, "Design and Analysis of Clinical Trials of Causal Therapy in Cirrhosis."

MARILYN L. LIEBRENZ, associate professor of business administration, was the chairperson at the Work in Progress session of the Academy of International Business's annual meeting, October 17-20, in New York. She and **Claire J. Prager**, visiting assistant professor of business administration attended the Marketing Strategy Conference, organized by the Conference Board, October 22-23, in New York. This annual meeting of industry leaders in marketing, numbered over 700

(continued on back)

attendees. On November 7-8, she was a paper reviewer on the topic of "Regional Diversity and U.S. Competitiveness" at the Northeast Business Economics Association annual meeting, in Baltimore, Maryland.

DORN C. McGRATH, professor of urban and regional planning, has been appointed to the Transportation Research Board Airport Capacity Committee. The study, requested by the Federal Aviation Administration through the National Academy of Science/National Research Council, will emphasize analysis of landside constraints on the capacity of the national airport system. He has been elected to the Board of Trustees of the Committee of 100 on the Federal City , the oldest planning body in Washington, which serves as a citizen's forum on the principal planning and development issues of the Federal City and its environs.

JONATHAN D. MORENO, associate professor of philosophy and of health care sciences, moderated a panel on "The Baby Doe Regulations: An Experience in Government Intervention in Health Care Decisions," at the annual research conference of the American Association of Public Policy Analysis and Management, in Washington, DC, October 26.

LEONARD NADLER, professor of education, made two presentations in Milwaukee, Wisconsin: November 4, "HRD - A Challenge or Opportunity?" to the Commission of Professors of Adult Education; November 6, along with his wife Zeace, "Human Resource Development: Adult Learning in the Work Place" to the National Adult Education Conference. In December, Professor Nadler received a Special Achievement Award for Communications (Publications) from the Washington, DC Chapter of the American Society for Training and Development. Others receiving recognition included six alumni and two SEHD graduate students, Margaret Ann Schuler and Angus Reynolds.

HONEY NASHMAN, assistant professor of human kinetics and leisure studies, spoke on, "Stress, Burnout, and Human Potential," at an all-day session, "Wellness and Self-Help in the Older Adult," for the Germatological Forum of the New England Hospital and Health Foundation, November 4, in Boston, Massachusetts.

BENJAMIN NIMER, professor of political science and international affairs, spoke on "Prospects for Peaceful Negotiation in South Africa?" to the Presbyterian Meeting House of Alexandria, October 12, and to the Georgetown Presbyterian Church, on November 10.

AHMED K. NOOR, professor of engineering and applied science, gave the premiere seminar, "Recent Advances in the Computational Strategies for Nonlinear Structural Problems," at the newly established Center for Computational Integrated Engineering and Manufacturing of the University of Tennessee. He presented a paper, "Mixed Models and Reduction Method for Dynamic Analysis of Anisotropic Shells," at the ASME Winter Annual Meeting, November 17-22, in Miami, Florida. The paper was published in the proceedings of the meeting.

WALKERS, L to R, first row, Tessie Abacan, Jeanne King, Gloria Gillis; second row, Gloria Lester, Ramona Edwards and Sarah Welch. All members of the University Community, the group is taking part in the Walking Program, sponsored by the HKLS-Wellness Resource Center. For information on the program, call Ext. 6927.

PHYLLIS M. PALMER, assistant professor of women's studies and of American civilization, delivered a paper on the "Racial Feminization of Poverty" as part of a panel on Women's Poverty and Women's Health, at the 13th Annual Meeting of the American Public Health Association, November 22, in Washington, DC.

RAYMOND L. PICKHOLTZ, professor of electrical engineering and computer science, chaired both sessions on "Adaptive Arrays" at MILCOM '88 in Boston, in October. He also presented a paper, " A New Analysis of Adaptive Array Algorithms," published in the Proceedings of MILCOM, pp. 28.1-28.6, and co-authored with **Robert H. Lang**, professor of electrical engineering and computer science. On November 8, he gave a talk on "Analytical Models of Local Area Network Protcol" sponsored by the departments of Electrical and Computer Engineering and Computer Science, North Carolina State University, Raleigh.

JEAN PREER, adjunct associate professor of American civilization, presented the keynote address, "Legal Principles and Educational Reality," October 31, at a conference on "A Cooperative Approach to Minority Issues in Higher Education," sponsored by the Pennsylvania ACT Council at Penn State University.

PHILIP REEVES, professor of health services administration, was recently appointed chairman of the Article of the Year Award Committee by the board of governors of the American College of Healthcare Executives.

LEO P. RIBUFFO, professor of history, testified before the House of Representatives Subcommittee on Parks, October 29, about the possibility of establishing a Jimmy Carter presidential historical site in Plains, Georgia. He appeared on the "Carol Randolph Show," WDVM-TV, November 12, to discuss academic freedom.

LOIS G. SCHWOERER, professor of history, was elected vice-president/president-elect of the North American Conference of British Studies. Her article, "Seventeenth-Century English Women Engraved in Stone?" won the Walter D. Love Prize for the best article in British history by a North American author to be published in 1984.

JAY R. SHOTEL, professor of special education, presented a paper, entitled, "The Hearing Process and Appeals Procedure in the District of Columbia: Trends and Issues," at the Fall conference of the District of Columbia Federation, Council for Exceptional Children, November 16, at Gallaudet College.

LOU SMITH, grounds supervisor, recently returned from the People's Republic of China where he served as a member of a Landscape Horticulture delegation which visited six cities. The travel was sponsored by the Botanical Society of China in association with the Citizen Ambassador Project of the People to People International Program. He spoke to the local chapter of the Association of Physical Plant Directors on November 12 about his experiences in China.

JEANNE SNODGRESS, professor of human kinetics and leisure studies, presented four sessions: on October 26, "Retirement Planning," to the Eastern Association of Physical Education for College Women (EAPECW), in Providence, Rhode Island; on November 2, "What Are You Doing About Wellness," as part of an SEHD New Directions Conference, at the University; on November 4, "Wellness and Self-Help in the Older Adult," to the Gerontological Forum of the New England Hospital and Health Foundation, in Boston; on November 11, "Pre-Retirement Planning," to the D.C. Gamma Chapter of Alpha Delta Kappa, international women's educators' honorary, in Falls Church, Virginia.

Professor Snodgress was recently appointed to the Montgomery County, Maryland, Commission on Aging.

HENRY STEINER, professor of engineering administration, has been appointed Chairman of the Economics Committee, Council on Tall Buildings and Urban Habitat. He will edit the economics section in the Monograph, a five-volume publication updated yearly by the council.

He will be chairman of the economics section in the Chicago meeting of the Third International Council on Tall Buildings in January 1986.

IRENE THOMPSON, associate professor of Slavic, presented a report on revisions in guidelines for evaluating reading and listening skills at the annual meeting of the American Council on the Teaching of Foreign Languages, November 30, in New York. She was appointed Chairman of the Testing Subcommittee of the American Association for the Advancement of Slavic Studies for a three year term, 1985-1988.

WILLIAM G. WELLS Jr., associate professor of management science, conducted a workshop at the Fall meeting of the Industrial Research Institute, October 23, in Minneapolis, Minnesota. The workshop focused on "Corporate Governmental Relations and Corporate Strategy," as part of an overall program entitled, "Transforming American Industry: Challenges for R & D."

JOHN ZIOLKOWSKI, associate professor of classics, gave a lecture on, "Classical and French Themes in Washington Public Architecture," at the Virginia Classical Association Meeting, November 2, in Charlotesville, Virginia.

Members of the **DEPARTMENT OF OPERATIONS RESEARCH**, attended the Joint National Meeting of the Institute of Management Sciences and the Operations Research Society of America (TIMS/ORSA), November 4-6, in Atlanta, Georgia. **DONALD GROSS**, professor of operations research, presented a paper entitled, "Proof of Convergence of Gauss-Seidel Iteration for Markov Models," co-authored with R.B. Cooper (Florida Atlantic University) and L.C. Kioussis (formerly a graduate research assistant at G.W.). He also served as one of two chairman of the discussion, "Panel: Should ORSA and TIMS Become One Society." **W.H. MARLOW**, professor of operations research, presented a research paper entitled, "Readiness and Logistics," co-authored with S. Zacks (SUNY Binghamton). **THOMAS A. MAZZUCHI**, visiting assistant professor of operations research, presented a research paper entitled, "Application of Principal Components to Quality Control," co-authored with S.J. Allen (Behrend College, Pennsylvania State University). **DOUGLAS R. MILLER**, professor of operations research, chaired the session, "Numerical Solutions of Markov Models." **NOZER D. SINGPURWALLA**, professor of operations research, chaired the session, "Quality Control," and presented a paper, "An Iterative System for Reliability Analysis Using Expert Knowledge and Failure Data" in another session. **RICHARD M. SOLAND**, professor of operations research, chaired the session, "Military Applications I," and in a different session, presented a paper, "Optimal Tactics for Point Defenses When Several Engagements and RVS Arrive Simultaneously."

GW SIGNS AGREEMENT WITH KANSAI UNIVERSITY

SIGNING the agreement between the University and Kansai University of Japan on January 10 were, l to r, Kansai Vice President Akira Ishikawa; Kansai President Akio Ohnishi; GW President Lloyd H. Elliott; and Dean Maurice A. East of GW's School of Public and International Affairs.

The George Washington University has signed a general agreement on international exchange programs with Kansai University in Osaka, Japan, and a specific agreement on an exchange program for scholars between Kansai University and GW's School of Public and International Affairs. The formal signing took place on January 10, at GW, in the Office of the President.

The agreement provides for the exchange of scholars (professors, lecturers or researchers); exchange of students, both graduate and undergraduate; exchange of academic information and materials; exchange of periodical academic publications; organization of joint research programs; and other academic exchanges, agreed upon by both universities.

Kansai University was founded as Kansai Law School in November, 1886. Its founders were six judicial officers who were in the service of the then Osaka Court of Appeal. In 1905 the institution was renamed Kansai University. With the reformatiom of the educational system in Japan after the Second World War, Kansai University moved over to the new-system university incorporating four facilities of law, letters, economics and commerce in an attempt to expand the scope for teaching. A Graduate School was established in 1950. A Faculty of Engineering was founded in 1958 and a Faculty of Sociology in 1967.

JAMES E. SHULER BECOMES GW ALUMNI TRUSTEE

James E. Shuler (B.A. 1985) was elected an alumni trustee by the Board of Trustees at its January 16 meeting. Shuler's nomination came through a GW Student Association recommendation to the General Alumni Association. He is the fourth recent GW graduate to become an alumni trustee under the terms of the procedure called the "Porter Compromise." His term will run through June 1988.

A leader in numerous student activities during his undergraduate years, he served as GW Student Association vice president for student affairs and as a senator for Columbian College. He was co-chairman of the Joint Committee of Faculty and Students, a member of the Residence Hall Council and the Alcohol Awareness Task Force, a representative on the Inter-fraternity Forum and president and fraternity educator for Sigma Alpha Epsilon (SAE) fraternity. His undergraduate major was American civilization.

Shuler now lives in Tulsa, Oklahoma, where he is employed as volunteers coordinator for the March of Dimes organization.

SEYYED H. NASR TO GIVE FEBRUARY'S FIRST WEDNESDAY LECTURE

Seyyed H. Nasr, university professor of Islamic studies, will speak on, "Islam and the West," Wednesday, February 5, at 8 pm in the Marvin Theatre. Dr. Nasr's First Wednesday Lecture, sponsored by the Alumni Relations Office, will be accompanied by slides and music. He will deal with the interaction between two major civilizations, from the period of the foundation of Islam to modern times, concentrating on the significance of Spain, where the major transmission of culture, art, and thought from the Islamic world took place. Admission is free, but call Alumni Relations, Ext. 6435, to reserve seating. Dinner will be served by the GW University Club, for both members and non-members, beginning at 6:30 pm. Call Ext. 6610 for dinner reservations.

ELLIOTT-GRIFFITH MEMO ADVISES OF THREAT TO TIAA-CREF PLAN

President Lloyd H. Elliott and Professor William B. Griffith, chairman of the Executive Committee of the Faculty Senate, have sent a memorandum to all faculty and staff participants in the TIAA-CREF Retirement Plan calling attention to possible adverse and damaging effects to the plan in pending Congressional action.

The Tax Reform Act of 1985 (H.R. 3838), passed by the House of Representatives on December 17, 1985, has a number of provisions which would reduce retirement income for TIAA-CREF participants. The bill is now being considered by the U.S. Senate in hearings scheduled for late this month and early February, with floor action scheduled for early spring.

The memorandum informs those concerned that, on behalf of the University, President Elliott has written to the chairman and members of the Senate Finance Committee concerning the bill.

An attachment to the memorandum is a copy of the information sent out December 26 to all TIAA-CREF participants by Donald S. Willard, executive vice president of Teachers Insurance and Annuity Association College Retirement Equities Fund, detailing the dangers of H.R. 3838 and stating, "The Senate must hear a strong unified voice from all of higher education."

The Elliott-Griffith memorandum points out that denying to TIAA-CREF pension funds tax benefits accorded other non-profit institutions would have a serious impact, urges participants to review the December 26 communication and, if they are concerned, to write to their own U.S. senators as well as to Senator Robert Packwood, chairman of the Senate Finance Committee. The TIAA-CREF attachment includes a list of U.S. senators with addresses. This information is also available from the Office of the Vice President for Administration and Research.

CITY COUNCIL CHAIRMAN CLARKE SPEAKS AT GW KING OBSERVANCE

"His greatness, in my mind, was his ability to reflect, in a passing moment, the glimpse of eternity," D.C. City Council Chairman David A. Clarke (B.A. 1965) said of Martin Luther King Jr. at the University's January 20 observance of the birthday of the late King, at 5 pm in the Marvin Theatre.

The event was sponsored by the University in cooperation with WJLA TV. Mary Braxton, manager of community affairs and editorials for WJLA TV, presided. An overflow crowd was accommodated in the Marvin Center first floor cafeteria with Reverend William C. Crawford of the University's Ecumenical Christian Ministry presenting the speakers, all of whom gave their presentations a second time.

David A. Clarke

"King had a vision of himself and of all mankind as children of God and, as such, as brothers," continued Clarke, the keynote speaker at the event. "He did not see his enemies as evil, but rather their deeds and by focusing upon their deeds, he was able to break down walls that kept even the people of good will apart. He saw us all as the children of God and it was that vision which gave his drumbeat cadence."

Describing Dr. King as "a man who walked to the beat of a drum, a distant drum, whose beat became louder and louder in his life," Clarke declared "The drumbeat to which he marched was the drumbeat of eternity."

"His drumbeat transcended time," Clarke said, "He transcended his own time as well when he moved from the Civil Rights Movement, arguing for social and economic justice in America--when he moved to his argument against the Vietnamese War and for international peace. As the drumbeat grew louder, it broke down not only the divisions of race but every man-made classification as well. Walls of denominationalism and sectarianism fell as Jew and Gentile, Protestant and Catholic joined hands and sang 'We Shall Overcome,' directing their efforts to overcome at evil itself, not at each other. . . It was when he undertook to unite the poor in the Poor Peoples' Campaign in an effort to break down the barriers of economic discrimination that it was determined by the powers that be that he must be killed," Chairman Clarke related.

"In Dr. King's movement, there was room for all races, even during the days of the black power struggle, but somewhere since Dr. King left us, we have lost the beat. Somehow the music which Dr. King gave to us has lost the beat and has now become what you'd call a jangling discord. His dream of unity of all of God's children as brothers has dissolved as his followers have chosen which minority group they are part of. Today, instead of a movement, we have a black movement, a woman's movement, an Hispanic movement, an Indian movement, and a gay movement. We hear Dr. King's name associated with many causes and, alas, he is not here to determine which cause. In his last sermon at Ebenezer Church, he told us that he wanted to be remembered as a drumbeat major for justice, peace and righteousness."

(continued on page 2)

CLARKE, FACULTY MEMBERS SPEAK AT KING OBSERVANCE

(continued from front)

In a series of rhetorical questions, "Where have justice, peace and righteousness gone?" Clarke decried the government's cutting of food budgets; what he sees as claims of economic recovery at the cost of those who do not have; the 22 per cent of the nations's children under the poverty line, with the figure at 50.1 percent for black children under 6; the fact that there are 1500 inmates on death row in 38 states awaiting execution; what he sees as the competition between nations to destroy the world; and the 20 plus murders portrayed nightly on television.

"The '60s have raised all of our expectations," he went on, "but many dreams are destroyed by those who live only for themselves. To hear the drumbeat, we too often look for a new drum major. There may not be a new drum major today, but that does not mean there's still no drumbeat. The drumbeat is distant but it must come from within. . . . It will continue to beat, however distant, and some day it will be heard again. ... I hope that on this day, we will not look for a new drum major, but listen as did he (Dr. King) for that distant drumbeat."

President Lloyd H. Elliott, commenting on the meaning of the day, reflected on his experiences as a naval officer in World War II at the beaches of Salerno and said, "A part of Dr. King's dream was a dream of peace, not war. I share that dream."

James O. Horton, associate professor of American history and civilization, said, "He was a part of history and continues to be. Those who would honor him must take upon themselves his charge to act. ... Martin Luther King would have had little patience with our tarrying long over his memory unless we can say we have realized the dream."

James P. Chandler, professor of law, stated, "Dr. King's life was essentially devoted to identifying the gap between the promise of the great ideals of this country established by the law and the performance of the American nation in achieving those objectives." He quoted the late Chief Justice Earl Warren who had commented on this gap in 1968 as the root cause of many problems. "It was the effort of Dr. King to narrow this gap that led to his eventual assassination," the professor said.

Harry E. Yeide Jr., professor of religion, declared, "Dr. King was a dramatically moral person. He was also clearly an ethicist. He was able to discern the evil in what others regarded as moral... King had a fantastically fruitful relationship to a moral community -- the black church," he said, adding, "King saw that this moral community had the potentiality of becoming the yeast for the larger community. The source of King's moral fervor and his passion for ethics was King's final foundation in God."

R. Paul Churchill, associate professor of philosophy, said, "Part of King's legacy was that he taught us the power of a people who know their rights. He met physical force with soul force and the redemptive power of love. He was truly our American Ghandi. Both Ghandi and King knew that the way to defeat evil is in the conscience of the individual. One must defeat evil without injuring those who do the evil. King showed us that dignity and self respect are the key to courage. ... He showed us the deep and steady resources of our own soul."

Judy Schwartz of the University's Board of Chaplains gave a prayer from Dr. King which emphasized the importance of loving, not hating.

University Marshal Robert G. Jones, overall coordinator of the event, says that there were over 4,300 signatures by those who pledged that they share the dream and that more than 40 feet of the scroll begun on January 10 has been filled. At the conclusion of the program, for the procession of the pledges, the University Singers under the direction of Catherine J. Pickar, led the audience in singing the anthem "We Shall Overcome."

CONFERENCE ON AVOIDING SEXUAL HARASSMENT

Identifying and avoiding sexual harassment will be the topic of a conference being held in Room 404 of the Marvin Center, Thursday, January 30, from 3 to 5 pm. The event is sponsored by GW, the DC Office of Human Rights and the Department of Education's Office of Civil Rights.

The gathering will include presentations by Dr. Bernice Sandler, director of the Association of American Colleges' Project on the Status of Women and author of several papers on the subject of sexual harassment; Maudine Cooper, director of the DC Office of Human Rights; and Tommie Ryan, of the Department of Education's Office for Civil Rights.

A film, "You are the Game," produced by Indiana University, will be shown.

Admission is free. For more information, call Ext. 6710.

COLLOQUIUM: EASTERN EUROPE IN TRANSITION

The Foreign Service History Center and the Institute for Sino-Soviet Studies will present a colloquium on "Eastern Europe in Transition," Monday, February 3, from 2 to 4 pm in Room 406 of the Marvin Center. The panelists include: retired U.S. Ambassador R.T. Davies, Roland Kuchel of the Department of State, and Robert B. Houston, former foreign service officer. Sharon Wolchik, associate professor of international affairs and political science, will be the moderator. For more information call Ext. 5740.

GW

CHRISTOPHER HAMNETT IS BANNEKER PROFESSOR

BANNEKER PROFESSOR Christopher Hamnett, center, talked with Donald C. Dahmann, associate professorial lecturer in geography, left, and Vice President for Academic Affairs Roderick French, at a recent reception sponsored by the Center for Washington Area Studies to welcome Hamnett.

Christopher R. Hamnett, lecturer in geography at the Open University, London, is the Banneker Visiting Professor of Washington Area Studies for the Spring Semester 1986.

Bringing a special interest and expertise in housing and demography, according to Howard R. Gillette, director of the GW Center for Washington Area Studies, Hamnett is teaching a course comparing the historical development of London and Washington. In connection with his duties at the University, Hamnett will be conducting research on the interrelationship between labor and housing market changes in the two cities. The course, offered in the 700 series, is co-sponsored by American Studies and the Departments of Geography, History, and Urban and Regional Planning.

Professor Hamnett is the co-editor of several books, including The Future of Cities; Fundamentals of Human Geography; and City, Society and Economy. He has contributed frequently to scholarly journals and has participated in radio and television programs in England. He has served as a visiting professor at the University of Kent, the University of Malta and the London School of Economics.

Hamnett is the fifth individual to be named Banneker Professor under the sponsorship of the University's Center for Washington Area Studies, an interdisciplinary program in the School of Public and International Affairs. The professorship is named after Benjamin Banneker, the first surveyor of the City of Washington.

WALTER R. ROBERTS NAMED DIPLOMAT-IN-RESIDENCE

Walter R. Roberts, former Associate Director of the United States Information Agency and, for the past 10 years, Executive Director of the Board for International Broadcasting, has been named visiting Diplomat-in-Residence at the University, President Lloyd H. Elliott has announced. Dr. Roberts will play an integral part in GW's School of Public and International Affairs teaching and research programs.

"Walter Roberts brings the practical experience of high-level government service to our academic environment," President Elliott said. "We are pleased with this addition to our international affairs faculty."

From 1975-1985, Roberts was Executive Director of the U.S. Board for International Broadcasting, the federal agency which oversees Radio Free Europe and Radio Liberty. He worked for the United States Information Agency and its predecessor agencies from 1942-1974. He served as associate director, the highest career position in the U.S.I.A., from 1971-1974.

Roberts foreign affairs experience also includes serving as Counselor of the U.S. Mission to International Organizations, Geneva, Switzerland, 1967-1969; Counselor of Embassy for Public Affairs, American Embassy, Belgrade Yugoslavia, 1960-1966; Deputy Assistant Director for European Affairs, U.S.I.A, 1954-1960; and Foreign Affairs Officer (Austrian Desk), U.S. Department of State, 1950-1953.

He was a member of the American delegation to the Austrian Treaty Talks, and was present when the treaty was signed in Vienna in 1955.

Walter Roberts attended Cambridge University in England, where he earned a Ph.D. He served as Diplomat-in-Residence at Brown University in 1966-1967.

In addition to numerous articles, Roberts has written two books: Tito, Mihailovic, and the Allies, 1941-1945 (1973); and Culture and Information, Two Foreign Policy Functions (1976), with Terry Deibel.

A recipient of the Distinguished Honor Award from the U.S.I.A., Roberts is a member of the Council on Foreign Relations, the Washington Institute of Foreign Affairs, and the Metropolitan Club.

TELECONFERENCE FROM GWTV LINKS FOUR AFRICAN COUNTRIES

A teleconference originating from GWTV on Friday January 10, from 4 am until 6 am, linked four African countries via satellite in a discussion of fungus infections conducted by the American Society for Microbiology. The teleconference was sponsored by Project Share through Intelsat which offers available satellite time for educational programs thought to be useful to the peoples of the world. The countries linked in the teleconference were Ethiopia, Kenya, Nigeria and Tanzania.

ANTHONY COATES NAMED ASSISTANT VICE PRESIDENT

Professor of Geology Anthony G. Coates will become assistant vice president for academic affairs effective July 1st, as announced by Vice President for Academic Affairs Roderick French at the February 21 meeting of the Faculty Assembly in Lisner Auditorium.

Professor Coates received his Bachelor of Science with honors in geology from Kings College, London University, in 1959 and his doctorate from the University of Caen, Calvados, France, and the University of London in 1963. His areas of specialization were paleontology, stratigraphy and sedimentation of the Orovician rocks of La Hague, Manche, France.

He was a field geologist with the Jamaican Geological Survey, Jamaica, West Indies (1962-63) and lecturer in geology, at the University of the West Indies, Mona, Kingston, Jamaica (1963-67) before coming to George Washington as associate professor in 1967. He became full professor in 1974. He has been visiting senior lecturer at Kings College, London University (1972-73); visiting professor, Wolfson College, Oxford University (1975): and visiting professor, Institut de Paleontologie, Musée National d'Histoire Naturelle, Paris. He is a research associate in paleontology at the Smithsonian Institution.

Dr. Coates's activities in professional societies have included service as editor of the Journal of the Geological Society of Jamaica; president of the N.E. annual meeting in Washington of the Geological Society of America in 1968 and chairman of the information committee for the society's 1971 annual meeting; service as a member of the governing committee of the International Society for Reef Studies; work on the organizing committee for the Fourth International Symposium on Fossil Cnidaria, held in Washington; and participation on the International Association of Biological Oceanographers Committee to organize the Fifth International Conference on Coral Reefs in Tahiti, French Polynesia.

At the University, Professor Coates is a member of the Graduate School Fauulty and chairman of the Graduate Program in Geobiology. In 1984, he served on the review panel for grant awards in geology of the National Science Foundation, and on the Dean's Ad Hoc Committee for review of Columbian College ordinances.

Dr. Coates has conducted world-wide research with support from the University Committee on Research; NATO; the National Geographic Society; the National Science Foundation; and the Smithsonian Institution's Walcott Fund. He has spoken widely and is a prolific author in his field.

FACULTY ARTIST Clarice Smith, right, is shown with Art Department Chairman Lilien Robinson in the Dimock Gallery where the exhibition of paintings, "Clarice Smith: Remembered Moments," will continue through February 21. The painting behind them is Smith's "Generation," oil on canvas, 52 x 36.

CAREER WEEK `86 IS FEBRUARY 3 TO 6

A DC political analyst, a local TV anchorman and a former Washington Redskin will be on the University campus to participate in Career Week '86, Monday, February 3, through Thursday, February 6. The four-day conference will be composed of panels, presentations by individual speakers and a Career Fair, designed to provide GW students and alumni an opportunity to obtain information about career fields and specific organizations.

Richard M. Scammon, director of DC's Election Research Center and current NBC political pollster, will give the week's keynote speech on Monday, February 3, at 7 pm in the Marvin Theatre. There will be an opportunity to meet the speaker from 5:30 to 7 pm that evening at a reception sponsored by the Young Alumni Association in the GW University Club.

Former Washington Redskin Brig Owens will be featured in a panel presentation on "Non-Athletic Careers in Sports" Tuesday, February 4, from 7:10 to 8:15 pm in Marvin Center, Room 410.

WRC TV's Bob McBride will speak on his career in journalism and broadcasting on Thursday, February 6, from 12:10 to 1 pm in Marvin Center, Room 410.

Career Week '86 includes a full schedule of presentations by area employers and experts in fields from the arts to urban planning. Sessions are focused on choosing a career, landing a job or moving up. This is the fourth annual Career Week coordinated by the University's Career Services Center.

Career Fair on Thursday, February 6, is scheduled for the Marvin Center third floor ballroom from 4 to 7 pm. It is co-sponsored by the GW Society for the Advancement of Management. Representatives of some 50 companies are expected to be on hand.

The Columbian College Alumni Association is cooperating with the Career Services Center in the presentation of five panels on Tuesday, February 4, as well as maintaining a hospitality suite that evening in Marvin Center, Room 403, to provide students and alumni opportunity to meet with panelists after their presentations.

For more Career Week '86 information, call Ext. 6495.

VICE PRESIDENT FRENCH SPEAKS AT FACULTY ASSEMBLY

Vice President for Academic Affairs Roderick French discussed a number of developments within the University at the January 21 Faculty Assembly meeting in Lisner Auditorium.

In announcing that Professor of Geology Anthony Coates will become assistant vice president for academic affairs on July 1, Dr. French said that he "combines a sterling reputation for classroom teaching with a record of research recognized by his peers for its originality and its significance." Dr. Coates was not present because he is in Panama completing some between-semester field work.

In the area of academic computing, Dr. French said that a new Computer Information and Resource Center is being created. The new center, to be located in a suite of rooms off the lobby of the Computer Center, will bear the acronym CIRC.

A much expanded user-services staff of technical specialists and electronic technicians will give advice on selection of hardware and software, will take over the training of new users and will serve as the hub of a new network of school and/or departmental liaisons between academic offices and the Computer Center. He said the administration is taking this action upon the unanimous recommendation of William Rambo, director of the Center for Academic and Administrative Computing (CAAC); Professor Murray Loew, Assistant for Academic Computing in the Office of the Vice President for Academic Affairs; and Professor Arnold Meltzer, chairman of the Academic Advisory Committee for CAAC.

Dr. French announced a program of Secondary Fields of Study. He stated that, starting in the 1986 Fall Semester, any student in good standing in one of the five undergraduate divisions will have the option of registering for a Secondary Field of Study in a school other than the one in which he/she is enrolled. He said descriptive flyers and application forms will be ready in time for the pre-registration period in March. He thanked deans and members of faculty committees for their hard work on the program so that the pledge made to student leaders could be kept.

French catalogued a number of items grouped under the heading he called "building the infrastructure for academic excellence." These included the rehabilitation of old Corcoran Hall; the leasing of the United Church building on 20th Street for construction of teaching studios and other facilities for our academic programs in radio and television; the proposed remodeling of the interior of the Gelman Library, beginning with the consolidation of current and bound periodicals on the third floor; the reorganizing and refocusing of the activities of the Division of Continuing Education including the leasing of 4,500 square feet of space in Crystal City to be converted into five classrooms and a fully equipped computer laboratory, tied into the main frame in the Computer Center. He noted that three degree programs of GSAS, Administrative Justice, Telecommunications Policy, and Criminal Justice, will be taught there at the outset, with the facilities available for instructional and conference activities of other divisions as well.

Vice President French said that President Elliott has agreed to a comprehensive review of the format and style of our official catalogues and bulletins and that Assistant Vice President Margaret Trexler will have the oversight of this review to be undertaken by Academic Editor Judy Arkes in consultation with representatives of all divisions of the University.

Members of the Office of Sponsored Research are "going on the road," French said, to present workshops on seeking external support for research. They will start first with the faculty in the Graduate School of Arts and Sciences and then, beyond that, survey faculty research subject interests and correlate them with known funding sources.

A third University Seminar is being initiated with Professor Lance Hoffman of the Department of Electrical Engineering and Computer Science as the convenor, Dr. French said, with the topic "The Information Age." He added that two other University Seminars are under active consideration for the fall semester.

CHANGE IN SAVINGS BOND INTEREST RATE

The U.S. Savings Bond Division of the Department of the Treasury has announced the new market-based variable rates for the Series EE Savings Bonds.

Series EE Savings Bonds issued between November 1, 1985, and April 30, 1986, will have a first semi-annual rate of 8.36%. When this rate is included with other semi-annual market rates, from the inception of this rate structure on November 1, 1982, Savings Bonds show an average interest rate of 9.69%.

Payroll deductions made for the purchase of Savings Bonds are taken from each paycheck. The purchase price may be averaged over a number of paychecks. For example: the purchase price for a $50.00 Savings Bond is $25.00; one may elect to have $12.50 deducted each payday, thus purchasing a bond every other payday. Savings Bonds are issued once a month and are mailed directly to the purchaser from the Treasury Department.

Regular full-time and regular part-time faculty and staff interested in participating in the U.S. Savings Bonds Payroll Savings Plan may visit the Records and Benefits Division, Department of Personnel Services, Building GG, 2125 G Street, to complete the appropriate enrollment form.

TAX EXEMPT STATUS EXPIRES FEBRUARY 15

Federal tax Form W-4, item 6, allows certain employees to claim exemption from Federal income tax withholding by certifying that they "did not owe any Federal income tax and had a right to a full refund of all income tax withheld" for the previous year and that they expect a similar situation to exist in the current year. This exemption from tax withholding is valid for only one calendar year at a time and expires annually in February.

Employees who are eligible to continue their 1985 exemption from tax withholding in 1986 must submit a Form W-4 by February 15, 1986. Failure to recertify by February 15 will result in the withholding of federal taxes as though the employee has zero withholding allowances.

Forms W-4 are available at the Records and Benefits Office of the Personnel Services, Building GG, or at the University Payroll Office, Academic Center, 1st floor.

Please note that this section of Form W-4 is used mostly by student employees. This announcement does not apply to the rest of Form W-4 which is used for claiming marital status, dependents and withholding allowances. These items remain in effect until changed by the employee.

PERSONNEL NOTICES

RESEARCH ASSISTANT or RESEARCH ASSOCIATE, (two positions) full-time, Department of Pharmacology. (Positions require substantial experience developing and using HPLC and GC for quantitative drug assays. One position requires experience in mass spectrometry. The research associate applicant must have demonstrated a substantial degree of independence and supervisory experience. Required: B.S. in chemistry, with an advanced degree desirable.) Submit resume to: Dr. Fred Abramson, Department of Pharmacology, GW, 2300 Eye Street, NW, Washington, D.C. 20037.

The George Washington University is an equal opportunity/affirmative action employer.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JOHN LOBUTS, associate professor of management science, delivered an invited paper, "The Role of Communication in International Marketing: An Interpersonal Perspective," co-authored with Carol Pennewill, to the Association for Human Resources Management and Organizational Behavior National Conference, November 17-21, in Boston, Massachusetts. The paper was published in the conference proceedings.

ALAN WADE, associate professor of communication and theatre, presented his solo performance, "Shakespeare in Soliloquy," as part of the annual Academic Festival at Kutztown University, Kutztown, Pennsylvania, on November 13.

WELLNESS -- L to R, Mrs. Jean Marsh; Professor of Human Kinetics and Leisure Studies Jeanne Snodgrass; and Miriam Nathan, coordinator, the Colonnade Gallery, posed at the opening of the gallery's exhibition, "Wellness in Today's World," a collection of 84 photographs by Mrs. Marsh. The show runs through February 13.

PUBLICATIONS

WILLIAM C. ADAMS, professor of public administration, co-authored "The Power of The Right Stuff: A Quasi-Experimental Field Test of the Docudrama Hypothesis," in Public Opinion Quarterly (Fall 1985).

DAVID ALTSHULER, professor of religion in the Charles E. Smith Chair of Judaic Studies, edited a book, The Jews of Washington, D.C.: A Communal History Anthology (Chappaqua, N.Y.: The Jewish Historical Society of Greater Washington and Rossel Books, 1985).

JAMES R. BARTH, professor of economics, a co-authored article, "Federal Borrowing and Short Term Interest Rates: Comment," in the Southern Economic Journal, October 1985; and a co-authored paper, "Insolvency and Risk-Taking in the Thrift Industry: Implications for the Future," in Contemporary Policy Issues, Volume III, Fall 1985, pp. 1-32.

DAVID S. BROWN, professor of management, an article, "The Case for a New Managerial Ethic," in Management Quarterly, Fall 1985, pp. 6-14.

ALI BULENT CAMBEL, professor of engineering and applied science, a co-authored paper, "Energy Information and Data Retrieval," in Energy: The International Journal, Vol. 10, No. 10, pp. 1145-1150 (October 1985).

DIANE APOSTOLOS-CAPPADONA, lecturer in religion, editor of Symbolism, The Sacred and the Arts, a collection of essays by Mircea Eliade (The Crossroad Publishing Company, Inc., 1985).

PETER J. CAWS, university professor of philosophy, an article, "Critical Innocence and Straight Reading," in New Literary History, V. XVII, No. 1, Autumn 1985.

MARCUS CUNLIFFE, university professor, "'They Will All Speak English': Some Cultural Consequences of Independence," in Peace and the Peacemakers: The Treaty of 1783, eds. Ronald Hoffman and Peter J. Albert (University Press of Virginia, 1986), pp. 132-159.

STEVEN R. EASTBAUGH, associate professor of health services administration, "Hospital Productivity Management," a survey of his work at three large tax-exempt hospitals, in the Federation of American Hospitals Review (November/December 1985).

AMITAI ETZIONI, university professor, an article, "America is Unsecured," December 11, on the op/ed page of the Washington Post.

MARILYN M. GARST, adjunct assistant professor of music, an article, "How Bartok Performed His Own Compositions," in Tempo, a quarterly review of modern music, published in London, in December 1985.

MARVIN S. KATZMAN, assistant professor of business administration, an article, "More Employers Are Extending Tuition Help to Their Employees," December 4, 1985, in Alert, the weekly executive membership newsletter published by the Research Institute of America.

MAUREEN KEARNEY, psychologist at the counseling center, an article, "Linking University Departments to Promote the Treatment of Bulimia," in the Journal of College Student Personnel, January 1986.

MARILYN L. LIEBRENZ, associate professor of business administration, "Global Franchising," a chapter in the recently published book edited by Erdener Kaynak, Global Perspectives in Marketing (Praeger Publishers), 1985.

BERNARD MERGEN, professor of American civilization, Recreational Vehicles and Travel: A Resource Guide (Greenwood Press, 1985).

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, an article, "The Limits of the Ledger in Public Health Promotion," The Hastings Center Report, December, 1985.

LOIS G. SCHWOERER, professor of history, reviews of two books: Family Life in the Seventeenth Century: The Verneys of Claydon House by Miriam Slater; and The English Family, 1450-1700 by Ralph Houlbrooke in Albion, Summer 1985, pp. 201-207.

ROBERT H. WALKER, professor of American civilization, a book, Reform in America: The Continuing Frontier (University Press of Kentucky, December, 1985).

INTERVIEWS

JOHN F. BANZHAF III, professor of law, was interviewed by CBS News, October 11, and by CNN, October 12, on the subject of tobacco health warnings; on the MacNeil-Lehrer Newshour, October 14, on PBS, regarding tobacco products liability.

JAMES R. BARTH, professor of economics, was interviewed, October 28, by the Dallas News on the savings and loan association problems in anticipation of the annual conference of the U.S. Savings and Loan League held in Dallas, Texas. On October 31, he was interviewed on CNN's "Moneyline" regarding the current crisis in the thrift industry.

MARCUS CUNLIFFE, university professor, was interviewed, November 11, by WRC-TV, Washington, on "American Attitudes towards Royalty."

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was interviewed, October 17, by the British Broadcasting Corporation for its program, "Spotlight on International Issues." The discussion focused on rationale for foreign investment location decisions made by multinational corporations and the forthcoming book by Professor Grub and Bryan Sudweeks, instructor in international business, entitled, Foreign Investment Location Decision Excercise, which was published in December.

CHRISTOPHER C. JOYNER, associate professor of political science, was interviewed, January 8, on CNN's "Take Two" program. The subject of discussion was the Reagan Administration's decision to impose economic sanctions against Libya.

SAR A. LEVITAN, professor of economics, was interviewed about "Services and Long-term Structural Change," in Economic Impact, 1985, Vol. 4, pp. 29-32.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, was interviewed by CNN, December 26, about physician-patient relations.

GW Report

(426)

for the George Washington University community
Office of News & Public Affairs

Jane Lingo, editor (202) 676-6460
Dan Moshavi, assistant editor

GW WEEKLY CALENDAR TO BEGIN PUBLICATION

A new University publication, The GW Weekly Calendar, will appear this month, according to an announcement by Vice President for Academic Affairs Roderick S. French.

The calendar, which will be published by the GW Information Center, has been created "to increase awareness across departmental and school lines of the wide range of interesting events that take place regularly on our campus," Dr. French said.

Publication of the monthly calendar, "Kaleidoscope," formerly "Whats Up George?" will be continued by the Information Center.

Within the next two weeks, the center will provide each campus office and organization with forms for submitting information on events to be included in the calendar. Additional forms will be available at the center's office, first floor, Marvin Center. Submissions for an upcoming week will be due no later than each Wednesday at noon, beginning this Wednesday, February 5. The GW Weekly Calendar will be distributed across the campus each Friday afternoon.

"One of the primary motives for launching this enterprise is the desire to enable more students and faculty to take advantage of intellectual and cultural events which are too often known only to the sponsoring units," Vice President French commented. "The usefulness of the publication will depend entirely on the contributions of all members of the University community. I particularly urge academic departments to exploit this means of announcing lectures and symposia to the broader University community."

Any questions regarding the new calendar may be addressed to Julie Levi, Ext. 4949.

GW Information Center Supervisor Julie Levi, left, chats with staff member, Rebecca Dimmick, an SPIA senior, about the forthcoming GW Weekly Calendar.

WORK BEGINS ON NEW TELECOMMUNICATIONS SYSTEM

The University has begun the transition to an integrated voice and data information telecommunications network. The new telecommunications system will serve the entire University, including the Medical Center, and is designed to give a high-tech edge to education at GW in the '80s.

GW signed a contract for $10 million in December, with AT&T's Information Systems Group to build the system that will manage the University's increasing communication and flow of information needs.

The main part of the telecommunications system is a digital communications processor that will allow the University to manage private information networks. Construction of this processor is already underway. In addition to providing telephone service, the system will provide easy access to microcomputers, minicomputers and mainframes.

With the new system, the establishment of ongoing electronic dialogues between students and remote data bases will become commonplace. Students, faculty, and staff will be able to reach electronically into libraries, classrooms, computers, and laboratories. Multiple university data bases and independent commercial or educational services will also be available. Each residence hall room and faculty office will have access to the system through a simple telephone-type jack.

The system will have a closed circuit television capability, which will enable faculty to supplement classroom lectures. This feature will be available in most major classrooms.

The current University telephone communications system, CENTREX, will be phased out by December, 1986, and everyone will have a new phone number. The new University exchange will become 594 and the system will utilize five digit extension dialing to provide for system flexibility and growth.

To make the transition easier, a dual system will be used for a brief period. Employees will have both an old and new phone on their desks and will be able to use both until they become familiar with the new system.

In addition, to ease the changeover to the new system, 225 departmental coordinators have been appointed to receive periodic updates and details from the GW Telecommunications Office, as the installation progresses. Information booklets on how to operate the new phones will be distributed before the changeover is made. New system features will include hold, call forward, conference calls, call pick-up, and transfer. For long distance calls, an access code and authorization code will still have to be dialed.

The expected completion date is December 1986. Work will begin this summer in the residence halls and will progress building by building. When completed, the new system will serve the 70 campus buildings, including residence halls, medical center buildings and administrative and academic sites.

Information regarding new phone numbers, installation progress, and campus areas to be affected, will be released in forthcoming issues.

RICHARD M. SCAMMON KEYNOTES CAREER WEEK IN SPEECH TONIGHT

Richard M. Scammon, noted political analyst and elections consultant for NBC news, will kick off the University's Career Week '86 in a keynote speech at 7 pm this evening in the Marvin Theatre. Scammon promises to deliver a lecture equal to a year of political science studies. The speech is open to the entire University community and to the general public.

Career Week '86 (February 3-6), sponsored by the University's Career Services Center, provides students the opportunity to explore career options and enhance job search techniques by listening to professionals in a wide variety of fields.

Scammon has been senior elections consultant for NBC news since 1966. He founded the Elections Research Center in Washington, DC, in 1955. Scammon is director of the center, which is concerned with analysis of the election process and voting trends.

National recognition has come to Scammon as a result of his membership on the Kissinger Commission and his serving as a consultant to the State Department on election arrangements for the Gaza Strip and West Bank in Israel. He has been official election observer for U.S. delegations observing elections in El Salvador, the Dominican Republic, the Soviet Union and South Vietnam. Appointed by President Kennedy, he was director of the U.S. Census from 1960 to 1964. He is a fellow of the American Enterprise Institute and American Statistical Association, a trustee of the National Council on Public Polls, and serves on the board of directors of the Labor Institute of Public Affairs.

All the activities of Career Week '86 are open without charge. For more information, call Ext. 6495.

STUDY-ABROAD AGREEMENT SIGNED WITH UNIVERSITY OF POITIERS

The University has signed a cooperative study-abroad agreement with the Institut d'Etudes Francaises of the University of Poitiers-La Rochelle.

The agreement concluded with a ceremony in President Lloyd H. Elliott's office on January 23. The French delegation included President Jacques Borzeix of the University of Poitiers, and Vice President Henri Bain and Director General Jacques Lethiec, both of the Chamber of Commerce and Industry of La Rochelle. Signing for the University were President Lloyd H. Elliott, SPIA Dean Maurice A. East and SGBA Assistant Dean for Undergraduate Programs Marvin S. Katzman.

The purpose of the agreement is to provide a spring semester program at the Institut d'Edudes Francaises of La Rochelle in affiliation with the University of Poitiers for GW students in international affairs and international business. The program is designed primarily, but not exclusively, for junior year abroad students.

Students entering the program must have completed at least 12 credits of college-level French with an overall grade average of B or better. Students will select five courses from an approved list. All courses will be taught entirely in French by regular faculty of the University of Poitiers and faculty from the Institut d'Etudes Francaises of La Rochelle. There will be a required a one-month pre-program intensive French course stressing the language of government and business in preparation for the regular course offerings. In addition to the courses, there will be opportunities for internships.

The Institut d'Etudes Francaises was founded in 1931 by the Chamber of Commerce and Industry of La Rochelle. It was linked to the University of Poitiers in 1938. Since its founding, the Institut has offered

UNIVERSITY OF POITIERS President Jacques Borzeix, left, with Vice President Henri Bain of the Chamber of Commerce and Industry of La Rochelle, center, and President Lloyd H. Elliott before the signing of the study-abroad agreement.

STUDY-ABROAD AGREEMENT

(continued from front)

classes in French language, literature and civilization for foreign students; courses for perfecting teaching techniques, carried out in cooperation with the Audio-Visual Department of the University of Poitiers; and courses in commercial French. The Institut has overseas links in Austria, Germany, Italy, Japan and Sweden, besides those in the United States.

Further information on the program is available from Professor Gregory Ludlow, assistant dean for study abroad, School of Public and International Affairs, Stuart Hall, Room 101, Ext. 6240.

GEORGE WASHINGTON AWARD NOMINATIONS DUE FEBRUARY 21

The Joint Committee of Faculty and Students is seeking nominations for the 10th annual George Washington Awards, to be presented at the spring commencements.

The awards were established in 1976 to give special recognition to members of the George Washington University community whose accomplishments have had a broad impact and whose service has been above and beyond that which is usual or expected.

All students, faculty, administrators and staff of the University may submit nominations or be nominated. Guidelines and forms for nominations can be obtained from the Office of the Vice President for Student Affairs, Rice Hall, Room 403.

Deadline for nominations is Friday, February 21, at 5 pm. Up to 10 awards will be presented at the spring commencements. For more information, contact the Office of Student Affairs, Ext. 7210.

ALUMNI SERVICE AWARD NOMINATIONS DUE

Nominations for individuals to receive the Alumni Service Award in 1986 should be submitted no later than Tuesday, February 11.

The award was established by the General Alumni Association (GAA) in 1959 to recognize volunteer alumni service to the University, to the General Alumni Association and to any of the constituent alumni organizations.

Seven years ago, the GAA Governing Board authorized a special award category to honor non-alumni who would otherwise merit recognition. Nominations of individuals for this award may also be made at this time.

Nominations should be forwarded to Sandra H. Lear, director of alumni relations, in care of the General Alumni Association, Alumni House, 714 21st Street, NW. Nomination forms are available from Alumni House. For more information, call Ext. 6435.

HOMECOMING -- The team of Mattingly and Yanchulis won the banner contest for the third consecutive year with "Destroying the Enemy the Hollywood Way," at homecoming festivities, January 24 and 25.

AMERICAN STUDIES INSTITUTE participants, l to r, Cristina Grondona-White, Maria del Valle de Molina, both of Argentina, and Charles J.C. Funsani of Zambia, talked with Associate Professor of American History and Civilization James O. Horton, right, during a lecture break recently. The three are part of a group of 17 secondary school educators from Latin America and Africa who are at the University for a six-week institute funded by USIA and directed by GW American Studies Program Director Bernard M. Mergen.

FRIENDS FORUM PRESENTS STEPHEN J. WAYNE, FEB. 4

The Forum of the Friends of the University Libraries is presenting Stephen J. Wayne in a talk, titled "Faculty and Publishing: Ideas into Words," tomorrow, Tuesday, February 4, at 4 pm in Room 202 of the Gelman Library.

Wayne, professor of political science and public affairs, will discuss the process of getting published. Since 1978, he has had several books on the presidency published and has contributed over 14 articles and chapters to scholarly journals and books. A member of the editorial board of Congress and the Presidency, he is an advisory editor in political science to Random House, Inc.

The Friends Forum is open to the entire University community without charge. Refreshments will be served. For more information, call Ext. 6455.

GRANT OPPORTUNITIES WITH DEPARTMENT OF DEFENSE

The Office of Sponsored Research informs us that the Department of Defense has launched a major new funding initiative that will provide $100 million dollars to universities in 1986 to support graduate training, facilities improvement, and instrumentation in specific scientific areas of interest.

The funding program, called the University Research Initiative (URI), will operate somewhat differently within different agencies.

The Army and the Defense Advance Research Project Agency (DARPA) will incorporate support for instrumentation, fellowships and other activities through funding a single, large research program. Both agencies will support establishment of "centers of excellence" at universities.

The Air Force and the Navy will implement URI through both the center approach and through existing fellowship and other programs.

The Army deadline for proposals is Friday, February 28. The deadline for proposals to the Air Force, Navy and DARPA is Tuesday, April 15.

A table showing technology areas and activities planned within each area is available in the Office of Sponsored Research, as are specific program contracts. For more information, call Helen Spencer, Ext. 6255.

MEMORIAL SERVICE FOR FREDERICK H. GIBBS

A memorial service for Professor Emeritus Frederick H. Gibbs, founder and first chairman of the Department of Health Care Administration at the University, will be held in the Marvin Theatre on Tuesday, February 4, at 1 pm. The late Professor Gibbs, who died May 9, 1985, in South Pasadena, Florida, came to George Washington in September 1959. He received emeritus status in June 1972.

POETRY READINGS

The Friday Noon Poetry Series continues February 7 with Richard Harteis and an open reading scheduled. On February 14, Barbara Goldberg and Elisavietta Ritchie will read. February 21, Catherine O'Neill and Hugo Rizzoli will present their works.

There will be a Wednesday Noon Poetry Series in honor of Black History Month. Featured readers will include Reuben Jackson and Bea McWhirter, February 5; E. Ethelbert Miller and Maxine Clair, February 12; and Garth Tate and Nkechi Taifa, February 19. Both Friday and Wednesday readings are from 12 to 1 pm in the atrium of the 2000 Pennsylvania Avenue building.

The Evening Series begins on Thursday, February 13 with Mona Van Duyn reading at 8 pm in Room 405 of the Marvin Center. The author of six volumes of poetry, she has been the recipient of a National Book Award in Poetry, the Bollinger Prize in Poetry, and the Fellowship of the Academy of American Poets. A reception will follow.

All the readings are sponsored by the Department of English and by the GW Program Board. For further information, call Ext. 6180.

CONLON AND WRIGHT IN FACULTY RECITAL

A faculty recital, featuring Francis Conlon, piano, and William Wright, clarinet, will be given on Monday, February 10, at 8 pm in the Marvin Theatre. The two artists will perform works by Hindemith, Rozsa, Villa-Lobos, and Milhaud. They will be joined by Randall Eyles on the marimba for a performance of Yuyama's "Divertimento for Marimba and Alto Saxophone." Tickets, available at the door, will be: general admission, $4; faculty, alumni and staff, $2; and students and senior citizens, $1.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JEFFREY LENN, associate professor of business administration, presented a paper at a Conference on Legal and Values Issues Raised by Commercial and Military Uses of Space Technology, sponsored by Georgetown University on November 15. He focused on "Private and Public Cooperative Ventures in the Commercial Use of Space."

S. DONNA LIND, associate professor of health services administration, and **Yona Mead**, an SGBA doctoral candidate, presented a paper, "Predicting Patient Status Outcomes Using Demographic and Nursing Assessment Data," at the 38th Annual Scientific Meeting of the Gerontological Society of America, November 21-26, in New Orleans. Professor Lind also made a presentation to a panel on "Integrated Systems -- Who Trains Whom?" at a national working conference on long term care, co-sponsored by the American Health Planning Association and the Veterans Administration, December 15-18, in Baltimore, Maryland.

WILLIAM MARGRABE, assistant professor of business administration, spoke to the Economic Research Department, Commodity Futures Trading Commission on November 8. The talk, based on his paper, "Arrow-Debreu Models of Claims Contingent on One Asset Price," focused on the relationship between Arrow-Debreu pricing models and risk-neutral pricing models and the development of a spectrum of models for pricing contingent claims.

During the fall term, 1985, as part of his sabbatical activities, Professor Margrabe visited a number of large firms including: Goldman Sachs, J. Aron and Co., Federal Home Loan Mortgage Corporation and Federal National Mortgage Association, and Solomon Brothers, Inc. A common theme of these visits was, "How can we use quantitative finance theory to develop practical strategies for hedging inventories of commodities and financial instruments, pricing financial instruments, and arbitraging between markets?"

PETER F. THALL, associate professor of statistics, gave a talk on "Mixed Poisson Likelihood Regression Models for Random Interval Count Data" at the University of Maryland Probability and Statistics Meetings, on December 7.

PERSONNEL NOTICE

RESEARCH ASSISTANT, full-time, Department of Obstetrics and Gynecology. (Individual, to work as part of a multicenter clinical study, will be responsible for telephone interviewing, contact with physicians and patients, and computer data base management. Experience in medical terminology, interview techniques, and computer data base input are desirable. Excellent tuition and fringe benefits included.) Contact: Dr. Stillman, Ext. 5060, between 9 am and 5 pm, Monday through Friday.

The George Washington University is an equal opportunity/affirmative action employer.

LADY BIRD JOHNSON TO SPEAK AT WINTER CONVOCATION

Mrs. Lyndon B. Johnson will deliver the address at the Winter Convocation Sunday, February 16, at 1 pm in the Charles E. Smith Center. She will receive the honorary degree of Doctor of Public Service. The honorary degree of Doctor of Science will be conferred on Alvin E. Nashman, vice president of the Computer Sciences Corporation and president of the corporation's Systems Group.

Approximately 850 degrees will be conferred. President Lloyd H. Elliott will confer the honorary degrees and degrees in course and will give the traditional charge to the graduates. The invocation and benediction will be given by Mahmoud Osman of the Islamic Center. Music for the convocation will be provided by the Potomac Brass, Roy J. Guenther, director, with Robert Moore Eldridge, bass.

The University's Distinguished Alumni Achievement Award will go to five individuals. They are: Ralph A. Alpher (B.S. 1943, M.S. 1945, Ph.D. 1948), technical administrator for the Engineering Systems Laboratory with General Electric Corporate Research and Development; Robert A. Altman (J.D. 1971), lawyer; Maryland Congressman Michael D. Barnes (J.D. 1972); National Education Association President Mary Hatwood Futrell (M.A.E. 1968, D.P.S. 1984); and Air Force Colonel/NASA Astronaut Frederick D. Gregory (M.S.A. 1977). Each will be presented for the award by GW General Alumni Association President John R. Manning.

Mrs. Johnson was born Claudia Alta Taylor in Karnack, Texas. From early childhood, she was called "Lady Bird." Educated in Texas schools, she received a Bachelor of Arts in 1933 and a Bachelor of Journalism in 1934 from the University of Texas.

Mrs. Johnson

She was married to Lyndon Baines Johnson in 1934 and came to Washington for a year with her husband who was then secretary to Texas Congressman Richard Kleberg. For the next year and a half Lyndon Johnson was director of the National Youth Administration in Texas. In 1937, he was elected to Congress from the 10th district in Texas.

(continued on back)

PRESIDENT ELLIOTT SIGNS UNIVERSITY SMOKING POLICY

President Lloyd H. Elliott, on February 4, signed a statement adopting a policy on smoking for the University. Designed to limit smoking in all campus buildings, the policy will become effective Monday, March 17.

The policy states, in part, "Recognizing that the inhalation of tobacco smoke is hazardous to health, the University is taking positive steps toward providing a more smoke-free environment for students, faculty and staff. . . . The University will sponsor ongoing programs which are intended to foster an understanding of the policy and to encourage compliance.

"Smoking is prohibited in all University buildings and facilities except in areas which are specifically designated as 'Smoking Permitted.'"

There are four exceptions to this general policy. Investment properties are not covered by the policy. Smoking may be permitted in private offices but smokers must make necessary adjustments to situations in which their smoking may have an adverse effect on persons in adjacent areas or on visiting nonsmokers. In shared offices where there are any nonsmokers, smoking is prohibited unless the nonsmokers specifically agree to permit smoking. In the residence halls, the Office of Housing and Residence Life attempts to assign students to rooms according to smoking preferences. Therefore, smoking is permitted in residence hall rooms but smokers must be aware of and make necessary adjustments for situations in which smoke may have an unfavorable effect on roommates.

All George Washington University faculty, staff, students and visitors are required to comply with this policy. Visitors are to be informed of the policy by University personnel.

President Elliott at signing

Since smoking will be prohibited in all public areas except certain areas where smoking is specifically permitted, signs will be installed as appropriate. These areas will be selected by the Physical Plant Department in coordination with all department heads concerned and with the Office of Safety and Security.

Signs reading "Thank you for not Smoking Here" and "Smoking Permitted Here," for use on desks and tables, are available from University Stores.

The Provost has overall responsibility for implementing the smoking policy. Officers, chairs and managers are responsible for implementation in their units by making copies of the policy

(continued on back)

SYMPOSIUM IN CELEBRATION OF THE HUMANITIES FEB. 12

A symposium celebrating the 20th anniversary year of the National Endowment for the Humanities, "In Celebration of the Humanities," will be held Wednesday, February 12, in the Marvin Center from 1 to 6:30 pm.

Sponsored by the National Humanities Alliance, the symposium will include a keynote address and four panel discussions on humanities issues.

The opening session is scheduled for the Marvin Center Ballroom from 1 to 1:45 pm. Welcoming remarks will be given by Dr. O.B. Hardison Jr., chairman of the National Humanities Alliance, and Dr. Roderick S. French, GW vice president for academic affairs. Dr. John Agresto, acting chairperson for the National Endowment for the Humanities, will deliver the keynote address.

In two concurrent panel sessions from 2 to 3:30 pm, participants will discuss "Science, Technology and the Humanities" (Marvin Center Rooms 410-415) and "Private Virtue and Public Policy" (Marvin Center Rooms 413-414).

The second pair of panel sessions, to be held concurrently from 4 to 5:30 pm, will address the topics "The Leading Edge: Humanities Scholarship in the Next Two Decades" (Marvin Center Rooms 410-415) and "Word and Image" (Marvin Center Rooms 413-414).

A reception will be held from 5:30 to 6:30 pm in Marvin Center Rooms 410-415.

Admission to the symposium is free. The University community and the general public are invited. For more information and reservations, call Marsha Adler, National Humanities Alliance, 625-4039.

LOGSDON GIVES INSIGHTS TO MEDIA ON SPACE PROGRAM

When the space shuttle "Challenger" tragically exploded in flight on January 28, John Logsdon, professor of public affairs and political science and director of the University's Graduate Program in Science, Technology and Public Policy, was contacted by local, national and international news media to provide insight into the history and future of the U.S. missions in space.

Professor Logsdon was called on by more than 50 news organizations, including the Washington Post, New York Times, Los Angeles Times, London Financial Times, Time, Newsweek, U.S. News and World Report, Cable News Network, NBC News, CBS News, ABC News, MacNeil-Lehrer, British Broadcasting Corporation, Canadian Broadcasting Corporation, and others.

Widely recognized in his field, Professor Logsdon has written and lectured extensively on the history of the U.S. space program, space policy, and space exploration.

SYMPOSIUM, READINGS, ART FOR BLACK HISTORY MONTH

"The African-American Experience: International Connection" is the national theme for February's Black History Month observances. The theme will be highlighted at the University with a symposium, poetry readings and an art exhibition.

The University's Fifth Annual Black History Month Symposium is scheduled for Wednesday, February 19, from 3:30 to 5 pm in the Marvin Center Ballroom. Dean Maurice A. East of the School of Public and International Affairs will moderate a panel which will include Dr. Martha K. Cobb, former professor of Romance languages at Howard University, and others in a discussion of the month's theme. Black students at GW with GPAs (grade point averages) of 3.5 and above will be honored. A reception will follow.

A Wednesday Noon Poetry Series in honor of Black History Month is being sponsored by the University's Committee on Historical Observances, the GW Program Board and the Department of English. These readings are made possible with support from Poets & Writers, Inc., through funds which it has received from CBS, Inc. The readings are given in the atrium of the 2000 Pennsylvania Avenue Building from 12 noon to 1 pm. The schedule is: February 12, E. Ethelbert Miller and Maxine Clair; February 19, Garth Tate and Nkechi Taifa; and February 26, Jonetta Rose Barras and Stafford Battle.

"The African-American Experience: International Connection with the Arts," an exhibition of selected works by five Washington-based artists will open in GW's Colonnade Gallery on Sunday, February 16. The exhibition is sponsored by the Governing Board of the Marvin Center, the University's Committee on Historical Observances and the Colonnade Gallery.

The works to be shown include stained glass by Diane Dale, mixed media on paper by Sheila Crider, soft leather sculptured wearables by Clayton Lang, and "Brown Spices" dolls and quilts by Annie Dickerson and Julie Dickerson Thompson. The artists are said to convey understandings of their African, Caribbean and American heritages through their works. The exhibition will continue through February 28. Hours are 10 am to 7 pm daily.

A reception from 5 to 7 pm will be held in the Colonnade Gallery following the 3:30 to 5 pm symposium in the Marvin Center Ballroom.

All of the University's Black History Month events are open without charge. For more information on Black History Month observances, call Ext. 7402.

JOHNSON, NASHMAN TO BE HONORED AT WINTER CONVOCATION

(continued from front)

Then followed 26 years for Mrs. Johnson as the wife of a congressman, senator and then the vice president.

When President Johnson became the 36th president of the United States in November, 1963, Mrs. Johnson entered the White House having been a partner in the political life of her husband longer than any First Lady in history.

Mrs. Johnson is the author of A White House Diary, a record of her activities during the years her husband served as president. She encouraged citizen involvement in beautifying America. Her efforts created great interest throughout the nation in cleaning up highways, vacant lots and slum areas. She has been an active worker on environmental projects for many years.

Mrs. Johnson has received wide recognition for her participation in American life. She was awarded the Medal of Freedom by President Ford in January 1977. Her older daughter, Lynda Bird, now Mrs. Charles Robb, wife of the immediate past governor of Virginia, attended The George Washington University for three semesters in 1964-65.

Alvin E. Nashman received his Bachelor of Science degree in Electrical Engineering in 1948 from City University of New York, City College, and his Master of Science degree in 1951 from New York University. The Systems Group of the Computer Sciences Corporation (CSC) which he heads is a multidivision organization that employs more than 10,000 persons who provide systems-oriented technical services to industry and government. He joined Computer Sciences Corporation in 1965, when it acquired ITT Intelcom and ITT Communications Systems, Inc. The two organizations were subsequently merged into a single division with Nashman as president. He was elected to the CSC board in 1968 and was named a vice president of the corporation the following year.

His professional positions have included those of systems engineer and technical adviser to the Defense Communications Agency and chairman of the board of directors for the Armed Forces Communications and Electronics Association. The latter organization includes 27,000 members worldwide with involvement in command control communications and intelligence in defense of the interests of the free world.

Nashman is widely recognized for his numerous contributions to the fields of electronics, space systems, telecommunications and operations management. His research and development activities have led to some of the most advanced technologies in these areas. He holds several U.S. patents that relate to digital communications and electric automotive suspensions. He was instrumental in the establishment of the Industrial Liaison Program of the Department of Electrical Engineering and Computer Science in the University's School of Engineering and Applied Science.

A member of many professional organizations, Nashman is also actively involved in a number of public service and civic activities. He is the husband of Assistant Professor of Human Kinetics and Leisure Studies Honey Nashman, who is also director of the Office of Laboratory Experiences in the School of Education and Human Development.

COSTA RICAN DANCERS TO PERFORM FEB. 21, 22

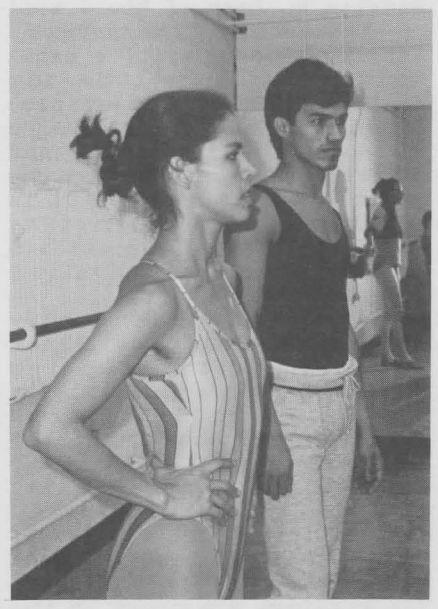
A group of 15 Costa Rican professional dancers and choreographers is participating in a training program at the University during the spring semester. Funded by Partners for International Education and Training, the program is under the sponsorship of the U.S. Agency for International Development Participant Training Program.

The study program is designed and administered by the Dance Degree Programs of the Department of Human Kinetics and Leisure Studies (HKLS) under the direction of Associate Professor of HKLS Nancy D. Johnson. Program participants were chosen through special auditions in Costa Rica. As professionals, the dancers teach, choreograph or perform at universities, in public or private companies, schools or studios.

The program here consists of six weeks of intensive study in the three dance techniques of modern dance, ballet and jazz as well as course work in dance history, improvisation, theory of dance technique, theatre aspects of costuming and stage lighting, and methodology in teaching ballet and modern dance. There are also special seminars on Spanish, African and video dance, tap dance, aesthetics and criticism. Following their study at the University, the dancers will go to New York City for a week of study, dancing and attending dance performances.

The students are working with three Washington, D.C. choreographers, Liz Lerman, Daniel West and Marina Grut, and with GW artist-in-residence New York choreographer Daniel McCusker. They are also working with Associate Professor of HKLS Maida R. Withers, choreographer and director of the Dance Construction Company in creating dances based on improvisational theory.

There will be two performances of these dance works on Friday and Saturday, February 21 and 22, at 8 pm in Building K. The performances are open without charge to the University community.



COSTA RICAN DANCERS Marta Avila, left, and Marvin Varela, wait their turns to try dance improvisations.

GW RECOGNIZED AS TOP PRIVATE D.C. EMPLOYER

The George Washington University appears first in the list of the top five D.C. employers in a two-page presentation of selected statistics for 1984 and 1985 for Washington, D.C., which was part of the program provided on the occasion of Mayor Marion Barry's February 3, State of the District Address, 1986.

The University is shown with 5,916 employees. Following, in descending order, are Howard University with 4,874 employees; Georgetown University with 4,380; Chesapeake and Potomac Telephone Company with 3,976; and Potomac Electric Power Company (PEPCO) with 3,307. The source of the statistics is given as Office of Policy and Program Evaluation, Indices: A Statistical Index to District of Columbia Services, July, 1985.

Official University figures, which include part-time and full-time employees of both the Medical Center and the University, put the GW total at 8,500.

FELLOWSHIP INFORMATION

The Graduate/Fellowship Services will present a fellowship information meeting, "A Discussion of Major National Fellowships and How To Apply," Friday, February 14, from 1 to 3 pm in Room 403 of the Marvin Center. The workshop will focus on major fellowships such as the Fulbright, Rhodes, Marshall, Mellon, Root-Tilden, and the National Science Foundation. The event is co-sponsored by the Gelman Library and GSAS Assistant Dean Avery D. Andrews, GW National Fellowship coordinator. For further information, call Andrea Stewart at Ext. 6455.

SGBA TO HOLD COMPA CONFERENCE

The School of Government and Business Administration is sponsoring the annual Conference of Minority Public Administrators, February 20 and 21 at the Marvin Center. The conference will feature speakers and panels that relate to enhancement of the role and responsibility of the minority public administrator.

Members of the GW community are invited to attend. A registration fee is required. For more information, call Ext. 6300.

MASTERS ACTING CO. PRESENTS "THE OWL AND THE PUSSYCAT"

The GW Masters Acting Company will present "The Owl and the Pussycat," Thursday, February 20 through Saturday, February 22 and Thursday, February 27 through Saturday, March 1 at 8 pm in the Marvin Theatre. There will be a special matinee performance on Sunday, March 2, at 2 pm. Tickets are $6 for the general public and $3 for students and senior citizens. For more information, call Ext. 6178.

BRIEFLY ...

***Health Survey** For health survey participants, the Wellness Resource Center has this reminder -- the deadline for return of your Health Risk Appraisal is Thursday, February 13. Please return your completed survey to the Wellness Resource Center, 817 23rd Street, NW.

***Parking Note** The Kennedy Center will be closed for parking Friday, February 21, from 8 am until 2 pm.

SMOKING POLICY

(continued from front)

available and by other means. The medical staff had earlier adopted policies governing smoking in the University hospital. Those policies are incorporated in the University policy by reference.

Questions about the policy or its implementation may be referred to the Provost, the appropriate vice president, the dean for administrative affairs of the Medical Center, the director of the Office of Personnel Services, the director of the University Office of Safety and Security and the director of safety in the Medical Center.

The University's smoking policy was developed by a committee appointed by President Elliott and in consultation with the Faculty Senate. The committee was composed of Marianne R. Phelps, associate provost, chair; Ethel Bothuel, director of the Office of Equal Employment Activities; James E. Clifford, director of Personnel Services; John A. Frey, professor of Romance languages; Sherrie McGee, assistant director, Housing and Residence Life; David Scott Smith, director, Department of Safety-Medical Center; and Andrew Tenenbaum, an SGBA senior when he served on the committee.

PERSONNEL NOTICES

ADMINSTRATOR, full-time, Department of Health Care Sciences. (Ambulatory clinic or HMO experience required. Prior experience as a health care provider desired. M.B.A, M.H.A, or equivalent experience. Competitive salary and fringe benefits.) Send resume to P. Coulbourne, GWU, 1229 25th Street, NW, Washington, DC 20037.

The following two positions are with the Laboratory of Virus and Cancer Research, Department of Medicine. Send resumes (no phone calls please) to Dr. Ariel Hollinshead, GWUMC, 2300 I Street, NW, Washington, DC 20037.

IMMUNOCHEMIST (Individual will work in laboratory studying immune modulation and actively participating in development of immunotherapeutics and immune monitoring. Some experience and background in cancer research. Experience in working with tumor antigens, hybridoma and monoclonal antibodies production, with knowledge of latest techniques in antidiotype and epitope studies, lymphokines, immune monitoring and conversion of chemical measurements to color tests. Required: Ph.D. or M.D. Salary commensurate with experience.)

RESEARCH ASSISTANT (Person with knowledge of routine laboratory procedures and record-keeping, biochemical separation techniques to include chromatography, spectrophotometry, electrophoresis, with capability to learn isotachophoresis, enzyme immunoassay, cell sorting and immunofluorescence techniques. Required: B.S. or B.A. and previous laboratory research. Fringe benefits and educational opportunities. Salary commensurate with experience.)

"GEORGE CALLING" SCHEDULED FOR MARCH AND APRIL

"George" will be quite busy making phone calls to GW alumni during the months of March and April.

The annual George Calling Phonathon is scheduled for the weeks of March 3 through March 27, with students calling March 31 through April 4.

Every year approximately 600 alumni and members of the University community volunteer for several hours of phoning in the evening to call GW alumni and ask for support for the Annual Fund. The effort has always proven successful and the established goal this year is an unprecedented $400,000.

"Last year we were somewhat daring. We took the risk of consolidating our regional phonathons into one. We made all the calls to our alumni from the Washington, DC, area instead of traveling to New York, Boston, Miami, Richmond and Chicago. Our risk-taking paid off because last year's event broke all records and became singularly a most memorable phonathon," says Serap s. Akisoglu, director of alumni support.

The phonathon calling location will be Room 410-415 Marvin Center. Calling hours are from 6 to 9:30 pm. A light supper will be served for volunteers beginning at 5:30 pm and guidelines for telephoning and record-keeping will be provided before the calling begins.

Students will be concentrating their efforts on raising funds for student financial aid. Last year, during the 1984-85 campaign, they raised more than $40,000 in pledges. This year, the Student Association hopes to stretch the figure to $50,000. For additional information and to volunteer, call Director of Alumni Support Serap S. Akisoglu at Ext. 6414.

WORKS OF FINE ARTS FACULTY MEMBERS IN DIMOCK GALLERY

Works by the University's full-time fine arts faculty members will be on exhibition in the Dimock Gallery from Thursday, February 27, through Wednesday, March 26. This year's exhibition will offer a retrospective view of each artist's work, featuring pieces done as early as 1956.

There will be 11 artists represented in the exhibition, which will include painting, sculpture, photography, prints, drawings, and ceramics. Some of the works will be for sale.

The full-time GW fine arts faculty members are: Constance Costigan, H.I. Gates, Fuller Griffith, Jerry Lake, Samuel Molina, Turker Ozdogan, Arthur Hall Smith, Jeffrey Stephanic, Douglas H Teller, William Woodward and Frank Wright.

Gallery hours are 10 am to 5 pm weekdays.

MRS. JOHNSON EMPHASIZES IMPORTANCE OF EDUCATION

WINTER CONVOCATION -- L to R, President Lloyd H. Elliott, Lady Bird Johnson, and Alvin E. Nashman, before the February 16 Winter Convocation when Mrs.Johnson received the honorary Doctor of Public Service and Dr. Nashman received the degree of Doctor of Science, honoris causa.

"I always feel a lift when I set foot in academic territory," Lady Bird Johnson told her listeners at the February 16 Winter Convocation in the Charles E. Smith Center.

Saying she hoped the graduates would look on the day as "the beginning of a joyous passage," she noted, "We pass each other in mid-stream. I look back over seven decades of change so monumental as to challenge credulity.

"Change has been altering our nation, re-shaping it, re-defining it, since its very beginning," said Mrs. Johnson. "Yet," she added, "there has been a rhythm in our national life which has defied change and provided consistency." She said we can look back through 350 years and see our national "singleness of purpose."

Mrs. Johnson commented, "I look now at tormented South Africa and I thank God for the spirit of concern and the national conscience which moved us to pass the civil rights legislation of the 1960s. . . . The moments of glory in our history have been those times when with our compassion we have illuminated mankind's immortality. The civil rights laws were just part of an avalanche of efforts in the 1960s designed to improve life, and its quality, for more and more of our people. One of them was the environment, which was my particular interest. All this brought turmoil and demonstrations, for changing the mores of the country was a wrenching experience. But it was also a time of unbounded hope.

"The passing years have brought a different climate," Mrs. Johnson observed, "and we must look with a new hard scrutiny at the ways in which ... limited treasure will be spent. . . We have always had a healthy respect for education in this country. But by and large the benefits of a college education had been spread only among the sons and daughters of the privileged. Then in that hopeful time two decades ago, we decided that as much education as a person could absorb was a right to which all Americans are entitled. Now the question confronts us: Can we afford to fulfill the educational promises that we made?

"It is a legitimate question and an urgent one. But just behind it is another one, even more compelling: Can we afford not to? What will happen to us as a nation if we withdraw that promise?

"Everywhere in this land there are young men and women lifting their eyes above the drudgery that was their destiny because the promise of education expanded their horizons. We know that they are there and they are legion. . . . Can we really now afford to close the gates through which they have come, and deny that passage to those who would follow them? I think the answer is as clear as the promise itself was: to do so would be to put our future in peril. Every problem that confronts us will be solved only by educated minds, and

GW TO HOST DISCUSSION ON U.S. - JAPAN TRADE

A panel discussion on the topic "U.S. - Japan Trade Relations: Problems and Prospects for the Future" is being sponsored by the School of Public and International Affairs and the Institute for Sino-Soviet Studies on Thursday, February 27, from 5:30 to 7:30 pm, in the Marvin Center Ballroom.

Panelists will include His Excellency Nabuo Matsunaga, Japanese Ambassador to the United States; Joseph A. Massey, Assistant U.S. Trade Representative for Japan and China; Peter Sato, Minister, Embassy of Japan; and Ellen Frost, Director of Government Relations, Westinghouse Corporation.

The panel discussion is open to the public. Admission is free.

JOHN AGRESTO DESCRIBES ROLE OF THE HUMANITIES

The first duty of the humanities is "to preserve, protect and transmit the culture of civilization," according to Dr. John Agresto, acting chairman of the National Endowment for the Humanities (NEH).

Dr. Agresto was the keynote speaker at the February 12 symposium, "In Celebration of the Humanities," sponsored by the National Humanities Alliance February 12 in the Marvin Center. Noting that the first charge against NEH in the last few years has been that "we've pushed the Endowment, and the humanities, in a 'conservative direction,' " Agresto commented, "I don't think we can or should avoid the fact that the study of the humanities, done well, is first and foremost, a conservative act. ... Humanists are not simply the explorers of the endless frontier of scholarship but the bearers of culture. There is simply no way to conserve and posses the legacy of civilization that belongs to every generation except through the humanities. Civilization is always only one generation deep, and if the heritage of the past is not retained and transmitted, it is lost, and the work of thousands of minds is shot," he continued.

"The study of the humanities is also a liberal, liberating endeavor as well," he declared, quoting a friend, Ed Delattre, who said, "In their fullness and strength, the humanities are the means by which true education can enable the young to possess their minds for themselves."

NEH Acting Chairman John Agresto, right, is shown with Noel Augustyn, of the Association of American Law Schools, following the recent Humanities Symposium opening session.

Dr. Agresto went on, "If the only things we offer our students are those works that comport with our current prejudices -- if we're afraid of Homer because he might be warlike, or dismiss Aristotle because he might be reactionary or prescriptive, or discard the Bible because we think it sexist -- then we hardly can say we've liberated our students to think for themselves. . . . Given the character of contemporary culture, the restoration of the legacy of civilization into today's culture liberally increases the pluralism of ideas and perspectives. . . . The restoration of

(continued on page 2)

JOHNSON SPEAKS, ELLIOTT HONORED AT WINTER CONVOCATION

(continued from front)

who is to decide from which minds the answers will come?

"I do not believe this is -- or should be -- a contest between education and national defense. Perhaps the time has come when we must re-define the requirements of national defense and recognize that it includes not only hardware but other ingredients as well, just as critical -- education being chief among them."

The former First Lady referred to the thrill her generation felt when President Franklin Delano Roosevelt challenged them to save the nation from the ravages of depression.

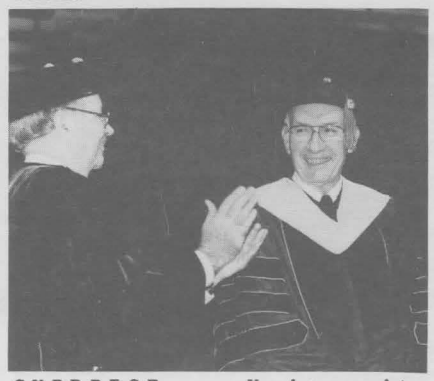
"Your challenge is not so easily defined," she told the graduates, "but it is every bit as formidable: to preserve from the past what must be saved if we are to keep faith with our heritage; to discard what can no longer be justified; to develop new forms adapted to the problems and circumstances of contemporary America; and to so all this with prudence and a proper regard for the limitation imposed upon us by our dwindling resources.

"You inherit a stunning record of technological progress that should help you. ... But as you leave this university, be always aware that you are part of another experience with a history much longer: the sense of community which your knowledge of the arts and humanities can only have sharpened."

Mrs. Johnson, who received the honorary degree of Doctor of Public Service at the convocation, was interrupted by applause several times during the course of her address.

The honorary degree of Doctor of Science, honoris causa, was conferred in Alvin E. Nashman, vice president of the Computer Sciences Corporation and president of the corportion's Systems Group.

President Lloyd H. Elliott was asked to step forward at the beginning of the convocation by University Marshal Robert G. Jones to hear words of appreciation for his more than 20 years of service as president from Board Chairman Everett H. Bellows. Chairman Bellows said, in part, "I'd like to ask you to join with me in celebration of Lloyd Hartman Elliott's 20 years and more of distinguished and inspired service to this university and this community. I'm told when he first came in 1965, he said, 'It's a good university but it has the potential to be great.' And to work towards that, admittedly with the help of all of you, he has strengthened and enlarged the faculty; we have recruited the ablest and best students at home and abroad; so that today The George Washington University stands forth as a leader and a role model in higher education."



SURPRISE -- University Marshal Robert G. Jones, left, applauded President Elliott following Chairman Bellows' remarks on the president's distinguished service to the University.

Chairman Bellows mentioned a number of the newer University buildings and centers and stated that our endowment has increased ten-fold. He continued, "I want to say to you that we are terribly grateful to Dr. Elliott for splendid service and I ask you to join me in saluting him and also Mrs. Elliott who really made it all possible."

In his charge to the graduates, President Elliott referred to Mrs.Johnson's bringing beauty into the lives of Americans through her program of beautifying the Nation's Capital and reaching into our states and cities, and expressed the hope for each graduate "that your world will be wrapped increasingly with the beautiful and that you, through your actions, will add a measure of beauty to the lives of others."

HUMANITIES SYMPOSIUM

(continued from front)

humanities learning, when done right, is more than a conservative or liberal act -- it is also the most radical act possible. . . All education is transformative -- it means to make us something other than what we were before. And the study of literature, philosophy, language and history -- the study of the humanities -- is the most fundamentally transformative study possible.

"So the political agenda for the next 20 years is to make sure the liberals don't forget how liberating the restoration of basic humanities learning can be and to keep the conservatives from noticing how radical antiquity is," Dr. Agresto concluded.

In response to a question about the possible effects on NEH of the Gramm-Rudman law, he said, "There should be no concern for this year at all. What most people are worried about is the degree to which the personnel of the agencies will be affected. I do not forsee any kind of furloughings or lay-offs. If we get some 20 to 30 percent cuts, we might have to talk about hiring freezes."

CONSTRUCTION WORK ON CAMPUS

During this week, C&P Telephone Co. will begin excavation work on I Street for laying conduit and cable for the University's new telecommunications system.

Initial construction will begin near 21st and I and move along I Street toward 24th Street. The streets will remain accessible to traffic during the excavation activity, and it is anticipated that most construction activity affecting the heavily traveled north-south streets will take place during non-rush hours.

From March through September, other streets on campus also will temporarily be affected by construction. Exact construction schedules beyond the first phase, (along I Street) are not firm as yet.

Every effort will be made to minimize any inconvenience the construction might cause.

GELMAN LIBRARY USER SURVEY IN PROGRESS

The current Gelman Library user survey, which began on February 17, will run through Sunday, March 2.

By collecting data about the use of service desks and collections at various times of the day and week, members of the Gelman library staff can better analyze the service needs of the University community, according to Patricia M. Kelley, assistant university librarian for programs and services.

Kelley says the library needs the help of all GW students, staff and faculty in order to collect accurate data. During this period, it is essential that GW students and employees carry their photo identification cards or off-campus registration cards so that their use of the library can be clearly distinguished from use by outsiders.

For more information, contact Patricia M. Kelley, Gelman Library, Room 101, Ext. 6544.

WORK-STUDY FUNDS FOR SUMMER

College Work-Study (CWS) funding will be available to University departments and offices for the coming summer. College Work-Study is a federal financial aid program designed to provide employment for students with financial need. During the summer, students may work up to 40 hours a week and do not need to be taking summer courses in order to qualify. The individual University department is responsible only for 20 percent of the student's salary while the federal government, through the University's Office of Student Financial Aid, pays 80 percent.

The summer 1986 CWS program runs from May 4 through August 22. Interested departments should contact John W. Dysart at the Office of Student Financial Aid. For more information, call Ext. 6620.

SOCIAL SECURITY TAX RATE INCREASES IN 1986

The Social Security tax rate for employees in 1986 is 7.15 percent, compared to the 7.05 percent rate effective in 1985. In addition, Social Security taxes will be paid on a higher wage base of $42,000 in 1986, compared to $39,000 in 1985.

To make sure contributions to Social Security have been accurately and properly credited, everyone can verify his/her account with the Social Security Administration by filing form SSA-7004 to request a statement of credited earnings.

The Records and Benefits Office, Building GG, has a supply of Social Security benefit pamphlets and the SSA-7004 forms to request Social Security earnings records. Call the office at Ext. 4480 or the Social Security Administration for more information.

AWARDS FOR EXCELLENCE IN STUDENT LIFE ESTABLISHED

The Division of Student Affairs announces a new University award program to recognize outstanding student contributions to University life. The Excellence in Student Life Awards will be presented in a program to be held on Friday, April 18th at 3:30 pm in the GW University Club.

Awards will be given annually in three areas: chartered campus organizations; registered student organizations; and individual awards.

Awards to chartered campus organizations will recognize the organization leaders, the most valuable members and the outstanding programs or journalistic features in each of six University-wide groups chartered by the Board of Trustees. They are the Cherry Tree, the Hatchet, the Student Association, Marvin Center Governing Board, Program Board and Residence Hall Association. Each organization in this category will be responsible for developing its own nominating procedure for the most valuable member and outstanding program awards.

Awards to registered student organizations will recognize selected program or service activities of registered student groups within 12 interest areas. These areas are: academic and departmental; Greek organizations; honorary; international and cultural; performing arts, political interest; professional;

(continued on page 3)

"ATTITUDES" PROGRAM FOR PHYSICALLY DISABLED

A 10-week program on attitudes for people with physical disabilities is being offered at the University's Rehabilitation Research and Training Center.

Conducted by a team of researchers headed by Pamela Finnerty-Fried, assistant professor of education and assistant research professor of psychiatry and behavioral sciences, and funded under a federal grant, the program is said to complement and extend existing research on attitudes, behavior and work adjustment.

Stress management and interpersonal skill development programs are offered. The two training programs, which focus on everyday living situations, have been developed through a year-long process of literature review, pilot training and research. Disabled people have been involved in the program development process and are being included in the implementation of the programs.

Interested individuals should contact Tracy Ginter, Exts. 4824, 4828 or 2624.

WILLIAM B. GRIFFITH IS FIRST WEDNESDAY SPEAKER

William B. Griffith, professor of philosophy and chairman of the department, will discuss the question, "Is 'Business Ethics' a Contradiction in Terms?" at 8 pm on Wednesday, March 5, in Room 410-415 of the Marvin Center. The talk, sponsored by the Alumni Relations Office, is March's First Wednesday Lecture. Admission is free but call Ext. 6435 to reserve seating. Dinner before will be served beginning at 6:30 pm in the GW University Club for both members and non-members. Call Ext. 6610 for dinner reservations.

GW COMMUNITY ORCHESTRA CONCERT IS SUNDAY, MARCH 2

The George Washington University Community Orchestra, under the direction of William Wright, will present a concert on Sunday, March 2, at 8 pm in the Marvin Theatre. Admission is free.

The program will consist of two works: Vassili Kalinnikov's Symphony No. 1 and Ludwig van Beethoven's "Coriolan" Overture.

AWARDS FOR EXCELLENCE

(continued from page 2)

publications and communications; religious and meditative; service; special interest; and sports, hobbies and recreation. Organizations in this category will be responsible for submitting nomination forms for committee review.

Individual awards will be given to no more than six persons whose contributions to student life are perceived to have transcended the activities of any one or more groups with which they have been affiliated. Individuals may be nominated within one of three categories: citizenship, leadership or service. The individual awards will be given in memory of David A. Baer (A.B. 1910, LL.B. 1912). Baer was broadly active in campus co-curricular life and was the founder and first president of the Pyramid Honor Society which recognized outstanding participation in student activities. The Baer Award recipients will be selected by an awards committee from nominations submitted by students, faculty and staff. An awards selection committee will be appointed by Vice President for Student Affairs William P. Smith in March.

The Awards for Excellence in Student Life have been established by the Division of Student Affairs based on the recommendations of a Student Leadership Recognition Task force which met during November and December, 1985, under the chairmanship of John Perkins, then assistant vice president for campus life. Task force members were Daniel Buzby, Claudia Derricotte, Bob Guarasci, Gail Hanson, John Harper, Buddy Lesavoy, and Julie Levi.

Nomination forms are available in the Student Activities Office, Marvin Center, Room 427. The deadline for nominations is Friday, March 21, at 5 pm. For further information, call the Student Activities Office, Ext. 6555.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Cancer Immunology Laboratory, Division of Hematology/Oncology, Department of Medicine. (Position involves performance of histochemical staining on cytospin preparations of blood cells, lymphocyte cultures, fluorescent staining, various assays of lymphocyte functions, and analyses of human lymphocyte subpopulations. Bachelors's degree in biological sciences or medical technology is desirable.) Contact: Dr. Richard Schulof, Ext. 3693.

RESEARCH ASSISTANT, half-time, Newborn Service, Department of Child Health Development. (Individual to work under grant entitled "Chlamydia Trachomatis in Premature Infants and Their Mothers; Relationship to Morbidity and Mortality." Required: degree and training in the field of microbiology, immunology.) Contact: Dr. Ayman El-Mohandes, Ext. 3255.

RESEARCH ASSISTANT, full-time, Science Communication Studies, Division of Continuing Education. (Position involves conducting literature searches and library research, abstracting scientific articles, writing and editing scientific reports in the biological, medical, and aerospace sciences. Required: Bachelor's degree in biology or related field and knowledge of the library.) Send resume to F. Ronald Dutcher, 515 22nd Street, Suite 402, Washington, D.C. 20037.

(continued next column)

RESEARCH ASSOCIATE, Infectious Diseases Research, Department of Medicine. (Duties include running the infectious diseases research laboratory, performing various immunological assays, and in vitro cellular assays, working with experimental animals, maintaining inventory of laboratory supplies, and collation of experimental data. (Required: Master's degree and five years of research experience.) Contact Dr. Carmelita Tuazon, Ext. 4179.

RESEARCH SCIENTIST, Department of Medicine, Gastroenterology Research Laboratory. (Individual to study role of bile acids in regulation of cholsterol metabolism. Required: doctoral degree and 2 to 5 years relevant research and/or teaching experience. Experience in steroid and lipoprotein chemistry is desirable.) Send curriculum vitae and arrange for three letters of reference to be forwarded to: Dr. Hans Fromm, Director, Division of Gastroenterology, GWU, 2150 Pennsylvania Avenue, NW, Suite 606, Washington, D.C. 20037.

The George Washington University is an equal opportunity/affirmative action employer.

SAFETY AND SECURITY HONORS OFFICERS

1985 SECURITY OFFICERS OF THE QUARTER -- l to r, Director of Safety and Security Curtis W. Goode, Officers James Johnson, Darrell L. Johnson, Keith B. Cassells, Joan P. Wood, and Vice President Lange.

In a ceremony Wednesday morning, February 12, the Office of Safety and Security honored five GW security officers.

Officer James Isom Jr. was named Security Officer of the Year for 1985 and four Officer of the Quarter awards were made.

In a letter to Officer Isom, read at the event, Director of Safety and Security Curtis W. Goode noted that the selection committee had specifically remarked that Isom is "one of the most observant and conscientious officers in the department." This is the second time Officer Isom has received this honor. He was also Officer of the Year for 1982.

1985 OFFICER OF THE YEAR James Isom Jr., left, is congratulated by Vice President for Administration and Research Carl J. Lange, as Captain Rocco Grande, left, and Director Goode look on.

Those selected as Security Officers of the Quarter for 1985 were: Officer Keith B. Cassells, January through March; Officer Joan P. Wood, April through June; Officer James Johnson, July through September; and Officer Darrell L. Johnson, October through December. All four were commended for their attention to duty, initiative, thoroughness in job performance, bearing and acceptance of responsibility.

Vice President for Administration and Research Carl J. Lange congratulated each of the officers on their fine work.

NEWSNOTES

PROFESSIONAL ACTIVITIES

NIK ALEXANDRIDIS, distinguished visiting professor of engineering and applied science, presented a paper, co-authored with engineering master's candidate **S. Ziavras**, entitled, "Adaptable Supercomputers in Image Processing," at the Second SIAM Conference on Parallel Processing for Scientific Computing, November 18-21, in Norfolk, Virginia. At the First International Conference on Supercomputing Systems, December 16-20, he presented a paper, "Architectural Adaptation in Image Processing Supersystems," chaired a session titled, "Adaptable Architectures: Description of Projects," and was a member of the International Advisory and International Award committees.

ALEX ANCKONIE III, associate professor of business administration, participated in the deliberations of the Conference on International Aspects of Fiscal Policies, December 13-14, in Cambridge, Massachusetts, sponsored by the National Bureau of Economic Research. He also attended the annual meetings of the American Finance and Economics Associations, December 28-30, in New York.

JAMES R. BARTH, professor of economics, served on a panel, December 3, on "Deposit Insurance in an Era of Change," as part of the American Institute's Public Policy Week. The session was subsequently televised on cable television. On December 10, he participated in the Congressional Budget Office's Panel of Economic Advisors to discuss the economic outlook through 1987. On December 12, he participated in a panel on "Boom and/or Bust for U.S. Thrifts," sponsored by the National Conference of State Legislatures.

MICHAEL D. BRADLEY, assistant professor of economics presented a paper, "Evidence on the Real Interest Rate: Effects of Money, Debt, and Government Spending," at the Southern Economic Association annual meeting, November 25-27, in Dallas, Texas. He also traveled to Texas A&M University to discuss future joint research projects with members of the faculty of the Department of Economics.

ALI BULENT CAMBEL, professor of engineering and applied science, gave two presentations at the Advanced Energy Systems Symposium held during the Winter Annual Meeting of the American Society of Mechanical Engineers, November 21, in Miami Beach, Florida: "Generalized Thermodynamic Approach to Multi-Sectorial Allocation of Scarce Energy Resources Through the Disjointed Incrementalism Algorithm" with Adeboyejo A. Oni, and "Nonlinear Stochastic Model for the Analysis of Energy Investment in the U.S. Manufacturing Sector" with Marino S. Pena-Taveras. On December 10, at the 7th Miami International Conference on Alternative Energy Sources, he delivered the banquet address, entitled, "Scientific Promises -- Economic Barriers: The Arrogance of Certainty," to some 400 researchers from 50 nations.

JONATHAN CHAVES, associate professor of Chinese, delivered a lecture, "The Integral Poem-Painting in China," at Asia House, New York, on January 25.

STEVEN R. EASTBAUGH, associate professor of health services administration, has been named author of the best health care article of 1985 by the American College of Healthcare Executives. The title of the article was, "Improving Hospital Productivity Under Prospective Payment." On December 6, he was the recipient of the second annual "Three-legged Stool Award," as Professor of the Year in health services by a vote of the health services administration masters and doctoral students.

JAMES D. FOLEY, professor of engineering and applied science, has been elected a Fellow by the board of directors of the Institute of Electrical and Electronics Engineers (IEEE). The honor is reserved for a limited number of individuals each year who have shown evidence of outstanding and extraordinary qualification and achievement in the fields of electrical, electronics, or computer engineering. Professor Foley has achieved this distinction "for contributions to computer graphics."

(continued on back)

AMITAI ETZIONI, university professor, won The Society for the Advancement of Behavioral Economics' first annual competition for papers in the area of behavioral economics with, "Entrepreneurship, Adaptation and Legitimation," and was invited to present the paper at the 1985 meeting of the American Economic Association.

FARIBORZ GHADAR, professor of business administration, was the coordinator of a research project that assessed the role of development finance institutions in OECD nations. The report is entitled, "A Comparative Study of the official programs of selected OECD countries that provide financing to private investors for projects in developing countries." He was the keynote speaker at the Textile Roundtable in Washington, D.C., speaking on competition in the U.S. textile industry.

VICTOR GOLLA, associate professor of anthropology, was appointed program chair for the American Anthropological Association's 1986 and 1987 annual meetings by the association's board of directors.

WARREN GREENBERG, associate professor of health services administration, gave a paper, "An Economic Analysis of the Maricopa Anti-trust Decision," at an American Public Health Association meeting, November 25, in Washington, DC, on the 10th anniversary of anti-trust in the health care sector. On December 24, he gave a seminar, "The Importance of Location in Choice of Hospital," at Ben-Gurion University in Beersheba, Israel.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, and **Jin Hai Lin**, a doctoral candidate in business administration, participated in a one-day conference on International Executive Education in the People's Republic of China at the General Electric Institute, December 2, in Crotonville, New York. On December 6, Professor Grub spoke on, "The Challenges of 1986 and Beyond," at the High Twelve International Convention in Daytona Beach, Florida. On December 11, he was the keynote speaker for the Port of Miami World Trade Conference on "Doing Business in the People's Republic of China." His topic was "The China Market: An Insight into the Potential Opportunities, Procedures, and Bureaucratic Problems of Trading with and Investing in the People's Republic of China." Included in the three-day conference were **Jin Hai Lin**, who spoke on "Investment and Trade Financing in the People's Republic of China," and **Huaixin Zhu**, an MBA candidate, who spoke on "Marketing Strategies in the People's Republic of China."

ROY GUENTHER, associate professor of music, delivered a paper entitled, "The Urban Music Unit as Arts Presenter: Turning Competition to Advantage," at the annual meeting of the National Association of Schools of Music, November 25, in Houston, Texas.

MARVIN S. KATZMAN, assistant professor of business administration, presented a series of lectures, December 7 through December 21, to students and faculty members of Helwan University in Cairo and the University of Alexandria, Egypt, as well as to top level members of the business communities in both cities, under the sponsorship of the U.S. Fulbright Commission. The topic was the use of Quality Circles as a means of improving productivity in Egypt.

BLACK HISTORY MONTH -- E. Ethelbert Miller, left, and Maxine Clair are shown in the atrium of 2000 Pennsylvania Avenue after their Wednesday Noon Poetry Reading February 12, part of the University's observance of February as Black History Month. The last reading is Wednesday, February 26.

MARK E. KEANE, distinguished visiting professor of public administration and association management, was recently elected chairman of the board of the National Academy of Public Administration. The academy is a private non-partisan, non-profit corporation, chartered by Congress to advise on the process of government at all levels of the American systems.

EUGENE W. KELLY, professor of education, was recently named President-Elect of the District of Columbia Association of Colleges for Teacher Education. The association includes the seven D.C. universities and colleges which offer academic work in teacher education. He will serve through 1987. On January 15, he made an in-service presentation titled, "Pedagogy: Overview of Theory and Practice," to 50 of the upper division teachers of the Washington International School.

PETER F. KLAREN, professor of history, served on the selection panel for the U.S. Department of Education, Fulbright-Hays Dissertation and Faculty Fellowships for Latin America, 1986-87 in Washington, DC, the week of December 9.

G.P. LAUTER, professor of business administration, was one of the principal speakers at a countertrade seminar organized by the Institute for Administration for government and business officials, November 27-28, in Lima, Peru.

DONALD R. LEHMAN, professor of physics, presented a talk, "Past, Present, Future--Electromagnetic Breakup of the A=3,4, and 6 Nuclei of Intermediate Energies," at the 1985 annual meeting of the Southeastern Section of the American Physical Society, held at the University of Georgia, Athens.

HAROLD LIEBOWITZ, professor of engineering and applied science, has been elected an Honorary Fellow of the Japanese Society for Strength and Fracture of Materials. The society was founded in 1966 for the purpose of recognizing and promoting scholarly work by individuals in the field for which it is named.

RICHARD LONGSTRETH, associate professor of architectural history, has been appointed to the consulting editorial board of the Encyclopedia of Architecture, to be published by Harper and Row. On February 7, he spoke at the Fifth Buell Seminar on American Architectural Scholarship at Columbia University.

BERNARD MERGEN, professor of American civilization, directed an American Studies Institute for African and Latin American secondary school educators, January 2 through February 14, under a grant from the U.S. Information Agency. Seventeen educators from nine countries participated. Professor Mergen has been appointed guest curator of "Red, White, and Blue: Childhood and Citizenship in the American Republic," an exhibit at the Please Touch Museum for Children in Philadelphia, scheduled to open in the spring of 1987 to commemorate the Bicentennial of the United States Constitution.

LENORE MILLER, curator of art, the Dimock Gallery, has a one-person exhibition, "Souvenirs: Mixed Media Collages," at the Gatehouse Gallery, Mount Vernon College, through February 28. The collages represent the exploration of several themes within the "Souvenir" series. Developed over three years, the collages, primarily of paper and mounted on a mat board, are composed of original photographs, sketches, prints, and memorabilia, such as stamps, post cards, and maps. The collaged materials are embellished with drawn and painted elements.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, delivered a presentation entitled, "Patient Autonomy and Psychiatric Ethics," December 6, to the Hutchings Psychiatric Institute in Syracuse, New York.

NADINE NATOV, professor of Russian literature, chaired the session of the North American Dostoevsky Society (NADS) at the annual meeting of the American Association of Teachers of Slavic and East European Languages, in Chicago, in December. In her capacity as president of NADS, she presented a report on the activities of the society, and as executive secretary of the International Dostoevsky Society and member of the organizing committee of the Sixth International Dostoevsky Symposium, she presented an informational paper on the preparation and proceedings of the Symposium to be held in August, 1986, in Nottingham, Great Britain. Professor Natov participated in discussions on Gogol and Turgenev and on symbolist poetry.

CARL STEINER, professor of German read a paper entitled, "Abenteuer des Herzens. Ernst Jungers Weg," before a meeting of the American Goethe Society, January 17, at the Embassy of the Federal Republic of Germany.

NEIL TILKENS, associate professor of music, served as adjudicator of two performing contests held in conjunction with the 19th annual Convention of the West Virginia Music Teachers Association, October 26-28, in Buckhannon, West Virginia. As convention artist, he presented a solo piano recital and also delivered two lectures, "Brahms the Eclectic," and "The Pianist's Arm in Motion." On January 4, he performed Hindemith's Sonata for Piano and Trumpet with Mark Henrikson, trumpet, at a meeting of the Friday Morning Music Club. On January 9, he presented a program of vocal and harpsichord solo music with soprano Rosa Lamoreaux from the decade 1790-1800 in connection with the "After the Revolution" exhibit at the Smithsonian Museum of American History.

ALAN W. URBANAS, adjunct assistant professor of philosophy, presented a paper, "On 'essentially' (hoper) in Aristotle," at the American Philological Association convention, December 29, in Washington, DC.

JOHN M. VLACH, associate professor of American civilization and of anthropolgy, and director of the Folklife Program at the University, recently joined Future Homemakers of America's Folk Art Committee. The committee invites state associations to submit art pieces specific to their state's ethnic heritage and geographic area. As a committee member, he will participate in the selection process of pieces to be added to the Future Homemakers Folk Art Collection in Reston, Virginia.

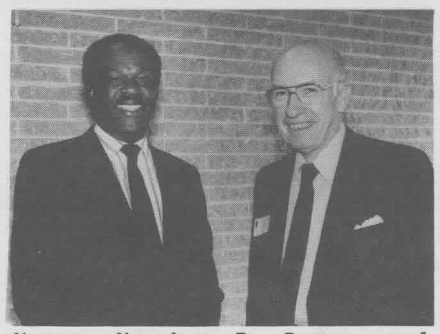
MAYOR BARRY, GW OFFICIALS DISCUSS "MUTUAL CONCERNS"

D.C. Mayor Marion P. Barry and most of the top leaders of District government were guests at a luncheon meeting hosted at GW on February 26 by University President Lloyd H. Elliott to discuss, as Elliott put it, "a wide range of mutual concerns and interests."

Twenty-two top officials of the District government--including most agency heads and the fire and police chiefs--heard remarks about the role of the University in the community from Professor L. Thompson Bowles, Dean of the Medical Center for Academic Affairs; Associate Professor Dennis Holmes from the School of Education and Human Develpment; Associate Professor Howard Gillette, Director of the Center for Washington Area Studies; and Professor of Law Eric Sirulnik, Director of the GW Clinical Law Programs.

In return, brief presentations were made by Deputy Mayor for Economic Development, Curtis McClinton; Deputy Mayor for Operations, Tom Downs; and Deputy Mayor for Finance, Alphonse Hill. Hill urged cooperation between the University and the District in many ways and said, "This city can be a living laboratory for your graduate and undergraduate students."

"This University is an anchor for our city," said Mayor Barry, stressing the "mutual needs and mutual commitments" that exist between the District and GW.



Mayor Marion P. Barry and President Lloyd H. Elliott

"We're proud that the District of Columbia is the nation's number one educational city and that GW is one of the best universities in the nation," Barry added.

The meeting was arranged by Associate Provost Marianne Phelps working closely with Dr. Rolin Sidwell, coordinator of the Mayor's Education Office.

PROFESSOR BROOKS PART OF TEAM DISCOVERING ANCIENT TOOLS

A collection of some 300 stone tools, among the oldest artifacts manufactured by human ancestors ever found, has been discovered in eastern Zaire by GW Associate Professor of Anthropology Alison Brooks and two other leaders of an international team of scientists.

The simple tools, made of quartz and found in association with a number of animal bones and teeth, are at least 2 million years old and may be as old as 2.5 million years, according to the three-member scientific team.

Announcement of the discovery in Africa was made at a February 26 news conference at the headquarters of the National Geographic Society, one of several organizations, that along with The George Washington University, helped support the Semliki Research Expedition, which made the find.

Participating in the news conference were the three scientists who led the expedition: Noel T. Boaz, a paleoanthropologist who is director of the Virginia Museum of Natural History; John W. K. Harris, professor of anthropology at the University of Wisconsin-Milwaukee; and Professor Brooks, who is also a research associate at the Smithsonian Institution.

Associate Professor Alison Brooks at National Geographic headquarters.

A Belgian geologist, Jean de Heinzelin, had discovered a few early stone tools along the Semliki River in the

HISTORY OF FIRST FEDERAL CONGRESS PUBLISHED

The publication of Volumes IV, V and VI of A Documentary History of the First Federal Congress, 1789-1791, was the occasion for a reception at the Russell Senate Office Building on February 20.

The event was highlighted by remarks by the director of the Johns Hopkins University Press, Jack Goellner; President Lloyd H. Elliott; the Acting Archivist of the United States Dr. Frank G. Burke; Dr. Charlene Bickford, editor of the First Federal Congress Papers; and Congresswoman Corinne L. Boggs of Louisiana, member of the National Historical Publications and Records Commission and chairman on the Commission on the Bicentenary of the U.S. House of Representatives.

"Volumes IV, V and VI are particularly important because they contain all the legislation and all bills passed by the first Congress," said Director Goellner of Johns Hopkins.

Chief Justice Warren E. Burger of the United States Supreme Court, chairman of the Commission on the Bicentennial of the United States Constitution, who was present, heard himself quoted by Goellner as having said, "The Documentary History of the First Federal Congress is a record that helps all branches of government keep their constitutional bearings."

President Elliott said, "The George Washington University is proud indeed to be a partner in this enterprise. This is a mammoth undertaking that has been in progress since 1972. One of the dividends of being host to it and part of the project is that we have Charlene Bickford as captain of that team and express to her our pleasure at her success. We are privileged be a part."

Dr. Frank G. Burke, Acting United States Archivist, speaking of the project of publishing the documentary history, referred to the time when it began in the National Archives as a fully funded project there. "It was in a move toward cooperating with the academic community that we worked out an agreement with George Washington in which the private and federal sectors shared the responsibility of funding," he said. "Later, another university, through the participation of the Johns Hopkins University Press, was added. I happen to think that this is an appropriate way to do this.

(continued on back)

BLACK STUDENTS HONORED FOR ACADEMIC ACHIEVEMENT

A total of 10 black students were honored for their high academic achievement at the fifth annual observance of Black History Month at the University on February 19.

Just prior to a symposium on the theme, "The Afro-American Experience: International Connection," Ethel C.S. Bothuel, director, Equal Employment Activities, and chair, University Committee on Historical Observances, introduced Vice President for Academic Affairs Roderick S. French who announced the names of the 10 students, all undergraduates (sophomores and above) with a grade point average of 3.5 or better.

Four of the students were present to receive their certificates of recognition in person from Vice President French. They are: Cargill Alleyne, Columbian College senior in chemistry; Faith Galetshoge, Columbian College senior in English literature; Teddi Lopez, a senior in medical technology in the Medical School's Division of Allied Health; and Ina M. Slaughter, Columbian College sophomore in psychology.

The six students unable to be present at the event had their certificates transmitted to them. They are: Nicola Bravo, Columbian college senior in zoology; Judith Evans, Columbian College senior in journalism; Wallace Henry, SEAS sophomore in mechanical engineering; Lisa Lagrand, SEAS sophomore in electrical engineering; Adrienne Twyman, SEAS senior in electrical engineering; and Geralene Wynn, SGBA senior in finance.

"It is very rewarding for us as faculty members to see to what extent you have grasped the material we are presenting to you. Your achievement is a sign that the democratic values are not utopian," Dr. French told the students.

The symposium speakers were introduced by SPIA Dean Maurice A. East. Dr. Martha Kendrick Cobb, author and educator, referred to her book Harlem, Haiti and Havana and emphasized that in the past the black people's struggle for freedom was also going on in Central and South America as well as in the United States. The Honorable Richard K. Fox Jr., former U.S. Ambassador to Trinidad and Tobago, gave a detailed chronology of black Americans who have been members of the U.S. Foreign Service and urged young black Americans to consider the service as a career.

BLACK STUDENT ACHIEVERS -- L to r, Cargill Alleyne, Ina M. Slaughter, Faith Galetshoge and Teddi Lopez, with Ethel Bothuel, chairman of the University Committee on Historical Observances.

SGBA INTRODUCES NEW GRADUATE PROGRAM

The School of Government and Business Administration (SGBA) has introduced a graduate degree program in Logistics, Operations and Materials Management (LOMM).

The program is designed to prepare students for the administrative functions common to many fields of the public and private sector. Such functions typically encompass materials acquisition, production, quality control, distribution, maintenance and support.

The program will cover three areas of study: procurement and contracting, production/operations and physical distribution.

According to SGBA Dean Norma M. Loeser, the program appears to have few rivals. "We believe GW is one of the few universities in the country to be offering a comprehensive graduate degree in this field."

For more information on the LOMM program, contact Dr. Stanley Sherman, program director, Ext. 7462.

BROOKS PART OF TEAM MAKING MAJOR DISCOVERY

(continued from front)

late 1950s, when Zaire was known as the Belgian Congo. Further exploration was impossible after the country achieved independence in 1960.

In 1982, Noel Boaz went to Zaire, with government cooperation to see if it was possible to explore the area once more. It was decided that although physically and logistically difficult, it was possible.

Boaz worked in the Semliki region through the 1983-84 academic year, returned in early 1985, and went back last summer with Harris, Brooks, and other American, Belgian and Zairean scientists and workers when the team established the importance of the site.

The discovery is seen as suggesting for further study of human evolution a part of Africa that had been largely unexplored.

Especially significant is the presence of the primitive horse known as Hipparion, and the apparent absence of the modern horse, Equus. If research continues to show that Equus was not present, this could push the date of the site earlier than 2.3 million years, when Equus first appears in the fossil record, Boaz says.

Professor Brooks describes the Semliki region as densely vegetated and with substantial amounts of rainfall. This makes it very different from other hominid sites, which are primarily open plains. The Congo rain forest begins west of the Semliki and extends all the way to the Atlantic Ocean.

The team will return to the Semliki River this summer, and will devote major attention to studying the ecology of prehistoric times.

Support for the expedition (in addition to that of the National Geographic Society and the Research Committee of GW) was provided by the National Science Foundation, Earthwatch, the Louis S.B. Leakey Foundation, the Wenner-Gren Foundation and the home institutions of Boaz and Harris.

Professor Brooks, a magna cum laude graduate of Radcliffe College, earned her master's and doctoral degrees from Harvard. She came to the University in 1972 and has been an occasional lecturer at the Smithsonian Institution.

Her research into early human culture has taken her far afield in Europe, the Middle East and Africa. A leader in the field of teaching anthropology, she received four major grants from the National Science Foundation from 1978 to 1982 to devise teacher development programs in anthropology at the secondary school level. She is the editor of the National Museum of Natural History anthropology newsletter for teachers, and is the official representative of the American Anthropological Association to the Social Science Task Force, whose objective is to improve the quality and extent of social science instruction in elementary and secondary schools. She is married to John E. Yellen, also a scientist.

LILIEN ROBINSON TO LECTURE ON FRENCH IMPRESSIONISM

Chairman of the Art Department and Professor of Art Lilien F. Robinson, will present a lecture on the exhibition, "The New Painting: Impressionism 1874-1886," on Monday, March 10, at 8 pm in the Marvin Theatre. The exhibition will be on display at the National Gallery of Art, West Building, January 17 through April 6. The lecture, rescheduled from January, is part of the First Wednesday Lecture Series.

Admission is free, but call Alumni House, Ext. 6435 to reserve seating. Dinner ahead of time will be served by the University Club, for both members and non-members, beginning at 6:30 pm. Call Ext. 6610 for dinner reservations.

FIRST FEDERAL CONGRESS HISTORY

(continued from front)

This agreement between the academic and government is the epitome of scholarship in today's world."

Editor Bickford commented, "Some days it seemed like you were putting together extremely difficult jigsaw puzzles. One quarter of the bulk of Volume V involved days of reading newspaper reports. This is kind of tedious work but sometimes it's exciting with surprises. This has been a team effort," she said, introducing her co-editor Helen Byte and research associate Kenneth Bolling.

Congresswoman Boggs said she was honored to be one of those to be presented a set of the three volumes and to talk with representatives of the three prestigious institutions (the National Archives, GW and Hopkins) which have made the publication possible. She suggested that today's Congress should consider using the "specificity" used in the First Congress with regard to budget appropriations. Speaking of the wealth of information in the volumes, she added, "Without that we would not be able to celebrate or to cerebrate."

L to R, President Lloyd H. Elliott, First Federal Congress volumes editor Charlene Bickford, Congresswoman Corinne L. Boggs, Johns Hopkins University Press Director Jack Goellner, and Acting U.S. Archivist Frank G. Burke.

GELMAN LIBRARY OPEN HOUSE FOR FACULTY, MARCH 6

Gelman Library will host an open house for faculty members on Thursday, March 6, from 4 to 7 pm. The open house will feature displays and demonstrations of new reference sources and services, including, on-line searching through the national data-bases, Dialog and BRS-After-Dark. The professional staff will be available to discuss the many types of instructional and research support available through the Gelman library.

Refreshments will be served. Faculty members are invited to meet Dr. Scott Stebelman, newly arrived coordinator for bibliographic instruction, and to meet with their department subject specialists.

ART THERAPY EXHIBIT IN COLONNADE GALLERY

"Art Therapy/Creative Change" is the title of an exhibit scheduled for the Colonnade Gallery of the Marvin Center, March 4 through April 4. The exhibit, sponsored by the Marvin Center Governing Board, the Art Therapy Program, and the Colonnade Gallery, will feature art works done by the clients and patients of art therapy students.

The exhibit will illustrate the ways art therapy promotes, sustains and reflects changes in clients.

Everyone is invited to attend the opening reception in the Colonnade Gallery on Wednesday, March 5, from 5 to 7 pm.

HAROLD PRATHER DIES

Harold W. Prather, a member of the University community for 27 years, died Tuesday, February 18, at the age of 45. He had been associated with the University Mail Service.

A native Washingtonian, he was born in 1940 and was a graduate of Armstrong Vocational High School. Beginning in 1959, he spent his entire adult life serving the students, faculty and staff of the University. Friends remember him as friendly and hard working. He carried the mail on his back and in both arms, making seven deliveries a day back and forth from the Mail Room for many years.

Mr. Prather attached great importance to education. He was very proud when his daughter Tammie received her Bachelor of Science from Columbian College in 1982. Her major was statistics (computer science).

Funeral services were held at Shaw United Methodist Church on Saturday, February 22. He is survived by his wife, Bessie, and five children: Tammie, Roger, Marcel, Tina and Tyrone.

BRIEFLY...

***Noon Poetry Series** The Friday Noon Poetry Series continues on March 7 with Maxine Combs and Laura Fargas. The readings take place from noon to 1 pm in the atrium at 2000 Pennsylvania Avenue, NW.

*** Social Psychology Lecture Series** The Applied Social Psychology Graduate Program presents, "Responding to the Psychological Crisis of AIDS," with Dr. Stephen Morin, Thursday, March 6, at 7:15 pm, in Room T-109 of the Academic Center. Dr. Morin is Chairman of the California Council on Mental Health and a member of the California AIDS Planning Commission. Admission is free. Refreshments will be served.

CONSERN LOAN PROGRAM

The CONSERN Loan Program of the Consortium of Universities of the Washington Metropolitan Area is available to creditworthy students and parents to help meet educational expenses. Applicants must have applied for and received all available federal, state, and institutional aid for which they may qualify before applying for a CONSERN loan (except CWSP, ALAS, PLUS, and Health Education Assistance loans).

Applicants must be enrolled at least half time and may borrow $2,000 to $12,000 depending on need. Need is defined as the difference between the cost of education and other financial aid. The interest rate is variable and is currently 9 percent. For more information, contact the Office of Student Financial Aid, Ext. 6620.

POET JUDY GRAHN TO READ

The Women Artists and Scholars Series presents poet Judy Grahn, Thursday, March 6, at 8 pm in the Marvin Theatre. Grahn, winner of the American Poetry Review Award in 1979, will read selections from her works, including The Work of a Common Woman (1978), The Queen of Wands (1982), and from her more recent writings. The event is co-sponsored by GWU Womynspace, the Program Board, Ecumenical Christian Ministry, the American Studies Program, and the departments of anthropology, communications and theatre, English, and the women's studies program. Tickets, $5 for general admission and $3 with a GW I.D., are available only at the door. For more information, call Exts. 6555 or 7313.

GAA EVENING IN SPACE

The University's General Alumni Association is sponsoring "An Evening in Space" at the National Air and Space Museum, Tuesday, March 25, at 7:30 pm. The rescheduled event features a a presentation from Senator Jake Garn (R-Utah), the first U.S. Senator to fly in the space shuttle.

A reception will follow. Members of the GW community are invited. The cost of the evening is $12.50 and reservations must be made by March 21. For more information, call Ext. 6435.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Department of Radiologic Sciences and Technology. (Receptor research with experience in radioligand binding techniques and ability to work with laboratory animals. Required: B.S. in biological science and two years laboratory experience.) Send resume to: Geri Rosen, Grants Mgmt., Radiologic Sciences and Technology, GWU, 708 Ross Hall, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH SCIENTIST, full-time, Department of Biochemistry. (Ph.D. to study mechanism of action of neuropeptides in normal and malignant cells. Expertise with receptor characterization and purification, second messenger assays, monoclonal antibody production, and tissue culture desirable. Required: Minimum of two to five years of research and/or college-level teaching in the field.) Send curriculum vitae and three references by March 15 to: Dr. Terry Moody, Department of Biochemistry, GWUMC, Washington, DC 20037.

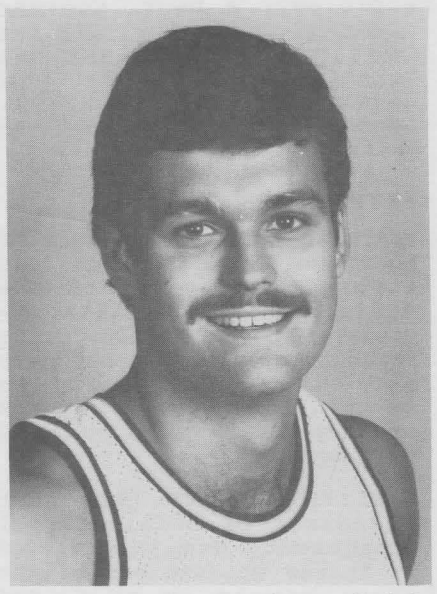
STEVE FRICK NAMED FIRST TEAM ACADEMIC ALL-AMERICAN



Steve Frick

Steve Frick, a 6-foot-5 center on the men's basketball team, has been selected to the first-team GTE Academic All-America basketball team, which is voted annually by the nation's college sports information directors. Also named to the team were Steve Hale of North Carolina, Harold Jensen of Villanova, Larry Krystkowiak of Montana, and Jim Turner of Brown.

To be eligible, a player must be a starter or key reserve and maintain at least a 3.2 grade-point average (GPA) for his academic career. Frick, a senior pre-med major (zoology) has a 3.4 GPA for his academic career and had a 3.9 GPA his junior year. Earlier this year, he was nominated for a Rhodes Scholarship.

Frick started all 28 games for GW this year and finished the season as the team's second-leading scorer with 12.3 points-per-game and was the leading rebounder with a 5.8 mark.

Although he has already been accepted at the University of South Carolina - Charleston Medical School, Frick has said he plans to return to GW next year to play another season of basketball. He was granted an extra year of athletic eligibility because of a dislocated shoulder that kept him sidelined most of his sophomore year. He plans to begin his medical school studies in the fall of 1987.

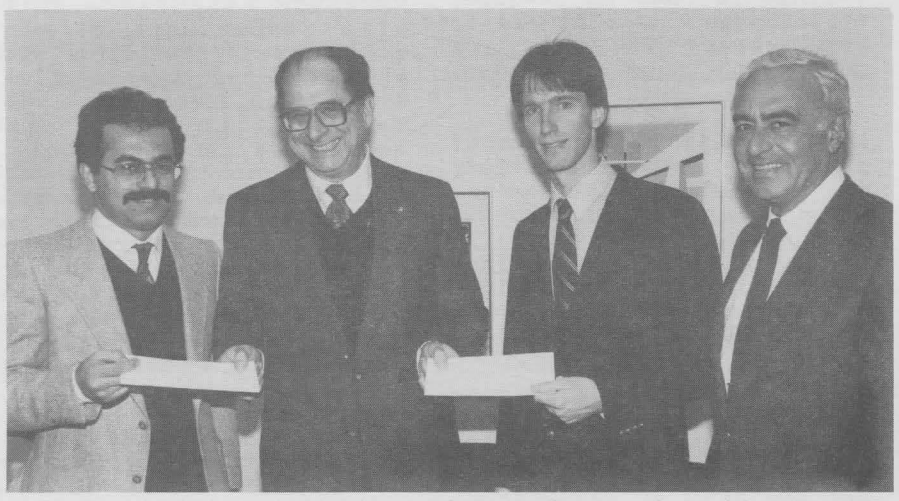
SEAS GRADUATE STUDENTS RECEIVE COMSAT FELLOWSHIPS

For the third year in succession, SEAS graduate students have received fellowships from COMSAT.

In a recent ceremony in Dean Harold Liebowitz's office, Dr. Joe Campanella, chief scientist of the COMSAT Corporation presented COMSAT Graduate Student Fellowships to Duncan W. Mills and Sassan Saatchi, both doctoral candidates in the area of electrophysics in the School of Engineering and Applied Science.

Established in 1983, the COMSAT fellowships are awarded to two graduate students in the field of satellite communications and related areas. Students must participate in a cooperative research program under the direction of a faculty adviser. The award consists of a half-tuition fellowship and a stipend of $10,500. Selected students must meet minimum requirements for the Graduate Engineering Honors Fellowship to be considered.

Faculty advisers for the students' research were Professor Roger H. Lang, chairman, Department of Electrical Engineering and Computer Science for Sassan Saatchi and Professor Walter K. Kahn of the Department of Electrical Engineering and Computer Science for Duncan W. Mills. Saatchi is a third-time recipient of the award.



L to R, COMSAT Fellowship recipient Sassan Saatchi; Dr. Joe Campanella, chief scientist, COMSAT Corporation; COMSAT Fellowship recipient Duncan W. Mills; and SEAS Dean Harold Liebowitz.

SMOKING CESSATION WORKSHOP

The Wellness Resource Center will be offering a smoking cessation workshop in March to all interested employees and students. The program, co-sponsored with the American Cancer Society, will offer permanent quitting skills with a trained group facilitator, a personal "quit kit" and on-going support groups.

The workshops are scheduled for Tuesday, March 18, Thursday, March 20, Monday, March 24, and Wednesday, March 26 from noon to 1 pm in Room 402 of the Marvin Center. Participation is free and pre-registration is required. For more information and to pre-register, call the Wellness Resource Center at Ext. 6927.

SECRETARY OF LABOR WILLIAM E. BROCK SPEAKS

"When you talk about the maintenance of human values in the context of a global political environment, you're not talking about something that's nice. You're talking about an imperative," Secretary of Labor William E. Brock said in a March 5 speech here at the University.

The secretary was speaking to some 300 leaders from business, labor and academia attending a conference on Competitiveness and Human Values, sponsored by the Department of Labor's Bureau of Labor-Management Relations and GW's newly created Labor and Management Institute.

William E. Brock

"We don't have the choice of a less humane society because it is politically unsustainable," he continued. "Therefore we have to find some ways to respond to the changes and pressures (of today) better than we have.

"It seems to me that if the United States has a defined failure in the political system today it is that particularly in government and particularly in the legislative branch, there has been a failure to understand how different a world we are in than we were after World War II."

Secretary Brock spoke with concern of the state of public education in this country, which he called "a continuing tragedy" and of the feelings of insecurity and instability on the part of many people in the work force because of the rapidity of change. "The pace of change is having a real effect on human beings,"he said.

In a discussion of the United States ability to compete internationally, he declared, "We have three essential components in the competitive base." These he listed as our intellectual skills; our emotional commitment, motivation, entrepreneurial desire or instinct for competition; and capital. He rated the instinct for competition as the most important. Noting the competition from low wage countries, he commented, "If you're not going to compete on the basis of low wages, you compete on the basis of capital and how anybody believes we can compete on the basis of capital when we are not forming that capital through savings, I don't know." He pointed to the German and Japanese rates of saving, 13 and 18 percent respectively, saying that the U.S. rate of saving is from 3 to 6 percent.

(continued on back)

ALUMNI REUNION GALA FOR GW SINGERS

Saturday, March 22, is the date set for an Alumni Reunion Gala -- dinner, concert, and afterglow -- for GW alumni who were student singers, either as members of the Glee Club or the Troubadours.

The event has been planned as a memorial tribute to the late Dr. Robert Howe Harmon. Dr. Harmon, with Grace Ruble Harmon as his accompanist, directed the GWU vocal ensembles for the 40 years from 1924 to 1964.

The occasion will bring together the alumni of GW choral music groups for a first-ever reunion. The day will be capped by a concert of choral music, at 8 pm in the Dorothy Betts Marvin Theatre, featuring current and alumni members of the musical groups. The current Troubadours will perform an a capella program ranging from 16th century madrigals to American vocal jazz. The alumni joint performance will include Broadway classics. The concert is free and open to the general public. An afterglow reception will follow the concert in Marvin Center's Colonnade Gallery.

The celebration is being hosted by the Columbian College Alumni Association in conjunction with the Music Department, the University Singers and Troubadours and the Program Board.

A dinner has been planned in the GW University Club at 6 pm before the concert. Deadline for dinner reservations is Saturday, March 15. Contact the Music Department for further information at Ext. 6245.

Among those paying tribute to Doctor Harmon, "Doc" as he was affectionately known, will be Bishop Nolan B. Harmon, his brother; Captain Robert L. Landers, U.S.A.F., (Ret.); Daniel J. Andersen; Professor Emeritus of Classics John F. Latimer; and the Honorable Bruce Mencher.

During the concert, an announcement will be made of the establishment of the Robert and Grace Harmon Memorial Fund to be used to further choral activities at GW.

Dr. Harmon was a noted obstetrician and an associate university physician at GW. Mrs. Harmon, in addition to serving as accompanist, was also associate director of the Glee Club.

Choral music activities at the University date back to 1914 when a Women's Glee Club of seven members was organized. In 1920, a Men's Glee Club was established. Some years later, the two groups were combined.

The Traveling Troubadours were established in 1950. They were a group of 30 men and women, chosen from the larger Glee Club to sing in this select group. Early in their history, the Trouba-

(continued on back)

SECRETARY BROCK SPEAKS

(continued from front)

"We are going to pay a higher price for capital and therefore we will have less with which to pay an adequate wage and when you start saying you're going to compete, without admitting it, what you start doing is to heighten the sense of insecurity. It makes it more difficult to have a kind of healthy environment which you all were discussing in the session this morning.

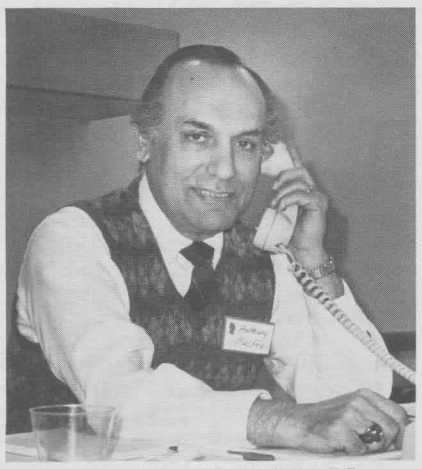
"It seems to me an absolute imperative that you, me, the rest of us find a way to convince those that represent us that we just have to have a better political response to some of these questions. We're not going to allow the social destabilization and the erosion of the fundamental human values of this country. To maintain those values, we need to maintain our ability to communicate -- management to worker, worker to management. Then I think we have some pretty exciting prospects.

"We've got to find a way to take advantage of this incredible United States entrepreneurial creative competitiveness that we all love and the changed economic circumstances we find ourselves in to create new human relationships. . . to create a sense of pride in the worker and a sense of understanding on the part of management that it's a people business. If we are able to take advantage of this, then I don't doubt our abilities to compete."

W. EDWARDS DEMING TO SPEAK ON QUALITY CONTROL

Dr. W. Edwards Deming, renowned for organizing statistical quality control as a discipline, will speak on "Little Recognized Sources of Improvement (Little Recognized Fallacies)," Friday, March 14, at 6 pm in Room 730 of the Gelman Library. The speech is part of a special seminar in conjunction with an Operations Research course, Quality Control and Acceptance Sampling.

Universally known for his work in guiding the Japanese to achieve quality in design and manufacturing, Dr. Deming has helped to alter drastically the way quality control inspection is viewed in the production process. Admission is free. For more information, call the Department of Operations Research, Ext. 6084.



PHONATHON VOLUNTEER -- Professor of Accountancy Anthony J. Mastro is one of a number of members of the University community taking part in the current Phonathon to ask alumni for support for the University's Annual Fund. The Phonathon continues through March 27. To volunteer, call Ext. 6414.

GALA REUNION

(continued from front)

dours logged more than 150,000 miles traveling around the globe, performing during USO shows for service men and women at Christmas time. During the summer of 1960, they starred in a gala performance on the stage of Radio City Music Hall. More recently the Troubadours have traveled to Portugal and Ireland.

Throughout the years, the Glee Club has participated in many major events in Washington, including numerous White House Christmas Tree lighting ceremonies. In 1942, Margaret Truman, daughter of then-president Truman, was a soprano soloist in the Glee Club. The choral singers have also participated in prestigious functions outside Washington, including the "Singer Bowl" of the 1964 New York World's Fair.

Catherine J. Pickar, current director of GW's choral music activities, says the department has located about 600 alumni, but lacks addresses for about 100 more. "We hope to bring together as many of our alumni as possible. We hope all of our alumni learn about this event because we believe it will be an exciting gathering for singers who have truly been a part of local, national and international history."

For more information on the celebration, call the Columbian College Office, Ext. 6130.

GW'S FEMALE ATHLETES EARN BETTER THAN AVERAGE GRADES

Forty-two percent of GW's female athletes earned a 3.0 or better grade-point average (GPA) this past semester, according to Sheila Hoben, athletic department academic coordinator. Additionally, a GPA of 2.5 or above was earned by 69 percent of the department's team members.

The 125 members of the Colonial Women teams earned a cumulative 2.77 GPA during the period while 13 were above the 3.5 plateau and 10 were named to their respective school's Dean's List.

GW Music

FACULTY RECITAL, MARCH 17

On Monday, March 17, at 8 pm in the Marvin Theatre, there will be a faculty recital featuring Ann Myongsook Lee, soprano; John Albertson, guitar; Penelope Fischer, flute; and Stanley King, English horn. They will perform works by Benjamin Britten and Castelnuovo-Tedesco. Tickets, available at the door, are general admission, $4; faculty, alumni, and staff, $2; and students and senior citizens, $1.

BRIEFLY...

***Bulletin Copies** Academic Publications has three extra copies of the bound volume of the 1985-86 Bulletin. To obtain one, call Ext. 6310.

***Telephone Directories** The following white and yellow page directories are in stock and available for pick-up from Telecommunications Services, Academic Center, Room T-105: DC White Pages, May 1985; DC Yellow Pages, May 1985; Northern Virginia White Pages, December 1985; and Maryland Suburban White Pages, October 1985.

Japanese Ambassador Nobuo Matsunaga, left, chats with Professor of International Affairs Gaston Sigur, director of the Institute for Sino-Soviet Studies, before the February 27 panel discussion on U.S. - Japanese trade, sponsored by the Institute for Sino-Soviet Studies and the School of Public and International Affairs.

GW CONFERENCE TO STUDY SOCIAL SECURITY AFTER FIFTY

An all-day conference Wednesday, March 19, here at the University, "Social Security After 50," will examine aspects of the system's past, present and future.

Sponsored by Columbian College and the Graduate School of Arts and Sciences, the conference is free and open to the public. Morning and afternoon sessions will be held in the Marvin Center with a special evening session at the National Museum of American History.

"Social Security and the Academy" is the general topic of the 10 am to noon session. University Professor Amitai Etzioni will serve as moderator. Speakers will include Mark Leff of Harvard University, whose subject will be "Social Security and the Historians"; Martha Derthick of the University of Virginia, author of Policy-making for Social Security, who will discuss "The Plight of the Social Security Administration"; and Henry Aaron, senior economist with the Brookings Institution, and Lawrence Thompson, chief economist with the U.S. General Accounting Office, who will talk about "Social Security and the Economists."

"An Intergenerational Roundtable on Social Security," from 2 to 4 pm, will bring together young, middle-aged and older people to discuss Social Security's past performance and future expectations. Professor of Philosophy William B. Griffith will moderate the discussion. Participants will be Robert Ball, former commissioner of the Social Security Administration; Robert Forbes, GW Columbian College senior, majoring in history; Eric Kingson of the Gerontological Society; Paul Light of the National Academy of Public Administration; Althea T.L. Simmons of the National Association for the Advancement of Colored People; and Ida Merriam, former director of research at the Social Security Administration.

In the evening session, "Looking Ahead," Wilbur J. Cohen, former Secretary of Health, Education and Welfare, and the one individual said to be the most clearly identified with the development and administration of the Social Security system, will speak on "Looking Ahead: Social Security in 1995." Robert J. Myers, former chief actuary at the Social Security Administration, will respond. The 7:30 to 9:30 pm session will take place in the Carmichael Auditorium, first floor, National Museum of American History, 14th Street, and Constitution Avenue, NW.

For more information about the conference, contact Coordinator Ed Berkowitz at Ext. 8174.

RED CROSS BLOOD DRIVE MONDAY, MARCH 24

A University-sponsored Red Cross Blood Drive is scheduled for Monday, March 24, between the hours of 11 am and 5 pm in the Marvin Center Ballroom.

An appointment system will be used to keep processing time to about one hour. Those who wish to donate can schedule a time by calling the Student Activities Office, Ext. 6555. Questions about donor eligibility should be directed to the Red Cross Center at 728-6616.

In a letter to members of the University community, President Lloyd H. Elliott said, "The need for blood in the Washington metropolitan area is greater this year than ever before. . . . I urge each of you to take this opportunity to make a truly individual contribution by participating in the blood drive on March 24."

CHUBB TO TALK POLITICS AT SGBA EVENT MARCH 18

John Chubb, senior fellow, The Brookings Institution, and author of the book, The New Direction of American Politics, will discuss the subject in relation to the 1988 election at a noon luncheon sponsored by The George Washington University School of Government and Business Administration Alumni Association on Tuesday, March 18, between noon and 2 pm. The luncheon will be in the GW University Club. For more information, call the SGBA Alumni Office, Ext. 7423.

U.S. SOLICITOR GENERAL WILL SPEAK AT JOINT LAW MEETING

Charles Fried, solicitor general of the United States, will speak at a noon luncheon meeting Tuesday, March 25, to members of the Capitol Hill Chapters of The George Washington Law Alumni Association and the Federal Bar Association. The event is jointly sponsored by the two groups and will take place in the Hart Senate Office Building.

Fried has been solicitor general since 1985. During his period of service, he is on leave from the Carter Professorship of General Jurisprudence at Harvard Law School.

For more information, call Ext. 6420.

ART THERAPIST Brenda Barthell stands beside a tempera painting done by a patient in art therapy, one of a group of such works on exhibition in the Colonnade Gallery (Marvin Center) through April 4.

STUDENT-FACULTY BASKETBALL -- l to r, GWUSA President Ira Gubernick, referees Andy Abramson and Rich Newman, and President Lloyd H. Elliott before the March 5 game when Gubernick's GWUSA squad defeated Lloyd's Legion by a score of 32 to 31.

NATIONAL LAW CENTER RANKS AMONG THE TOP

Law school administrators and professors, as well as attorneys in charge of hiring at their firms, say that the National Law Center at GW deserves "to be ranked near the top of the 175 law schools in the U.S. that are accredited by the American Bar Association," according to a survey in the March issue of Washingtonian magazine.

The survey, focusing on the nine schools in the D.C. metropolitan area, places GW and Georgetown at the top locally, and in the second ten, nationally. GW headed the list among area schools whose students who took the Maryland bar exam last summer and passed, with a 75 percent success rate.

SOCIAL PSYCH LECTURE ON WOMEN'S MENTAL HEALTH

Jacquelyn H. Gentry, chief of the Science Communications Branch of the National Institute for Mental Health, will speak on "Women's Mental Health: A Federal Perspective" on Thursday, March 20, at 6:15 pm in Building GG, 2125 G Street, NW, Room 402. Much of Dr. Gentry's work concerns women's issues and the program and policy implications of these issues. She is a member of the Committee on Women in Psychology of the American Psychological Association.

All students, faculty and staff are invited to attend. The lecture is part of the Social Psychology Lecture Series sponsored by the Psychology Department. For more information, call Ext. 6320 or 7151.

DAVID TOMLINSON TO OFFER ADVICE TO BOOK COLLECTORS

David Tomlinson, professor and chair of the English department, United States Naval Academy, will speak on "Alternatives in Book Collecting," Thursday, March 20, at 4 pm, in Room 202 of the Gelman Library. The event is sponsored by the Friends of the University Libraries.

Professor Tomlinson will draw attention to the range of options open to beginning and established book collectors. He will discuss opportunities for collectors today that have traditionally been overlooked.

His speciality is Southern literature, with a particular emphasis on John Pendleton Kennedy. He reviews 20th century American literature for the Academic Press and is the editor of "Short Stories of the Sea," (Naval Institute Press, 1985).

This is the first in a series of lectures in 1986 and 1987 which are designed to be of interest to GW students as they form collections for entry in the 1987 Student Book Collectors' Contest.

The forum is free and open to the University community. Refreshments will be served. For more information, call Ext. 6455.

A.H. SMITH, COSTIGAN, TELLER IN LUNCHTIME TALKS AT DIMOCK

In conjunction with the Dimock Gallery's current GW Fine Arts Faculty Show, three members of the Art Department's fine arts faculty will give gallery talks at midday on Tuesday, Wednesday and Thursday, March 18, 19 and 20.

Arthur Hall Smith will be at the gallery on Tuesday, March 18, at 12:30 pm. Constance Costigan will speak on Wednesday, March 19, at noon. Douglas H Teller will give his gallery talk on Thursday, March 20, at 12:30 pm. Brown-bagging is invited and questions will be welcome during the sessions. The exhibition of works by the University's 11 fine arts faculty members may be seen in the Dimock Gallery through Wednesday, March 26.

C. MAX FARRINGTON DIES

C. Max Farrington, 82, former athletic director, dean of men and assistant to the president, died March 4 in Springfield, Missouri.

He came to the University in 1929 as instructor in physical education for men and served as head baseball coach and freshman football coach. Progressing through the professorial ranks, he became full professor in 1939. He was active in athletics, education and civic affairs in the Washington area for over 40 years.

Born January 7, 1904 in St. Louis, Missouri, he attended Westminster College in Fulton, where he earned a B.A. in 1927 and 12 letters in athletics. He held two degrees from George Washington: B.S. in P.E., 1933; and M.A., 1934.

Farrington was the University's director of athletics from 1939 until he joined the Navy during World War II. He served as director of the Navy's physical training program during the latter years of the war. Returning to the University and his position of director of athletics, he also served as dean of men. In the early 1950s, he was president of the old Southern Athletic Conference for four years when that was one of the major athletic conferences in the Mid-Atlantic region.

A founding member and former president of the Touchdown Club, he served as executive secretary of the Metropolitan Police Boys Club in the late 1950s.

Farrington was named assistant to then President Cloyd H. Marvin in 1953 and additionally, director of university development in 1954. When he retired on February 1, 1974, he was special consultant to President Lloyd H. Elliott.

A former resident of Bethesda, Maryland, Mr. Farrington was a 33rd degree Mason, a member of the Scottish Rite, the Almas Temple of the Shrine and the Congressional Country Club. He moved to Springfield, Missouri, in 1974.

His first wife, Lydia Wilson Farrington, died in 1967. He is survived by his wife, Madge W. Hunter of Springfield; two sons by his first marriage, Thomas A. of Mitchellville, Maryland, and Max Jr. of King George, Virginia; one stepdaughter, Ann Hunter Shipp of Chicago; one brother, Bert W. of Port Isabel, Texas; one sister, Ruth Warren of Aurora, Missouri; and eight grandchildren.

The family has said that memorial contributions may be made to the American Cancer Society or to The George Washington University, Room 701, Gelman Library.

FIRST WEDNESDAY LECTURER William B. Griffith listened to a comment from Roye Lowry, president of the D.C. Chapter of the SGBA Alumni Association, following his recent discussion of business ethics.

TELECOMMUNICATIONS SYSTEM INSTALLATION UPDATE

The Telecommunications Office has announced that the new University telephone exchange will be 994 instead of the previously announced 594, due to recent changes in the local area calling assignments.

In addition, the office has released a schedule listing campus building sites and tentative dates for installation of conduit and cable for the new telecommunications system.

Installing the conduit will be the first step, followed by the installation of the cable.

The March and April planned schedules are as follows:

MARCH	CONDUIT		CABLE	
Building	Start	Finish	Start	Finish
2000 Pennsylvania	Underway	4/4	5/1	6/1
Academic Center	Underway	4/4	5/1	6/1
Gelman Library	3/24	4/26	6/15	7/10
APRIL				
Calhoun	4/7	4/10	5/15	5/18
Support	4/7	5/23	7/1	7/15
Bldg. AA	4/10	4/21	5/28	6/1
Bldg. EE	4/10	4/21	5/28	6/1
Rice Hall	4/10	4/21	6/4	6/8
Everglades	4/10	4/21	6/2	6/6
Bldg. II	4/17	4/28	6/16	6/20
Henry	4/22	5/1	5/24	5/25
Bldg. E	4/22	4/25	11/1	11/15
Stuart	4/22	5/1	11/1	11/15
Crawford	4/26	5/6	6/23	6/27

BRIEFLY...

***Academic Regalia** All full-time faculty and administrative staff interested in purchasing academic regalia can contact the Business Affairs Office, Ext. 6400, for a list of vendors or to get details about the University's reimbursement policy.

***Troubadours Concert** A reminder that the Troubadours will give a free concert, Saturday, March 22, at 8 pm in the Marvin Theatre. For more information, call Ext. 6130.

J. RON THOMPSON NAMED EMPLOYMENT MANAGER

James E. Clifford, director of Personnel Services, announces the appointment of J. Ron Thompson as the new employment manager. Previously the administrative manager for the Department of Psychiatry, Ron has had over 20 years of personnel management experience. He replaces Rosemary Lubeley, who relocated to Cleveland, Ohio.

GW-NSF PHYSICS LECTURE

Leon Lederman, director of the Fermi National Accelerator Laboratory, will speak on "Particles, Cosmology and the Supercollider" on Friday, March 21, at 3:30 pm, in Room 101 of Corcoran Hall, 725 21st Street, NW. The lecture, which is open to the public, is co-sponsored by the GW Physics Department and the National Science Foundation.

GW Music

STEINER AND CONLON IN FACULTY RECITAL

George Steiner, violin, and Francis Conlon, piano, will appear in a faculty recital on Monday, March 24, at 8 pm in the Marvin Theatre.

They will perform works of Niccolo Paganini, Ludwig van Beethoven, Louis Cheslock, Felix Mendelssohn and Guillaume Lekeu.

Tickets, available at the door, will be $4, general admission; $2, GW faculty, alumni and staff; and $1, students and senior citizens. For more information, call Ext. 6245.

NEWSNOTES

PROFESSIONAL ACTIVITIES

ALEX ANCKONIE III, associate professor of business administration, presented a paper entitled, "Efficient Management of Corporate Multi-Currency Short-Term Funds," at the annual meeting of the SAS Users Group International, February 9-12, in Atlanta, Georgia. The meeting was attended by over 2,500 business and other users of the SAS software system.

JOHN G. ALLEE, professor of English, chaired the session "Placename Research and Grammar in Names" at the American Name Society meeting at the Newberry Library in Chicago. He was elected second vice president of the society.

DIANE APOSTOLOS-CAPPADONA, visiting lecturer in religion, participated in a panel discussion of Theodore A. Gill's lecture, "A Curious Consanguinity (A Stab at another bloodline for Art and Religion)," which constituted the morning session of the Annual Winter Meeting of the Society for the Arts, Religion and Contemporary Culture in New York City, February 1.

JAMES R. BARTH, professor of economics, gave a talk on, "Savings and Loans and Their Deposit Insurance Fund" at the National Economists Club, January 30. On February 5, he gave a seminar on "Controversy Over the Impact of Macroeconomic Policy on the Macroeconomic Linkage Variables" at the Economic Research Service of the U.S. Department of Agriculture.

MARCUS CUNLIFFE, university professor, took part in a panel discussion, "The Leading Edge: Humanities Scholarship in the Next Two Decades," as part of a symposium, held at the University on February 12, celebrating twenty years of the National Endowment for the Humanities.

DON DRIVER, director of International Student Services, chaired two sessions at the National Association for Foreign Student Affairs Region VIII Conference in October. The sessions were entitled, "Sponsoring and Programming Agencies and the Foreign Student Office: Expectations Met and Unmet" and "International Student Activism: Conflicts and Consequences - South Africa case in point."

PETER F. KLAREN, professor of history, was recently honored by the inclusion of a chapter from his book Modernization, Dislocation and Aprismo (1973) in an anthology edited by a leading Latin American social scientist, Torcuato S. Di Tella, entitled Sociedad y Estado en America Latina (Buenos Aires, 1985). He is the only American represented in the volume which includes leading Latin American scholars from Brazil, Argentina, and Nicaragua.

CLARA M. LOVETT, professor of history, served as a reviewer for the Research Division of the National Endowment for the Humanities, November 18, and for the Institute for International Education on December 13. On December 29, she was a discussant at a session on ethics for the historical profession held during the annual meeting of the American Historical Association in New York City.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, was elected to the executive committee of the Society for the Advancement of American Philosophy at its annual meeting in Lexington, Kentucky, February 27 through March 1. He also commented on a paper about the philosophy of C.I. Lewis.

LINDEN NAMED ACTING DIRECTOR OF SINO-SOVIET INSTITUTE

Carl A. Linden, professor of international affairs and political science, has been appointed acting director of the Institute for Sino-Soviet Studies. He follows Professor of International Affairs Gaston J. Sigur, who was sworn in on March 12 as Assistant Secretary of State for East Asian and Pacific Affairs. Dr. Sigur had served as director since July 1, 1972.

Professor Linden received his B.A. from Syracuse University, his M.A. in Russian Studies from Harvard University and his Ph.D. in the field of political science from George Washington. He first became associated with the University on a part-time basis in 1964 and joined the full-time faculty in 1971 as associate professor of political affairs and political science.

Prior to 1965, he was a Soviet affairs analyst with the Foreign Broadcast Information Service of the U.S. government. From 1965 to 1970, he taught at St. John's College in Annapolis, Maryland. He currently teaches courses in political thought and theory. His research and writing have focused on Soviet and communist affairs. His book, Khrushchev and the Soviet Leadership (The Johns Hopkins University Press, 1966), is now in its sixth printing.

GW LANDSCAPE DESIGN PROGRAM WINS A FIRST PRIZE AT SHOW

The GW Landscape Design Program's entry won first prize in the non-commercial educational category for the second year in succession at the March 12 to 16 Washington Flower and Garden Show at the Washington Convention Center. The program is based in the Center for Continuing Education in Washington, Division of Continuing Education.

In the design process, the imaginary clients were described as a recently retired couple who had decided to keep their urban home but who wished to have a piece of "the country" in their city backyard. The site was described, in part, as a walled garden which is flat and inward looking.

The master plan, which was carried out in the creation of the garden at the flower show, included the components of a paved, raised terrace, a rock garden, a gravel path, an eating/entertaining area and trees and flower beds. The "country" part of the garden was characterized by scents and colors that evoke the country. Lavender and white hyacinths and Japanese Camellia were among the plant materials used.

The Landscape Design Program is under the direction of Barbara Woods. The design was created and carried out by the students currently enrolled in the 18-month program with assistance from a number of members of the University community. From the Physical Plant Department Robert F. Burch, director; Louis L. Smith, grounds supervisor; and Howard Robinson, landscape designer, all helped. From the University Theatre came Bradley Sabelli, scene designer, and from the Art Department, Jo Harrop, assistant professorial lecturer in art, who was an advisor to the project.

AT THE FLOWER SHOW -- l to r, Ann Anderson, a student in the Landscape Design Program; Barbara Woods, program director; and Marion Cambel, a landscape designer and alumna of the program (wife of Professor of Engineering and Applied Science Ali Cambel) posed with GW's winning garden.

SUSAN TOLCHIN TO GIVE APRIL'S FIRST WEDNESDAY LECTURE

Susan J. Tolchin, professor of public administration, will speak on "The Rush to Deregulate," Wednesday, April 2, at 8 pm in the Continental Room of the Marvin Center. The event, sponsored by the Alumni Relations Office, is part of the First Wednesday Lecture Series. Admission is free, but call Alumni Relations, Ext. 6435, to reserve seating. Dinner wil be served by the GW University Club, for both members and non-members, beginning at 6:30 pm. Call Ext. 6610 for dinner reservations.

FORMER HEW SECRETARY COHEN STRIKES OPTIMISTIC NOTE

SOCIAL SECURITY CONFERENCE speakers included, l to r, Professor Mark Leff of Harvard University; Patricia Dilley, staff director, Subcommittee on Social Security, of the House Committee on Ways and Means; and Robert J. Myers, former chief actuary of the Social Security Administration.

"The year 1995, in my opinion, will be a very crucial historical year," said Wilbur Cohen, former Secretary of Health, Education and Welfare, in a speech March 19, at the conclusion of the day-long conference on Social Security After Fifty, sponsored by Columbian College and the Graduate School of Arts and Sciences.

Tracing the evolution of social reform in the United States, the former secretary advanced the theory that social change takes place every 30 years. In a wide range of historical references, he called the years from 1905 to 1914 "a tremendous period of social reform."

Referring to the congressional cycles that we live in, Cohen said, "There is a certain cycle in men's lives in which you can only do so much at a particular time and that there is always something left over for the next generation."

Citing the need to revise programs in the next 10 years, he said, "If I had my way, I'd have some kind of a program that would cover everybody in the United States who is not now covered, some kind of health insurance. I'd say we'd probably have to go to a mandated type of plan." He noted that Americans want to have options and said there should be planning now so that we arrive in 1995-97 with everybody having some kind of comprehensive health insurance "from the day they were born until the day they die."

"Our prime need in economics is much better unemployment insurance," he stated. "The other program that needs revision is the welfare program. The holes in the safety net are so extensive that it's inadequate to take care of the people it's supposed to be serving."

He said the question always comes "Where are you going to get the money? . . . I do not take the pessimistic view that we can't pay for care of our

(continued on back)

PERSONAL COMPUTER PURCHASE OPPORTUNITY

The Procurement and Supply Department has made arrangements with several companies, in the Washington metropolitan area, to sell personal computers and components to students, faculty, alumni and staff of The George Washington University and Medical Center at substantial discounts.

The Center for Academic and Administrative Computing (CAAC) has graciously accepted the task of providing technical advice and assistance to all individuals in making selections of computer equipment and software to fit their particular needs.

The program will operate under the following guidelines. Students, alumni and staff who wish to buy a personal computer should contact CAAC, Ext. 6140, and ask for a reservation to attend a weekly briefing. Assistance will be given to attendees on choosing a compatible PC hardware and software system that would also be compatible with the University Computer.

Faculty members who wish to buy a personal computer should call Michael Hamilton, Ext. 8737, to make an appointment for assistance.

Upon completion of the advice and assistance meetings, CAAC will provide a certificate to each attendee which will identify the buyer as a member of the George Washington community; list the equipment and software to be purchased, and the names, addresses and telephone numbers of the companies that offer discounts.

If no assistance is needed to make a purchase, buyers must still get a certificate from CAAC to present to the company.

Companies participating in this program handle a variety of brand name personal computers, software and supplies. Some of the companies also offer discounted maintenance plans. Some brand name computers offered are Apple, AT&T, Compaq, Epson, Hewlett-Packard and IBM.

GW THEATRE PRODUCTION TO BENEFIT D.C. HOMELESS

The Wednesday, April 2, performance of William Saroyan's "The Cave Dwellers" by the GW University Theatre will be a fund-raiser for Miriam's Kitchen, the community-sponsored breakfast program for Washington's homeless.

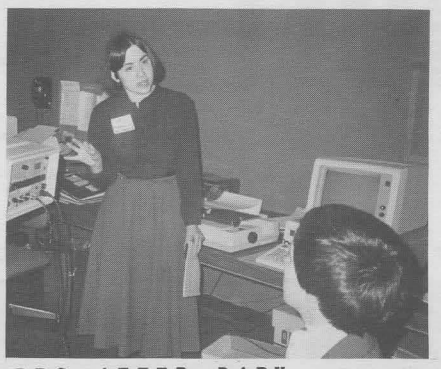
Written in 1958, "The Cave Dwellers" explores the plight of the homeless and how lifestyle affects the ability to love and care when there seems to be nothing left to give. Directing the play is Libby Kephart, who is music director at the Stage Door Cabaret in Annapolis.

The University Theatre is presenting the play Tuesday, April 1 through Saturday, April 5, at 8 pm in the Marvin Theatre. There will be a 2 pm matinee on Sunday, April 6. Tickets are $6 for the general public and $3 for students and senior citizens. For more information, call Ext. 6178.

RICHARD PERLE TO SPEAK ON ARMS CONTROL MARCH 27

Richard Perle, assistant secretary of defense for international security policy, will speak on "Current Issues in Arms Control Negotiations" at 2 pm Thursday, March 27, in Room 403 of the Marvin Center.

The talk is sponsored by the School of Public and International Affairs. Admission is free.



BRS AFTER DARK, a new computerized search method, was explained by Judith Eannarino, subject specialist in the Reference and Instruction Department of Gelman Library, at the library's recent open house for faculty members.

SUPERCOMPUTER TIME OFFERED

The National Science Foundation (NSF) and the National Institutes of Health (NIH) have announced a new program that will award up to 25 hours of supercomputer time for research by behavioral, social, biomedical and economic scientists.

The program is designed to promote the exploratory use of supercomputers by researchers, including scientists who have little or no experience on computers. Applications are due on Friday, April 18. For information, contact Brenda Flam at NSF (357-7050) or Dr. Suzanne Stimler at NIH (496-5411). The Office of Sponsored Research staff is available to assist faculty in preparing applications. Call Ext. 6255 for information.

COHEN STRIKES OPTIMISTIC NOTE

(continued from front)

people. That seems to me to take a very 1931 attitude toward the future, that we are going to continue in the doldrums.

"I take another view, that it is not possible that we cannot go forward into the greatest period of expansion we have ever known. I don't see why we can't have a safety net in 1995. Our greatest problem is the education of our young people. It's hard for young people to really understand probability. It's not until they are 45 that they begin to think of retirement. The Social Security System is the biggest federal aid to education because it has freed the family. It has been one of the Great Society's great accomplishments. In these 40 years social security has taken off the back of young people the care of parents."

Cohen said he prefers to use the term "safety net" rather than social security. With regard to what he sees that could happen, he said, "It depends on what young people do." He predicted that Medicaid will be extended and that there will be a much more complete system of health care and care for the elderly in the future. "Nursing home care is one of the great social needs of our time," he stated. "Will it come a little at a time? No, it'll take a crisis and the children of old people will be the ones that will force it.

"We've got to work out in true American fashion some way that the public and private sectors would take care of the needs. We'll fuss at the cost, but we're not going to allow our parents and grandparents to die without doing something to take care of them." He predicted all sorts of options such as homemaker services, home health care, hospice care, shared housing, retirement homes and villages.

"When 1995 comes, you will see not only a great system of care for our people but an improved quality of life that will be built on the Social Security Act that commenced in 1905."

Robert Myers, former chief actuary, Social Security Admninistration, in a response to Mr. Cohen, said, in part, "I don't believe the 30-year cycle will work out just as Wilbur says. Regarding long-term care, I'd agree that not only are more people going to be 65 and over, but more people will need long-term care. I cannot agree that this will be done under Medicare. It's not an insurable risk. If there were no cost-sharing provision, more people would be willing to change, I think it's too much up to the individual.

"With regard to the long-term care problem, I would like it to be an insurance approach. Improved and extended home health service under Medicare is good but I think that lien provisions should be instituted. If people have assets like a home, I see no reason the children should share in accumulated wealth if the government has been paying for long-term care. I would include delayed retirement credits in social security provisions and I do not support earning-sharing, it has more problems than solutions. The big thing is to stop the huge build-up of funds of a Social Security health program. The tax increase coming in 1988 I think is necessary, the one for 1990, I think is not necessary. I think that in 50 years things will not be much different from now although the dollar figures will be greatly different."

CHUBB TALKS OF NEW DIRECTION IN AMERICAN POLITICS

Is the U.S. experiencing a political realignment? Dr. John Chubb, senior fellow at the Brookings Institution and author of The New Direction of American Politics, says the answer is yes. Five times in American history a political party has come along which, "through a variety of devices has grabbed hold of the political system and dominated party politics and elections for a generation to come," said Chubb.

Will Ronald Reagan and the Republican party be remembered as the sixth? Chubb believes there is a definite trend in that direction. In his remarks at an SGBA Alumni Association luncheon, March 18, Chubb listed several criteria to support his assertion.

First, partisanship has swung decidedly toward the Republican party. Ten years ago, 45 percent of the voters considered themselves Democrats and 21 percent considered themselves Republicans. Today, that gap has closed to a five percentage point difference. The key variable in this party realignment, according to Chubb, is that people under 25 are "overwhelmingly Republican."

Second, party images have changed. The Democrats, once perceived as the party of pragmatism, are now seen as "tax collectors for the welfare state." The Republicans, on the other hand, have altered their image from "the party of Wall Street" to that of opportunity and prosperity.

In addition, there have been major institutional changes made by the Reagan administration. Tax cuts, the largest peacetime military build-up, and a reduction in government size are all indicative of a realignment, said Chubb. He also noted that when Reagan took power in 1981, he "seized control of the executive branch like no other before him by centralizing decision making... and prevented departments and agencies from engaging in end runs around his presidency."

Chubb feels the 1986 election will be critical to the realignment theory. If the Republicans are able to maintain control of the Senate and improve their stake in state legislatures, then a new agenda would seem a very real possibility. While the old agenda asked, "What can government do to improve quality of life in America?" the new one seems to ask, "What can government get out of to improve the quality of life?"

NEWSNOTES

PROFESSIONAL ACTIVITIES

ANDREA COVARRUBIAS, adjunct instructor in the English for International Students Program, has been certified as an oral proficiency tester in English as a second language by the American Council on the Teaching of Foreign Languages.

HERBERT J. DAVIS, associate professor of business administration, served as a moderator and panel member in plenary session before the International Conference on Privatization, February 17-19, in Washington DC. The conference, the first of its kind, addressed the complexities of privatization among State Owned Enterprises in developing countries and was attended by more than 500 people from around the world.

WILLIAM B. GRIFFITH, professor of philosophy, gave an invited paper entitled, "How Have Various Professions Dealt With Ethics Issues?" as a member of a panel on "A Code of Ethics for the Historical Profession" at the American Historical Association 1985 annual meeting, December 29, in New York City. **CLARA LOVETT**, professor of history, was one of the commentators.

LILIEN ROBINSON, professor of art, is shown with General Alumni Association President John R. Manning before her March 10 lecture on French Impressionism, one of the First Wednesday lectures.

RICHARD LONGSTRETH, associate professor of architectural history, gave a lecture on "Design and the Rehabilitation of Historic Commercial Buildings" at the Urban Demonstration Program seminar sponsored by the National Main Street Center in Detroit, Michigan on February 19. He gave a paper, February 21, entitled, "Washington, Neighborhood Shopping Centers, and Neighborhood Planning," at the 13th Annual Conference on Washington, DC, Historical Studies.

HOMER B. SEWELL, professor of engineering administration, recently served as visiting professor at the Ethiopian Management Institute, Addis Ababa, Ethiopa, where he gave lectures to the Institute on Project Management.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Mid-Career Math/Science Teacher Education Program, SEHD. (Individual must have secondary school teaching experience in mathematics and master's degreee in education or mathematics. Beginning on or about July 1.) Contact: Dr. Jay R. Shotel, Assistant Dean, School of Education and Human Development, Ext. 6160.

RESEARCH PSYCHOLOGIST/ANTHROPOLOGIST, full-time, ICU Research. (Person to join multidisciplinary research team studying critically ill adults in national study. Expected to design, implement, and evaluate instruments to measure key factors in decision making. Candidate should have earned doctorate and demonstrated competence in instrument design and evaluation.) Send resume to William A. Knaus, M.D., Director, ICU Research, GWUMC, 2300 K Street, NW, Washington, DC 20037.

SEYYED H. NASR TO SPEAK AT HONORS CONVOCATION

University Professor of Islamic Studies Seyyed H. Nasr will give the address at the University's second annual Honors Convocation Sunday, April 6, at 1:30 pm in Lisner Auditorium.

The convocation was established last year in response to a perceived need to recognize and encourage excellence in undergraduate scholastic achievement. The idea came from the Public Ceremonies Committee of the Faculty Senate and was approved by the senate at its December 14, 1984, meeting.

Three categories of students will be recognized: all students who were named to the deans' lists in the previous spring and fall semesters; those students who receive an Outstanding Academic Achievement Citation; and those students who are named Distinguished Scholars.

Students receiving Outstanding Academic Achievement Citations must have completed a minimum of 45 credit hours at GW and be in the top two percent of their classes based on Quality Point Index.

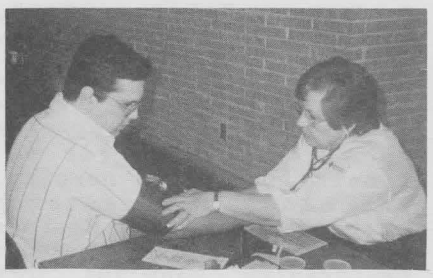
The Distinguished Scholar Awards are designed to recognize one undergraduate in each school which grants undergraduate degrees, who has distinguished him/herself through exemplary academic achievement and scholarship. There will be five of these awards, one each for Columbian College, SGBA, SPIA, Engineering and Education.

Following an invocation by Rabbi Gerald Serotta, chairman of the Board of Chaplains, President Lloyd H. Elliott will make brief remarks before Dr. Nasr's address.

Vice President for Academic Affairs Roderick S. French will confer the deans' lists honors. Outstanding Academic Achievement Citations will conferred by the deans of the schools and college. The five Distinguished Scholar Awards will be presented by President Elliott with the deans.

GSAS Assistant Dean Avery Andrews, associate professor of history, is serving as chairman of the Convocation Committee.

Music for the occasion will be provided by the GW Troubadours under the directon of Catherine J. Pickar, assistant professor of music. The national anthem will be sung by Joel Schmidt, baritone, a senior music major in Columbian College.



BLOOD DRIVE -- Tom Aljin, Columbian College freshman, was checked by Eleanor Nelson, R.N., before making a donation at the March 24 GW Red Cross Blood Drive.

INTERNATIONAL GUESTS -- l to r, SEHD Dean Eugene M. Kelly, Mr. Mark Isaac of the Embassy of Granada, Mr. Lamine Boye of the Embassy of Senegal, and Associate Professor of Education Dennis H. Holmes at the March 21 reception for some 50 embassy officials sponsored by the School of Education and Human Development to acquaint members of Washington's international community with services and opportunities available through the school and the University.

TRUSTEES INCREASE EMPLOYEE BENEFITS

At the March 20 meeting of the Board of Trustees, the following improvements to the University's employee benefits package were approved, effective July 1, 1986:

The lifetime benefit maximum for the University's TIAA Major Medical Expense Plan will be increased for active employees from the present $250,000 to $1,000,000. (The lifetime maximum for future retirees will increase from $50,000 to $100,0000.)

The University will contribute $55/month for regular full-time faculty and staff and $27.50/month for regular part-time faculty and staff toward the basic health benefits premium, or the actual premium, whichever is less. The contribution is made only for those employees participating in one of the health insurance options offered through the University. It replaces the current University contribution of the Blue Cross Individual Premium.

The Income Replacement Formula for the University's TIAA Group Total Disability Benefits Plan will be increased from the present 60 percent of the first $2,000 of monthly salary plus 40 percent of monthly salary in excess of $2,000 to a $2,500 monthly benefit maximum, to a straight 60 percent of salary to a $4,000 monthly benefit maximum.

The University will terminate the current Group Life Insurance Plan with Lincoln National and adopt a new plan with TIAA. Under the terms of the new TIAA plan, the University will provide regular full-time and regular part-time employees with a life insurance benefit equal to one time the employee's annual salary. Faculty and staff will have the option to purchase additional coverage, through the group plan, equal to one half, one, or one and one half times their annual salary.

Enrollment packets, detailing the new TIAA Group Life Insurance Plan, have been mailed to each employee's home address. Employees are invited to attend informational meetings that will be held outside the hospital cafeteria on Wednesday, April 16, from 6 am to 1 pm and on Thursday, April 17, from 12 noon to 5 pm, and in the Marvin Center, 2nd floor, on Wednesday, April 23, from 6 am to 1 pm and on Thursday, April 24, from noon to 5 pm. Any questions concerning these benefit changes may be directed to the Records and Benefits Office, Ext. 4480.

10TH ANNIVERSARY CELEBRATION OF JENNY MCKEAN MOORE FUND

In honor of the 10th anniversary of the Jenny McKean Moore Fund for Writers at the University, a special presentation of readings and discussions will take place April 4 and 5.

On Friday, April 4, at 8 pm, a tenth anniversary reading is scheduled featuring former Jenny McKean Moore Visiting Lecturers Marilyn Hacker, Susan Shreve, Blanche Boyd, Carol Muske, Lucille Clifton, and Julia Alvarez.

Saturday, April 5, current community workshop participants and university students will be able to meet with the Visiting Lecturers and classmates from 9:15 to 10:15 am.

Beginning at 10:30 am, in a session entitled, "Going On From Here," former Visiting Lecturers Peter Meinke, Gloria Naylor, Joan Retallack, Patrice Gaines Carter, and Faye Moskowitz will read from their works. There will be a panel discussion following the readings on the problems of beginning and sustaining productive writing lives.

Admission to all readings is free. For further information, contact the English Department, Ext. 6180.

GW TO HOST TELECONFERENCE ON PEACEFUL USES OF SPACE

A two-hour national teleconference on the peaceful uses of outer space will be broadcast from 8 to 10 pm on Friday, April 4, from the GWTV studios.

The teleconference is sponsored by the University's School of Public and International Affairs in collaboration with the United Nations Association of the United States of America (UNA-USA). It is part of a UNA-USA study to examine the prospects for international cooperation in space, and in the process, to involve American citizens in the discussion of major issues and the shaping of foreign policy.

Audiences at more than 35 participating teleconference sites across the country will be able to ask questions of recognized experts in space technology and policy.

John Logsdon, space analyst and director of the University's Graduate Program in Science, Technology and Public Policy, will be the panel moderator.

The panelists will include Roy Gibson, head of the newly established British National Space Centre and former director of the European Space Agency; John McLucas, chairman of the National Steering Committee for UNA-USA's outer space study, former executive vice president of COMSAT and former secretary of the Air Force; and Ken Pedersen, former director of NASA's Office of International Affairs, currently on leave from NASA as research professor at Georgetown University's Institute for the Study of Diplomacy.

Those interested in watching the teleconference in the Washington, DC, area, may do so in Room 402 of the Academic Center. For more information on watching the conference, call Ext. 7292.

MARTIN LUTHER KING JR. AND NONVIOLENCE IS PANEL TOPIC

"Martin Luther King Jr. and Nonviolence: Possibilities and Limitations" will be the subject of a panel discussion on Wednesday, April 2, at 5 pm, in the President's Room of the GW University Club.

The moderator will be Vice President for Academic Affairs Roderick S. French.

Panelists will include James O. Horton, associate professor of American history and civilization; James P. Chandler, professor of law; Harry E. Yeide Jr., professor of religion; and R. Paul Churchill, associate professor of philosophy.

The event is expected to last from an hour to an hour and 30 minutes. It is open to all members of the University community and to the general public.

GW SINGERS of years past, more than 250, came from around the country to their March 22 Alumni Reunion Gala. Here, Ginny Botek Gates and David Bates, share a melodious moment.

ANNUAL AWARDS SHOW OPENS IN DIMOCK GALLERY THIS WEEK

Works by GW seniors and graduate students in art will be on exhibition in the Dimock Gallery from Thursday, April 3, through Friday, April 25, in the gallery's Annual Awards Show, which includes the David Lloyd Kreeger Awards Competition.

Awards will be given for ceramics, sculptural ceramics, drawing, design, painting, photography, printmaking, sculpture, visual communication and papers in art history.

Works for the exhibition were selected by an ad hoc committee of members of the Art Department. Awards were designated by jurors from outside the University community. Jurors for the fine arts were: Gloria Monteiro, Humanities Dean for Montgomery College; Fred Folsom, artist; and Marie Martin, director of the Martin Gallery. The juror for the papers in art history was Robert Ross, professor of art history at The Catholic University of America.

The awards have been provided by Mr. David Lloyd Kreeger; Dr. and Mrs. Jerome Canter (Morris M. Aein Memorial Prize in Drawing); Mr. Robert N. Alfandre; the late Julian H. Singman, Esq.; William D. Barbee, Esq.; and Mr. Walter J. Hunt (Cecille R. Hunt Prize).

The Dimock Gallery's new hours are: 10 to 5 on Tuesday, Wednesday and Friday; 10 to 7 on Thursday, and noon to 5 on Saturday. The gallery is now closed to the public on Monday.

For more information, call Ext. 7091.

SANDRA TANGRI TO SPEAK WEDNESDAY, APRIL 3

Dr. Sandra Tangri, professor of psychology at Howard University, will speak on "Bystander Intervention: What Really Happened to Kitty Genovese?" on Thursday, April 3, at 6:15 pm, in Building GG, 2125 G Street, NW. Room 402. Her talk is the last in the Social Psychology Lecture Series., sponsored by the Department of Psychology.

Dr. Tangri has served as a senior research associate at the Urban Institute and as director of research on the U.S. Commission on Civil Rights. Admission is free. For more information, call Ext. 6320 or 7151.

WEGMANN TO DISCUSS LOOKING FOR WORK IN THE NEW ECONOMY

Robert Wegmann, professor of sociology at the University of Houston-Clear Lake and author of Looking for Work in the New Economy, will lecture on the job search process, Monday, March 31, at 7:30 pm in the Smith Hall of Art, Room A-114.

Professor Wegmann is known for his studies of job search training groups and their outcomes. His first exposure to employment and training issues came in 1970, when he served on the staff of the Subcommittee of Employment, Manpower and Poverty of the U.S. Senate.

On Tuesday, April 1, the day following the lecture, informal group discussions will be held in the Academic Center, Room T-107. At this time, both students and faculty will have the opportunity to meet Professor Wegmann and discuss his book and lecture.

The event is sponsored by the Career Services Center and the Columbian College Alumni Association. Admission is free and all interested students and faculty are encouraged to attend. For more information, Call Ext. 6496.

SPRING FITNESS DAYS ARE APRIL 1 TO 4

The Wellness Resource Center and the Department of Recreation and Intramurals are sponsoring a spring fitness event for all GW employees and students who are runners, walkers or joggers. The dates for this Fool's Pool Run, Walk and Jog Event are Tuesday, April 1, through Friday, April 4. The time and place are noon to 1 pm at the Reflecting Pool. There will be T-shirts and prizes for all participants. For more information or to sign up, contact the Department of Recreation and Intramurals, Smith Center, Room 103, Ext. 6250.

AIVARS KRASTS OF CONOCO, INC. AT SGBA ALUMNI EVENT APRIL 2

"The World Energy Outlook" will be the subject addressed by Aivars Krasts, vice president for coordinating and planning of Conoco, Inc., on Wednesday, April 2, at a luncheon in the GW University Club sponsored by the Washington, DC, Chapter of the SGBA Alumni Association. The event is scheduled from noon to 2 pm. For more information, call Ext. 7423.

MERYL SHAPIRO DANCERS TO APPEAR APRIL 4 AND 5

The Meryl Shapiro Dancers will appear on Friday and Saturday, April 4 and 5, at 8:30 pm in the Studio K Theatre. This concert will feature guest artist Roberta Rothstein and the Momentum Dance Company.

Meryl Shapiro is a master's candidate in dance. Roberta Rothstein is a lecturer in human kinetics and leisure studies.

The event is sponsored by the University's Dance Production Groups under the direction of Maida Withers, associate professor of human kinetics and leisure studies. For more information and reservations, call Professor Withers or Maria DeRose at Ext. 6577.

NEWSNOTES

PROFESSIONAL ACTIVITIES

DIANE APOSTOLOS-CAPPADONA, visiting lecturer in religion, presented two public lectures, "Art as Spiritual Autobiography: Thomas Cole's 'The Voyage of Life'" and "How Anonymous Became the Magdalene: Reflections on the Image of Woman in Religious Art," as part of the Liberal Arts Lecture Series at Wright State University on February 18.

MARCUS CUNLIFFE, university professor, spoke on "The Art of History" at the Politics and Prose Bookstore, March 5, in Washington, DC. This was one of three discussions on "The Art of Writing."

CHRISTOPHER C. JOYNER, associate professor of political science, was recently elected to the Board of Editorial Advisors of the Virginia Journal of International Law.

FRANK KAVANAUGH, Airlie Professor of Communications and executive producer of GW Television, performed in the 1986 Hexagon Revue during March, at the Duke Ellington Theatre in Washington, DC. The revue was titled, "Roast of the Town" and proceeds will benefit the Hospital for Sick Children.

JAMES E. STARRS, professor of law and forensic sciences, was elected to the board of directors of the American Academy of Forensic Sciences at its 38th annual meeting, February 12, in New Orleans, Louisiana. He delivered a paper entitled, "The Unimportance of Being Scientifically Accurate: Fanciful Frolics in Fictional Fields," at the meeting.

GALLERY TALK -- Douglas H Teller, professor of design and graphics, spoke to an appreciative audience during his March 20 talk in the Dimock Gallery.

HENRY M. STEINER, professor of engineering administration, has been invited to serve as a Visiting Scholar in the College of Engineering, University of California at Berkeley during his sabbatical leave, Spring Semester, 1987,

ROBERT H. WALKER, professor of American civilization, has had his book, Reform in America: The Continuing Frontier, nominated for the Pulitzer Prize by Professor Merle Curti. The University Press of Kentucky has nominated it for the Merle Curti Awards in both American Social and Intellectual History and the Bancroft Prize in American History.

ROBERT C. WATERS, professor of engineering administration, presented a seminar at the International Program for Port Planning and Management, under the auspices of Louisiana State University Ports and Waterways Institute and the Port of New Orleans, February 7, in New Orleans, Louisiana. He spoke on port management and the public interest: a changing perspective.

SHIRLEY M. WRIGHT, adjunct assistant professor of English, has been elected to a three-year term on the executive board of TESOL, an international professional organization for Teachers of English to Speakers of Other Languages. She has been elected to the 1986-87 Nominations Committee for the ATESL (Association of Teachers of English as a Second Language) section of NAFSA (National Association for Foreign Student Affairs).

EOP DAY -- l to r, Tracy McCleod of All Saints High School; Helen Cannaday, GW admissions representative; and Neevie Rodgers, also of All Saints, were among those taking part in the University's annual EOP Day, March 26, when students, parents and guidance counselors from DC high schools were invited to visit the campus for a program that included talking with GW students, faculty and staff. This year's students and parents numbered 113.

EMERITUS AND 25-YEAR FACULTY TO BE HONORED ON APRIL 14

Members of the University faculty who will receive emeritus status at the May commencements and those who are completing 25 years of service will be honored at a luncheon on Monday, April 14, at noon in the GW University Club.

Faculty achieving emeritus status are:

John Gage Allee Jr., professor of English;
David Springer Brown, professor of management;
Roderick Hollett Davison, professor of European history;
Frederick Chapman Green, professor of child health and development and of health care sciences;
Andrew Gyorgy, professor of international affairs and political science;
John Kaye, professor of engineering and applied science;
Sar A. Levitan, professor of economics;
N. David Nelson, professor of mathematics;
Vladimir Petrov, professor of international affairs;
Robert Poindexter Sharkey, professor of economic history;
Choy-Tak Taam, professor of mathematics;
Curtis Edward Tuthill, associate professor of psychology;
Robert James Van Houten, professor of anesthesiology; David Benson Weaver, professor of law; and
Thomas Glenn Webster, professor of psychiatry and behavioral sciences.

Faculty completing 25 years of service are:

Kristof Abraham, associate clinical professor of neurology;
Silas M. Babin, assistant clinical professor of medicine;
Edward Howard Braun, associate professor of engineering and applied science;
Victor Hugo Cohn Jr., professor of pharmacology;
Michael Graham Gallagher, professor of accountancy;
Ira David Godwin, associate clinical professor of pathology;
Sheldon Edward Haber, professor of economics;
John Thomas Hagenbucher, assistant clinical professor of medicine;
Julia Elizabeth Hicks, assistant professor of Spanish;
Arthur Proctor Hustead, clinical professor of neurological surgery;
Gerard Paul Huve, assistant professor of French;
Hewitt Kenyon, professor of mathematics;
Paul Mazel, professor of pharmacology and anesthesiology;
Henry Solomon, professor of economics;
Carl Steiner, professor of German;
George Steiner, professor of music; and
Alan William Winshel, associate clinical professor of obstetrics and gynecology.

Following a noon reception, lunch will be served at 12:30 pm. President Lloyd H. Elliott, University Marshal Robert G. Jones and appropriate deans and chairmen will take part in the program which is expected to conclude by 2 pm. Assistant Professor of Human Kinetics and Leisure Studies Honey Nashman is serving as chairman of the committee for the event, which is sponsored by the Faculty Senate. Reservations must be made by Friday, April 11. For reservation information, call the Faculty Senate Office, Ext. 7198.

STRATEGIC DEFENSE INITIATIVE DIRECTOR ABRAHAMSON TO SPEAK

Lt. Gen. James A. Abrahamson, USAF, director, Strategic Defense Initiative (SDI) Organization, will speak at the University on Tuesday, April 15, at 8 pm, in Lisner Auditorium.

His subject will be "Strategic Defense Initiative -- the Scientific Challenge." The speech is the 1986 Frank Howard Lecture, sponsored by the GW Engineer Alumni Association. The lecture is open to the public. Admission is free.

SDI is a broad research project, under the office of the Secretary of Defense, designed to examine fundamental scientific and engineering questions that may aid in developing new technologies for strengthening defense.

General Abrahamson's talk will focus on some of these new technologies. He will discuss the program's scientific achievements and the engineering and scientific barriers yet to be crossed. A brief question-and-answer period will follow his speech.

Abrahamson's career in the Air Force has included assignments as director of the MAVERICK missile program, inspector general for Air Force Systems Command and director for the F-16 Air Force Systems Command Headquarters. In November, 1981, he was appointed associate administrator for NASA's Space Transportation system. In that capacity, he guided the shuttle program into operation. He began his present assignment in April, 1984.

For further information, call the Alumni Relations Office, Ext. 6435.

TURKER OZDOGAN GIVES CERAMIC WORK TO PERMANENT COLLECTION

Associate Professor of Ceramics Turker Ozdogan has donated his work, "Melting Pot," to The George Washington University's Permanent Collection for use by the Alumni Relations Office.

A formal presentation was made on Wednesday, March 26. The large earthenware sculptural ceramic has been placed in the lounge of Alumni House at 714 21st Street, NW.

Curator of Art Lenore Miller, in accepting the gift, said in part, "Melting Pot is a symbol of GW community. It is embellished with the seal of the university. It represents a coming together of people of diverse backgrounds in search of a common goal -- a good education. There is also a pun in mind in the relaxing, melting form, so characteristic of Turker's keen sense of humor and tendency in his work to anthropomorphize the shapes of vessels."

Other works by Professor Ozdogan (also gifts to the collection) may be seen in the President's Office, the office of Columbian College Dean Clara Lovett, and in the Department of Urban and Regional Planning.

PRESENTATION -- l to r, Sandra Lear, director of alumni relations; Turker Ozdogan, associate professor of ceramics; his work, "Melting Pot;" and Lenore Miller, curator of art, the Dimock Gallery.

"WORKS BY WINNERS" IN COLONNADE GALLERY SHOW

Works of GW seniors and graduate students in the Art Department will be on exhibition in the Colonnade Gallery from Thursday, April 10, through Wednesday, May 7.

The show, "Works by Winners," will present artworks by winning students in the Dimock Gallery's Annual Awards Show which includes the David Lloyd Kreeger Awards Competition. The exhibition is sponsored by the Governing Board of the Marvin Center; the Dimock Gallery, Art Department; and the Colonnade Gallery.

The exhibition will include ceramics, sculptural ceramics, drawing, design, painting, photography, printmaking, sculpture and visual communication.

The Colonnade Gallery, on the third floor of the Marvin Center, is open from 10 am to 7 pm daily.

GW BADMINTON PLACES THIRD AT NATIONAL CHAMPIONSHIPS

The GW Women's Badminton Team earned third place at the National Collegiate Badminton Championships in March at Bryn Mawr College.

Junior Pirjo Terevainen led the Colonial Women as she reached the semi-final round of play in singles competition. Pam Errett and Karen Schmoyer also won first round singles matches for GW. The doubles team of Beth Pellowitz and Pam Errett won the consolation bracket in doubles play.

Head Coach Don Paup's squad was competing in its fifth consecutive national championship tournament. Their third place finish is the squad's best-ever ranking.

SPIA SPONSORS SPEAKERS

A number of speakers will appear on campus under the auspices of the School of Public and International Affairs in the next week.

Tomorrow, Tuesday, April 8, there are three speakers. Dr. Harry Shaw will speak on "Security Assistance as an Instrument of Policy" between 2 and 4 pm in Room 501-503 of Marvin Center. Lena Johnson of the University of Goteborg, Sweden, will discuss "Political Struggle in a Closed Society" between 2 and 4 pm in Gelman Library, Room 730.

Victor Johnson, chief of staff, U.S. House Subcommittee on Western Hemisphere Affairs, will speak on "U.S. Policy Issues in the Western Hemisphere." His speech, at 8 pm, in Marvin Center, Room 402, is co-sponsored by SPIA, the Graduate Student forum and the Student Association of CASA.

Thursday, April 10, Jorge Daly, Peruvian economist, will talk about "The International Debt Crisis and Peru" from 6:10 to 8 pm, in Building C, Room 208.

Monday, April 14, Juan Capunay, Peruvian delegate to the Organization of American States, will make a presentation on "Peruvian Foreign Policy" from 12:45 to 2 pm, in Building C, Room 310.

Tuesday, April 15, Jia Hao of Shanghai Institute for International Studies, will speak on "the Reagan Administration's China Policy: A Chinese View" from 2 to 4 pm in Gelman Library, Room 730.

All these events are open to members of the University community. Those who wish to attend the lecture by Lena Johnson of the University of Goteborg are asked to call Ext. 6340 to reserve space.

FACULTY SENATE COMMITTEE ON ATHLETICS OPEN MEETING

The Faculty Senate Committee on Athletics will have an open meeting on Friday, April 11, when John Kuester, coach of the Men's Basketball Team, will be a guest. All faculty members interested in meeting Coach Kuester and talking with him about the University's basketball program are invited to attend. The meeting will begin at 12:15 pm and will be held in the Lettermen Room (Room 104) of the Smith Center. Coffee will be served.

IN SEARCH OF EASTER EGGS -- These pre-schoolers enjoyed a successful egg hunt, March 28, in the University Yard. The event was sponsored by Sigma Alpha Epsilon Fraternity in cooperation with the D.C. Parent Child Center.

SGBA ALUMNI TO HONOR LORETTA JOAN FINNERTY

Loretta Joan Finnerty, who received her M.B.A in health care administration from the School of Government and Business Administration (SGBA) in 1969, has been selected to receive the SGBA Alumni Association 1986 Outstanding Alumni Award at a luncheon to be held at the GW University Club on Friday, April 11.

Ms. Finnerty is currently chief operating officer of Suburban Hospital, Bethesda, Maryland where she is responsible for a 375-bed, acute care, shock-trauma hospital. The hospital employs over 1300 persons and has over 800 doctors on its medical staff. She joined the hospital in June, 1979 and became administrator in June, 1980, a position she filled in an acting capacity until October, 1980, when she was selected as administrator by a search committee of the board of trustees.

All those interested in attending the luncheon, can contact the SGBA Alumni Relations Office, Ext. 7423.

GW Music

UNIVERSITY SINGERS AND LOCAL CHILDREN'S CHORUS TO PERFORM

The George Washington University Singers, under the direction of Catherine Pickar, and the D.C. Region V Children's Chorus, under the direction of Sylvie Coffey, Teresa Gilmore and Eleanor Stewart, will present a concert of folk expressions through choral literature on Tuesday, April 15, at 8 pm, in the Marvin Theatre.

Composers represented on the program include Kodaly, Brahms, Copland and Vaughan Williams. The concert is open to the public. Admission is free.

FACULTY WOMEN'S CLUB MAKES GIFT TO MUSIC DEPARTMENT

The Faculty Women's Club of The George Washington University has made a donation to the Music Department for the purchase of four music stands. A check from the club was presented to Chairman Roy Guenther in February.

GW UNIVERSITY CLUB NOTES

Members of the University community are invited to join President Lloyd H. Elliott for an informal gathering over breakfast at the GW University Club on Wednesday morning, April 9. Breakfast will be served at 8 am and an informal discussion will follow.

A round table discussion of income tax laws and possible tax changes will be held at the club on Wednesday, April 16, at 5:30 pm over an informal supper. Discussion leader will be Assistant Professor of Accountancy Nina J. Crimm.

For reservations for both of these events, call the club at Ext. 6610.

PREMEDICAL SOCIETY TO HOST ANNUAL MEDICAL SYMPOSIUM

GW will host an annual medical symposium, Friday, April 11, from 1 to 5:30 pm, in Room 413 of the Marvin Center, to provide medical school information to premedical and other interested students. Sponsored by GW's chapter of Alpha Epsilon Delta (the premedical honor society), the symposium will address issues facing premedical students at various phases of their premedical studies.

The symposium will include a series of lectures and discussions by area medical school representatives which will focus on such topics as "Debt Management," "Future Trends in Medical Practice" and "Premedical Education."

Admission is free and all interested students are welcome to attend. For more information, call Ext. 7802.

NEW DIMOCK GALLERY HOURS

Beginning this month, the Dimock Gallery has new expanded hours of operation. It is expected that the new hours will allow more people in the residential and art communities to enjoy the many exhibitions that the Dimock presents each year.

The new hours are: Tuesday, Wednesday and Friday, 10 am to 5 pm; Thursday, 10 am to 7 pm; and Saturday 12 noon to 5 pm. The gallery is closed to the public on Monday (although open for administrative work). The Dimock Gallery will also be open on the evenings of selected Lisner Auditorium performances each month.

ANNUAL RESEARCH REVIEW DAY SPONSORED BY EE AND CS

The Department of Electrical Engineering and Computer Science Institute for Information, Science and Technology is sponsoring an annual research review day on Thursday, April 10, in the GW Room of the Academic Center.

The department has arranged the review to present some recent research results and an overview of ongoing activity. The review and afternoon laboratory visits are designed to strengthen the connecting links between the department, industry and government.

For further information, contact Marilyn Henry, Ext. 7180.

GW

GW AND AU DANCERS JOIN IN FACULTY-STUDENT CONCERTS

For the third season, faculty and student dancers from The George Washington and American Universities will appear in joint concerts on Thursday, Friday and Saturday, April 10, 11 and 12 at 8 pm in the Marvin Theatre.

Works by guest artist Daniel McCusker (GW) and Myrna Packer and Art Bridgeman (both AU) will be presented as well as five student works. Tickets are $5 for the general public and $3 for students and senior citizens. Call Maria De Rosa at Ext. 6577 for more information and reservations.

POETRY READINGS

The Friday Noon Poetry Series will continue through April in the atrium at 2000 Pennsylvania Avenue. The schedule is as follows: April 11, John Harney, Tom Jackson, Joseph Raffa, Jonathan Swift, and Joanne Yerkes; April 18, David McAleavey and Terence Winch; and April 25, a group reading by members of the Jenny McKean Moore Community Workshop.

All readings are from noon to 1 pm and admission is free. For more information, call the English Department, Ext. 6180.

NEWSNOTES

PROFESSIONAL ACTIVITIES

AMITAI ETZIONI, university professor, spoke at a meeting of the DC Sociological Society, March 5, on the topic, "Socio-Economics: New Contributions of Sociologists to the Study of Economic Behavior." He has been appointed to the Advisory Editorial Board of the new Journal of Social Behavior and Personality.

RAYMOND L. PICKHOLTZ, professor of electrical engineering and computer science, presented an invited lecture on "The Technology of Spread Spectrum System" in February, to a group of over 200 engineers of the Boston area as part of the Distinguished Lecture series sponsored by the Institute of Electrical and Electronics Engineers.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Department of Medicine, Departmental Administration. (Duties include data collection and statistical analysis. Required: B.S. in the social sciences.) Contact: Ms. Shelly Winston, Director of Administration, Ext. 4031.

RESEARCH ASSOCIATE, full-time, Department of Biochemistry. (Ph.D. required with training and experience in area of stress-induced changes upon immune system parameters and neuroendocrine circuits. Preference will be given to candidates who are trained in the developmental aspects of neuroendocrinology and who have experience working with laboratory rodents in utero. Experience working with radioimmunoassay techniques is highly desirable.) Contact: Dr. Nicholas R. Hall, Dept. of Biochemistry, GWUMC, Ross Hall, Room 526.

The George Washington University is an equal opportunity/affirmative action employer.

GW ANNOUNCES PLANS TO DEVELOP CAMPUS FACILITIES IN NORTHERN VIRGINIA

The George Washington University plans to develop a comprehensive center for instruction and research in Loudon County, Virginia, President Lloyd H. Elliott has announced. Located overlooking the Potomac River, The George Washington University's Northern Virginia Center campus will be part of a tract of 576 acres, to be developed as a research and development park.

"We believe this is an exciting step and an extension of the University's traditional mission to offer our academic programs at convenient locations throughout the region, while maintaining our main campus in downtown Washington," President Elliott said.

A gift to the University of 50 acres of land on the old Bles Farm property, located 11 miles west of Tyson's Corner and six miles north of Dulles Airport on Route 7 in Loudon County, will provide the opportunity to create the first phase of a comprehensive center in Northern Virginia. Under current planning, classes will be offered at this new GW site by fall semester 1989.

The developers, the Charles E. Smith Companies and Michael Swerdlow, in a joint venture, recently purchased the Bles Farm property and will develop the remainder of the overall site. The Smith organization, headquartered in Arlington, Virginia, is a major developer of large integrated, mixed-use complexes in the Washington metropolitan area.

GW will also participate in the development of research and development properties in the balance of the 576 acre tract. The University will apply any proceeds received from its participation to further the Loudon campus. GW will also have the option of expanding its campus acreage in the park.

In the first phase of development, the University will offer programs from the professional schools and continuing education division designed to especially benefit the managerial and technical personnel of high technology firms in the area. In future years, as demands emerge and resources permit, GW will offer additional regular academic programs at the Northern Virginia Center.

A major portion of the initial University facility will accomodate graduate instruction and research under the School of Engineering and Applied Science (SEAS). Plans call for approximately 70,000 square feet for classrooms, research laboratories and support services for 500 students and 20 professional staff members.

By the end of the first

(continued on back)

CONFERENCE ON WASHINGTON AND WASHINGTON WRITING AT GW

The GW Center for Washington Area Studies is sponsoring a conference, "Washington and Washington Writing" on Friday and Saturday, April 18 and 19.

Alfred Kazin, distinguished professor emeritus of English, Graduate School, CUNY, will give the keynote address on Friday evening at 8 pm, in Room 108 of Building C. His subject will be "Washington and the American Writer: The Imagination of Power." He will be introduced by Vice President for Academic Affairs Roderick S. French. A reception will follow the lecture.

Four pairs of concurrent sessions are scheduled for Saturday, April 19. At 9 am there will be panels on Theatrical Washington and on Washington and the Small Press. At 10:30 am, panel subjects will be Recent Schools in Washington Poetry and Washington Novels and the Novelist. At 1:30 pm, panel topics will be Washington as a Scene of International Writing and Modernist Afro-American Writing and Washington. At 3 pm, panel discussions will focus on Classic American Authors and Washington and on The Library of Congress Consultancy in Poetry and Washington Writing.

During the noon lunch hour "A Place in Time: A Selection of Black Female Literary Artists" (produced by the Institute for Urban Affairs and Research, Howard University) and a slide show, "The Distance Traveled: A History" (produced by the Institute for the Preservation and Study of African American Writing) will be shown.

The closing address, at 4:30 pm , will be given by Reed Whittemore, former Library of Congress consultant and professor emeritus of English at the University of Maryland. He will discuss "The Literary Mind in the World of the Journalist."

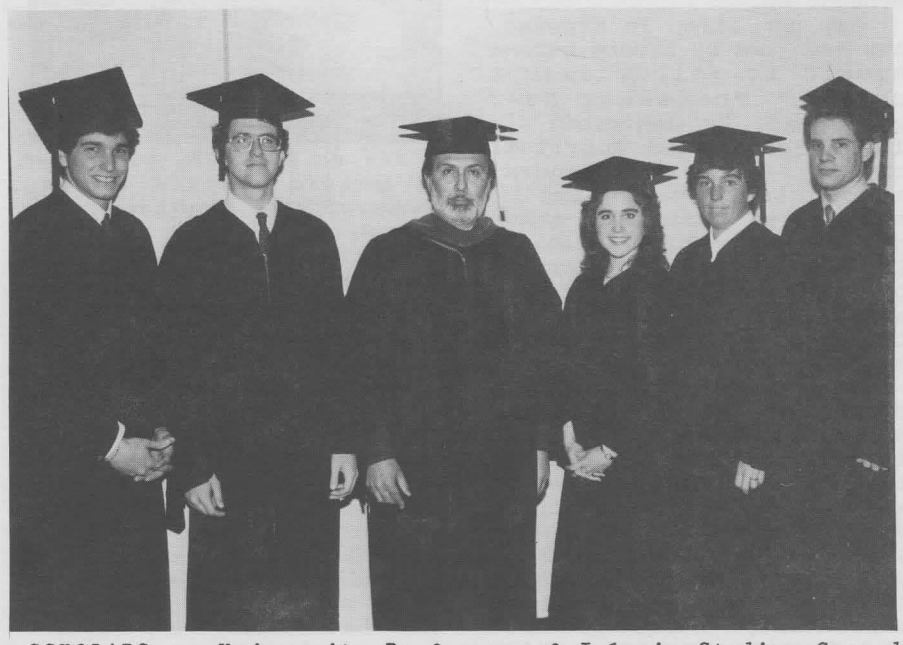
All conference sessions will be held in Building C and are open to the public without charge. Although the conference is free, registration either beforehand or at the door is required.

Washington Writing Archive Exhibits will be presented by the Gelman Library as part of the conference. The Washington Writing Archive is a new research collection now being established, designed to collect, preserve and make available materials on the entire literary scene in the Washington area. Further information and guidelines for donation will be available.

Selected papers and addresses presented at the conference will be published by the GW Center for Washington Area Studies in the summer and will be available through the Department of English. The conference is to be videotaped by GWTV.

The conference project is funded by a grant from the D.C. Community Humanities Council (an affiliate of the National Endowment for the Humanities) and by The George Washington University. For further information, call the Department of English, Ext. 6180.

UNIVERSITY PROFESSOR NASR OFFERS LONG-TERM VIEW OF HONORS



SCHOLARS -- University Professor of Islamic Studies Seyyed H. Nasr, Honors Convocation speaker, with the Distinguished Scholar Award recipients, l to r, Ira C. Gubernick, SGBA; Paul J. Wallace, Columbian College; Dr. Nasr; Alessandra E. Gruskin, SEHD; Laura L. Rose, SPIA; and Steven M. Wichtendahl, GSAS.

"Honor brings with it also responsibility," University Professor of Islamic Studies Seyyed H. Nasr told the assembled honors recipients at the University's second annual Honors Convocation in Lisner Auditorium on Sunday, April 6.

"You who are the foremost young scholars of this university, who have been given the gift of intellectual ability, the opportunity to study in exceptional circumstances, the possibility of encountering the right type of training and good teachers who have been able to bring out what existed potentially within you, you are also responsible for what has been given to you," Dr. Nasr said.

"What does responsibility mean?" he asked. "Responsibility as the root of the word shows, comes from response, an answer, a reaction or answer to a situation with which we are faced. Responsibility is to be able to react in a positive and creative way to the ambience, the environment, which surrounds us, which means, first of all, to understand what that ambience is and to exert one's self to the fullness of one's abilities to serve that ambience with whatever gifts--God-given gifts--one has and whatever one has learned.

"You are now living in a situation which is quite exceptional," Professor Nasr said, pointing out that for nearly 500 years, excellence of thought and scholarship in the West implied excellence in what was Western. "Europe was a civilization closed upon itself. ... Today, the situation has changed graphically," Dr. Nasr continued. "We are at the edge of what many philosophers call 'the paradigm shift' -- that is, we are at the edge of a time and space when there must be a major change of world view. He pointed out the growing interrelationsips between various disciplines and defined "the paradigm shift" as a move away from emphasis on a Europe-and-America centered civilization to an awareness of other civilizations and cultures.

"Today there is no problem that we can solve seriously without paying attention to a global perspective, without being able to see the significance of how other civilizations look at things" he declared, continuing, "The tragedy which we face almost every day comes from misunderstanding of other world views.

"Certainly in the future, those who have achieved selection for honor and to whom society looks for its guidance -- those who are led by the hand of destiny to lead, they must, by the force of the situation in which we live, also gain this global perspective. So

(continued on back)

DRAW ON A UNIVERSITY TRADITION

The University's Sixth Annual Chalk-In is planned for this Wednesday, April 16, between noon and 2 pm. If the weather is uncooperative, the event will be rescheduled for Wednesday, April 23.

Sponsored by the University's Counseling Center, assisted for the second year by the Residence Hall Life Art Therapy Task Force, the Chalk-In gives all members of the University community and any members of the public who may be passing by the opportunity to express their current feelings by drawing with colored chalks on the pavement in the Gelman Library Yard.

The event is planned as a study break for students who are finishing classes and preparing for finals as well as those individuals who are experiencing the mixed feelings which sometimes come with spring.

Adding to the Chalk-In's festivity will be free balloons, face painting and music.

The Chalk-In is being coordinated by Sandy Geller, the Counseling Center's coordinator of art therapy services. For more information, call her or T. Thorne Wiggers, coordinator of outreach and consultation, at Ext. 6550.

HONORS CONVOCATION

(continued from front)

really what has to be done in order to be responsible to the present situation is to be able to cross two borders, the borders that exist in the world and the cultural border of the world in which one has been brought up.

"My own life, in a sense, has been led by forces beyond myself to follow such a curve," Professor Nasr commented. He described his intellectual and spiritual odyssey for his listeners, recounting how he came to the United States to study physics as an undergraduate, then pursued studies in philosophy and religion eventually coming home to his own Persian Islamic cultural base.

His advice for young scholars was two-fold, "to have the courage, the intellectual honesty to take the problems of the times (to work for solutions) and to be deeply rooted and well trained in what you have chosen to follow -- nothing takes the place of good scholarship." He emphasized the importance, in seeking understanding of another culture, of "trying to get depth in what one is trying to learn." He said this is difficult both for the American and the international students.

Dr. Nasr concluded, "I hope the students who are honored today will always walk with this honor with a sense of pride and not squander life in such a way as at the end of life to see the sorrow and sadness of having never fulfilled themselves but that instead, they will be responsive to the challenges about us."

President Elliott and the five deans of the schools granting undergraduate degrees made the awards to the Distinguished Scholars from each of the schools. The recipients all made brief remarks.

Alessandra Elizabeth Gruskin, a senior in elementary education in the School of Education and Human Development, said she had followed her heart in becoming a teacher and that after her experience in practice teaching, she will be glad to be a "real teacher," adding that, for her, the word "student" will always be linked to the word "teacher."

Ira Craig Gubernick, a senior in accountancy, in the School of Government and Business Administration and president of the GW Student Association, commented that academic excellence is not solely something you learn in a text book. "There are two aspects," he stated, "It is the process of learning and secondly the application of knowledge for the betterment of the environment. . . . In knowledge, one finds an end to ignorance and hatred. One finds an end to prejudice and war."

SUSAN J. TOLCHIN, professor of public administration, answered many questions after her April 2 First Wednesday Lecture on "The Rush to Deregulate."

Laura Lee Rose, a senior in international affairs in the School of Public and International Affairs, spoke of her experiences as a student in Brazil and Nepal and urged all GW students, regardless of major, to study abroad. "I guarantee that your outlook on the world will be changed," she said.

Paul Judson Wallace, a senior in geology, in the Columbian College of Arts and Sciences, described his participation in a geology project in Madison, Virginia, which helped him see what is entailed in research. He said he has received a National Science Foundation three-year graduate fellowship which he intends to use for studies at the University of California at Berkeley.

Steven Michael Wichtendahl, a senior in electrical engineering, in the School of Engineering and Applied Science, told of graduating from high school almost 12 years ago and of the long road he had traveled toward the completion of his degree work.

He acknowledged the support he had received from family and friends and said, "Don't ever be afraid to admit that you need the help of others. Don't forget their support and don't hesitate to return the favor if you see someone who might need your support to get through a rough time."

All five Distinguished Scholars expressed appreciation for the opportunities they have had at the University.

The undergraduates who received Outstanding Academic Achievement Citations for their standings in the top two percent of their classes numbered 26.

The names of over 1400 students who had made the deans' lists in both the fall and spring semesters appeared in the program. This group received special recognition in remarks by Vice President French at the ceremony. He said to them, "On behalf of all my colleagues, I can tell you that you are both our dividend and our motivation."

CAMPUS FACILITIES IN NORTHERN VIRGINIA

(continued from front)

five years, the University anticipates a possible expansion of the center to approximately 200,000 square feet. Long range projections provide for expanding to the maximum space permitted on the site.

The Northern Virginia campus is expected to provide unique educational and research programs to furnish industry with a solid base for applied research. The educational programs will provide students with experience in working with industry related research. Corporations with offices and research laboratories in the park will have an opportunity to work with the University in joint research projects of mutual interest, and the University will be better able to provide the educational programs required by industry.

COLONNADE GALLERY SEEKS ART PROPOSALS

The Colonnade Gallery of the Marvin Center is seeking proposals for art exhibitions for the 1986-87 academic year. Acceptable proposals include, but are not limited to, two and/or three dimensional fiber, clay, stone and glass objects and works of art on paper; paintings, prints, photographs, books, manuscripts, maps and instruments.

The deadline is Friday, May 2. Illustrative materials, such as slides, drawings, plans and literature must accompany proposals.

To obtain a proposal form or for additional information, contact Miriam Nathan or Patrick Harford, Ext. 7469, on Mondays, Wednesdays, or Fridays.

DANCE SERIES CONTINUES

The Claudia Murphey Dance Company will perform on Friday, April 18, and Saturday, April 19, at 8:30 pm in the Studio K Theatre, 817 23rd Street. Ms. Murphey is the chairperson of the George Mason University Dance Department and a GW dance alumna.

On April 19 at 5 pm, a GW Informal Dance Concert will take place in the Studio K Theatre. Students will present their final dance projects for the semester.

The events are sponsored by the University's Dance Production Groups, Department of Human Kinetics and Leisure Studies. For more information and reservations, call Maida Withers or Maria DeRosa at Ext. 6577.

NATIONAL BIKE SAFETY WEEK INFORMATION

The Wellness Resource Center, in conjunction with the Office of Safety and Security and GW Bike, will promote National Bike Safety Week with information displays, a videotape and a bike raffle, April 22 and 23, from 11 am to 3 pm on the H Street Terrace of the Marvin Center.

The bike raffle is sponsored by the Health Services Administration Student Association. The bike is a 10-speed Schwinn. For raffle information, call Ext. 6220.

All members of the GW community are invited to attend and learn about defensive biking, great places to bike in the Washington, D.C., area, and the latest in safety equipment. For more information, call Ext. 6927 or 6947.

STRICKLAND TO DISCUSS PSYCHOLOGY'S FUTURE

Dr. Bonnie Strickland, professor of psychology at the University of Massachusetts at Amherst, will speak on "Psychology's Future: Bridging Beliefs, Behavior, and Biology," Wednesday, April 16, at 4:15 pm in Rooms 413-414 of the Marvin Center.

Dr. Strickland is the president-elect of the American Psychological Association, and will assume that office in 1987. She is considered a leader in the field of gender and health research and has been particularly interested in the interrelationship of health and behavior.

The talk, sponsored by the GW chapter of Psi Chi, the national honorary society in psychology, is open to the entire GW community. For further information, contact the Psychology Department at Ext. 6320.

GREAT MOMENTS IN MUSICAL THEATRE AND OPERA

The GWU Opera Theatre will present, "Great Moments in Musical Theatre and Opera," Saturday, April 19, and Sunday, April 20, at 8 pm in the Marvin Theatre. Scenes from Mozart's "The Magic Flute" and Bernstein's "West Side Story" will be featured.

Tickets, available at the door, will be $5 for general admission and $3 for students and senior citizens. For more information, call the Music Department, Ext. 6245.

COMPTROLLER NARAMORE TO RETIRE IN THE FALL

Fred Naramore, University Comptroller for nearly 18 years, has announced his intention to retire on September 30, 1986. Mr. Naramore has served The George Washington University as a top financial officer since October 21, 1968.

MATH AWARENESS WEEK LECTURE BY PERSI DIACONIS APRIL 18

As part of National Mathematics Awareness Week, April 14 to 20, the Departments of Electrical Engineering and Computer Science, of Mathematics, of Operations Research, and of Statistics are sponsoring a public lecture on Friday, April 18.

The lecturer will be Persi DiAconis of Stanford and Harvard Universities, and a MacArthur Prize Winner. He will speak on "The Search for Randomness" at 2 pm, Friday, April 18, in Room 108 of Building C, 2201 G Street, NW.

DiAconis says, in the abstract on his subject, "In seeking to understand the widespread use (and misuse) of probability in large models, I have gone back to take a hard look at the physical basis of randomness in processes like flipping coins and shuffling cards. I will explain the emerging theory and the light is sheds on how probability interacts with the other parts of applied mathematics."

Students are welcome and encouraged to attend. For more information, call the Mathematics Department, Ext. 6235.

BRIEFLY ...

Free Speech and Hearing Screenings -- The Speech and Hearing Center is sponsoring free speech and hearing screenings, Tuesday, April 15, from 9 am to 4 pm, in Room 407 of Building C, 2201 G Street. All faculty, staff and students are invited to take a few minutes to benefit from this service. For more information, call Ext. 7361.

Life Insurance Policy Informational Meetings -- Employees are invited to attend informational meetings regarding the new life insurance policies recently approved by the Board of Trustees. The dates, times and locations for the meetings are as follows: Hospital Cafeteria Lobby - Wednesday, April 16, 6 am to 1 pm and Thursday, April 17, 12 noon to 5 pm. Marvin Center Second Floor Lobby - Wednesday, April 23, 6 am to 1 pm and Thursday, April 24, 12 noon to 5 pm.

SDI Director to Speak Tomorrow -- A reminder that Strategic Defense Initiative Director Lt. Gen. James A. Abrahamson, USAF, will speak on "SDI - the Scientific Challenge," Tuesday, April 15, at 8 pm in Lisner Auditorium. Admission is free and open to the public.

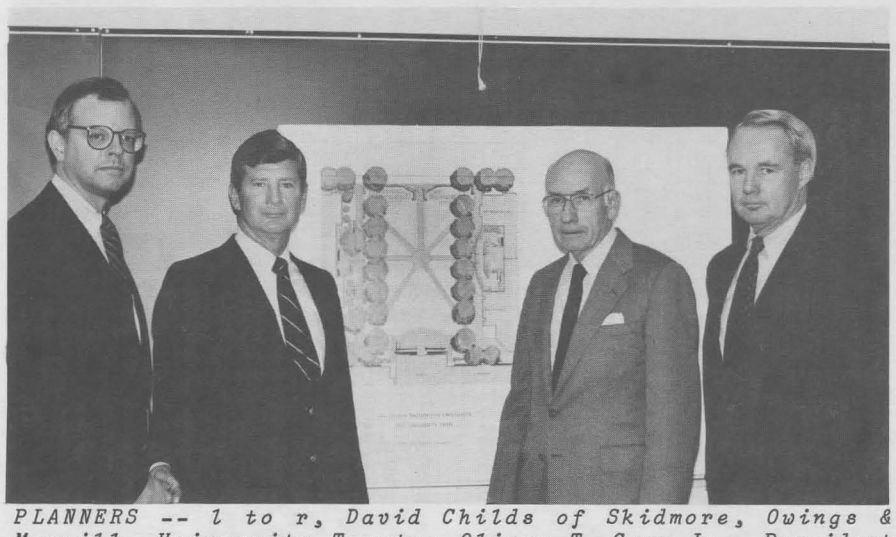
UNIVERSITY YARD PLANS PREVIEWED AT BRIEFING



PLANNERS -- l to r, David Childs of Skidmore, Owings & Merrill, University Trustee Oliver T. Carr Jr., President Lloyd H. Elliott, and Professor of Urban and Regional Planning Dorn C. McGrath Jr. with the plan for the University Yard.

The University Yard will be transformed by this time next year, according to David Childs of the architectural firm of Skidmore, Owings & Merrill.

"Next year, at this time, everything will be in and blooming," he said at a briefing on the plan developed for the University Yard by his firm.

According to Professor of Urban and Regional Planning Dorn C. McGrath Jr, the plan "has been brewing" since about a year ago when he and University Trustee Oliver T. Carr Jr. were walking along H Street, between 20th and 21st Streets and talked about how nice it would be if the yard could be a really beautiful space. "A real gem in the University's crown," was Mr. Carr's phrase.

Then began an examination of the University Yard's functions, a listing of which was given out at the briefing. Included among them were open space relief from congestion; refuge from intimidating automobile traffic; sitting/people watching, picnics, occasional parties, frisbee, touch football, kite-flying, concerts, close-order drill, platform ceremonies, and post-graduation receptions.

David Childs of Skidmore, Owings & Merrill said in his presentation, "This plan is designed for the space to be used, to be enjoyed by all of those disparate activities we have seen in the yard. We have kept as much grass as we possibly could." He described the basic system of brick paths which will follow the patterns suggested by the foot traffic in the yard.

Speaking of the new podium which will be constructed behind Lisner Hall, Childs said, "It is a design very much derived from the urban aspects of the space." The new podium will be in curved form like a stage and will have steps at either side, rather than in the center. There will be an open metal railing, lights at the sides and provision for electrical outlets. There will also be two flagpoles. It will replace the old terrace which is badly deteriorated. The brick to be used is a type that has been in used for about 250 years in Boston which has shown good resistance to freeze-thaw cycles. Upgrading of the entrances to Bell and Stuart Halls is planned to complement the new podium.

Childs called attention to the number of trees to be used at the sides of the yard and noted that the center path into the space from the H Street side will form part of the main axis that comes down from 2000 Pennsylvania Avenue. Not all the kinds of trees have been selected, he said, but sycamores have been discussed for the four corners of the yard. In the initial stages, the trees will be from five and a half to six caliper and may be 30 feet tall. They cannot be put in until cold weather.

Street-scape furniture will be placed under the trees and a number of solid teak wood benches, such as those popular in England, will be used. A new lighting system is planned, using lamp posts with the Washington globe, which is also used in parts of downtown Washington and Georgetown. The center of the space will be illuminated by lights mounted on the surrounding buildings. New trash baskets with decorative metal work will be strategically placed.

(continued on page 2)

"GEORGE CALLING" TOTALS INCREASE

Final results of the "George Calling" DC Area Phonathon hover close to $396,000 as compared with $374,00 last year. Interesting statistics include substantial increases in the average pledge and in the number of volunteer callers.

The DC Area Phonathon began on Monday, March 3, and concluded on Thursday, April 3. During that five-week period, approximately 25,000 calls were made from the fourth floor of the Marvin Center by volunteers to George Washington alumni and to parents of GW students.

The Development Office would like to thank the many members of the University community who played key roles in putting this effort together. The appreciation of the Development Office towards the University community, the Student Association and the hundreds of GW alumni who took part in "George Calling" is deeply felt.

EIGHT TO RECEIVE GW AWARDS AT SPRING COMMENCEMENTS

Eight members of the University community will receive George Washington Awards at the May 4 commencements.

The awards were established in 1976 to recognize outstanding contributions toward the enhancement of university life.

Reverend William C. Crawford of the Ecumenical Christian Ministry has been selected for the award because of his work as a member of the Board of Chaplains, for his involvement in a broad spectrum of community activities and his efforts in initiating Miriam's Kitchen and Miriam's Kitchen Volunteer Network. His outreach to individuals and groups of diverse background and interests is also commended. The award will be presented at the Columbian College Commencement.

Ira C. Gubernick, immediate past president of the Student Association and the recipient of the Distinguished Scholar Award in SGBA at this year's Honors Convocation, will be recognized for his work in the Student Association, for outstanding scholarship, for his service to Omicron Delta Kappa leadership society, and to Phi Eta Sigma honor society and for his initiative resulting in the recent establishment of a secondary field of study in business administration for undergraduate students on a university-wide basis. He will receive the award at the SGBA Commencement.

(continued on page 2)

HONORS FOR LONG SERVICE AT FACULTY SENATE LUNCHEON

Emeriti faculty elect and 25-year faculty were recognized at the April 14 luncheon sponsored by the Faculty Senate in the GW University Club.

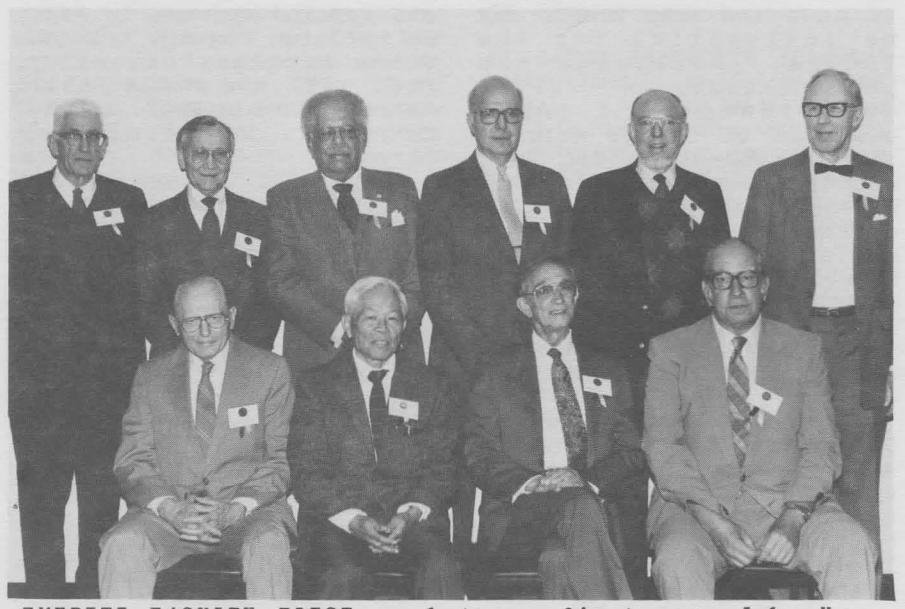
In his welcome, Professor of Philosophy William B. Griffith, chairman of the Executive Committee of the Faculty Senate, noted the contrast between many of those in the worlds of business and industry who feel it important to move often from one post to another and faculty members who give long years of service to one institution.

"Today we take time to honor those who have shown their willingness to devote themselves to the slow process of institution building, who have given persistence and continuity of effort over time. Without this, universities would not be the kind of growing places that they are," he said.

President Lloyd H. Elliott stated, "Year by year, the university has become, and continues in the process of becoming a better, stronger and more substantial university in the world of universities. The bottom line would have to say that the progress and advances we have made are largely due to the work of the faculty. The trustees of this institution thank you for that contribution. I see only steps of a similar kind of progress in the immediate years ahead. I can say to this faculty, things ahead look reasonably good and to you we are grateful."

Vice President for Academic Affairs Roderick S. French said he thinks the concept of translation reaches across languages, mathematics and has several uses in religious studies and continued, "So we salute some of our colleagues who are soon to be translated to the beatitude of emeritus status."

Speaking of the talk about the "new GW," he said, "As we think of the opportunities, we are quite clear that those opportunities flow from the dedicated service of those who have gone before. Also as I travel and talk with alumni and hear of their good memories of their time at the university I note that at the heart of that positive recollection is always the memory of some unforgettable teacher."



EMERITI FACULTY ELECT -- l to r, first row, John Kaye, Engineering and Applied Science; Choy-Tak Taam, Mathematics; Vladimir Petrov, International Affairs; Robert J. Van Houten, Anesthesiology; second row, Curits E. Tuthill, Psychology; Thomas G. Webster, Psychiatry and Behavioral Sciences; Frederick C. Green, Child Health and Development and Health Care Sciences; David B. Weaver, Law; David S. Brown, Management; and Roderick H. Davison, European History. (Absent were John G. Allee, English; Andrew Gyorgy, International Affairs and Political Science; and Sar A. Levitan, Economics; N. David Nelson, Mathematics; and Robert P. Sharkey, Economic History.)

EIGHT TO RECEIVE GW AWARDS

(continued from front)

Dr. Margaret Morrison, visiting assistant professor of English, will receive the GW Award for her leadership in establishing the GW Writing Lab and developing it into a comprehensive program for the entire University community, for assistance to countless individuals in improving their writing skills and gaining increased self-confidence, for her excellence as a teacher of composition in the classroom, the Writing Lab and in workshops for her colleagues. Her award will be at Columbian College Commencement.

Leroy O. Payton, manager of university housekeeping in the Physical Plant Department, will be receiving the award for his 21 years of service and his accomplishments as a leader, for his rapport with his staff, the students, and the University administration and his record of a high standard of care for the residence halls. The award will be made at the SEHD Commencement.

Dr. Marianne R. Phelps, associate provost, is being recognized for her years of service to the University, as dean of students, for her present leadership, for her contribution in the planning and development of the Educational Opportunity Program, her efforts in support of Affirmative Action, for her service on many committees for the betterment of the University community and for her stewardship of the Commission for the Year 2000. She will receive the award at Columbian College Commencement.

Ann E. Webster, director of housing and residence life, will receive the award for her 20 years of service to the University, for her development of and active participation in Residence Life programs, for her role in the establishment of the Colonial Women's Booster Club, of which she is currently president, and her efforts in raising funds to provide opportunities in women's athletics. The award will be presented at Columbian College Commencement.

Nina A. Weisbroth, resident director of Strong Hall, is being recognized for seven years of service to the campus community, for her leadership in numerous campus organizations including the Marvin Center Governing Board, the Housing and Residence Life Department, and the Public Administration Student Association, for her work on projects which have enhanced the reputation of the University, such as recruitment programs for Department of Public Administration, the 1983 regional conference of the Association of College Unions-International, presentations at professional meetings, and for her role as a model for aspiring campus leaders. She will receive her award at the SGBA Commencement.

Philip W. Wirtz, associate professor of management science, will be recognized for his contributions to the University's Computer Center, for his leadership with projects such as the founding of the CMS User Group, and the authoring of manuals which have enabled members of the University to become more comfortable using computers, and for talent and dedication in teaching, which is seen both in and outside the classroom. The award will be made at the SGBA Commencement.

GASTON SIGUR HONORED AT SPIA RECEPTION

RECEPTION -- l to r, Acting Sino-Soviet Director Carl Linden, President Lloyd H. Elliott, Assistant Secretary of State for East Asian and Pacific Affairs Gaston Sigur and Dean Maurice A. East of SPIA.

"My heart is here at GW. It's been 14 years since I came and that's a large chunk out of anybody's life," said Dr. Gaston Sigur, Assistant Secretary of State for East Asian and Pacific Affairs, at an April 9 reception for him sponsored by the School of Public and International Affairs and the Sino-Soviet Institute. Dr. Sigur was director of the University's Sino-Soviet Institute from 1972 until March of this year. He was sworn in as assistant secretary March 12.

"I recognize that it's people who make things work or not work," he continued. "Very little else matters. Institutions are only the people that make them up. I could not have found myself working with better people. It's been gratifying to see the growth of GW under the splendid leadership of Dr. Elliott into one of the finest institutions of higher learning in the country. . . I do want to make one thing straight," he said, "I'm leaving the directorship of the institute, but I'm on leave as a professor, I'll be back." Dr. Sigur is professor of international affairs.

President Lloyd H. Elliott presented Dr. Sigur with a desk clock and said, "This is a gift from your colleagues. I assume over there you have plenty of time to watch the clock. Seriously, I just want 60 seconds to tell you how proud the university is of you, that the university is honored with the recognition you have received with your appointment and of the distinction your appointment brings to The George Washington University."

Carl Linden, acting director of the Sino-Soviet Institute and professor of international affairs and political science, said, "I miss Gaston already. He's very skilled at doing one thing after another. He's skilled at statesmanship too. . . . He knows Japanese culture and wisdom. . . We will miss your leadership."

SPIA Dean Maurice A. East said, "It was wonderful to come here and find a robust and solid and very high prestige component for the school in the institute and it's been most valuable that I've gotten to know you personally."

TED TURNER TO SPEAK TODAY ON TV NEWS

Ted Turner, president and chairman of Turner Broadcasting System of Atlanta and of Cable News Network (CNN), will speak on, "Television News: Past, Present, Future," today, April 21, at 4:30 pm in the Marvin Center Ballroom. The lecture is open to all members of the GW community and to the general public.

Turner is expected to speak on CNN's influence in TV news and what trends may be influential for the future. Following his presentation, he will be questioned by a panel composed of George Watson, vice president of ABC News and the network's Washington bureau chief; Larry Laurent, current director of communication for the Independent Television Association and GW professorial lecturer in journalism; and Robert C. Willson, associate professor of journalism at the University.

Turner's address is the University's annual Stephen Holly Bronz lecture, and is sponsored by the University's Department of Journalism and by the student chapter of Society of Professional Journalism, Sigma Delta Chi.

CARL H. WALTHER DIES

Carl H. Walther, professor emeritus of engineering and applied science and a former assistant vice president for academic affairs, died at his home in Georgetown on Sunday, April 13. He was 74.

Professor Walther came to George Washington in September, 1939, as instructor in civil engineering. He progressed through the professorial ranks becoming full professor of engineering and applied science in 1947. He held two degrees from the Johns Hopkins University, B.E. 1931 and M.C.E. 1933. He received his Ph.D. in 1967 from the University of Maryland.

From 1942 to 1945, he was assistant to the dean of the then School of Engineering. He served as assistant dean of the School of Engineering from 1945 to 1952 and again from 1957 to 1962. Named assistant vice president for academic affairs September 1, 1966, he filled that post until his retirement in June of 1976. He received emeritus status at the May 9, 1976, commencement.

He is survived by his wife, Emily. Memorial contributions may be sent to the Gelman Library.

IMPROVISATIONS UNLIMITED DANCE COMPANY TO PERFORM

The dance company Improvisations Unlimited will be presented in concert by the University's Dance Production Groups as part of the spring dance series on Friday and Saturday, April 25 and 26, at 8:30 pm in the Studio K Theatre, 817 23rd Street, NW. For more information and reservations, call Maria De Rosa, Ext. 6577.

UNIVERSITY YARD PLANS PREVIEWED

(continued from front)

The University's rose gardens at the H Street side will be increased somewhat and there will be a low border of hedges together with a low brick wall with lights to form a gateway to the campus. Spring flowers being considered for this area include eranthis (a small white flower), crocus and daffodils. Annuals that may be used are impatiens, coleus and begonia. The yard will be cleaned up and re-leveled and irrigated by a new underground watering system.

Plans call for construction to begin in about a month and to be substantially finished, at least with grading, by the fall semester. Plantings will depend on the weather.

"We hope to do everything at once," Childs said. "We are optimistic that in our cost estimate we will be able to do all of this major change in the first phase." In answer to a question, he stated, "I believe the cost will be about $560,000 for all this work."

President Lloyd H. Elliott, in informal remarks at the end of the briefing, said, "I want to thank everyone and particularly Professor McGrath who began designing this yard, even before he came to GW, in his first walk around the campus. I want to add my thanks to Trustee Oliver T. Carr for making this possible, and to David Childs, who has brought to the plan his usual creativity, and to say that what you have put together for us is the first chapter in the redesign of the campus and sets the standard which will be carried out piece by piece and block by block as resources permit and as changes seem indicated. We hope it will not only bring further recognition and good taste to the University's environment but to the entire Foggy Bottom neighborhood."

Professor McGrath said that many people had been involved in the planning including members of the Faculty Senate Committee on Physical Facilities and students in urban and regional planning. He called attention to the exhibition on the history of the University Yard, put together by the Department of Urban and Regional Planning, the Dimock Gallery and the Gelman Library. The exhibit is mounted in the corridor of Lisner Hall, 2023 G Street, NW.

SDI DIRECTOR ABRAHAMSON OUTLINES PROGRESS AND GOALS

"This is the most difficult task and the broadest research program that this country has ever undertaken," Lt. Gen. James A. Abrahamson, USAF, director of the Strategic Defense Initiative (SDI) Organization, told an attentive audience in Lisner Auditorium April 15. His appearance was sponsored by the Engineer Alumni Association and was this year's annual Frank Howard Lecture.

General Abrahamson traced briefly the recent history of disarmament negotiations and referred to President Reagan's 1983 speech, since called the "Star Wars Speech," when he said, "Would it not be better to save lives than avenge them?"

Commenting on the various points of view on defense and disarmament, the general noted "The simplest strategy says, 'Let's take all these things (weapons) and get rid of them.' The demonstrators are perhaps the poets of our society who are saying to us, 'Let's try to assure that they are never used.' I think we all want that. The question is the means."

Pointing out that the Soviets did not return to the bargaining table until after the president's 1983 speech, Abrahamson stated, "It is the determination expressed by the people and the president and the Congress that we are going to defend ourselves and remain free but still use responsible restraint that reached them. One important exhibition of that is our determination, the president's grim determination, to go ahead with a strategic defense initiative to find a better way."

Abrahamson defined the "better way" as a defense and continued, "If we had a defense so robust, so capable that without threatening the other side, it would say 'You can't get through' and they would not strike, and then it would be perfect," said the general. "On the other hand," he continued, "if for some tragic accident, somehow they crossed that subjective point and they struck, then as good as the defense could possibly be, you would be avoiding death and destruction amongst the United States and our allies. We're trying to have a fail-safe deterrent, rather than a fail-deadly deterrent but you can't do that just by claiming it or by asserting it. You have to have the means to do it.

ANNIVERSARY -- l to r, Vice President for Student Affairs William P. Smith, Strong Hall President Suzanne Michaud, and Mr. Henry Strong, at the recent reception honoring the 50th anniversary of Strong Hall. Mr. Strong's grandmother, Mrs. Henry A. Strong gave the residence hall to the University.

"Therefore the president challenged the technical community of the United States and our allies, by the way, and many are joining us. I can tell you that right now today there are thousands and thousands of some of the most creative and the best minds in this country working on the Strategic Defense Initiative and making the technology move forward in leaps and bounds."

The general described some of the technological advances that have been made or are being made and showed his audience a group of slides, some photographs, some artist's renderings. He talked about lasers on the ground that use mirrors to reach up into the atmosphere, sensors and refrigerators to keep the sensors at the extremely cold temperatures they need, an airplane called the airborne optical adjunct with a telescope at the top, a new type of infra-red sensor which is radiation hard, the power os simulators, the use of computer models, a hemispherical sonic gyro, a cannon which works because of capacitors and galium arsonited circuits, which he said could be the next thing after silicon chips.

"We would never want to do anything in only one way," he said, "and the broad, wide range of the program is truly exciting." General Abrahamson said that if nuclear bombs should go off in space they would not do nearly the damage they would if they went off on the surface of the earth. He pointed out, "The purpose of an anti-ballistic missile is to prevent a war."

REAGAN'S CHINA POLICY: A CHINA VIEW

"Mutual understanding has greatly increased between the United States and China," said Jia Hao, a visiting scholar at the Sino-Soviet Institute from the Shangai Institute for International Studies. He discussed "The Reagan Administration's China Policy: A China View," April 14, as part of colloquium on East Asia.

According to Hao, there are two major stages in the evolution of Reagan's China policy. The first stage, from the beginning of the Reagan presidency through the spring of 1983, was marked by distrust and suspicion. Reagan's use of pro-Taiwanese rhetoric during the 1980 campaign convinced China that the U.S. was backing Taiwan in the controversy over the "true China."

The second stage, from mid-1983 to the present, has been characterized by a restored trust. Hao feels that there are two main factors which have contributed to this.

First, Reagan decided not to sell the FX Fighter Aircraft to Taiwan, and in the spring of 1983, the U.S. relaxed the high-tech control export policy toward China. Second, he says, there was a consensus in the White House that U.S.-Chinese cooperation would provide the maximum stability to the region and be a good deterrent against the Soviet Union.

Hao believes that it is in the best interests of both the United States and China that China be developed to its full economic potential. He went on to say that bilateral relations today are "not exclusively based on a common interest against the Soviet Union," but should also include cultural and social exchanges.

DR. HAROLD HIRSH TO SPEAK ON MEDICAL MALPRACTICE

Dr. Harold Hirsh, professorial lecturer in law and distinguished visiting professor of health services administration, will speak on "The Medical Malpractice Crisis" on Monday, April 28 at a noon luncheon in the GW University Club. His appearance is sponsored by the GW School of Government and Business Administration Alumni Association and the Health Services Administration Alumni Association.

Both a doctor and a lawyer, Dr. Hirsh was graduated from Georgetown University School of Medicine and received his J.D. from American University College of Law. He has served as a visiting physician at George Washington University Hospital, Sibley Hospital and the Veterans Administration. He is also a member of the Negligence Committee, District of Columbia Bar Association.

For more information, call the SGBA Alumni Relations Office, Ext. 7423 or 4803.

PERSONNEL NOTICES

ASSISTANT DEAN, full-time, to manage satellite campus with staff of 10 in Hampton, Virginia. (Responsible for development and marketing, budgets, personnel, and support facilities for broad range of graduate programs. Requirements include advanced degree, doctoral degree preferred, and experience in higher education administration. Position available in June, 1986.) Address letter of application with resume and salary requirements by May 15 to: Harriet A. Little, Assistant Dean, Division of Continuing Education, GWU, Washington, DC 20052.

COLLECTION DEVELOPMENT LIBRARIAN, full-time, Jacob Burns Law Library. (Responsible for collection development and acquisitions functions of the law library; assist with selection of new materials; deal with prospective donors; and supervise two or more personnel. Required: Masters degree from an accredited library program and experience with collection development or acquisitions in an academic setting. Experience with legal publishers and knowledge of legal bibliography preferred.) Contact: Professor Anita K. Head, The George Washington University Law Library, Washington, DC 20052.

POST-DOCTORAL FELLOW, full-time, Department of Pathology. (Individual with background in chemistry and biology. Pathology and biochemsitry of Mg-deficient animals. Must be able to do animal surgery, AAS, cell fractions and calculations.) Send resume to Mg Study, GWUMC-Pathology, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSOCIATE (postdoctoral), full-time, Department of Biochemistry. (Areas of investigation emphasize cell Ca2+ homeostasis, metabolic regulation, mitochondrial bioenergetics and phosphatidyl inositol metabolism. Experience in ion transport and fluorescence measurements of intracellular Ca2+ desirable. Available August, 1986.) Submit curriculum vitae and names of three references to: Dr. Gary Fiskum, Dept. of Biochemistry, GWUMC, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSOCIATE, full-time, Radiopharmaceutical Chemistry. (Ph.D. in bio-organic or organic chemistry to develop strong research involving radiolabeling of monoclonal antibody with radiostopes (Tc-m99, In-111, Re-186) for radio immunoimaging and therapy and design a model for tumor imaging in vivo. Required: Knowledge and experience in protein modification and analytical techniques including HPLC, TLC, GLC, GC/MS and radiochemical analysis.) Send resume and three letters of recommendation to Ms. Geri Rosen, Radiopharmaceutical Chemistry, GWUMC, 2300 Eye Street, NW, Room 708, Washington, DC 20037.

The following three positions are with The Biostatistics Center, 7979 Old Georgetown Road, Bethesda, Maryland, 20814. No phone calls please.

RESEARCH ASSISTANT, half-time. (Person with a minimum of a B.S. in Computer Science and experience with VM/CMS, PL-1, and SAS to assist with medical research studies using an IBM 4331 System.) Send resume to Joan Young.

RESEARCH ASSISTANTS, full-time. (Individuals to assist biostatisticians with management analysis of medical research studies. Minimum requirements: B.A/B.S., experience with SAS programming, and medical research experience.) Send resume to: Richard Raymond, Director of Administration.

RESEARCH ASSOCIATE (Biostatistician), full or part-time. (Person with masters in biostatistics or statistics for work in clinical trials. Assist in study design, procedures, data management and analysis. Required: One or more years experience in biomedical research and good writing skills. IBM computer experience using CMS and SAS helpful.) Send resume to Margaret Townsend.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JONATHAN D. FIFE, professor of education, presented a research paper on "Marketing Higher Education Programs: Student Profile and Expectations," at the Association for the Study of Higher Education's annual meeting, February 23, in San Antonio, Texas.

HOWARD GILLETTE, associate professor of American civilization, presented a paper with Alan Kraut, "The Evolution of Washington's Italian Community, 1890-1940," February 21, at the annual D.C. Historical Studies Conference.

LINDA GRANT DEPAUW, professor of history, delivered the annual Society of the Cincinnati Lecture, March 5, at the University of Richmond. Her topic was, "The Women in George Washington's Army." The lecture was the focus of an article appearing in The Richmond News Leader, on March 6.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, has been elected a member of the Standing Committee on International Trade for the National Association of Corporate Directors in New York.

WILLIAM HALAL, professor of management, has been awarded the George Washington Honor Medal by the Freedoms Foundation for fostering excellence in private enterprise education. The award was in recognition of his contributions to the field of strategic management. He has published approximately 30 articles on various aspects of the field, including strategic planning, the effects of technological change, the evolving role of major corporations in post-industrial society, and the future of business. He recently completed a study for General Motors Corporation that surveyed the strategic planning practices of 25 leading Fortune 500 firms.

The Graduate Program in HISTORIC PRESERVATION co-sponsored a conference on "The Politics of Preservation," held at GW on March 15. The purpose of the conference was to bring together members of the newly formed District Alliance for Preservation to develop strategies addressing the major needs, problems, and possiblities of the local preservation movement. Opening remarks were delivered by **RICHARD LONGSTRETH**, associate professor of architectural history, and a work session was chaired by **NELLIE LONGSWORTH**, adjuct professor of urban and regional planning and president of Preservation Action.

JAMES O. HORTON, associate professor of American history and civilization, presented a number of lectures during February in observance of Black History Month: on February 6, the annual Rembert W. Patrick lecture at Guilford College, Greesboro, North Carolina, "Community in Crisis: Blacks and Political Action in the Nineteenth Century"; on February 18, "Black Family and Community: A Historical Perspective," at Cobbles Mills Park, Virginia, at an observance sponsored by the National Park Service; on February 22, a comment on "The Pearl Affair" at the DC History Conference program at the Martin Luther King Library; on February 25, "Black Philanthropy: A Historical Tradition," at the United Way National Headquarters in Alexandria, Virginia; and on February 26, "Afro-American Labor," at Fort Davis for the regional library observance of Black History Month.

OUTSTANDING SENIORS IN ART Laurence Pamer (art history) left, and Lucrecia Palza (fine arts) center, with Art Department Chairman Lilien Robinson at the opening of the Dimock Gallery's Annual Awards Show, April 2. The students received the Art Department Faculty Awards presented yearly in the two fields. Pamer also received an Outstanding Academic Achievement Citation at the recent Honors Convocation.

THELMA HUNT, professor emeritus of psychology, gave a talk on remembrances of her early days at GW at the meeting of the Society of the Emeriti, on March 21. She covered many things of interest including her first contacts with the University, her student days beginning in 1921 and her eventual decision to become a professor.

THELMA Z. LAVINE, Elton Professor Emeritus of Philosophy, has been appointed Clarence Robinson University Professor at George Mason University effective September 1986, from among 400 applicants for the position. The professorship is interdisciplinary, relating philosophy to the humanities and social sciences.

CARL LINDEN, professor of international affairs and political science, has a book, Krushchev and the Soviet Leadership: 1957-1964 (published in 1966) on the Johns Hopkins University Press All-time Bestsellers List.

CLARA M. LOVETT, professor of history, spoke on "Faculty Careers in the 1980s: A Reassessment," at the American Association for Higher Education Conference, March 14, in Washington, DC. On March 21, she participated in a meeting of the Professional Division of the American Historical Association also in Washington. On March 27, she lectured at the Foreign Service Institute on "Social movements in post-war Italy."

KHALID MAHMOOD, professor of engineering, gave a lecture on "River Sedimentation: Prediction and Mitigation of Environmental Consequences," at a seminar held by the Agriculture and Road Development Section of the The World Bank, on March 28. He served as a member of the National Cooperative Highway Research Program Panel, Transportation Research Board of the National Academy of Sciences, on March 6 and 7.

BERNARD MERGEN, professor of American civilization, presented a paper, "Winter Landscape in the Early Republic: Survival and Sentimentality," in a session on "Written and Visual Perceptions of the Post-Revolutionary Landscape," at the Biennial Conference of the European Association for American Studies, March 26, in Budapest, Hungary.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, lectured on "Contemporary American Medical Ethics" March 10, in Budapest, Hungary, at the Hungarian Athletic Union Hospital and Institute.

The piano faculty of the DEPARTMENT OF MUSIC presented a piano performance workshop in the Academic Center, March 3, for piano teachers and students in the metropolitan area. Faculty participants -- **Marilyn Garst**, adjunct assiatant professor of music; **Gail Delente**, adjunct professor of music; **Frank Conlon**, adjunct assistant professor of music; **Sura Kim**, adjunct assistant professor of music; and **James Levy**, studio instructor in piano, gave talks on various problems in piano teaching and performance.
A lecture-demonstration on the Alexander technique was presented by Hillary Mayers of New York City.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, was elected a Fellow of the Washington Academy of Sciences on March 23. He was also elected a member of the Accrediting Board for Engineering and Technology (ABET), which is the accrediting body for all university engineering degrees in the United States.

JOSEPH PELZMAN, associate professor of economics, was the keynote speaker at a series of government meetings, March 10-14, in Lima, Peru, on Peru's strategy in response to changes in U.S. trade policy. He was the guest of the Peruvian Ministry of Commerce and the Inter-American Development Bank. At the meetings, he presented a recent paper entitled, "An Assessment of the Impact of the Revised U.S. Generalized System of Preferences on the Exports of Peru," and discussed two earlier papers which had been translated and published in Spanish in Intergracion Latinoamericana.

LEO P. RIBUFFO, professor of history, testified before the House of Representatives Subcommittee on National Parks and Recreation, March 4, about the possible establishment of President Richard Nixon's birthplace as a national historic site.

CHUNG-WEN SHIH, professor of Chinese, had her film "Return From Silence," a one-hour program on China's revolutionary writers, broadcast nationwide on China's Central Television on February 5 and 19.

FREDERIC R. SIEGEL, professor of geochemistry, presented a paper, "Plant-soil Chemistry in Exploration for Gold-Quartz Ores in the Appalachian Piedmont, Great Falls, Maryland," with co-author **Jan Barrows** (M.S., 1983) and E.M. Barrows at the Northeastern Meeting of the Geological Society of America. Professor Siegel co-chaired the session on geochemistry and ore deposits at the same meeting, March 12-14.

JEANNE SNODGRESS, professor of human kinetics and leisure studies, presented two papers, "Lifespan Approach to Motor Development" and "Education's Role in the Nation's Health and Fitness," at the Eastern District - American Alliance for Health, Physical Education, Recreation and Dance Conference, March 6-8, in Lancaster, Pennsylvania.

KLAUS THOENELT, professor of German, presented a paper, "Goethe's Wilhelm Meister - novels and Anthroposophic Education," at the March 8 meeting of the Anthroposophic Society of Washington, DC.
He presented a lecture on "German and American Education," at the March 20 meeting of the German Heritage Society of Greater Washington, DC.

IRENE THOMPSON, associate professor of Russian, served as a member of the National Review Board of the Rockefeller Fellowships for Foreign Language Teachers in High Schools. She also served as a reviewer for the National Graduate Fellows Program of the U.S. Department of Education.

ROBERT H. WALKER, professor of American civilization, has been appointed Fulbright Professor at the University of Uppsala for a six-month period beginning in January 1987. In addition to the normal classroom duties, he will be asked to address convocations of scholars in Europe and to assist in the development of the newly founded Swedish Institute for the Study of North America.

EIGHT TO RECEIVE GW AWARDS

(continued from front)

Dr. Margaret Morrison, visiting assistant professor of English, will receive the GW Award for her leadership in establishing the GW Writing Lab and developing it into a comprehensive program for the entire University community, for assistance to countless individuals in improving their writing skills and gaining increased self-confidence, for her excellence as a teacher of composition in the classroom, the Writing Lab and in workshops for her colleagues. Her award will be at Columbian College Commencement.

Leroy O. Payton, manager of university housekeeping in the Physical Plant Department, will be receiving the award for his 21 years of service and his accomplishments as a leader, for his rapport with his staff, the students, and the University administration and his record of a high standard of care for the residence halls. The award will be made at the SEHD Commencement.

Dr. Marianne R. Phelps, associate provost, is being recognized for her years of service to the University, as dean of students, for her present leadership, for her contribution in the planning and development of the Educational Opportunity Program, her efforts in support of Affirmative Action, for her service on many committees for the betterment of the University community and for her stewardship of the Commission for the Year 2000. She will receive the award at Columbian College Commencement.

Ann E. Webster, director of housing and residence life, will receive the award for her 20 years of service to the University, for her development of and active participation in Residence Life programs, for her role in the establishment of the Colonial Women's Booster Club, of which she is currently president, and her efforts in raising funds to provide opportunities in women's athletics. The award will be presented at Columbian College Commencement.

Nina A. Weisbroth, resident director of Strong Hall, is being recognized for seven years of service to the campus community, for her leadership in numerous campus organizations including the Marvin Center Governing Board, the Housing and Residence Life Department, and the Public Administration Student Association, for her work on projects which have enhanced the reputation of the University, such as recruitment programs for Department of Public Administration, the 1983 regional conference of the Association of College Unions-International, presentations at professional meetings, and for her role as a model for aspiring campus leaders. She will receive her award at the SGBA Commencement.

Philip W. Wirtz, associate professor of management science, will be recognized for his contributions to the University's Computer Center, for his leadership with projects such as the founding of the CMS User Group, and the authoring of manuals which have enabled members of the University to become more comfortable using computers, and for talent and dedication in teaching, which is seen both in and outside the classroom. The award will be made at the SGBA Commencement.

GASTON SIGUR HONORED AT SPIA RECEPTION

RECEPTION -- l to r, Acting Sino-Soviet Director Carl Linden, President Lloyd H. Elliott, Assistant Secretary of State for East Asian and Pacific Affairs Gaston Sigur and Dean Maurice A. East of SPIA.

"My heart is here at GW. It's been 14 years since I came and that's a large chunk out of anybody's life," said Dr. Gaston Sigur, Assistant Secretary of State for East Asian and Pacific Affairs, at an April 9 reception for him sponsored by the School of Public and International Affairs and the Sino-Soviet Institute. Dr. Sigur was director of the University's Sino-Soviet Institute from 1972 until March of this year. He was sworn in as assistant secretary March 12.

"I recognize that it's people who make things work or not work," he continued. "Very little else matters. Institutions are only the people that make them up. I could not have found myself working with better people. It's been gratifying to see the growth of GW under the splendid leadership of Dr. Elliott into one of the finest institutions of higher learning in the country. . . I do want to make one thing straight," he said, "I'm leaving the directorship of the institute, but I'm on leave as a professor, I'll be back." Dr. Sigur is professor of international affairs.

President Lloyd H. Elliott presented Dr. Sigur with a desk clock and said, "This is a gift from your colleagues. I assume over there you have plenty of time to watch the clock. Seriously, I just want 60 seconds to tell you how proud the university is of you, that the university is honored with the recognition you have received with your appointment and of the distinction your appointment brings to The George Washington University."

Carl Linden, acting director of the Sino-Soviet Institute and professor of international affairs and political science, said, "I miss Gaston already. He's very skilled at doing one thing after another. He's skilled at statesmanship too. . . . He knows Japanese culture and wisdom. . . We will miss your leadership."

SPIA Dean Maurice A. East said, "It was wonderful to come here and find a robust and solid and very high prestige component for the school in the institute and it's been most valuable that I've gotten to know you personally."

TED TURNER TO SPEAK TODAY ON TV NEWS

Ted Turner, president and chairman of Turner Broadcasting System of Atlanta and of Cable News Network (CNN), will speak on, "Television News: Past, Present, Future," today, April 21, at 4:30 pm in the Marvin Center Ballroom. The lecture is open to all members of the GW community and to the general public.

Turner is expected to speak on CNN's influence in TV news and what trends may be influential for the future. Following his presentation, he will be questioned by a panel composed of George Watson, vice president of ABC News and the network's Washington bureau chief; Larry Laurent, current director of communication for the Independent Television Association and GW professorial lecturer in journalism; and Robert C. Willson, associate professor of journalism at the University.

Turner's address is the University's annual Stephen Holly Bronz lecture, and is sponsored by the University's Department of Journalism and by the student chapter of Society of Professional Journalism, Sigma Delta Chi.

CARL H. WALTHER DIES

Carl H. Walther, professor emeritus of engineering and applied science and a former assistant vice president for academic affairs, died at his home in Georgetown on Sunday, April 13. He was 74.

Professor Walther came to George Washington in September, 1939, as instructor in civil engineering. He progressed through the professorial ranks becoming full professor of engineering and applied science in 1947. He held two degrees from the Johns Hopkins University, B.E. 1931 and M.C.E. 1933. He received his Ph.D. in 1967 from the University of Maryland.

From 1942 to 1945, he was assistant to the dean of the then School of Engineering. He served as assistant dean of the School of Engineering from 1945 to 1952 and again from 1957 to 1962. Named assistant vice president for academic affairs September 1, 1966, he filled that post until his retirement in June of 1976. He received emeritus status at the May 9, 1976, commencement.

He is survived by his wife, Emily. Memorial contributions may be sent to the Gelman Library.

IMPROVISATIONS UNLIMITED DANCE COMPANY TO PERFORM

The dance company Improvisations Unlimited will be presented in concert by the University's Dance Production Groups as part of the spring dance series on Friday and Saturday, April 25 and 26, at 8:30 pm in the Studio K Theatre, 817 23rd Street, NW. For more information and reservations, call Maria De Rosa, Ext. 6577.

UNIVERSITY YARD PLANS PREVIEWED

(continued from front)

The University's rose gardens at the H Street side will be increased somewhat and there will be a low border of hedges together with a low brick wall with lights to form a gateway to the campus. Spring flowers being considered for this area include eranthis (a small white flower), crocus and daffodils. Annuals that may be used are impatiens, coleus and begonia. The yard will be cleaned up and re-leveled and irrigated by a new underground watering system.

Plans call for construction to begin in about a month and to be substantially finished, at least with grading, by the fall semester. Plantings will depend on the weather.

"We hope to do everything at once," Childs said. "We are optimistic that in our cost estimate we will be able to do all of this major change in the first phase." In answer to a question, he stated, "I believe the cost will be about $560,000 for all this work."

President Lloyd H. Elliott, in informal remarks at the end of the briefing, said, "I want to thank everyone and particularly Professor McGrath who began designing this yard, even before he came to GW, in his first walk around the campus. I want to add my thanks to Trustee Oliver T. Carr for making this possible, and to David Childs, who has brought to the plan his usual creativity, and to say that what you have put together for us is the first chapter in the redesign of the campus and sets the standard which will be carried out piece by piece and block by block as resources permit and as changes seem indicated. We hope it will not only bring further recognition and good taste to the University's environment but to the entire Foggy Bottom neighborhood."

Professor McGrath said that many people had been involved in the planning including members of the Faculty Senate Committee on Physical Facilities and students in urban and regional planning. He called attention to the exhibition on the history of the University Yard, put together by the Department of Urban and Regional Planning, the Dimock Gallery and the Gelman Library. The exhibit is mounted in the corridor of Lisner Hall, 2023 G Street, NW.

SDI DIRECTOR ABRAHAMSON OUTLINES PROGRESS AND GOALS

"This is the most difficult task and the broadest research program that this country has ever undertaken," Lt. Gen. James A. Abrahamson, USAF, director of the Strategic Defense Initiative (SDI) Organization, told an attentive audience in Lisner Auditorium April 15. His appearance was sponsored by the Engineer Alumni Association and was this year's annual Frank Howard Lecture.

General Abrahamson traced briefly the recent history of disarmament negotiations and referred to President Reagan's 1983 speech, since called the "Star Wars Speech," when he said, "Would it not be better to save lives than avenge them?"

Commenting on the various points of view on defense and disarmament, the general noted "The simplest strategy says, 'Let's take all these things (weapons) and get rid of them.' The demonstrators are perhaps the poets of our society who are saying to us, 'Let's try to assure that they are never used.' I think we all want that. The question is the means."

Pointing out that the Soviets did not return to the bargaining table until after the president's 1983 speech, Abrahamson stated, "It is the determination expressed by the people and the president and the Congress that we are going to defend ourselves and remain free but still use responsible restraint that reached them. One important exhibition of that is our determination, the president's grim determination, to go ahead with a strategic defense initiative to find a better way."

Abrahamson defined the "better way" as a defense and continued, "If we had a defense so robust, so capable that without threatening the other side, it would say 'You can't get through' and they would not strike, and then it would be perfect," said the general. "On the other hand," he continued, "if for some tragic accident, somehow they crossed that subjective point and they struck, then as good as the defense could possibly be, you would be avoiding death and destruction amongst the United States and our allies. We're trying to have a fail-safe deterrent, rather than a fail-deadly deterrent but you can't do that just by claiming it or by asserting it. You have to have the means to do it.

ANNIVERSARY -- l to r, Vice President for Student Affairs William P. Smith, Strong Hall President Suzanne Michaud, and Mr. Henry Strong, at the recent reception honoring the 50th anniversary of Strong Hall. Mr. Strong's grandmother, Mrs. Henry A. Strong gave the residence hall to the University.

"Therefore the president challenged the technical community of the United States and our allies, by the way, and many are joining us. I can tell you that right now today there are thousands and thousands of some of the most creative and the best minds in this country working on the Strategic Defense Initiative and making the technology move forward in leaps and bounds."

The general described some of the technological advances that have been made or are being made and showed his audience a group of slides, some photographs, some artist's renderings. He talked about lasers on the ground that use mirrors to reach up into the atmosphere, sensors and refrigerators to keep the sensors at the extremely cold temperatures they need, an airplane called the airborne optical adjunct with a telescope at the top, a new type of infra-red sensor which is radiation hard, the power os simulators, the use of computer models, a hemispherical sonic gyro, a cannon which works because of capacitors and galium arsonited circuits, which he said could be the next thing after silicon chips.

"We would never want to do anything in only one way," he said, "and the broad, wide range of the program is truly exciting." General Abrahamson said that if nuclear bombs should go off in space they would not do nearly the damage they would if they went off on the surface of the earth. He pointed out, "The purpose of an anti-ballistic missile is to prevent a war."

REAGAN'S CHINA POLICY: A CHINA VIEW

"Mutual understanding has greatly increased between the United States and China," said Jia Hao, a visiting scholar at the Sino-Soviet Institute from the Shangai Institute for International Studies. He discussed "The Reagan Administration's China Policy: A China View," April 14, as part of colloquium on East Asia.

According to Hao, there are two major stages in the evolution of Reagan's China policy. The first stage, from the beginning of the Reagan presidency through the spring of 1983, was marked by distrust and suspicion. Reagan's use of pro-Taiwanese rhetoric during the 1980 campaign convinced China that the U.S. was backing Taiwan in the controversy over the "true China."

The second stage, from mid-1983 to the present, has been characterized by a restored trust. Hao feels that there are two main factors which have contributed to this.

First, Reagan decided not to sell the FX Fighter Aircraft to Taiwan, and in the spring of 1983, the U.S. relaxed the high-tech control export policy toward China. Second, he says, there was a consensus in the White House that U.S.-Chinese cooperation would provide the maximum stability to the region and be a good deterrent against the Soviet Union.

Hao believes that it is in the best interests of both the United States and China that China be developed to its full economic potential. He went on to say that bilateral relations today are "not exclusively based on a common interest against the Soviet Union," but should also include cultural and social exchanges.

DR. HAROLD HIRSH TO SPEAK ON MEDICAL MALPRACTICE

Dr. Harold Hirsh, professorial lecturer in law and distinguished visiting professor of health services administration, will speak on "The Medical Malpractice Crisis" on Monday, April 28 at a noon luncheon in the GW University Club. His appearance is sponsored by the GW School of Government and Business Administration Alumni Association and the Health Services Administration Alumni Association.

Both a doctor and a lawyer, Dr. Hirsh was graduated from Georgetown University School of Medicine and received his J.D. from American University College of Law. He has served as a visiting physician at George Washington University Hospital, Sibley Hospital and the Veterans Administration. He is also a member of the Negligence Committee, District of Columbia Bar Association.

For more information, call the SGBA Alumni Relations Office, Ext. 7423 or 4803.

PERSONNEL NOTICES

ASSISTANT DEAN, full-time, to manage satellite campus with staff of 10 in Hampton, Virginia. (Responsible for development and marketing, budgets, personnel, and support facilities for broad range of graduate programs. Requirements include advanced degree, doctoral degree preferred, and experience in higher education administration. Position available in June, 1986.) Address letter of application with resume and salary requirements by May 15 to: Harriet A. Little, Assistant Dean, Division of Continuing Education, GWU, Washington, DC 20052.

COLLECTION DEVELOPMENT LIBRARIAN, full-time, Jacob Burns Law Library. (Responsible for collection development and acquisitions functions of the law library; assist with selection of new materials; deal with prospective donors; and supervise two or more personnel. Required: Masters degree from an accredited library program and experience with collection development or acquisitions in an academic setting. Experience with legal publishers and knowledge of legal bibliography preferred.) Contact: Professor Anita K. Head, The George Washington University Law Library, Washington, DC 20052.

POST-DOCTORAL FELLOW, full-time, Department of Pathology. (Individual with background in chemistry and biology. Pathology and biochemsitry of Mg-deficient animals. Must be able to do animal surgery, AAS, cell fractions and calculations.) Send resume to Mg Study, GWUMC-Pathology, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSOCIATE (postdoctoral), full-time, Department of Biochemistry. (Areas of investigation emphasize cell Ca2+ homeostasis, metabolic regulation, mitochondrial bioenergetics and phosphatidyl inositol metabolism. Experience in ion transport and fluorescence measurements of intracellular Ca2+ desirable. Available August, 1986.) Submit curriculum vitae and names of three references to: Dr. Gary Fiskum, Dept. of Biochemistry, GWUMC, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSOCIATE, full-time, Radiopharmaceutical Chemistry. (Ph.D. in bio-organic or organic chemistry to develop strong research involving radiolabeling of monoclonal antibody with radiostopes (Tc-m99, In-111, Re-186) for radio immunoimaging and therapy and design a model for tumor imaging in vivo. Required: Knowledge and experience in protein modification and analytical techniques including HPLC, TLC, GLC, GC/MS and radiochemical analysis.) Send resume and three letters of recommendation to Ms. Geri Rosen, Radiopharmaceutical Chemistry, GWUMC, 2300 Eye Street, NW, Room 708, Washington, DC 20037.

The following three positions are with The Biostatistics Center, 7979 Old Georgetown Road, Bethesda, Maryland, 20814. No phone calls please.

RESEARCH ASSISTANT, half-time. (Person with a minimum of a B.S. in Computer Science and experience with VM/CMS, PL-1, and SAS to assist with medical research studies using an IBM 4331 System.) Send resume to Joan Young.

RESEARCH ASSISTANTS, full-time. (Individuals to assist biostatisticians with management analysis of medical research studies. Minimum requirements: B.A/B.S., experience with SAS programming, and medical research experience.) Send resume to: Richard Raymond, Director of Administration.

RESEARCH ASSOCIATE (Biostatistician), full or part-time. (Person with masters in biostatistics or statistics for work in clinical trials. Assist in study design, procedures, data management and analysis. Required: One or more years experience in biomedical research and good writing skills. IBM computer experience using CMS and SAS helpful.) Send resume to Margaret Townsend.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JONATHAN D. FIFE, professor of education, presented a research paper on "Marketing Higher Education Programs: Student Profile and Expectations," at the Association for the Study of Higher Education's annual meeting, February 23, in San Antonio, Texas.

HOWARD GILLETTE, associate professor of American civilization, presented a paper with Alan Kraut, "The Evolution of Washington's Italian Community, 1890-1940," February 21, at the annual D.C. Historical Studies Conference.

LINDA GRANT DEPAUW, professor of history, delivered the annual Society of the Cincinnati Lecture, March 5, at the University of Richmond. Her topic was, "The Women in George Washington's Army." The lecture was the focus of an article appearing in The Richmond News Leader, on March 6.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, has been elected a member of the Standing Committee on International Trade for the National Association of Corporate Directors in New York.

WILLIAM HALAL, professor of management, has been awarded the George Washington Honor Medal by the Freedoms Foundation for fostering excellence in private enterprise education. The award was in recognition of his contributions to the field of strategic management. He has published approximately 30 articles on various aspects of the field, including strategic planning, the effects of technological change, the evolving role of major corporations in post-industrial society, and the future of business. He recently completed a study for General Motors Corporation that surveyed the strategic planning practices of 25 leading Fortune 500 firms.

The Graduate Program in HISTORIC PRESERVATION co-sponsored a conference on "The Politics of Preservation," held at GW on March 15. The purpose of the conference was to bring together members of the newly formed District Alliance for Preservation to develop strategies addressing the major needs, problems, and possiblities of the local preservation movement. Opening remarks were delivered by **RICHARD LONGSTRETH**, associate professor of architectural history, and a work session was chaired by **NELLIE LONGSWORTH**, adjuct professor of urban and regional planning and president of Preservation Action.

JAMES O. HORTON, associate professor of American history and civilization, presented a number of lectures during February in observance of Black History Month: on February 6, the annual Rembert W. Patrick lecture at Guilford College, Greesboro, North Carolina, "Community in Crisis: Blacks and Political Action in the Nineteenth Century"; on February 18, "Black Family and Community: A Historical Perspective," at Cobbles Mills Park, Virginia, at an observance sponsored by the National Park Service; on February 22, a comment on "The Pearl Affair" at the DC History Conference program at the Martin Luther King Library; on February 25, "Black Philanthropy: A Historical Tradition," at the United Way National Headquarters in Alexandria, Virginia; and on February 26, "Afro-American Labor," at Fort Davis for the regional library observance of Black History Month.

OUTSTANDING SENIORS IN ART Laurence Pamer (art history) left, and Lucrecia Palza (fine arts) center, with Art Department Chairman Lilien Robinson at the opening of the Dimock Gallery's Annual Awards Show, April 2. The students received the Art Department Faculty Awards presented yearly in the two fields. Pamer also received an Outstanding Academic Achievement Citation at the recent Honors Convocation.

THELMA HUNT, professor emeritus of psychology, gave a talk on remembrances of her early days at GW at the meeting of the Society of the Emeriti, on March 21. She covered many things of interest including her first contacts with the University, her student days beginning in 1921 and her eventual decision to become a professor.

THELMA Z. LAVINE, Elton Professor Emeritus of Philosophy, has been appointed Clarence Robinson University Professor at George Mason University effective September 1986, from among 400 applicants for the position. The professorship is interdisciplinary, relating philosophy to the humanities and social sciences.

CARL LINDEN, professor of international affairs and political science, has a book, Krushchev and the Soviet Leadership: 1957-1964 (published in 1966) on the Johns Hopkins University Press All-time Bestsellers List.

CLARA M. LOVETT, professor of history, spoke on "Faculty Careers in the 1980s: A Reassessment," at the American Association for Higher Education Conference, March 14, in Washington, DC. On March 21, she participated in a meeting of the Professional Division of the American Historical Association also in Washington. On March 27, she lectured at the Foreign Service Institute on "Social movements in post-war Italy."

KHALID MAHMOOD, professor of engineering, gave a lecture on "River Sedimentation: Prediction and Mitigation of Environmental Consequences," at a seminar held by the Agriculture and Road Development Section of the The World Bank, on March 28. He served as a member of the National Cooperative Highway Research Program Panel, Transportation Research Board of the National Academy of Sciences, on March 6 and 7.

BERNARD MERGEN, professor of American civilization, presented a paper, "Winter Landscape in the Early Republic: Survival and Sentimentality," in a session on "Written and Visual Perceptions of the Post-Revolutionary Landscape," at the Biennial Conference of the European Association for American Studies, March 26, in Budapest, Hungary.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, lectured on "Contemporary American Medical Ethics" March 10, in Budapest, Hungary, at the Hungarian Athletic Union Hospital and Institute.

The piano faculty of the DEPARTMENT OF MUSIC presented a piano performance workshop in the Academic Center, March 3, for piano teachers and students in the metropolitan area. Faculty participants -- **Marilyn Garst**, adjunct assiatant professor of music; **Gail Delente**, adjunct professor of music; **Frank Conlon**, adjunct assistant professor of music; **Sura Kim**, adjunct assistant professor of music; and **James Levy**, studio instructor in piano, gave talks on various problems in piano teaching and performance.
A lecture-demonstration on the Alexander technique was presented by Hillary Mayers of New York City.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, was elected a Fellow of the Washington Academy of Sciences on March 23. He was also elected a member of the Accrediting Board for Engineering and Technology (ABET), which is the accrediting body for all university engineering degrees in the United States.

JOSEPH PELZMAN, associate professor of economics, was the keynote speaker at a series of government meetings, March 10-14, in Lima, Peru, on Peru's strategy in response to changes in U.S. trade policy. He was the guest of the Peruvian Ministry of Commerce and the Inter-American Development Bank. At the meetings, he presented a recent paper entitled, "An Assessment of the Impact of the Revised U.S. Generalized System of Preferences on the Exports of Peru," and discussed two earlier papers which had been translated and published in Spanish in Intergracion Latinoamericana.

LEO P. RIBUFFO, professor of history, testified before the House of Representatives Subcommittee on National Parks and Recreation, March 4, about the possible establishment of President Richard Nixon's birthplace as a national historic site.

CHUNG-WEN SHIH, professor of Chinese, had her film "Return From Silence," a one-hour program on China's revolutionary writers, broadcast nationwide on China's Central Television on February 5 and 19.

FREDERIC R. SIEGEL, professor of geochemistry, presented a paper, "Plant-soil Chemistry in Exploration for Gold-Quartz Ores in the Appalachian Piedmont, Great Falls, Maryland," with co-author **Jan Barrows** (M.S., 1983) and E.M. Barrows at the Northeastern Meeting of the Geological Society of America. Professor Siegel co-chaired the session on geochemistry and ore deposits at the same meeting, March 12-14.

JEANNE SNODGRESS, professor of human kinetics and leisure studies, presented two papers, "Lifespan Approach to Motor Development" and "Education's Role in the Nation's Health and Fitness," at the Eastern District - American Alliance for Health, Physical Education, Recreation and Dance Conference, March 6-8, in Lancaster, Pennsylvania.

KLAUS THOENELT, professor of German, presented a paper, "Goethe's Wilhelm Meister - novels and Anthroposophic Education," at the March 8 meeting of the Anthroposophic Society of Washington, DC.
He presented a lecture on "German and American Education," at the March 20 meeting of the German Heritage Society of Greater Washington, DC.

IRENE THOMPSON, associate professor of Russian, served as a member of the National Review Board of the Rockefeller Fellowships for Foreign Language Teachers in High Schools. She also served as a reviewer for the National Graduate Fellows Program of the U.S. Department of Education.

ROBERT H. WALKER, professor of American civilization, has been appointed Fulbright Professor at the University of Uppsala for a six-month period beginning in January 1987. In addition to the normal classroom duties, he will be asked to address convocations of scholars in Europe and to assist in the development of the newly founded Swedish Institute for the Study of North America.

CAROL HOLDEN TO BE DEAN OF CONTINUING EDUCATION

Dr. Carol Holden

Dr. Carol Holden, currently director of continuing education at Eastern Illinois University, will become dean of the University's Division of Continuing Education on July 1.

"Dr. Holden has an intelligent vision of continuing education in a research university based on broad professional experience in the field," said Vice President for Academic Affairs Roderick S. French, in announcing the appointment. "It is clear that we are on the threshold of a new chapter in the history of continuing education at The George Washington University," he continued, "and I am convinced that Dr. Holden can provide the imaginative leadership we need in order to go forward at this time."

In making the announcement, Vice President French expressed his pleasure that Acting Dean G. Edgar Jones has accepted the invitation to stay on as assistant dean for as long as his services are needed to work with Dean Holden in the reorganization of the Division of Continuing Education as called for in the Commission for the Year 2000.

Dr. Holden holds three degrees from the University of Illinois: a Bachelor of Music; an M.S. in Music Education; and a Ph.D. in Education. Her own academic field is aesthetic education. She attended the Institute for the Management of Lifelong Education at Harvard University in 1982.

Dr. Holden has both teaching and administrative experience and has participated widely in research, conferences and workshops, particularly those related to continuing education. She has been assistant professor, Department of Elementary and Early Childhood Education, University of Illinois; visiting professor, Department of Art, Illinois State University; conference program director, Division of Conferences and Institutes, Office of Continuing Education and Public Service, University of Illinois; co-director of a Historic Preservation Education Project; project director of an Illinois Cultural Studies

(continued on page 2)

SOME 2,700 TO BE GRADUATED AT THE SPRING COMMENCEMENTS

Approximately 2,700 degrees will be conferred at the University's eight May commencements. This includes the six separate ceremonies on Sunday, May 4; the National Law Center commencement on Sunday, May 18; and the ceremony of the School of Medicine and Health Sciences on Friday, May 30.

President Lloyd H. Elliott will take part in all eight commencements and will confer honorary degrees and degrees in course. The deans will give the traditional charge to the graduates at the individual ceremonies. Receptions for the graduates and their families and friends will follow each ceremony.

At the School of Government and Business Administration commencement Sunday, May 4, at 10 am in the Charles E. Smith Center, William Hodding Carter III, will deliver the address and will receive the honorary degree of Doctor of Public Service. Carter, a former assistant secretary of state for public affairs, is chief correspondent and anchorman for the PBS weekly series "Capitol Journal." Arthur Edward Buss, a former chairman of the board of the Wolcott Foundation, and a recognized expert in fire science and fire-prevention techniques, will also receive the degree of Doctor of Public Service at the ceremony. David S. Brown will receive the status of professor emeritus of management.

At the School of Public and International Affairs ceremony at 11 am in Lisner Auditorium, Lawrence Sidney Eagleburger, former undersecretary of state for political affairs, now president of Kissinger Associates, a New York consulting firm, will be the speaker and will receive the honorary degree of Doctor of Laws. Professors Andrew Gyorgy and Vladimir Petrov will receive emeritus status.

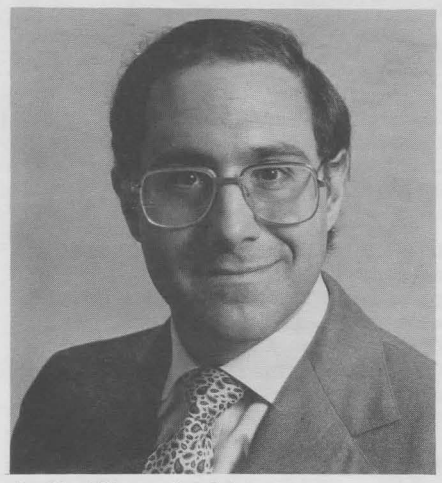
At 1:30 pm in Lisner Auditorium, at the School of Education and Human Development exercises, Rear Admiral Benjamin Thurman Hacker, USN, director, Total Force Training and Education Division, U.S. Navy, will speak to the graduates and will receive the honorary degree of Doctor of Education, honoris causa.

The Columbian College of Arts and Sciences ceremony will take place at 3 pm in the Charles E. Smith Center. Writer and educator Sissela Bok will speak and will receive the honorary degree of Doctor of Humane Letters. Gwendolyn Brooks, poetry consultant to the Library of Congress, will receive the degree of Doctor of Humane Letters as well. Seven professors will receive emeritus status. They are: John G. Allee Jr., English; Roderick H. Davison, European history; Sar Levitan, economics; David Nelson, mathematics; Robert P. Sharkey, economic history; Choy-Tak Taam, mathematics; and Curtis E. Tuthill, psychology.

(continued on page 2)

J. MATTHEW GAGLIONE IS NAMED REGISTRAR

J. Matthew Gaglione has been named University Registrar, effective July 1. He will succeed Theodore Grimm who is retiring after 15 years of service to the University, the last four as registrar.



J. Matthew Gaglione

Gaglione is currently registrar of the Polytechnic Institute of New York, a post he has held since 1953. There he implemented an integrated student information system and an on-line registration program. He previously served as assistant registrar at Queens College of the City University of New York. Before that, he was associated with New York Institute of Technology successively as bursar; admissions counselor; foreign student advisor; project director, Division of Continuing Education; and assistant registrar.

In announcing the appointment, Vice President for Academic Affairs Roderick S. French said, "The selection of Mr. Gaglione came as the result of a vigorous national search. He was the clear choice of the Search Committee and of the administration. He has both the personal qualities and the skills required to lead us into the next phase of on-line registration and computerized student records."

He holds a B.S. in business administration from New York Institute of Technology and is currently completing work for an M.B.A. at the same institution. He is a member of the National Association of Admissions Counselors and the American Association of College Registrars and Admissions Officers.

HENRY R. NAU TO GIVE MAY FIRST WEDNESDAY LECTURE

"Managing the World Economy: The Tokyo Summit" is the topic of May's First Wednesday Lecture, May 7, sponored by the Alumni Relations Office.

Henry R. Nau, professor of political science and international affairs, will be the lecturer. He will speak at 8 pm in the Marvin Theatre. Admission is free. To reserve a place, call Ext. 6435. Dinner at the GW University Club will be served for both members and nonmembers beginning at 6:30 pm. Call Ext. 6610 for dinner reservations.

SANDRA LEAR TO RETIRE, HOWARD TO SUCCEED HER

Sandra Lear, director of alumni relations since 1980, will retire on May 31. She will be relocating to Harrisonburg, Virginia, with her husband, George Orton. Ronald W. Howard, currently associate director of alumni relations, will become director, effective June 1.

Ronald W. Howard

"I have accepted Sandy Lear's resignation with regret," said Vice President for Development Michael J. Worth. "Although Sandy is leaving the Washington area, I hope that she will have many occasions to visit with her friends here at GW. I thank her for many years of dedicated service to the University and her outstanding direction of the Alumni Relations Office. Sorry as we are to see Sandy leave, we are fortunate to have, in the person of Ron Howard, someone with the knowledge and experience to take over the direction of our important alumni programs."

Sandy Lear became associated with the Development Office of the University in February of 1967. She returned to classes at GW in 1972, while continuing to work, and completed the requirements for her B.A. in psychology. She received her degree with distinction at the Winter Convocation of 1976. She moved to the Alumni Office in March of 1976 and was named director in 1980.

Ronald W. Howard came to George Washington in 1964 as an admissions counselor in the Admissions Office. He became assistant director of admissions and foreign student admissions officer before he was named director of alumni support in the Development Office in 1973. He continued in that position until September of 1980 when he became associate director of alumni relations.

Howard is a graduate of Central College in Pella, Iowa, (B.A. in English, 1956) and pursued graduate studies in student personnel work at the University of Iowa. He was among the first recipients of the George Washington Award in 1977 and has served as advisor to Omicron Delta Kappa leadership honorary. In April of 1983, he was initiated into GW's Lambda chapter of Phi Sigma Kappa.

CAROL HOLDEN *(continued from front)*

Project; and director of an Alternate Teacher Education Program at the University of Illinois.

She is currently president of the Association for Continuing and Higher Education (ACHE), Region VI. She served as a member of the Illinois Office of Education Task Force for the Arts in General Education and chairperson of the Subcommittee to write a state plan for the arts in Illinois in 1976-1977.

Her research has included analysis of data on creativity and aesthetic perception; developing a course in aesthetic education; developing an experimental program in Illinois Cultural Studies for in-service teachers based on an interdisciplinary approach; study of the efficacy and value of early field experience in teacher education; and creation of experimental lessons in music and aesthetic education with computer-assisted instruction.

Dr. Holden has worked with the Illinois Humanities Council, the Illinois Department of Energy and Natural Resources, NATO and the National Endowment for the Humanities on funded programs ranging from "Taking the Museum to the People", "Origins. . .The Evolution of Our World," a study institute on soil and clay minerals to community workshops and teacher-student learning packages in historic preservation.

Over the past 10 years, Dr. Holden has been a consultant to the Pittsfield, Massachusetts, public schools; the Cleveland Arts Council; the Los Altos, California, public schools; Utah State University and the Illinois State Board of Education and Illinois Alliance for Arts Education.

The dean-designate has written extensively in the areas of arts and historic preservation education. She describes her major interests as continuing professional education for adults, higher education administration, aesthetic education, interdisciplinary approaches to teaching, and teacher education.

As a musician, she has been a vocal and instrumental music teacher in Illinois public schools, a recording artist with the Leonhardt Consort of Amsterdam and the Concentus Musicus of Vienna, and a hornist with the Denver Symphony Orchestra.

Dr. Holden is the wife of Thomas Holden, professor of music at the University of Illinois. She and Professor Holden are the parents of three grown daughters.

FACULTY AWARDS ESTABLISHED IN COLUMBIAN COLLEGE

At the Columbian College Commencement this year, two new categories of awards will be presented. They are the Columbian College Awards for teaching excellence and for scholarly excellence. There will three recipients in each category.

The purpose of the awards is to honor members of the college's faculty who have distinguished themselves as teachers or who have made distinguished contributions to their disciplines. The awards will be given annually at the Columbian College spring commencement exercises.

The recipients have been selected by two ad hoc committees, appointed by the dean to select candidates for the two types of awards. All faculty members of Columbian College were invited to submit nominations for both types of awards. The committee on scholarly excellence was composed of six senior faculty members of Columbian College. The committee on teaching excellence consisted of three senior faculty members and three student members selected by the college's Student-Faculty Advisory Council.

GRANT OPPORTUNITY

The U.S. Army Research Institute for the Behavioral and Social Sciences is soliciting proposals for basic research for the purpose of creating a cumulative behavioral science knowledge base on which to build new technologies for improving effectiveness of Army personnel. Preference will be given to collaborative efforts, and multidisciplinary approaches are encouraged. Included are the areas of cognitive psychology, industrial/organizational psychology, human factors engineering, educational or measurement psychology, systems analysis, computer and cognitive science, anthropology and software design. Contact Helen Spencer, Office of Sponsored Research, Ext. 6255, for further details.

GW CLUB BEGINS TEA SERIES

The GW University Club is inaugurating an afternoon tea series. The first of these events is scheduled for Wednesday, April 30, from 3 to 5 pm. A special honored guest at the occasion will be Lady Denman, wife of Sir Roy Denman, head of the Delegation of the European Communities. Information concerning the role of the European Communities will be available.

There will be a display of historic regional quilts. Members of the University community are encouraged to attend. There is a fee. For further information, and reservations, call Ms. Brekka, Ext. 6610.

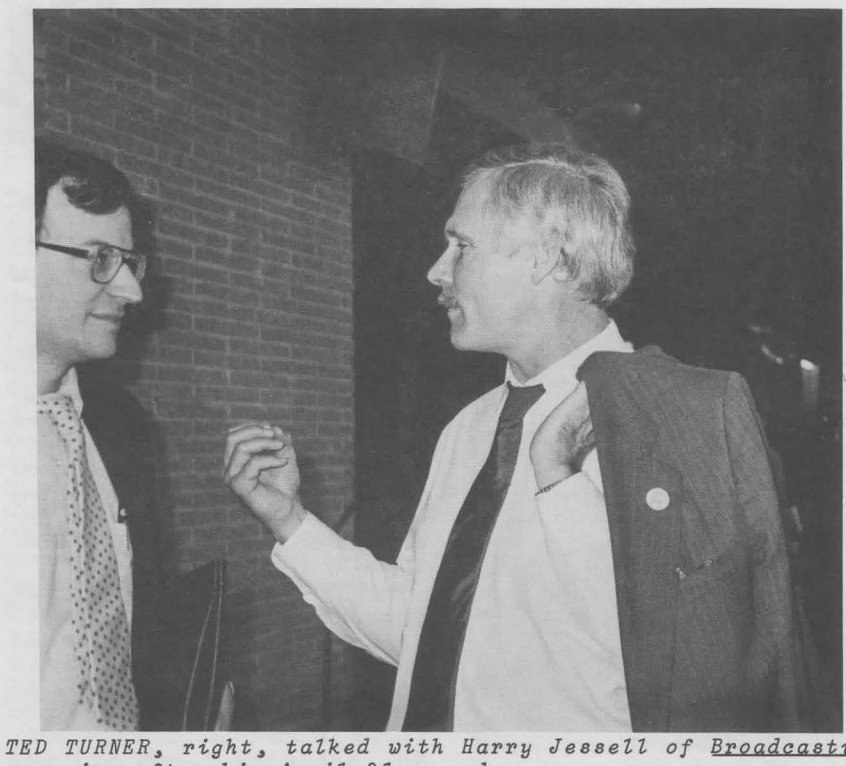
MAY 13 SERVICE AMERICA TELECONFERENCE AT GWTV

On Tuesday, May 13, the Office of Research Support and Continuing Professional Education of the School of Government and Business Administration will cosponsor a Service America teleconference with GWTV. The conference will be picked up via the National University Teleconference Network from its location at the University of Kentucky Management Center.

The conference is based on the book Service America, written by Ron Zemke, management consultant and behavioral scientist. The aim of the program is to demonstrate how both traditional and non-traditional service organizations can be "customer-friendly" and service oriented. The live, interactive teleconference will include appearances by Bill Ouchi, author of Theory Z and Ken Blanchard, author of the One Minute Manager books.

There is a discount registration fee available for GW faculty, staff and students. Registration includes a copy of the book Service America and a participant's manual. Call Gail Owen, Ext 8175, for more information.

CNN'S TED TURNER SPEAKS ON CAMPUS



TED TURNER, right, talked with Harry Jessell of Broadcasting magazine after his April 21 speech.

"I'm trying to bring peace to the world," Ted Turner, president and chairman of Turner Broadcasting System of Atlanta and of Cable News Network, declared emphatically at the end of his session here at GW on Monday afternoon, April 21, in the Marvin Center ballroom.

Turner's speech was the University's annual Stephen Holly Bronz Lecture and was sponsored by the Department of Journalism and the student chapter of the Society of Professional Journalism, Sigma Delta Chi.

"We've got to get along with everybody in our country and our world," he said. "We have differences of opinion sure, but we have to have respect for others. You can say 'We're right, other people are right too.' We have religious tolerance and racial tolerance, now we have to have political tolerance."

In a wide ranging discussion of the topic "Television News: Past, Present and Future" the day after his appearance on the CBS program "60 Minutes," Turner said he thinks the affiliated stations will stay with the networks, rather than selecting programs from a variety of distributors, such as his own organization. "I don't think the network strength is too threatened," he said. He talked about the reach of CNN now via satellite and outlined plans for further expansion. "We don't cover the entire world but we want to cover the entire world," he said.

The largely student audience seemed intrigued with some of his accounts of conversations with executives and owners of other networks, particularly with regard to negotiations for purchases and takeovers.

Turner does not forsee sweeping changes in television news coverage in the next few years. "I really don't think it will be significantly different than it is today," he commented. He traced what he sees as the changes brought about in ABC, NBC, and CBS news programming due to the innovations introduced by CNN in the last few years, pointing out particularly the greater availability of TV news, which he said is now offered from 15 to 18 hours a day, and the broadcasting of news from 6 to 7 am, started by CNN.

The broadcasting executive answered a wide range of questions following his remarks. In response to a query about the lower salaries said to be paid by CNN, he said, "Yes, we pay less but there are 1,200 more people working in journalism because of us." Asked how he feels about the conflict between the need to get the news out and the individual's right to privacy, such as at the time of a tragedy like a fire, he answered, "It's a tough call. I call it shotgun journalism. I worry about it. We're trying to do better with it. The reputable broadcasters do agonize about it."

Turner said he hopes the Goodwill Games to be telecast from the Soviet Union, beginning on July 5, will have a large number of viewers since he feels the telecasts will give a good insight into the Soviet people. "The Soviet people want to be our friends," he declared.

SPRING COMMENCEMENTS *(continued from front)*

At the School of Engineering and Applied Science, W. Edwards Deming, consultant for management quality, will be the speaker and will receive the honorary degree of Doctor of Public Service. The SEAS commencement is scheduled for 4:30 pm in Lisner Auditorium. Professor John Kaye will be awarded emeritus status.

At the Graduate School of Arts and Sciences exercises at 7:30 pm in Lisner Auditorium, the graduates will be addressed by Phyllis Franklin, executive director of the Modern Language Association. She will receive the honorary degree of Doctor of Humane Letters.

Sunday, May 18, is the date of the National Law Center Commencement in the Smith Center. Former Virginia Governor Charles Robb will speak and will receive the honorary degree of Doctor of Laws at the 1:30 pm ceremony. Robb is now associated with the Richmond-based law firm of Hunton & Williams. Professor of Law David B. Weaver will receive emeritus status.

Friday, May 30, at 11 am in Lisner Auditorium, graduates of the School of Medicine and Health Sciences will hear Dr. James Barnes Wyngaarden, director, National Institutes of Health, and see him receive the honorary degree of Doctor of Science, honoris causa. Professors Frederick C. Green, Robert J. Van Houten and Thomas G. Webster will be made professors emeritus.

AWARDS PRESENTED FOR EXCELLENCE IN STUDENT LIFE

The first annual "Excellence in Student Life" awards were presented April 18 at a ceremony in the University Club to recognize outstanding student contributions to University life. Awards were given in three areas: chartered campus organizations, registered campus groups, and the Baer Awards for Individual Excellence.

Awards for chartered campus organization were presented to the designated leader of each organization, to each organization's "Most Valuable Person" (MVP) and for the program which each organization wished to highlight as its most outstanding of the year. The recipients of the awards for the six groups chartered by the University Board of Trustees were:

Cherry Tree
Leader: Edward Howard
MVP: Simon Dickens
Program of the Year: "DC: City of Contrasts" (essay)

GW Hatchet
Leader: Alan R. Cohen
MVP: Jenifer Clement
Program of the Year: "Diversions" (Arts and Music section)

GW Student Association
Leader: Ira Gubernick
MVP: Scott Sherman
Program of the Year: The Greek Service Awards

Marvin Center Governing Board
Leader: Bernard Lesavoy
MVP: Robert Goldberg
Program of the Year: Assignment of Office Space to 42 Organizations

Program Board
Leader: Frank Farricker
MVP: Maura Donnelly
Program of the Year: The Harry Lalor Lecture Series

Residence Hall Association
Leader: Mitchell Schuckman
MVP: Karen Schiebel
Program of the Year: The Muscular Dystrophy Association Superdance

The Student Handbook lists registered campus groups under 12 categories which were used to define the areas in which the program awards could be given. Organizations were invited to nominate one or more of their programs and/or service activities for consideration. This year awards were presented in five categories:

Academic Departmental: National Law Center Homecoming '85
Greek: Greek Crush II
Political: Political Awareness Week
Student Representation: Milton Hall Fruit Basket Fundraiser
Student Representation: Madison Mexican Fiesta

The Baer Awards for Individual Excellence recognize individuals whose contributions to student life have transcended the activities of any one or more groups with which they are affiliated. They are given in the memory of Mr. David A. Baer, A.B., 1910; LL.B., 1912. Mr. Baer was broadly active in campus co-curricular life and was the founder and first president of the Pyramid Honor Society. The Baer Awards honor individual excellence in the areas of citizenship, leadership or service. This year's six recipients were:

Paul J. Barkett (leadership) - SGBA Senior
Kym D. Beverly (service) - SGBA Senior
Steven L. Frick (leadership) - Columbian College Senior
Jane E. Henriques (leadership) - SPIA Junior
M. Akbar Khawaja (service) - SEAS Ph.D. candidate
Richard L. Santos (leadership) - Columbian College Senior.

The individual presentations were made by Mrs. David Baer and President Lloyd H. Elliott.

In brief remarks, Mrs. Baer said, "I am proud to give these awards in memory of my husband. He was active in all phases of campus life. I hope that you will have the strength of your convictions to get involved and leave the world a little better than when you came. Congratulations to all of you."

President Lloyd H. Elliott commented, "As we look back some 75 years now to that period when David Baer was an undergraduate, GW was not located in Foggy Bottom. It was different but it's that recognition of leadership which we are re-establishing today which I feel is very important to the life of The George Washington University. I look upon the student life outside the classroom as an essential component of a broad education. Student activities provide a completeness, a richness, a rewarding kind of experience. In 1910 and 1908, before the world was plunged into World War I, there was a kind of optimism which said, 'Life is rich and full, let us encompass all of it. The world can be a better place. Let's each of us do a small bit to see that it is.'"

To Mrs. Baer, Dr. Elliott said, "You have given not only substance but inspiration. We glow in the tradition which you and your husband have helped us to re-establish."

Richard Santos, in a sponataneous "thank you" on behalf of his fellow recipients, said, "I've been involved in a lot of things at GW. We're trying to serve the GW community and develop traditions and loyalties. Extracurricular activities help develop a person as an individual. I leave GW with the content of my character enriched."

Professor Alan Wade, chairman of the Department of Communication and Theatre, guided the program from beginning to end. University Trustee Nancy B. Dudley, chairperson, Student Affairs Committee of the Board of Trustees, presented awards to chartered campus organizations. Claudia J. Derricotte, director of student activities, made the presentations to registered campus groups. Vice President for Student Affairs William P. Smith gave a historical perspective in remarks before the presentations.

BAER AWARD -- l to r, President Lloyd H. Elliott, Mrs. David Baer, and M. Akbar Khawaja, one of six recipients of the Baer Award for Excellence in Student Life, given for the first time April 18. Khawaja is a doctoral candidate in SEAS.

KENNEDY CENTER PARKING ENDS

The last day for parking at the Kennedy Center for spring, 1986, will be Friday, May 9. Temporary summer parking will be available beginning Saturday, May 10. Staff members who are interested in on-campus parking during the summer may go to the Parking Office in the University Garage, 2211 H Street, NW, beginning Monday, May 5, where their parking assignment, to be effective May 10, will be made.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Department of Biochemistry. (Position entails the study of the role of peptides in the development and regulation of small cell lung cancer. Required: B.S. in biochemistry or related discipline and minimum of one year's laboratory experience. Experience in neuropeptides, radioimmunoassay, receptor binding assays and second messenger production helpful.) Contact: Dr. T.W. Moody, Dept. of Biochemistry, Ross Hall, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSISTANT, full-time, Department of Medicine, Infectious Diseases Laboratory. (Individual to study pathogenesis of intestinal protozoal infection. Required: B.S. with background in biochemistry, immunology, and bacteriology and one year of relevant experience. Experience in tissue culture, column and gel chromatography desired.) Contact Dr. Parenti, Ext. 5558.

RESEARCH ASSISTANT, full-time, Department of Physiology. (Required: B.S. degree in science, laboratory experience in endocrinology and animal research.) Send resume to Dr. J. Kelleher, Dept. of Physiology, GWUMC, Ross Hall, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSISTANT, full-time, Radiation Oncology Branch of the National Cancer Institute. Person to provide speciaized care for patients at the Radiation Oncology Branch of the NCI. Includes nursing, teaching and research responsibilities.) Contact: Dr. Bradley, Ross Hall, Room 708, Ext. 3466.

The George Washington University is an equal opportunity/affirmative action employer.

DONALD A. RUNYON BECOMES GW ASSISTANT TREASURER

Donald A. Runyon, who has been serving as director of auxiliary services, has been appointed by the Board of Trustees to succeed John C. Einbinder as assistant treasurer for business affairs.

Runyon was director of business services at Ithaca College in New York for four and a half years before coming to the University in 1985. He holds degrees from the Michigan State University (B.S. in psychology 1968) and the University of Nebraska (M.A. in Ed. 1970). He attended the Business Management Institute at Stanford University. Runyon and his wife, the former Linda Parseghian, live in Falls Church, Virginia. They are the parents of two sons, Craig and Brent.

U.S. REP. OWENS TO SPEAK TO FRIENDS OF THE LIBRARIES

U.S. Representative Major R. Owens of the 12th Congressional District of New York will address the annual meeting of the Friends of the Libraries on Thursday, May 8. He will speak on "Libraries and National Security."

The dinner and program are scheduled for 7:30 pm in the GW University Club. The dinner will be preceded by a 6:30 pm social hour in Gelman Library's Department of Special Collections. The exhibition "Washington, D.C.: Public Works/Private Works," opens that day in Special Collections. The Friends annual gift to the library will be presented during the pre-dinner hour.

A librarian by profession, Congressman Owens continues to monitor issues that will impact libraries, including the administration's efforts to contract out federal library services. In 1982, as chair of the Congressional Black Caucus Education Braintrust, Owens directed a Capital tribute to Dr. E.J. Josey, a noted black librarian and president of the American Library Association, to muster public support for federal funds for libraries. The congressman has written numerous articles on library-related issues, including "Report of the First Librarian in Congress: Strategies for Counter-attack in the Executive Branch 'War on Libraries'."

For more information on the Friends annual meeting and dinner, call Ext. 6455.

MFA THESIS SHOWS AT DIMOCK IN MAY

Works by George Washington University students who are candidates for the Master of Fine Arts degree will be on view in the Dimock Gallery in two exhibitions in May -- the first from May 1 to 15, the second from May 19 to 30.

The shows will include works from the disciplines of ceramics, design, painting, printmaking and visual communication. The student artists whose work will appear in the first show (May 1 to 15) are H. Elizabeth Black, Vudhina Chuchom, Jacqueline Lee, James L. Luby, Kwanchai Rochanart, Mark M. Stafford, Helen Cerra Ulan and Kyung Ock Yang. The second show (May 19 to 30) will feature Dean Taylor Drewyer, J. Yates Miller Jr., Robbie Namy, Janice G. Rosenthal, Karen Seebohm, Sherrill Toole, Carrie Elizabeth Turrell, Gertrude Wetmore and Wilma Caroline Wooden.

Dimock Gallery hours are: Tuesday, Wednesday, Friday, 10 a. m. to 5 p.m.; Thursday, 10 a.m. to 7 p.m.; Saturday, from noon to 5 p.m., open for special performances and closed to the public on Monday. Admission is free.

NEWSNOTES

PROFESSIONAL ACTIVITIES

PETER J. CAWS, university professor of philosophy, was the outside speaker at the annual in-house colloquium of the Philosophy Department at the State University of New York-Stony Brook. He presented a paper entitled, "Are there (ever) incorrigible first-order representations?"

ANTHONY COATES, professor of geology, gave an invited lecture, "The ecological and evolutionary significance of clonal organisms with particular reference to corals and the geologic history of reefs," to the graduate students and faculty of the Biology and Geology Departments of the University of Maryland, College Park, March 21, and to the Bloomington and Indianapolis campuses of the University of Indiana at Indianapolis, on March 24. He has recently been re-elected to membership on the International Association of Biological Oceanographer's Special Reef Committee which will organize the Sixth International Meeting on Coral Reefs in Canberra, Australia, in 1988.

MARCUS CUNLIFFE, university professor, presented a paper on "Republicanism, Democracy, and a Distinctive American Utterance," at the biennial conference of the European Association for American Studies, Budapest, Hungary, on March 25.

ERNEST J. ENGLANDER, assistant professor of business administration, presented a paper on "Inside Contracting in the 19th Century Factory," at the National Business History Conference, March 14, in Columbus, Ohio.

AMITAI ETZIONI, university professor, addressed the Eastern Sociological Society Program 1986 on "Sociology as an Agent of Social Change," April 4. On April 17, he addressed the Greater Washington Board of Trade on "The World Class University that our City has Become."

JONATHAN D. FIFE, professor of education, participated in a panel, "Evaluating the Graduate Higher Education Experience," at the 1986 National Conference on Higher Education sponsored by the American Association for Higher Education, March 13, in Washington, DC.

RODERICK S. FRENCH, professor of philosophy, was elected to the board of directors of the National Humanities Alliance (NHA) at its annual meeting, April 9, in New York. The NHA seeks to influence national policies and programs affecting the humanities. Members include the professional societies of the humanities disciplines as well as such organizations as the American Council of Learned Societies, the Association of Research Libraries and the American Association of Museums.

HAROLD LIEBOWITZ, professor of engineering and applied science, has been appointed to a United States National Academy of Engineering committee to review for the National Science Foundation "whether it should initiate support activities to help generate 'revolutionary' technologies for the civilian economy."

RICHARD LONGSTRETH, associate professor of architectural history, spoke at a symposium jointly sponsored by the National Conference of State Historic Preservation Officers and Preservation Action, March 25, in Washington, DC. The topic was "The Preservation Partnership: Does It Have a Future?" He also spoke at a session on the use of facadism in historic preservation at the bi-annual meeting of the American Institute of Architects Historic Resources Committee in Washington, DC, on March 31. He chaired the plenary session, "Architecture, Public Image, and Public Interests," at the annual meeting of the Society of Architectural Historians, April 3, in Washington, DC.

CLARA M. LOVETT, professor of history, was the keynote speaker, with IBM Senior Vice President and Kent State University Trustee George Janik, at the annual meeting of the Michigan Association of Governing Boards, in East Lansing, Michigan, on April 9.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, gave a presentation on "The Role of Ethics Committees in Community Hospitals" at Howard County General Hospital's Ethics Symposium , April 10, in Columbia, Maryland.

GAIL PASTER, associate professor of English, gave an illustrated talk at a luncheon of the Friends of the Folger Library entitled, "Entertaining London," on February 11. March 27-29, she attended the annual meeting of the Shakespeare Association of America in Montreal, Canada. She chaired a seminar entitled, "Shakespeare and Renaissance Philosophy: Stoicism and Epicureanism."

LOIS G. SCHWOERER, professor of history, spoke on "The Trial of William Lord Russel: Judicial Murder?" at a midday colloquium, March 21, at the Folger Shakespeare Library, in Washington, DC. On April 11, she spoke on "The Concept and Image of Queenship in the Politics of the Glorious Revolution" at a conference on "The Images of Monarchy in Late Seventeenth-Century England"at the Folger Shakespeare Library, sponsored by the Folger Institute Center for the History of British Political Thought.

PUBLICATIONS

ALEX ANCKONIE III, associate professor of business adminstration, an article, "A Portfolio-Theory Explanation of the Changed Share of Oil-Exporting Countries in the World's Oil Market," in American-Arab Affairs, Winter 1985-86, pp. 65-70.

MURIEL ATKIN, associate professor of history, an article, "Soviet Attitudes toward Shi'ism and Social Protest," in chapter 11 of Shi'ism and Social Protest, Juan Cole and Nikki Keddie, eds. (Yale University Press, 1986).

WOODROW BARFIELD, visiting assistant professor in engineering adminstration, a chapter "Human-Computer Supervisory Performance in the Operation and Control of Flexible Manufacturing Systems" in the book Flexible Manufacturing Systems: Methods and Studies, and an article, "Expert-Novice Differences for Software: Implications for Problem-Solving and Knowledge Acquisition," in the Journal of Behavior and Information Technology.

AMITAI ETZIONI, university professor, an article, "Mixed Scanning Revisited," in the Public Administration Review, Vol. 46, No. 1 (January/February, 1986), pp. 8-14.

STEPHEN FULLER, professor of urban and regional planning, an article, "Services Sector Leads County's Economic Growth," in Economic Focus (Montgomery County Economic Development in Review, 1986).

CHRISTOPHER C. JOYNER, associate professor of political science, an article, "Legal Implications of the Concept of the Common Heritage of Mankind," in the International and Comparative Law Quarterly, Vol. 35, 1986, pp. 190-99.

MARVIN KATZMAN, associate professor of business administration, an article, "The Analytic Hierarchy Process as a Tool for Strategic Management," in the January-March, 1986, issue of Decision.

MARILYN LIEBRENZ, associate professor of business administration, with co-author Stanley Paliwoda, University of Manchester, England, two chapters, "Technology Transfer to Eastern Europe" and "Technology Transfer Within Eastern Europe," in the book, Technology Transfer: Geographic, Economic, Cultural and Technical Dimensions, A. Cascan Sannli, ed. (Quorum Books, 1985).

JOHN LOBUTS, associate professor of management science, an article, "Risk-Free Decision Making," co-authored with Carol Pennewill, in the Journal of Business Ethics, Vol. 5, No. 1, February, 1986.

RICHARD LONGSTRETH, associate professor of architectural history, an article, "J.C. Nichols, the Country Club Plaza, and Notions of Modernity," Harvard Architecture Review, 5 (1986), pp. 121-135.

NADINE NATOV, professor of Russian, an article, "The Theme of 'Chantage' (Blackmail) in The Possessed: Art and Reality," in Dostoevsky Studies, Journal of the International Dostoevsky Society, Vol. 6, 1985, pp. 3-33.

GAIL KERN PASTER, associate professor of English, a book, The Idea of the City in the Age of Shakespeare, University of Georgia Press, October 1985.

GEORGIA M. ROYALTY, coordinator of training at the Counseling Center, two articles, "The Environment and the Student in Counseling Psychology: Does the Research Training Environment Influence Graduate Students' Attitudes Toward Research?" and "The Research Training of Counseling Psychologists: What the Professionals Say," in The Counseling Psychologist, Vol. 14, No. 1, January, 1986.

ORMOND SEAVEY, associate professor of English, co-editor with Stephen Donadio and Stephen Railton, of Emerson and His Legacy: Essays in Honor of Quentin Anderson, Southern Illinois University Press, January 1986.

CARL STEINER, professor of German, a review on Lionel B. Steiman's book Franz Werfel: The Faith of an Exile, From Prague to Beverly Hills, in the German Studies Review, Vol. IX, February, 1986, pp. 169-170.

JOHN M. VLACH, associate professor of American civilization and of anthropology, co-editor with Dell Upton of Common Places: Readings in American Vernacular Architecture, University of Georgia Press, December 1985.

SHARON WOLCHIK, associate professor of international affairs and political science, edited a book with Alfred G. Meyer, Women, State and Party in Eastern Europe, Duke University Press, Durham, North Carolina, 1986.

ACADEMIC PROCESSION -- University Marshal Robert G. Jones, left, and Columbian College Dean Clara Lovett headed the procession coming into the Charles E. Smith Center before the May 4 Columbian College commencement. Board of Trustees Chairman Everett G. Bellows can be seen between them.

QUOTABLE FROM MAY 4 COMMENCEMENT SPEAKERS

(Editor's Note: Speakers at the six May 4 Commencement ceremonies touched on a wide range of subjects. Brief reports on their remarks follow.)

William Hodding Carter III, former assistant secretary of state for public affairs and host of PBS Series "Capitol Journal," at the School of Government and Business Administration, likened today's society to the world into which he graduated from Princeton 20 years ago when Life magazine branded his contemporaries "The Silent Generation." Commenting that "involvement, despite the labels, became the name of the game," he told the graduates, "Choice is going to confront you too."

Carter, who went from college directly into the Marine Corps, said, "National service was supposed to go with the territory in those days, and frankly, I am sincerely sorry for you and the nation that national service is no longer considered a fit obligation for most Americans. Your generation could do the republic no higher favor than to restore the notion of national service as the centerpiece of civic responsibility."

Lawrence S. Eagleburger, president, Kissinger Associates and former undersecretary of state for political affairs, addressing School of Public and International Affairs graduates, talked about the concept of collective responsibility on the part of Western democracies, with reference to events of recent weeks.

The aftermath of the U.S. attack on Libya was both instructive and disquieting with regard to our trans-Atlantic relationships, he observed. "We are told by some in the United States and many in Europe, that if we respond violently, we will only contribute to the cycle of violence. The logic of that argument is that the current level of violence is acceptable; therefore we should not respond, because to do so might increase the level of terror, which would not be acceptable." He continued, "That, I submit, is the logic that led Chamberlain to Munich." Eagleburger said he regretted having to criticize West European allies, but that "while they decry our use of force, not one West European government was willing to cooperate with us in measures, which, taken collectively, might have made the use force unnecessary."

Of terrorism, he said, "Nothing is more antithetical to our Western values, nothing, therefore is more deserving of the collective condemnation of the civilized world. ... If we act together to meet this evil, we will be on the way to accomplishing that greatest of goals: to pass on to successor generations a world better than the one we inherited."

Rear Admiral Benjamin T. Hacker, USN, director, Total Force Training and Eduction Division, U.S. Navy, speaking at the School of Education and Human Development commencement, stressed the importance of excellence in education at a time when many critical challenges face those in the field. He spotlighted the need for increasing remedial education for high school graduates. Among the challenges those working in education will face, he said, are declining enrollments, particularly among minorities, and burgeoning costs, which may force many prospective and promising students to forego a college education entirely.

"Our brightest students, who want to teach and work in education, may find themselves motivated by a massive requirement to pay back indebtedness and chose to study in a field that offers a higher salary," Hacker said. Recent efforts to raise teacher salaries have been encouraging, however, he noted, adding, "I earnestly hope this long

(continued on back)

SHARON WOLCHIK TO BE ASSOCIATE DEAN OF SPIA

Sharon L. Wolchik, associate professor of international affairs and political science, has been appointed to the position of associate dean of the School of Public and International Affairs (SPIA) for a period of one year. Professor Wolchik will be responsible for directing a comprehensive evaluation of SPIA's Institute for Sino-Soviet Studies. She will assume the post on August 14.

The institute develops and promotes graduate education and research programs in the areas of Russian-Soviet, East European, and East Asian studies.

"The Institute has been a valued component of SPIA for two decades," notes SPIA Dean Maurice A. East, adding, "I am expecting Professor Wolchik's review to identify goals and activities that will ensure that the Institute and the School continue to prosper together."

Professor Wolchik, who is fluent in five languages, is the author of numerous articles and papers focusing on the status of women in Eastern Europe, nationality relations in communist states, relations among communist parties in Eastern and Western Europe, and the role of specialists and professionals in policy making in Eastern Europe. She is co-editor of the recent books Foreign and Domestic Policy in Eastern Europe in the 1980s and Women, State and Party in Eastern Europe. During the academic year 1986-1987, she will teach graduate courses in Comparative Communist Systems and East European Politics.

COLUMBIAN COLLEGE FACULTY AWARDS PRESENTED

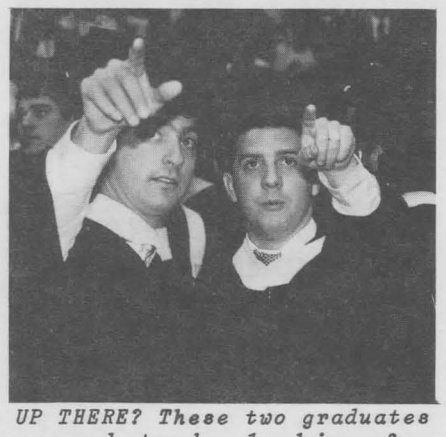
The Distinguished Faculty Awards, established this year in the Columbian College of Arts and Sciences, were presented for the first time at the Columbian College commencement exercises on May 4. Dean Clara M. Lovett made the six presentations.

Receiving awards for excellence in teaching were Professor of English A. E. Claeyssens, Professor of Physics Herman H. Hobbs and Professor of Economics Ching-Yao Hsieh. Awards for scholarly excellence went to Professor of European History Roderic H. Davison, (who received emeritus status at the commencement), Professor of Economics John W. Kendrick, and Professor of Statistics Samuel W. Greenhouse.

TRACING OUR HERITAGE EXCURSION

The Alumni Relations Office is sponsoring a day trip to the Hagley Museum in Wilmington, Delaware, on Saturday, May 24. Departure time is 7:30 am from the corner of 22nd and H Streets, NW, next to Madison Hall. The bus will return about 6:30 pm.

The tour will include the 1803 Dupont family residence, its 19th century gardens, and exhibits offering a view of American industrial life in the 19th century. The $40 per person fee includes transportation, admission fees, and a luncheon at Breck's Mill. For further information, contact Alumni Relations, Ext. 6435.



UP THERE? These two graduates seemed to be looking for families and friends somewhere in the upper level seating in the Smith Center.

NEW SALARY REDUCTION AGREEMENTS DUE JUNE 13

The Internal Revenue Service (IRS) requires participants and employers to sign a salary reduction agreement if the participant elects to make tax-deferred contributions to a retirement plan. The percent of salary stated in the salary reduction agreement is binding for the University's fiscal year (July 1 through June 30). Only one salary reduction nay be maintained during a fiscal year.

The IRS has ruled that the voluntary continuation of a salary reduction agreement from one year to the next constitutes the making of a new agreement at the beginning of each year. Therefore, a participant who has an agreement in effect and does not sign a new agreement at the beginning of the new fiscal year, may not change the agreement until the start of the next fiscal year. A participant may, however, terminate a salary reduction agreement at any time by visiting the Records and Benefits Office and completing the appropriate form. If an agreement is terminated, a participant must wait until the start of the next fiscal year to sign a new salary reduction agreement.

Any questions regarding your current agreement or plan to increase or decrease your contribution percentage for fiscal year 1986-87, should be directed to the Records and Benefits Office, Ext. 4480. New agreements must take effect at the start of the new fiscal year. Therefore, in order to meet the IRS and University deadline, all new agreements must be completed and received by the Records and Benefits Office no later than June 13.

BREAKFAST AT THE CLUB

The GW University Club will host a breakfast buffet on Wednesday, May 14, at 8 am. Vice President and Treasurer Charles E. Diehl will talk about "The University Campus Plan" and recent developments in new construction and programs. For more information and reservations, call Ext. 6610.

QUOTABLE FROM COMMENCEMENT *(continued from front)*

overdue commitment to competitive salaries for our teachers will be reflected nationally."

Sissela Bok, author and educator, addressing Columbian College degree candidates, discussed the question of violence and how to respond. She referred to a speech given by Swedish writer Astrid Lindgren, who "spoke out against the brutality that pervades so much of what children play with and read and see all around them, pointing to violence in the media, in war toys and games, and the drift toward an increasingly militarized world."

As to how to respond to violence, she suggested that "we focus much more sharply on . . . what was once thought central to a complete education: the study of exceptional human lives, . . . persons such as Albert Schweitzer, Ghandi, and Martin Luther King, whose lives offer the clearest models of a creative, often transforming, response to the danger that concerns us most directly--the threat of violence and war."

W. Edwards Deming, management consultant, at the School of Engineering and Applied Science exercises, said, "The biggest problem that most any company in the Western world faces is not its competitors, nor the Japanese; the biggest problems are self-inflicted, created right at home by management that is off course in the competitive world of today.

"Systems of management are in place in the Western world that, for survival, must be blasted out," he said. "New construction must be commenced--patchwork will not suffice." Everyone doing his best is not the answer either, Deming said. Everyone is already doing his best.

"Western management has for too long focused on the end product--the end result. 'Get reports on people, on productivity, on sales, on inventory,' " he said. "It is necessary that management shift the focus to management's responsibility for the source and quality of service, for the design of the product and the processes that turn out the product and service."

Phyllis Franklin, executive director of the Modern Language Association, addressing the Graduate School of Arts and Sciences, talked about the concept of "specialization" in higher education and related truths the graduates will face.

"Specialization has fallen on hard times, and these days, has many critics," she said. "People--both within and outside the academy--argue that specialization is wasteful, that for every great discovery and outstanding book, there are too many trivial publications. They also argue that specialists have damaged American higher education because faculty members care more for research than teaching; . . . that it undermines a commitment to and even the possibility of a common curriculum, that if often calls into question familiar assumptions and beliefs."

While some criticisms may be deserved, she said the production of new knowledge and the search for truth continue to be the central contribution of specialization.

INTERNATIONAL PHYSICS SYMPOSIUM HELD AT GW

A symposium titled "International Symposium on the Three-Body Force in the Three-Nucleon System" was held at the University April 24, 25 and 26.

The meeting was geared toward formulating a program for the next five years for experimental and theoretical research in studying three-body forces in nuclei.

The proceedings that will be published will contain the elements of this five-year plan. The proceedings will be brought out by the international publishing house of Springer Verlag.

The symposium was sponsored by George Washington, the National Science Foundation and the University of California at Los Angeles (UCLA). There were approximately 120 participants, some 45 speakers and about 40 contributed papers. Participants came from Japan, Australia, Brazil, Germany, France, the Netherlands, Italy, Switzerland, Portugal, Yugoslavia, Great Britain, Canada and Austria.

Columbian College Dean Clara Lovett greeted those attending at the opening session as did Physics Department Chairman Francisco Prats. Professor of Physics Barry Berman was chairman of the symposium. Associate Professor of Physics W. J. Briscoe was in charge of local arrangements.

BRIEFLY...

GW Club Summer Hours -- A reminder that the University Club is operating on a summer schedule. The Club will be open for lunch, Monday through Friday, from 11:30 am to 2:30 pm. It will not be open for dinner service, except by special arrangement with the management.

EAST ASIAN CULTURE SERIES THREE EVENTS ON MAY 14

An East Asian Culture Series on Wednesday, May 14, will include a Dialogue with artist Teri Pickett at noon in the GW Club; a 5 to 7 pm opening reception for "Song of the Brush," an exhibition of oriental brush paintings by Teri Pickett in the Colonnade Gallery, third floor, Marvin Center; and a kayagum recital at 7:30 pm in the Marvin Theatre. A kayagum is a stringed instrument with a distinctive tone. The recital is a benefit concert organized in support of the Korean Language Program of the Department of East Asian Languages and Literatures. For information on the series, call Ext. 7469.

GW Music

HERTEL IN CONCERT MAY 18

Lynn Hertel, who will be the first GW graduate in music with a major in flute performance, will appear in her senior recital on Sunday, May 18, at 7 pm in Room B-120 of the Music Department. She will perform music of Loeillet, Reinecke, Burton, Hüe and Prokofieff. Admission is free.

MAIDA WITHERS CHOREOGRAPHY IS FEATURED THIS WEEK

Dances choreographed by Maida Withers will be featured at the May 15, 16, 17 performances of the Dance Construction Company at 8 pm in the Marvin Theatre. The program includes two premieres, "State of the Art," and "Scat," as well as three dances from repertory. For information and reservations, call Ext. 6577 or 432-0200.

SEHD TO HOLD OPEN HOUSE

The School of Education and Human Development (SEHD) will host an "open house," Monday, May 19, from 5:30 to 8 pm to acquaint prospective graduate students with its programs.

From 6 to 7 pm, participants will have an opportunity to talk with faculty members about the various educational, human service and service industry programs offered by the School. From 7 to 8 pm, there will be a financial information session where financial aid, tax breaks and graduate fellowships will be discussed.

Open House activities will be held in Rooms 410-415 of the Marvin Center. Admission to the event is free. Reservations are recommended, though not required. For further information and to make a reservation, call Ext. 6160.

GRANT OPPORTUNITIES

The National Science Foundation (NSF) is sponsoring a program of post-doctoral exchanges of scientists and engineers in order to develop and further stimulate scientific, engineering and technical cooperation between the U.S. and other industrialized countries. Awards will be made in any field of science, including mathematical and physical sciences; astronomical, atmospheric, earth and ocean sciences; biological, behavioral and social sciences; and engineering. Research may be carried out at any appropriate foreign establishment.

The NSF has also announced the competition for the Presidential Young Investigator Awards. These awards support young science and engineering faculty. Nominations are in two categories, faculty awards for junior faculty members and prefaculty awards for promising graduate students and recent doctoral graduates. The application deadline is July 1.

For further details, contact Helen Spencer, Office of Sponsored Research, Ext. 6255.

HUMAN RELATIONS WORKSHOP INFORMATION

The Lifespring Foundation will present information on "A Human Relations Workshop, The Lifespring Basic Training for Educators," Tuesday, May 13, at 8 pm in Room 405 of the Marvin Center.

Terri Rosenblatt, former executive director, NASA Teacher in Space Program, will discuss the workshop which is to take place May 22-25 at the Marriott Twin Bridges in Arlington, Virginia. The workshop stresses active participation in self-discovery through a variety of experiences which emphasize communications, trust, accountability, and effective human relations.

For further information about the workshop, enrollment, or the presentation, contact Ms. Anita Huffman, (703)-548-4242.

PERSONNEL NOTICES

ASSISTANT DEAN, full-time, Division of Continuing Education. (Individual to manage off-campus programs in metropolitan Washington area. Responsible for development and marketing, budgets, personnel, and support facilities for broad range of graduate programs. Requirements include an earned doctorate, experience in higher education administration, and training or experience in marketing. Job available August 1, 1986.) Address letter of application with resume and salary requirements by June 15 to Harriet Little, Assistant Dean, Division of Continuing Education, GWU, Washington, DC 20052.

RESEARCH ASSISTANT, full-time, Department of Biochemistry. (Position entails studies on cellular calcium homeostasis and mitochondrial bioenergetics. Required: B.S. degree and one year minimum laboratory experience together with experience in the isolation of subcellular fractions and the use of a UV-VIS spectrophotometer. Experience in the isolation of hepatocytes is preferred.) Contact: Dr. Gary Fiskum, Dept. of Biochemistry, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSISTANT, full-time, Cancer Immunology Laboratory, Division of Hematology/Oncology, Department of Medicine. (Position requires experience in performing various immunological assays, including mitogen-stimulation and mixed lymphocyte reactions, maintenance of long-term cell lines, handling of experimental animals, and radioimmunoassays. Training in the operation of flow cytometers for the determination of lymphocyte subpopulations is highly desirable. A bachelor's degree in Immunology or related field is required. Position available immediately.) Contact Dr. Marcelo Sztein, Ext. 8290.

RESEARCH ASSOCIATE, full-time, Intergovernmental Health Policy Project. (Individual for a non-profit, university-based research project and information clearinghouse focusing on health policy activities in the 50 states. Responsibilities include keeping abreast of significant health policy developments in approximately 10 states, monitoring health legislation, and conducting research projects. Required: Master's degree in health care administration, public health, economics, political science or public policy, or two years of health policy experience. Excellent research, writing and verbal skills as well as a familiarity with general health policy issues and problems are also required.) Applicants should send resume by May 15 to Richard E. Merritt, Director, Intergovernmental Health Policy Project, 2100 Pennsylvania Avenue, NW, Suite 616, Washington, DC 20037.

The following two positions are available with The Biostatistics Center, 7979 Old Georgetown Road, Bethesda, MD 20814. No phone calls please.

RESEARCH ASSISTANT, full-time. (Person with a minimum of a B.S., experience with dBase III and some programming experience on IBM PC compatibles for work on medical research studies. Telecommunications experience desirable.) Send resume to Vicki Zell.

RESEARCH ASSISTANT, full-time. (Person to assist medical research studies in the use of an IBM 4331 VM/CMS System. B.S. required. P1-1, SAS, EXEC language, and microcomputer telecommunications experience desirable.) Send resume to Joan Young.

The George Washington University is an equal opportunity/affirmative action employer.

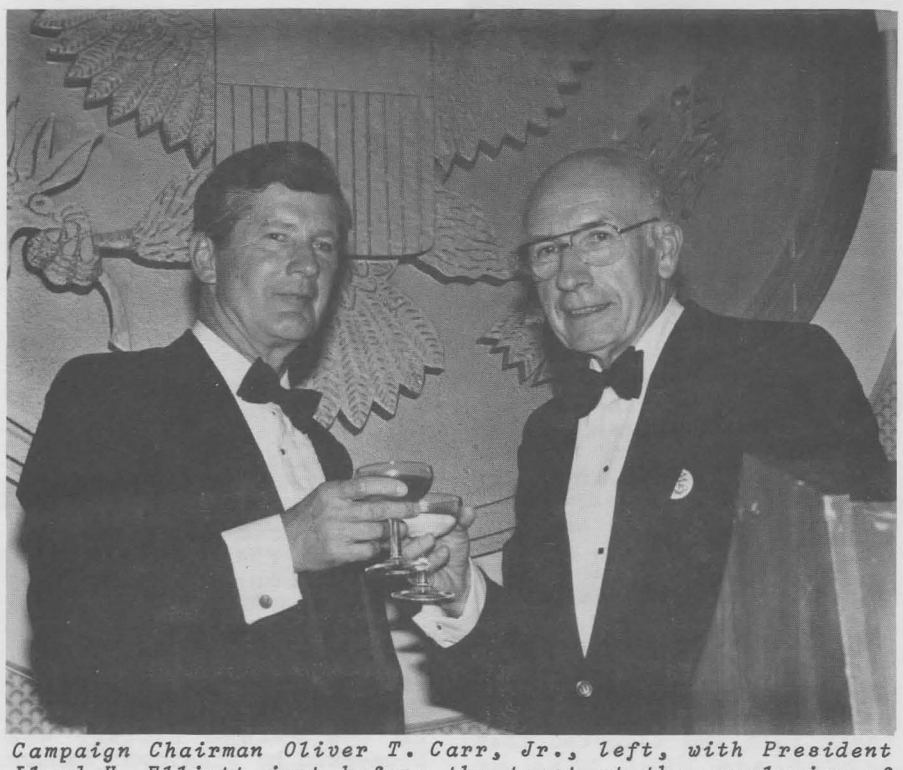
CAMPAIGN TO RAISE $75 MILLION BY 1990 ANNOUNCED



Campaign Chairman Oliver T. Carr, Jr., left, with President Lloyd H. Elliott just before the toast at the conclusion of the Campaign for George Washington kick-off dinner.

The University has begun a campaign to raise $75 million dollars by June 30, 1990.

University Trustee Oliver T. Carr, Jr., campaign chairman, speaking at a May 15 dinner in the Capital Hilton marking the official opening of the campaign, noted "What a wonderful city we live in. The city, and the university with it, is moving into a new era of its history." He compared the vitality of Washington at this time to the vitality of the Italian Renaissance.

"The purpose of the campaign is to build academic excellence, to build upon the base the university already has and achieve the highest levels of excellence by the end of this century," he continued.

"The campaign will provide funds for new professorships, scholarships and fellowships, research and library resources, and support for educational programs," Trustee Carr stated. "Our goal is modest, to raise $75 million dollars by June 30, 1990. This is the largest fund-raising effort ever undertaken by GW, but we have every reason to be very optimistic. I am pleased to announce that by this evening, at this moment, we have raised $21.9 million of the goal, which represents about one third of what our ultimate effort will achieve. This includes six gifts of $1,000.000 or more from trustees and other dedicated friends."

Trustee Marvin L. Kay, campaign vice chairman, said the Board of Trustees began considering the campaign over two years ago. "I am proud to tell you that members of the Board have personally committed gifts of some $8 million, over 10 percent of the campaign goal," he said. "I think this demonstrates that the trustees believe in the goals of the university and are prepared to support them with their own time and resources."

University Trustee Melvin R. Laird, chairman of the Campaign National Advisory Committee, commented, "The George Washington University is not only a national university. It is an international university and we believe alumni and friends as well as national organizations all over the nation have a stake in a first-rate university in the center of our nation's capital." He read a letter from President Reagan, which says in part, "Inasmuch as we are 'next door neighbors,' it is a special pleasure for Nancy and me to send greetings to all friends of The George Washington University, now marking its 165th anniversary. ... I feel confident that the resolve of its administration, staff and friends to bring it to even greater excellence will bear fruit."

President Lloyd H. Elliott referred to the statement by John Masefield, "Wherever a university stands, it stands and shines," and continued, "The university is the best defense of our way of life, and yet is our most effective instrument for marshalling forces to combat society's ills. ... The campus is a sanctuary for study, research, and reflection where intimidation and coercion must never find a welcome.... It is The George Washington University which is entrusted to us. ... We don't own this institution... but we are more than custodians. Our task -- indeed our duty -- is to enhance the academic strength, to reinvest the dividends of accumulated knowledge in order that each ensuing generation will inherit an ever growing legacy. ... We must increase the candlepower of our university: it must shine more brightly, reaching with growing strength and influence the lives of men and women across the nation and around the globe."

The evening concluded with a toast, led by Trustee Carr, "to President Elliott and his wife Betty for their wonderful leadership, to a successful campaign and to further the destiny of a great university."

BOARD OF TRUSTEES ELECTS FIVE NEW MEMBERS

The Board of Trustees elected five new members at its May 15 annual meeting.

Elected as Charter Trustees were Robert McCormick Adams, secretary of the Smithsonian Institution, and Theodore N. Lerner, Washington real estate developer and entrepreneur.

Alumni Trustees elected were Richard W. Greene, Norris C. Hekimian and Dr. Richard E. Palmer.

Secretary Adams assumed his present post in September of 1984, succeeding S. Dillon Ripley. (Secretary Ripley was a University Trustee from 1966 to 1985. The secretary of the Smithsonian Institution has always been a member of the University's Board of Trustees.) An archeologist, Dr. Adams holds three degrees from the University of Chicago, a Ph.B., an M.A. and a Ph.D. He pursued field studies in Iraq, Saudi Arabia, Iran and Mexico and has been both a faculty and staff member of the Oriental Institute of the University of Chicago, serving as director from 1981 to 1983.

Immediately prior to coming to the Smithsonian, he was provost of the University of Chicago, (1983-1984). He has served as chairman of the Assembly of Behavioral and Social Sciences of the National Research Council. He is the author of The Evolution of Urban Society: Early Mesopotamia and Pre-Hispanic Mexico, Land Behind Baghdad: A History of Settlement on the Diyala Plains, Heartland of Cities, The Uruk Countryside, with H.J. Nissen, and more than 75 articles in professional journals.

Dr. Adams has been a trustee of the National Humanities Center, and is now on the boards of the Russell Sage Foundation, the Santa Fe Institute, the National Opinion Research Center and the National Association for the Advancement of Science. He served two years in the United States Naval Reserve. He is a Fellow of the American Academy of Arts and Sciences, the Middle East Studies Association, and the American Anthropological Association. His memberships include Sigma Xi, the Society of American Archeology, the German Archeologicial Institute, the National Academy of Sciences and the American Philosophical Society.

Theodore N. Lerner holds the degrees of A.A. and LL.B. from the University. Born in Washington, D.C., he attended Roosevelt High School where he was editor-in-chief of the school newspaper, sports reporter and a member of the tennis team. He served in the U.S. Army following his graduation from high school in 1944. He received his LL.B. from the then GW Law School in 1950. He now heads Lerner Enterprises in association with his son, Mark D. Lerner, as well as the Lerner Corporation, a real estate management and leasing company.

Starting his first real estate company in 1951, he concentrated on volume residential sales, sold more than 22,000 houses and developed thousands of apartment units. He developed Wheaton Plaza with Isadore M. Gudelsky. When it opened in February, 1960, it was the largest shopping center in the Washington area and the sixth largest in the U.S.

In 1968, he opened Tysons Corner Regional Shopping Center in Virginia. In 1972, Lerner joined with Albert Abramson and to open Landover Mall Regional Shopping Center, a 125-store shopping center in Prince George's County. In 1977, Lerner and Abramson opened White Flint Mall in Montgomery County. In 1982, Lerner moved forward

(continued on back)

TRUSTEE OFFICERS ELECTED

Officers elected by the Board of Trustees at its May 15 meeting are: Chairman, Everett H. Bellows; Vice Chairman, L. Stanley Crane; Secretary, Thaddeus A. Lindner; and Assistant Secretary, Nancy B. Dudley.

Chairman Bellows was first elected chairman at the Board's October 17, 1985, meeting, having served as acting chairman following the death of Glen A. Wilkinson in August of last year. He became a member of the Board in 1970 and had been vice chairman since 1972.

Vice Chairman Crane, chairman and chief executive officer, Consolidated Rail Corporation, became a University Trustee in 1978. He is currently a member of the Executive Committee and chairman of the Committee on Financial Affairs. He has served on the Committee on Academic Affairs.

Secretary Lindner and Assistant Secretary Dudley were re-elected to their respective positions. Both were first elected at the 1985 annual meeting.

PRESIDENT ELLIOTT RECOGNIZED FOR PHYSICAL FITNESS PROGRAM

On Wednesday, May 7, President Lloyd H. Elliott received the Certificate of Appreciation of the President's Council on Physical Fitness and Sports from Dr. Matthew Guidry, director, Community Services of the President's Council.

The presentation was made in an informal ceremony in the Charles E. Smith Center at the start of GW's Shape-Up Day, sponsored by the Department of Human Kinetics and Leisure Studies and the Wellness Resource Center in association with the President's Council on Physical Fitness and Sports.

Noting that Shape-Up Day was one of many programs being conducted throughout the nation in celebration of May as National Physical Fitness and Sports Month, Dr. Guidry said, "The President's Council really feels honored that The George Washington University would want to participate and because of the strong support of the university for physical fitness and sports, we felt it would be fitting to bestow on President Lloyd Elliott the Council's Certificate of Recognition for contributions to physical fitness and sports."

TRUSTEES ELECT FIVE NEW MEMBERS *(continued from front)*

in the development of Tysons II, a 5 million square foot joint venture of Homart Development Company and Lerner Enterprises, designed to include a 795,00 square foot Tysons II shopping mall, two luxury hotels and 12 office buildings. In 1983, Lerner and Abramson completed Washington Square, a 12-story, over one million square foot commercial/retail complex designed by Chloethiel Woodward Smith.

The two partners, Lerner and Abramson, annually sponsor a number of art exhibits organized by the Public Art Trust, in the lobby and atrium of Washington Square. Currently, Lerner and Abramson are developing One White Flint North, a 300,000 square foot office building adjacent to the White Flint Metro Station on Rockville Pike.

Known for his efforts to bring a baseball team back to Washington, Lerner is interested in numerous local and national charities, including the Cancer Society, the Heart Fund and the United Jewish Appeal.

Three members of the Lerner family, beside Mr. Lerner, hold degrees from George Washington. They are: his son, Mark D. Lerner (B.B.A. 1975); a daughter, Marla Lerner Tanenbaum (J.D. 1983) and a son-in-law, Robert K. Tanenbaum (J.D. 1982).

The Theodore N. Lerner Hall in the GW National Law Center was dedicated in April, 1984. Described as a contemporary version of Victorian architecture, Lerner Hall has been called by the Washington Post "a progressive piece of architecture and urban design." The building was made possible by a gift from Theodore Lerner and his wife, Annette M. Lerner.

Richard W. Greene, who received a Bachelor of Arts with honors and with a major in history, has been resident director of Calhoun Hall for the 1985-1986 year. Active in student affairs as an undergraduate, he served as a senator in the GW Student Association; chairman of the Joint Elections Committee; co-chairman of the Residence Life Safety/Security Task Force; as Student Association representative to the Student Contracts Committee; and vice president of Zeta Beta Tau fraternity. He is a member of Omicron Delta Kappa, leadership honorary.

Norris Hekimian, a 1949 graduate of the School of Engineering and Applied Science with a Bachelor of Science (Electrical Engineering), received an Alumni Achievement Award from the University in 1976 and an Engineer Alumni Service Award in 1984. The holder of 24 patents, he is a Fellow of the Institute of Electrical and Electronic Engineers and received the institute's Patron Award in 1979.

Hekimian has served as a board member of the GW Engineer Alunmni Association and is a director of the Corporation for Technical Training. Following his graduation in 1949, he became associated with the National Bureau of Standards as a radio engineer. In 1954, he moved to the National Security Agency as a branch chief, remaining there until 1961 when he became assistant director, research and development, Page Communications Engineers, a post he held until 1968. In 1969, he founded Hekimian Laboratories and served as president until 1981. In 1981-82, he was chief executive officer. From 1983 to the present, he has been vice president, research and development, Hekimian Laboratories.

Dr. Richard K. Palmer received both his Bachelor of Arts and Doctor of Medicine degrees from the University in 1944. He has been engaged in the private practice of pathology in Alexandria, Virginia, from 1949 to the present.

Dr. Palmer has occupied positions of leadership in the field of medicine having served as president of the Alexandria Medical Society; the medical staff of Circle Terrace Hospital, Alexandria; the Medical Society of Virginia; and the George Washington University Medical Alumni Association. He has been chairman of the Standards Committee of the Joint Commission on Accreditation of Hospitals (1967-1974) and chairman of its Board of Commissioners (1978-1980). He served as president of the American Medical Association in 1976-1977. A past president of the American Board of Pathology, he is now a life trustee of the board. He has received Alumni Achievement Awards both from the University (1971) and from the Medical School (1975). In 1977, he received the honorary degree of Doctor of Humane Letters from the Medical University of South Carolina.

AFFIRMATIVE ACTION PLANS AVAILABLE FOR REVIEW

The George Washington University's Affirmative Action Plans are available for review in the Office of Equal Employment Activities, Rice Hall, 6th floor. All members of the University and Medical Center divisions who wish to review the plans may do so Monday through Friday, 9 am to 5 pm. Please call Ext. 7402 if you have any questions.

BRIEFLY...

Textile Talk -- Parviz Tanavoli, former professor at the University of Teheran, will be speaking about Shahsavan Textiles, Saturday, May 31, at 7 pm in Rooms 404-406 of the Marvin Center. A one dollar contribution is requested for the event, sponsored by the Washington Textile Group. Assistant Professor of Medicine David Greenblatt is program chairman for the group.

NEWSNOTES

INTERVIEWS

WILLIAM C. ADAMS, professor of public administration, was interviewed by reporters from Business Day, a Manila newspaper, February 21; by the Boston Globe, February 15; the Washington Post, February 27; and U.S. News and World Report, March 3, about U.S. media coverage of recent events in the Philippines.

AMITAI ETZIONI, university professor, was interviewed on Cable News Network's "Newsmaker Saturday" on the topic "Terrorism and Security," on April 5.

SUSAN J. TOLCHIN, professor of public administration, was interviewed February 25 on NBC's Today Show, on the impacts of environmental deregulation.

CONGRESSMAN OWENS SPEAKS TO FRIENDS OF THE LIBRARIES

FRIENDS' GAVEL -- Gail Short Hanson, left, outgoing president of the Friends of the Libraries, hands the group's new crystal gavel to incoming president Philip Highfill.

New York Congressman Major Owens says, "Librarians must count themselves among enlightened citizens who let the rest of society know what the long term needs are in information and in handling information."

Speaking at the annual dinner of the Friends of the Libraries on May 8, he pointed out that physicians, physicists and astro-physicists had met opposition in earlier years in defending their turf and asserted that librarians must take an agressive role in fighting for the free flow of information and for library funding.

He decried what he called the "trivilization" of the role of libraries and librarians going on in the government today and declared "With the certainty of the barnyard cock we must proclaim ourselves the premier experts, the final authority on matters related to library and information services. Just as doctors insist on their omnipotence in medical affairs and lawyers, without question, assume their role as the final interpreters of the law, librarians must not hesitate or equivocate. Constructive arrogance is clearly one of the qualities needed for the success of any profession.

"No other group is equipped to guide us in the mainstream of activities related to library and information services," the congressman continued. "The library profession alone is qualified to effectively cope with the information explosion in this age of information." Congressman Owens, who represents the 12th Congressional District of New York, is the first librarian ever elected to serve in the U.S. House of Representatives.

At the annual meeting of the Friends, conducted by outgoing President Gail Short Hanson, three new directors and a secretary were elected, and Associate Professor of Classics John Ziolkowski was named president-elect to take office at the end of next year. The new directors are Maurice Heartfield, administrator of St. Alban's School; Phil Levy of Bridge Street Books in Georgetown; and John Finzi, director of Collections Development, Library of Congress. Marcia Sleight, executive aide, Political Science Department, is the new secretary.

The Friends' annual gift to the Gelman Library was presented by President Hanson to University Librarian Sharon J. Rogers during the 6:30 to 7:30 pm reception in the Special Collections area. This year's gift consists of two books: Antique Maps, A Collector's Handbook by Carl Moreland and David Bannister and Landmarks of Mapmaking, an Illustrated Survey of Maps and Markers with maps chosen and displayed by R. V. Tooley and text by Charles Bricker.

Just before dinner, Librarian Rogers presented the Friends' new gavel of Val St. Lambert crystal, to be known as the Gail Short Hanson Gavel and to be used by succeeding presidents of the Friends. Professor of English Philip Highfill, current president-elect, was installed as the Friends president.

PERSONNEL NOTICES

POSTDOCTORAL RESEARCH ASSISTANT, full-time, Department of Physiology. (Position available to study hepatic gluconeogenesis using isotopic tracer methods and mathematical modeling techniques. Required: background in cellular energy metabolism or hormonal regulation of gluconeogenesis. Experience in hepatocyte isolation or tracer methodology desired. Position available September 1986. NIH payscale.) Send curriculum vitae and names of three references to: Joanne K. Kelleher, Ph.D., Department of Physiology, GWUMC, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSISTANT, part-time, Veterans Adminstration Medical Center. (Person to assist in biochemistry laboratory. Must have familiarity with basic concepts and techniques of quantitative chemistry. Experience with chromatography and tissue preparation techniques desirable. B.S. degree required.) Contact: Mr. John Martin, Veterans Administration Medical Center, 745-8121.

The George Washington University is an equal opportunity/affirmative action employer.

RESEARCH ASSISTANT, full-time, Department of Surgery. (Individual will assist as surgical investigational coordinator. Will coordinate clinical investigation projects, be a member of a clinical research team and actively participate in the organization, development and completion of projects studying aspects of surgical patient care. Must be a registered professional nurse with a minimum of one year's experience. B.S. in nursing strongly preferred. Available June 1.) Contact: Dr. Glenn W. Geelhoed, 2150 Pennsylvania Ave., NW, Washington, DC, Ext. 4427.

RESEARCH ASSOCIATE, full-time, Cancer Immunology Laboratory: Requires experience in cancer research studies and biological response modifiers. Administration of multi-center study with coordination of institutional research efforts. Work will include participation in the initial phases of preparation of vaccines from tumors removed at surgery, preparation of reagents for tumor cell transporting, coordination of patient accrual and data management for five different institutions. Close interaction with physicians and nurses on the project.) Resumes only to: Dr. Richard Schulof, Ross Hall, Room 706.

Dan Moshavi, assistant editor

SELECTIVE GUIDE TO COLLEGES MENTIONS GW'S ADVANTAGES

At George Washington University, students generally get two educations for the price of one, according to Edward B. Fiske, writing in his Selective Guide to Colleges, Third Edition, Random House, 1986. The book's cover describes it as "The inside report on the 291 colleges you are most likely to consider." The introduction states that the guide is written for college-bound students and their families.

Of GW, Fiske goes on to say, "The first education is in the usual realm of academics and the second is a lesson in 'the real world,' which draws greedily upon Washington's political, business and international resources."

Fiske highlights a number of the University's advantages in his section on GW, giving three stars for academics. "When politics was the only game in town," he says, "GW sent hordes of political science, history and public affairs majors up to Capitol Hill. Now that Washington is also a financial and international hub, the school's programs in economics, accounting, and international affairs are among the best anywhere. Likewise programs in art history and American studies benefit from links with the Smithsonian and the Folger Shakespeare Library. Perhaps the ultimate bow to the city is a new, and by all accounts popular, major in political communications, combining political science, journalism and radio/TV programs."

Political science is identified as still one of the most popular fields of study with a good many of the part-time faculty holding high-level government positions. Interdisciplinary courses are seen as a plus by Fiske who also mentions the 700 series courses, calling them "novel interdepartmental classes that encourage innovative teaching and study across a variety of program areas." He comments on the fact that "GW draws people from all over America and the world" and notes strong minority representation.

Fiske provides readers information on the University's financial well-being, "A $150 million endowment also helps keep GW healthy and in the pink at a time when other private universities are retrenching." He calls on-campus housing well maintained and relatively spacious.

Noting that ours is an urban campus with some drawbacks, such as rush hour traffic and what he terms Washington's "bad case of bureaucratic-itis" he tells potential students, "If you think the trade-offs are worth it, you just might find GW -- and Washington, D.C. -- a capital place to be."

JOE RUTH AND TED GRIMM HONORED AT RECEPTION

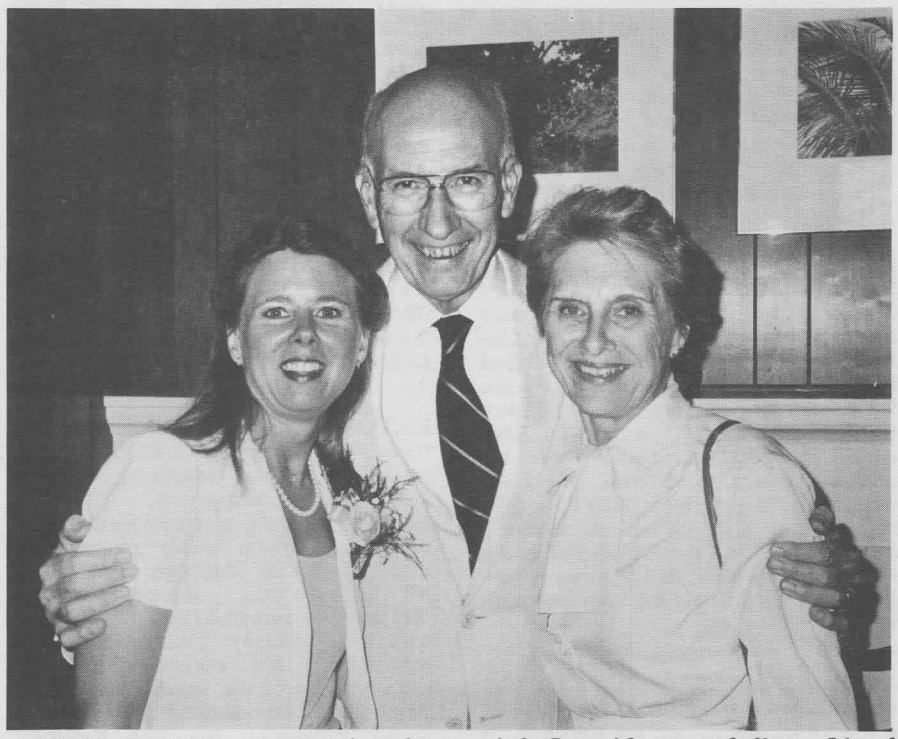
Joseph Y. Ruth, assistant vice president for admissions and student records, and Theodore H. Grimm, University registrar, who will both retire June 30 after many years of service to GW, were honored at a May 16 reception in the GW Club, sponsored by the Office of the Vice President for Academic Affairs.

Many of Joe's and Ted's friends came to wish them well and Vice President Roderick S. French, in informal remarks, expressed the University's appreciation to them. Joe Ruth received a gift certificate to be used at Boats U.S. for supplies and accoutrements for his boat, which his wife Celia says he greatly enjoys.

Ted Grimm was informed that friends are putting money in a bank account for the baseball team D.C. might get someday so that he and his wife Pat would have two tickets for 10 home games.

Ruth a GW alumnus (B.A 1949), came to the University

(continued on back)



SANDRA H. LEAR, left, is shown with President and Mrs. Lloyd H. Elliott at the recent reception given by Vice President for Development Michael J. Worth in honor of Ms. Lear on the occasion of her resignation as director of Alumni Relations.

FORMER GOVERNOR ROBB SPEAKS OF CHOICE AND CHANGE

"This business of becoming is an ongoing process," former Virginia Governor Charles S. Robb told 386 graduates of the National Law Center, May 18, speaking at commencement exercises in the Smith Center.

Governor Robb

"I suspect that this is different from your college graduation," he went on. "You probably find yourselves without a predetermined goal. I suggest you slow down, think where you have been, where you're going, and who you want to be when you get there. We all need to make affirmative choices that will help us reach our personal destinies. You will be making choices that will change you bit by bit into the person and the professional that you would like to be."

The governor noted that the law profession is in a period of "significant transition," pointing to the number of women and members of minorities who have become lawyers, the marked increases in legal fees and the undermining of the delivery of legal services to the poor.

Governor Robb pointed out, "The needs of the home impact the professional area as a whole." He went on to say that if a husband and wife are both attorneys or if there is one attorney and another working partner in a marriage, questions arise as to how to manage family and professional life. "We need to foster the fullest development of all our members," he stated. "We all need to realize that the effect of professional demands on family and home life is not a women's issue. Creating a professional ethic which balances the needs of our personal and our professional lives will benefit all of us. You may want to work together to develop creative proposals before parental or other personal needs present themselves," he told the graduates.

The former governor recommended that graduates consider some commitment to public service. "Time devoted to serving the common weal can provide great personal satisfaction," he told them, reminding them that with rights come responsibilities.

"Both major political parties are in the process of redefining or re-stating their basic philosophies. ... You possess both the capacity and the opportunity to participate in these dialogues of redefinition at the local, state and national levels. I hope you'll seize the opportunity and challenge your capacities.

"You'll change tomorrow each day that you walk on this earth. I hope you will put your skills to good advantage and I assure you there are more than enough challenges to go around, good luck and Godspeed," Governor Robb concluded.

The honorary degree of Doctor of Laws was conferred on former Governor Robb by the University. President Lloyd H. Elliott awarded the honorary degree.

The Distinguished Faculty Service Award of the National Law Center was presented to Professor of Law Luize E. Zubrow by Karen Marie Avagliano, immediate past president of the Student Bar Association. Ms. Avagliano received the degree of Juris Doctor at the commencement.

Professor of Law David B. Weaver received the status of professor emeritus of law at the commencement. He has been a member of the faculty for 37 years.

Among the law graduates was Anne M. Schiller, daughter of Professor of Law Lewis A. Schiller. She received the degree of Juris Doctor.

PRESIDENT ELLIOTT RECEIVES HONORARY DEGREE FROM WEST VIRGINIA INSTITUTE OF TECHNOLOGY

President Lloyd H. Elliott received the honorary degree of Doctor of Letters from West Virginia Institute of Technology in commencement exercises there on Saturday, May 17.

Professor Lloyd Lee, chairman of the Institute's Faculty Assembly, introduced Dr. Elliott for the honor, traced in detail his career in education and said, "In recognition of his accomplishments, his leadership in education and his services to humanity, the Faculty of West Virginia Institute of Technology recommends that the degree of honorary Doctor of Letters be conferred on Dr. Lloyd Hartman Elliott." Institute President Leonard C. Nelson conferred the degree, which carried also the approval of the Institutes's Board of Regents.

A native of West Virginia, President Elliott attended West Virginia Institute of Technology, when it was known as New River State College, received a B.A. from Glenville State College and an M.A. from West Virginia University before going on to earn his doctorate in education at the University of Colorado. Dr. Elliott began his career in education in West Virginia where he taught in the public schools and served as a school principal. He came to the University in 1965.

ALUMNI REUNION THIS WEEKEND

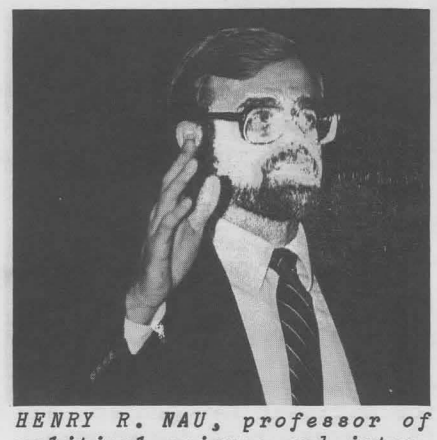
The University General Alumni Association (GAA) invites all alumni from all classes to the 1986 Alumni Reunion, on Saturday, June 7. (A special program has been planned on Friday, June 6 for 50-year graduates.)

Saturday's day-long program includes the annual business meeting of the Columbian Women (11 am), the annual meeting of the SPIA Alumni Association (11 am) and a reception sponsored by the Education Alumni Association (2 pm). There will be a barbecue in the Monroe Hall Quad from noon to 3 pm. Also from noon to 3, some University facilities and departments will hold open houses including the Art Department showing silkscreening; the School of Engineering, CAD-CAM computer facility; the Law School, Moot Courtroom; and GWTV. The Smith Center will offer volleyball, badminton, swimming and racketball. At the Marvin Center, there will be free billiards and bowling. A hospitality suite will be maintained at Alumni House.

At 3:15 pm, Professor of Physics Herman H. Hobbs will present a special alumni lecture on "The Uraninan Revelations" in the Marvin Theatre. Following the lecture, the President's Reception will be held on the Outdoor Terrace of the Marvin Center, third floor, at 4:30.

From 5:30 to 8 pm, the Alumni Service Awards Presentation Dinner will take place with alumni and faculty being recognized for volunteer alumni service to the University, the GAA or a constitutent alumni organization. The day will conclude with a University Theatre production of The Sorcerer by Gilbert and Sullivan at 8:15 pm in the Marvin Theatre.

There are charges for the barbecue, the dinner and the theatre presentation and for the brunch following the Columbian Women's meeting. All other events are free. For further information and reservations, contact Alumni House, Ext. 6435.



HENRY R. NAU, professor of political science and international affairs, discussed aspects of the Tokyo Summit as May's First Wednesday lecturer.

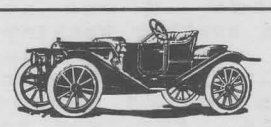
RUTH AND GRIMM HONORED

(continued from front)

in 1949 as assistant director of admissions, a post he held until September, 1960, when he became director of admissions. He served as director until April 1, 1982, when he was named special assistant to the provost. From January, 1983, through June of 1984, he was assistant provost for admissions and student records. In July, 1984, he became assistant vice president for admissions and student records.

Grimm came to George Washington in January, 1971, and served in administrative positions in the then College of General Studies until June, 1975, when he moved to the Registrar's Office as associate registrar. He became registrar in February of 1983. At the May 2 meeting of the Faculty Senate, Professor William B. Griffith, chairman of that body's Executive Committee, presented a tribute to retiring Registrar Grimm which noted his service for four terms as Secretary of the Faculty Senate, his service on the Senate's Educational Policy Committee, and expressed appreciation for his "cordial willingness to help in dealing with complicated policy problems of scheduling, registering, and recording actions concerning students."

NEW PARKING RATES BEGINNING JULY 1



New parking rates will go into effect on July 1 for fiscal year 1986-87. Faculty/staff parking fee payroll deductions will be adjusted automatically at this time to reflect the 1986-87 fees unless prior cancellation takes place.

If any parker does not wish to have payroll deductions made, parking privileges should be cancelled as outlined in the Parking Brochure for Faculty/Staff. Parking can be cancelled at anytime, but it is necessary to sign forms to stop payroll deductions. Current payroll deduction decals will be valid for 1986-87. New fees are:

Faculty and Staff

Daily (before 5 pm)	$ 3.31	$ 3.70	(including tax)
Daily (after 5 pm)	2.45	2.75	"
Monthly	53.00	59.36	"
Annually	636.00	712.32	"

Students

Daily (per period)	$ 2.45	$ 2.75	(including tax)
-Overtime	1.93	2.16	"
Monthly	75.87	84.97	"

Faculty/staff/student motorcycle parking

Outdoor (per semester)	$ 6.10	$ 6.83	(including tax)
Indoor (per month)	6.10	6.83	"

Graduate Teaching Assistants & Jr./Sr. Medical Students

Daily	$ 2.45	$ 2.75	(including tax)
Monthly	Pro-rated by the day		

Visitor Parking (fees noted include tax)

1st hour	$ 2.60
2nd hour	5.20
3rd hour	7.80
Maximum 4 to 10 hours	8.00
Maximum over 10 hours	8.75
After 5 pm	2.60 for 1st hour, maximum 2.75

GRANT OPPORTUNITIES

The Department of Defense has issued an agency announcement for fiscal 1987 for research and technology opportunities in 37 topic areas. Competitive cost-plus contracts will be issued. Some of the topic areas include: short-wavelength chemical lasers, free electron laser technology, algorithms for signal processing, optical supercomputing, and advanced software design tools. A due date has not been announced. For more information, contact Helen Spencer, Office of Sponsored Research, Ext. 6255.

NEWSNOTES

PROFESSIONAL ACTIVITIES

DIANE APOSTOLOS-CAPPADONA, visiting lecturer in religion, served as a respondent to Mara Miller (Yale University), "Myth in Art: Garden Design and the Transformation of Knowledge in the Renaissance," during the annual meeting of the Eastern Society for Aesthetics, March 22, at George Mason University.

INES AZAR, associate professor of Spanish, presented an invited lecture on "The Archaeology of Fiction in Don Quixote" at the University of California, Berkeley on April 3 and the University of California, Irvine on April 7. She also presented an invited paper on "Tradition, Convention and Voice in the Poetry of Garcilaso" at the Renaissance Conference of Southern California, Huntington Library, San Marino, California, on April 5.

EDWARD D. BERKOWITZ, associate professor of history, delivered a paper on rehabilitation medicine as part of the Hastings Center project on the ethics of rehabilitation medicine at the center in Hastings, New York. On April 13, he delivered a paper on "The Survival of Workers' Compensation" at the Organization of American Historians in New York.

ALI BULENT CAMBEL, professor of engineering and applied science, presented an interdisciplinary seminar on "The Synergetic Applications of Entropy Analysis" at the MITRE Institute on March 13.

PETER J. CAWS, university professor of philosophy, addressed the the joint engineering honors initiation banquet of Tau Beta Pi, Eta Kappa Nu and Pi Tau Sigma, April 5, on the topic, "Push My Button: The Obligations of Engineers."

LINDA DEPAUW, professor of history, addressed a military law seminar for Congressional case workers, April 7, on the topic, "Military Women and Gender Discrimination," at the Hart Senate Office Building. On April 21, she participated in a panel addressing the Class of 1986 at the Air War College, Maxwell Air Force Base, Alabama. The topic was "Women in the Military: Current Issues and Perspectives."

JUDY DIANE GRACE, adjunct assistant professor of higher education, presented a research paper, "Marketing Higher Education Programs: Student Profile and Expectations," at the Association for the Study of Higher Education annual meeting, February 23, in San Antonio, Texas.

JAMES O. HORTON, associate professor of American civilization and history, presented a lecture in March on "The Question of Gender in Nineteenth-Century America," at North Carolina State University, Raleigh, North Carolina.

JOHN D. HUNT, professor of education, presented a paper, "Research as a Foundation for Building a Tourism Marketing Plan," at the Colorado Governor's Conference on Tourism, April 17, in Colorado Springs. On April 21, he presented a paper, "Statewide Comprehensive Tourism Planning," at the Conference on Development of Plans and Policies for Travel and Tourism in Athens, West Virginia.

INTERVIEWS

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was interviewed by the Christian Science Monitor on Asian students studying in the United States. The article, "Asian Companies Learn ABCs of MBA," appeared on March 12. He was interviewd by the China Daily on the same subject for an article which appeared in the March 14 issue in both PRC and USA editions. He was also interviewed by a correspondent from the Shanghai World Economic Herald on China's open door policy and implications for the future in terms of attracting foreign investment. The article appeared in the February 27 issue.

WARREN GREENBERG, associate professor of health services administration, debated the executive vice president of the American Hospital Association on the release of hospital mortality data, March 10, on the Cable News Network.

PERSONNEL NOTICES

COMPUTER PROGRAMMER, full-time temporary (nine months), Department of Pathology. (Individual to program computer-assisted instruction using APPLE SUPER PILOT. Knowledge of PASCAL and PC's desirable. Available immediately. Contact, Dr. Sylvia Silver, Ext. 2945.

RESEARCH ASSISTANT, full-time, The Biostatistics Center. (Position located at U.S. Department of State with a medical information management project. Individual must have a B.A./B.S. and a minimum of one year's experience with computers using medical information. Familiarity with Wang or IBM computer and SAS or SPSS helpful. Must be a U.S. citizen.) Send resume to: Sonnia Tidwell, GW Biostatistics Center, 7979 Old Georgetown Road, Bethesda, MD 20814. No phone calls please.

RESEARCH ASSOCIATE, half-time, Rehabilitation Research and Training Center, Center for Family Research. (Person to serve as coordinator of data analysis with responsibilities in design and data management. Required: a Ph.D. in psychology, sociology, or other related field as well as expertise in quantitative methods and facility in computer usage.) Send resumes to the Center for Family Research, Ross Hall, Room 613.

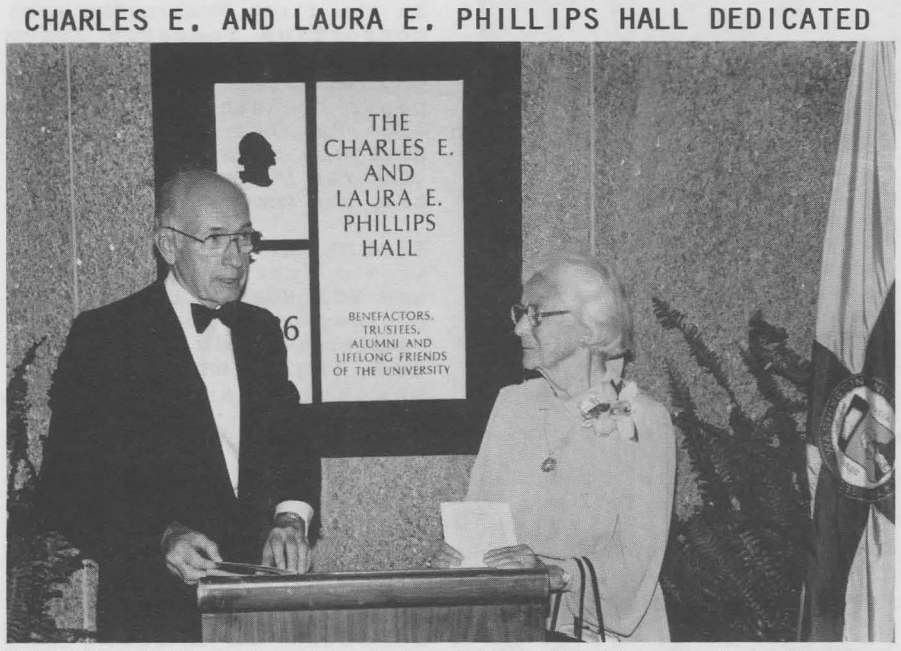
CHARLES E. AND LAURA E. PHILLIPS HALL DEDICATED



PHILLIPS HALL -- President Lloyd H. Elliott with Mrs. Charles E. Phillips at the dedication of the Charles E. and Laura E. Phillips Hall.

The Charles E. and Laura E. Phillips Hall in the Academic Center was dedicated in ceremonies Tuesday, June 3.

President Lloyd H. Elliott, speaking at the dedication, said in part, "Among the hundreds and the thousands who at any given time work and serve in behalf of this University there emerge with each decade a few leaders. Charles and Laura Phillips, for more than one-third of the total existence of this institution, are among those leaders. We honor them by dedicating this building to their work; more importantly, we honor our University and ourselves by being so fortunate as to have Charles and Laura Phillips to show us the way through their achievement and through their concern for others." Dr. Elliott referred to "the lifetime of service and dedication" which Mr. Phillips gave to his alma mater. "No trustee ever served more unselfishly or gave more generously of his time, his talents, and his wealth," the president said.

Mr. Phillips, a George Washington alumnus (LL.B. 1925; LL.M. 1926) became a member of the Board of Trustees in 1962 and served as chairman of the Board from 1972 until July 1, 1978, when he became chairman emeritus. He had a long career with the Equitable Life Insurance Company, serving in postions of increasing responsibility, as president and chairman of the board.

"Much can be said of Laura Phillips," President Elliott said. "I shall select only one item with which to illustrate her interests and achievements. It is to recognize Laura as a charter member of Phi Beta Kappa. Our latest plans call for strengthened academic work. We can do no better than to follow Laura's example." He noted that only two couples have been awarded honorary degrees by George Washington, President and Mrs. Calvin Coolidge in 1929 and Charles and Laura Phillips in 1979. Mrs. Phillips received a Bachelor of Arts from George Washington in 1941.

Vice President and Treasurer Charles E. Diehl, in welcoming remarks, said that Charles Phillips was chairman of the Board of Trustees when he became vice president and treasurer in 1972. "I can remember one occasion when we had to make a decision and it was too close to call," he went on. "My suggestion that we flip a coin did not sit well with the Chairman. He was a great supporter of sound financial management and I value the lessons he taught me in his gentle but positive manner."

He noted that Phillips Hall, one of three buildings in the Academic Center, includes the Music Department, language laboratories, Career Services, Telecommunications, and the offices of the deans of Columbian College, the Graduate School of Arts and Sciences, and Engineering and Continuing Education Programs.

NIH DIRECTOR WYNGAARDEN SPEAKS TO MEDICAL GRADUATES

The practice of medicine is more than the application of scientific principles; it is an art form, declared Dr. James Wyngaarden, director of the National Institutes of Health, in his address to the 157 men and women who received degrees at the May 30 commencement of the University's School of Medicine and Health Sciences.

Speaking on the subject "Medicine as Art: Medicine as Science," Dr. Wyngaarden told the graduates that "the student studies the science of medicine first, masters it early and returns to it frequently." On the other hand, he said, "the student acquires the art of medicine, the skillful application of medical knowledge and the optimal care of the patient, more gradually and with experience."

Dr. Wyngaarden received the honorary degree of Doctor of Science, honoris causa, at the ceremony. Director of NIH since 1982, Dr. Wyngaarden has conducted extensive research in pharmacological systems through special scientific recognitions and appointments. He served as a clinical instructor in medicine at The George Washington University Medical Center from 1954 to 1956.

GW TO BE PART OF NATIONWIDE COMPUTER RESEARCH NETWORK

The University will be part of a new $1.4 million computer network, which will ultimately link leading research universities around the country, allowing researchers to share information nationwide.

The National Science Foundation (NSF) awarded the $1.4 million to the Southeastern Universities Research Association (SURA) to establish SURAnet, the first regional network of NSFnet, a national research communications network being developed by the foundation.

George Washington will be one of 16 southeastern universities in the country to be part of the regional SURAnet. As part of SURAnet, GW is responsible for coordinating the linkage of other institutions in the Washington area into the network.

The network will also allow universities to gain access to NSF's five supercomputers, which are capable of rapid speed transmissions. The supercomputers are located at the University of California at San Diego, Cornell University, the University of Illinois at Urbana-Champaign and Princeton University. A fifth is run jointly by Carnegie Mellon University and the University of Pittsburgh.

High speed access will also be available to the Florida State supercomputer, as well as other national networks such as MFEnet and the Department of Defense's ARPAnet.

The SURA network will be constructed in phases with the first phase using 56Kb speed lines (56,000 bites per second) which are capable of transmitting approximately 1,000 words per second. Successive phases will involve the installation of lines allowing higher speed transmissions. SURAnet is expected to be operational by the end of this year.

President Lloyd H. Elliott says, "We anticipate a large and growing number of our researchers will be using the facilities made available by SURAnet. The incredible power of these machines opens entire new areas of scientific inquiry which we are confident will contribute to both the nation's and the region's long-rang technical growth and economic strength."

Vice President for Research and Administration Carl J. Lange serves on the board of SURA which represents 35 universities in the southeastern United States. Associate Professor of Physics Morton Taragin served as one of the principal investigators for the SURAnet proposal.

Professor Taragin explains that use of the network is not limited to the scientific community and that researchers from all disciplines can take advantage of this technology to share critical information, such as very large databases. He says, "SURAnet, and soon NSFnet, will revolutionize university research, allowing researchers to collaborate on findings without leaving their desks, so to speak." Taragin says SURAnet is unrivaled in the sense that although other computer communication networks exist around the country, they are limited in scope and availability to university researchers.

GRADUATE INSTITUTE IN POLICY EDUCATION AND RESEARCH AT GW

The creation of a Graduate Institute in Policy Education and Research in the Graduate School of Arts and Sciences was announced on campus Wednesday, May 28, at an inaugural lecture and reception in the GW Club.

"The role of a university has to be an assessment, an appraisal, a look at the policies of the public lawmakers, policy makers, decision makers under whom we live," said President Lloyd H. Elliott in informal remarks. "I suspect the most difficult role of a public policy group, the greatest challenge, will be to maintain from the beginning and retain throughout its full course of study the most objective posture possible," he went on. Dr. Elliott pointed out that think-tanks and thinking people all too often may get classified or pigeonholed as having one or another bias. "If there is any place where objectivity can and ought to be as carefully guarded and preserved as possible," he said, "it ought to be on a university campus."

ARVIL V. ADAMS, left, director of the Graduate Institute in Policy Education and Research in GSAS, with Dean Don Stokes of the Woodrow Wilson School of Public and International Affairs, Princeton University.

Graduate School Dean Henry Solomon introduced Professor Arvil V. Adams, research professor of education policy and of economics, who will serve as director of the institute.

"Our vision for the institute," Dr. Adams said, "is that through its programs and activities, it will stimulate multi-disciplinary education and research on our campus, enrich and strengthen the base of resources available for graduate studies at George Washington University and, what may to some be a radical idea, establish George Washington as an academic center in Washington for policy education and research." He said the institute's schedule of planned activities and programs will include the appointment of faculty associates and a steering

(continued on back)

PHILLIPS HALL DEDICATED

(continued from front)

Mrs. Phillips, in a brief, gracious response, said, "I am overwhelmed by this tribute to the Phillips family. I am sorry that my husband is not here to share in the appreciation of his devotion to the welfare of George Washington University. To those of you who are here, my thanks for sharing with me this memorable occasion."

The Reverend Professor Robert G. Jones, university marshal, gave the invocation and prayer of dedication and benediction.

GRADUATE INSTITUTE

(continued from front)

committee to establish policies and procedures. In the fall, a board of advisors will be announced and the institute will host a reception for the board and for the announcement to the public of the establishment of the institute.

Adams commented that the institutes's planned activities seem natural in the nation's capital and consistent with the plans for the University set forth in the report of the Commission for the Year 2000. He further noted the institute's plans can be viewed in a broader context of higher education's effort to further the improvement of government and public policy through research and education.

Dean Don Stokes of the Woodrow Wilson School of Public and International Affairs at Princeton University spoke on "The Policy Studies Movement: Its Place in Academia and Some Thoughts About the Future" to the cross section of GW faculty members and administrators invited by President Elliott to attend.

Dean Stokes traced four waves of public policy or public administration thinking and discussed at some length the concepts of research, pure research and applied research, and advanced the idea that research done for itself alone and research done with the idea of the results having a practical application are not antithetical. He said that perhaps at centers, such as the GW institute, the two research concepts may come together for the benefit of society as a whole.

DANCE DIRECTIONS '86 A FESTIVAL OF PREMIERES

GW's Dance Production Groups will present Washington Dance Directions '86: A Festival of Premieres, June 19-21 and June 26-28 at 8 pm in the Marvin Theatre. Nine area companies, selected by a panel of judges, will present their newest work in three programs of premieres.

Thursday, June 19 and Friday June 27, Akua Femi Akouate, Lightmoves Collaborative, and Lucinda Weaver Hall will perform. The second program, which takes place Friday, June 20 and Saturday, June 28, will feature Beth Burkhardt, CODA -- Contemporary Dancers of Alexandria, and Upright Vertebrates. On Saturday June 21 and Thursday, June 26, Alcine Wiltz, the Jan Taylor Dance Theatre, and Momentum Dance Theatre will appear.

Tickets are $8 for the general public and $6 for students and senior citizens. A series for all three programs is $18/$15. For more information, call Ext. 6577.

HERE COMES SARP

The Summer Advance Registration Program (SARP) will begin on Thursday, June 19, and continue through Friday, July 11, in two-day sessions.

Members of the University faculty and staff are invited to attend informal receptions for the new members of the class of 1990 and their families as part of SARP. The receptions, called "Meet and Greet," are scheduled for the hour from 4:30 to 5:30 pm. The dates are Thursday, June 19; Wednesday, June 25; Monday, June 30; and Thursday, June 10. The June 19 reception will be held in the Marvin Center Ballroom. The other three will be held in Thurston Hall Cafeteria at 19th and F Streets, NW.

ALUMNI REUNION -- Carol Snow Plew, left, (B.A. 1970, Columbian College) attended the 50th anniversary luncheon June 6 with her father Richard H. Snow (B.A. 1936, Columbian College). Both were psychology majors. Mr. Snow also holds an M.A. (1940) from GW.

SEMINAR AND ART EXHIBIT ON NATIVE AMERICAN ARTIFACTS

There will be a three-day seminar on the Humanities of the Natives of the Americas here at the University on June 24, 25 and 26. It will be accompanied by an exhibit of native American artifacts in the Colonnade Gallery, Marvin Center, which will continue through Monday, July 14.

The seminar has been organized by the Thomas Jefferson Forum, D.C., a non-profit organization which has as its purpose the introduction into academia of the study of the ancient civilization of the Western Hemisphere. The seminar is sponsored by the University's Department of Urban and Regional Planning, and the embassies of Canada, Mexico, Guatemala, Ecuador and Peru.

The exhibit of artifacts, paintings and sculpture, which will include Navajo works, is made possible through the cooperation of Via Gambaro Studio-Gallery (bronze sculpture); the Indian Craft Shop, Department of the Interior; Mexican painter Anamario Pinto; the Museum of Modern Art of Latin America of the Organization of American States (OAS); and Felix Angel, curator of temporary exhibits of the Museum of Modern Art of Latin America (OAS).

Tuesday, June 24, a 6 pm reception in the Colonnade Gallery will be followed by two lectures. At 7 pm, Dr. Grayson Noley of Pennsylvania State University will speak on "Education of the Native Prior to European Contact." At 8:15 pm, Mr. Simon Brascoupé of Canada will speak on "The Tree of Peace, New Indian Economics." Both lectures will be given in the President's Room, GW University Club.

Wednesday, June 25, Dr. Juan Maiguashca of the University of York, Canada, will speak on "Overview of the Culture of the Colonized in the Andean Region" at 7 pm, followed by Dr. Howard L. Meredith of Oklahoma City on the subject "A Cherokee Vision of Eloh" at 8:15 pm. Both lectures will be in Marvin Center, Room 404.

Thursday, June 26, the speakers will be Dr. Abelardo Sandoval of New York University on "The Peruvian Andean: A View from the Past," at 7 pm, and Paloma Ojeda of the Mexican Embassy on "The Indians in Mexico" at 8:15 pm. A reception for all seminar participants will follow at 9:30 pm in the Colonnade Gallery.

All the seminar events and the art exhibition are open without charge. For more information, call 462-7561 or 656-1741.

DIMOCK GALLERY LOAN OPPORTUNITY

There will be an opportunity to borrow art works from The George Washington University Permanent Collection for exhibition in university offices, Tuesday and Wednesday, June 24 and 25. Loan opportunity hours will be 11 am to 4 pm both days. Works already on loan may be returned or exchanged.

The Dimock Gallery, off the lower lounge of Lisner Auditorium, has a policy of lending art works from the collection to university offices for a one-time loan charge of $15 per item. This fee covers the possibility of damage to works on loan and provides supplementary funding for framing.

The selection and dispersement of works to the various offices will take place in the lower lounge of Lisner Auditorium, right outside the gallery. Those wishing to return art works are asked to do so on the first day, Tuesday, June 24, so that these pieces will be available for those from other offices to see. Loans will not be made after June 25 until the next loan period.

For further information, call the Dimock Gallery, Ext. 7091.

NEWSNOTES

PROFESSIONAL ACTIVITIES

MURIEL ATKIN, associate professor of history, presented a paper, "The Soviet View of the Contemporary Islamic World," at the Kennan Institute of the Woodrow Wilson Center, April 16.

JAMES R. BARTH, professor of economics, and **MICHAEL BRADLEY**, assistant professor of economics, presented a paper, "On Testing the Inverted Fisher Hypothesis," at the Eastern Economic Association Meetings, April 10, in Philadelphia.

LAURA FRANKLIN. Ph.D. candidate in Romance languages, presented a paper, "The Valorization of Food, Drink and related Series in Pantagruel" at a colloquium on "The Poetics of Celebration," sponsored by the French Graduate Student Association, Department of French and Italian, New York University, on April 25.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, served as the keynote speaker at the 8th annual three-day Southeastern Trade Conference held in Mobile, Alabama, April 24. His remarks focused on "Trade and Investment in the Peoples's Republic of China: Potential Opportunities, Procedures and Problems." He also participated in the first Washington area consortium research forum held April 19 at Howard University, presenting a paper co-authored with Dr. Jian Hai Lin entitled, "An Analysis of Sino-U.S. Joint Ventures in China: Opportunities and Constraints."

(continued next column)

EILEEN MORRIS GUENTHER, studio instructor in organ, and **ROY GUENTHER**, associate professor of music, gave a recital of music for trombone and organ at the First Presbyterian Church of California, Maryland, on April 27. This was the concluding concert in a year-long series commemorating the installation of the church's Skinner pipe organ in 1985.

KATHLEEN JORDAN, associate director of housing and residence life, co-presented a paper with Washington Center Symposium personnel on "Women as Leaders" at the National Conference of Student Personnel Administrators, April 4, in Washington, DC. She was the keynote presenter in a state conference for Women as Leaders sponsored by the League of Women Voters in Sioux Falls, South Dakota, on April 26.

JOHN F. LATIMER, professor emeritus of classics, was presented the annual "Award of Merit" of the Classical Association of the Atlantic States, on April 18. It marked the 50th year of his membership with the association, of which he was president at the time of its Semi-centennial in 1956.

HOSAM MAHMOUD, assistant professor of statistics, presented a talk, "Evolution of Random Trees," April 26, at the DC/Maryland/ Virginia section of the Mathematical Association of America's spring meeting in Fredericksburg, Virginia.

MARGARET RAPP, assistant professor of English, gave a public lecture at the Boston Museum of Fine Arts in February. Part of a three-lecture series on ethics and architecture, the talk was entitled, "The Construction and Deconstruction of Value: Postmodernism in Architecture."

PERSONNEL NOTICE

RESEARCH ASSOCIATE, full-time, Radiopharmaceutical Chemistry. (Individual to research the synthesis of chelating agents, mechanistic studies on aromatic substitution reactions and chemical modifications of proteins for the preparation of tumor imaging agents. The research requires thorough knowledge on reaction mechanism and analytical techniques such as counting, HPLC and elecetrophoresis. A Ph.D. in radio, physical-organic or organometallic chemistry is required. Available immediately.) Send resume to Geri Rosen, Grants Management, 708 Ross Hall.

The George Washington University is an equal opportunity/affirmative action employer.

FRENCH COMPANY JOINS GW'S INDUSTRIAL LIAISON PROGRAM

L to R, Professor Hermann J. Helgert, Professor Walter K. Kahn, LCT President Jacques Ragot, Professor Roger H. Lang, SEAS Dean Harold Liebowitz and Mr. Jean-Marc de Comarmond, scientific attaché, Embassy of France after the signing of the agreement between the University and LCT.

The Laboratoire Central de Telecommunications (LCT) of France has become the first internationally based company to join the Department of Electrical Engineering and Computer Science's Industrial Liaison Program.

The French company is a leader in advanced electronics, radars, missile equipment, transmission and communications networks. LCT's accomplishments in telecommunications include the development of the time-division concentrators and exchanges for RITA, the French Army's battlefield communications network, the same system recently adopted by the United States Army; the development of the LCT 320X computers for the METACONTA telephone exchanges which equip public networks in a number of countries, particularly France and the U.S.; and an important contribution to the development of ITT's System 1240. (Until 1982, LCT was the ITT French laboratory for research and development.)

A research proposal between LCT and The George Washington University has been approved and signed by both parties. The principal investigator for the research is Professor Hermann J. Helgert of the Department of Electrical Engineering and Computer Science. The agreement calls for GW to conduct a research program in the area of communications networks. Research will focus on the adaptation of the LCT 6500 Multiservice Network to the U.S. telecommunications networks and the services supplied by these networks. In addition, development of new applications of the LCT 6500 in the context of intelligent building capabilities and interactive graphics teleconferencing will be undertaken.

FITZGERALD IS SECOND GW ACADEMIC ALL-AMERICAN THIS YEAR

GW senior second baseman Kevin Fitzgerald had been named to the first team GTE/CoSida Academic All-American team as selected by the College Sports Information Directors of America. Fitzgerald is the second GW athlete to be named to a GTE/CoSida Academic All-American team this year. Senior center Steve Frick was honored earlier this year as a first team basketball All-American.

"We are very proud of Kevin as we were of Steve when he received this prestigious honor," said GW Director of Athletics Steve Bilsky. "It reinforces our belief that student athletes can be successful in a demanding academic environment like GW and also excel in athletics."

Fitzgerald, like Frick, was a Rhodes Scholar nominee this past fall. The Colonial second baseman finished the 1986 season with a .437 batting average, scored 49 runs, had 55 RBIs, 11 doubles, 3 triples, 9 home runs and a .763 slugging percentage in helping lead GW to its finest spring season ever with a 28-13-1 record.

He was drafted June 2 in the 23rd round of major league baseball's annual amateur draft by the San Francisco Giants. The Giants also selected GW pitcher-outfielder Gregg Ritchie (an SGBA senior) in the 8th round. Ritchie earlier was named a third-team All-American by the College Baseball Coaches Association, while Fitzgerald was honored this spring as GW's Outstanding Senior Athlete.

In the classroom, Fitzgerald was equally successful. He had a 3.5 cumulative grade point average majoring in political science. Fitzgerald's selection gives GW the distinction of being the only university to have a first team selection in both baseball and basketball and marks the first time GW has had two first team Academic All-Americans in one school year.

HOWREY AND ALVERSON CHAIR OCCUPANTS SELECTED IN NLC

The individuals who will occupy the Richard F. Howrey Chair of Trial Advocacy and three Alverson Chairs in the National Law Center for the academic year 1986-87 have been announced by Vice President for Academic Affairs Roderick S. French.

The first holder of the Edward F. Howrey Chair will be John Bodner Jr. of Washington, D.C. He is considered one of the leading trial lawyers in the antitrust bar. He will serve as Visiting Howrey Professor of Trial Advocacy. This chair, established through a gift of a distinguished trial lawyer and law alumnus, was named in his honor.

Professor Michael Gordon of the University of Florida Law School will serve as Visiting Lyle T. Alverson Professor of Law. He is a well-known writer and teacher in the fields of comparative law and international private business transactions. He is the second holder of the chair, succeeding Professor Theodore J. St. Antoine, a scholar and writer in the field of labor law who served in the 1985-86 academic year. This chair and two others were created from a very generous bequest of the late Lyle T. Alverson, a George Washington law alumnus. The Alverson Chairs are not limited to any particular subject area.

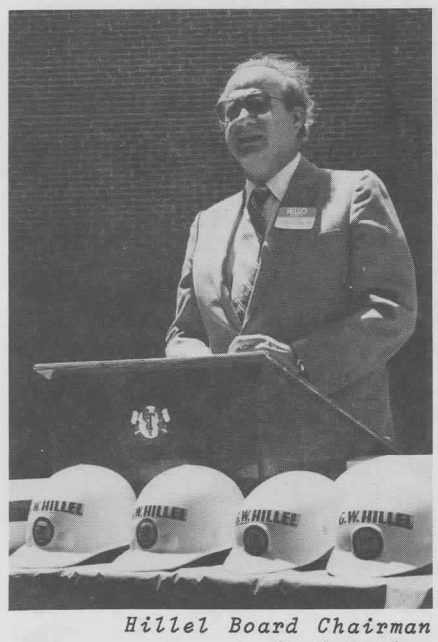
The two additional Alverson Chairs were designed to be in-house chairs that are to be occupied by members of the GW National Law Center faculty. Two law faculty members were recommended to Vice President French by the tenured full professors of the National Law Center to be Lyle T. Alverson Professors in the spring of this year. Those who were recommended and appointed are Professor and Dean Jerome A. Barron and Professor David E. Seidelson.

Professor Barron is a teacher and writer in the fields of First Amendment law and communications law.

Professor Seidelson is a teacher and writer in the fields of conflicts and evidence.

HILLEL BREAKS GROUND FOR NEW BUILDING

The B'nai B'rith Hillel Foundation at the University held a June 10 ground-breaking ceremony for its new building, to be located at 23rd and H Streets, NW. Jewish students and community leaders turned over shovels of earth at 12 noon.



Hillel Board Chairman Carl Gewirz

The Hillel Foundation, which serves the cultural, religious, social and counseling needs of Jewish students and the University community, opened its doors during World War II and occupied a location on F Street until 1983. For the past three years, Hillel has occupied rented quarters. The new building will include a chapel, auditorium, kosher dining facility, student lounge, classrooms, library and offices.

Hillel Board President Carl Gewirz recalled the involvement of his late father, Morris, who worked to establish the first Hillel Foundation building after the war. "Our generation of the family is just showing our continued interest in providing a home away from home for Jewish students," he said. "Men like my father and J. Charles Shapiro worked hard to build this foundation and we want to pay them this honor."

Rabbi Gerald Serotta, director of GW Hillel, offered a prayer for new beginnings, and recognized the efforts of three groups he said were responsible for sustaining the project: B'nai B'rith; the local Jewish community through the Jewish Campus Activities Board and the Greater Washington Jewish Community Foundation; and the Gewirz-Kline family.

Other speakers at the event included Rev. John Wilbur of St. Mary's Episcopal Church, which adjoins the Hillel property; Carl Kaplan, chair of Youth Services Division of the United Jewish Appeal Federation; and GW Vice President

(continued on page 2)

TWO GW LIBRARIES TO HAVE USER SURVEYS

The University has contracted with Peat, Marwick, Mitchell & Co. to perform library cost analysis studies at the Himmelfarb and Gelman Libraries.

Peat Marwick's library cost study methodology relies heavily on results from user surveys. The surveys will be conducted on a random basis throughout fiscal year 1987, which begins tomorrow, Tuesday, July 1. These user surveys consist of questions aimed at gathering information concerning the purposes for library visits and finding out which types of library services are being utilized.

If you enter either library during a survey period, please take a few minutes to complete a survey form and return it as you leave the library. Everyone's cooperation will be much appreciated and very important to the success of the surveys.

TRUSTEE FLORETTA MCKENZIE TALKS AT NATIONAL PRESS CLUB

University Trustee Floretta McKenzie, speaking at a Morning Newsmaker Breakfast at the National Press Club June 9, said, "To be a teacher, you have to have a little ham in you." Superintendent of the District of Columbia public schools, Dr. McKenzie received her doctorate in education from George Washington.

"We must make teaching a more practical and rewarding profession," she went on. "We must build bridges between education and labor." She said that 30 percent of the adults in the United States have children in school but that only 75 percent of those children graduate. The main reason for dropouts Dr. McKenzie declared, is that the student thinks nobody cares. "We are working to reverse that feeling," she stated. "Ours is a strange business. You can't be aloof from your product." Superintendent McKenzie said the average annual expenditure per pupil in D.C. public schools is now $4,000 including the expanded summer program.

BOOKSTORE OFFERS COMPUTERS AT DISCOUNT IN SPECIAL SALE

The GW Bookstore presents two unique opportunities for students, faculty and staff to buy IBM microcomputers. A valid GW picture ID is required for eligibility. The PCs are being offered in two configurations. Both configurations include DOS 3.2 and there are options for printers and modems. Details on the configurations are available at the bookstore. For any technical advice, contact Carol Johnson at the Computer Center, Ext. 6140,.

IBM is upgrading its personal computer line and is offering an old model PC to the GW community at a discount. The University Bookstore will be able to take orders for these only until July 18.

The bookstore will also take orders for the new IBM Convertible -- IBM's replacement for the Portable PC. This new machine is more portable than the previous model, weighing in at less than 13 pounds. There is no time limit on the bookstore's sale of Convertibles.

The PCs can be ordered from the customer service desk of the bookstore with a $200.00 deposit. Delivery may take four to six weeks and purchasers will be notified when their computer arrives.

HILLEL BREAKS GROUND

(continued from front)

for Student Affairs William P. Smith.

The building is being financed entirely by private contributions. The 13,000 square foot structure will be owned by the Washington B'nai B'rith Hillel Foundation, Inc. Construction manager for the project is the Volpe Construction Company, Inc. and the architects are Imas Gruner Associates. Construction is scheduled to be completed within 10 months.

MAKOWSKI IS NEW WOMEN'S HEAD BASKETBALL COACH

Linda Makowski is the new head women's basketball coach at George Washington University, joining the program with a 161-94 career win/loss record. She began her coaching career at Wayne State University and has spent the past six seasons building the University of Dayton program into a national contender.

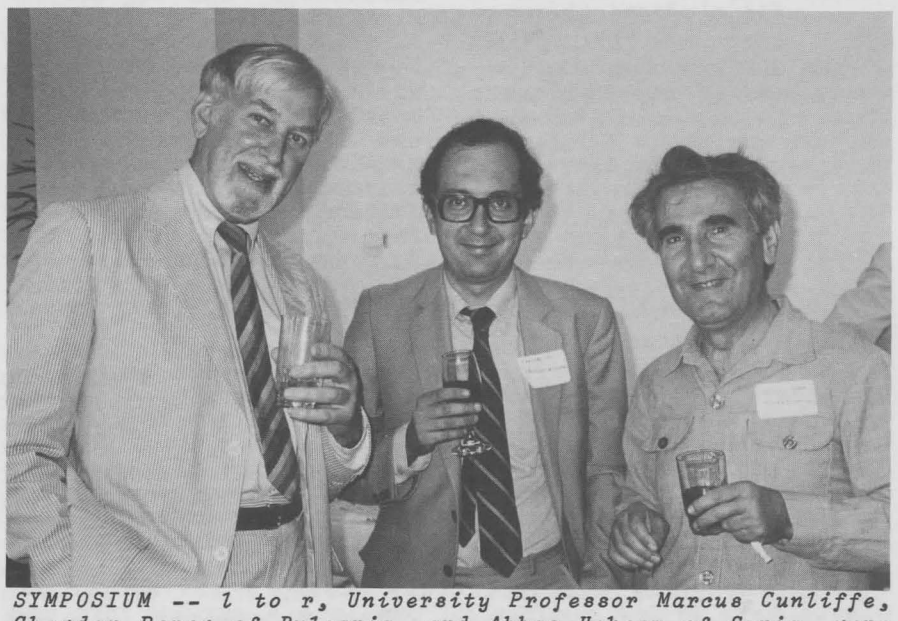
At Dayton, Makowski oversaw the successful transition of the program from one of the nation's top Division II teams, with three appearances in the national championship tournament and one final four berth, into a highly competitive Division I program.

Makowski earned her undergraduate degree in physical education and English literature at Eastern Michigan University. She also completed graduate work at Wayne State University.

DIMOCK GALLERY CLOSES TEMPORARILY

The Dimock Gallery, off the lower lounge of Lisner Auditorium, closed on Friday, June 27, and is to remain closed until Friday, July 18, because of repairs to be done in Lisner Auditorium.

The gallery staff has taken up temporary residence in the Art Department located in the Robert H. and Clarice Smith Hall of Art. They can be reached at Extension 8652. The series of exhibitions in the Dimock Gallery for 1986-87 will start with the GW Art Alumni Exhibition, scheduled for September 11 through October 9.



SYMPOSIUM -- l to r, University Professor Marcus Cunliffe, Chavdar Popov of Bulgaria, and Abbas Hakeem of Syria, were among a number of embassy representatives attending the June 16 symposium, "Internationalizing American Studies," sponsored by American Studies International, a scholarly journal and newsletter published here at the University.

MORE THAN 100 GW PEOPLE RECOGNIZED AT V P AND T SERVICE AWARDS LUNCHEON

RETIREES l to r, Mattie Calhoun, John C. Einbinder, Louise Miller, Marie T. Plunkett, Jimmie G. Hart, William J. Hendrick (not shown Thomas J. Monroe and Lewis Borders).

"If all those eligible to receive awards and recognition were here, including retirees, there would be 116 people whose years of service to the University total 1,252," said Vice President and Treasurer Charles E. Diehl at the Service Awards Luncheon sponsored by his office June 20 in the second floor dining room of the Marvin Center.

President Lloyd H. Elliott, who joined the group before lunch, said, "I just came by to thank you on behalf of the University for the work you have done and the work you are doing. This University has come a long way in the last quarter century. I'm just arrogant enough to say to you that this is a great university and it's going to be greater in the next quarter century. Its greatness and its outreach in every way is attributable to those people in this University who are doing their jobs every day. People are the University. The facilities, everything helps us to do our work -- in the final analysis it's people, it's all of us, it is you and your colleagues and fellow workers who come and go each day who make a university a university. Thank you for doing it, it would not be anything without you."

Seven retirees received special recognition: John C. Einbinder, who retired as assistant treasurer for business and procurement, (34 years); Marie T. Plunket, office supervisor in Procurement and Supply, (12 years); Jimmie G. Hart, assistant physical plant administrator, (30 years); Louise Miller of University Housekeeping, (27 years); Mattie Calhoun, also of University Housekeeping, (21 years); Lewis Borders, engineer with the Physical Plant Department, (19 years); Wiliam J. Hendrick, building manager, (15 years); and Thomas J. Monroe, who has been in charge of the venetian blind shop in the Physical Plant Department, (11 years).

In Planning and Construction and Physical Plant, four were recognized for long service. They are Martin M. Roudabush, senior resident consulting engineer, (35 years); William Payne, foreman of the Grounds Division, (35 years); Jimmie G. Hart, who is retiring, (30 years); and Jessie Miller, of University Housekeeping (25 years).

Ann Reppen of Sponsored Projects was thanked for 30 years of service.

Johnnie A. Gray of the University Bookstore was recognized for 25 years of work.

Seven members of the University family have 20 years service: Lois Washington of the Bookstore; Louis Hoggs and Charlie Watson of Duplicating; Joseph Buscher of Physical Plant; Annie Nuriddin of University Housekeeping; and Gloria Rodriguez and Annette Summers (cousins at SAGA).

A large number of awards were presented for five, 10 and 15 years service.

Vice President Diehl, saying, "I want to give you an update on what's been going on in the past year," highlighted the full enrollment the University expects in the fall; the new telephone system now being installed; the fact that all University programs are now 100 percent accessible to the handicapped; the plans for renovations in Corcoran Hall and the Gelman Library; the construction of a new ambulatory care addition to the Burns Building; the fact that 2000 Pennsylvania Avenue is fully rented; and that the University Mail Service received an award for being in the group of the second largest mailers with the least amount of errors because of preparing University mail to go out by zip code. "We really are a special place," he said, "and I want to thank each and every one of you for the contributions you are making on a daily basis."

DEAN ALVIN JENSEN TO RETIRE

Alvin C. Jensen, associate dean of the Division of Continuing Education, who is looking forward to retirement, will leave campus on Tuesday, July 15. He came to the University in September of 1969 as an associate professorial lecturer in education. In 1970, he was named associate dean of the then College of General Studies. He has continued in this capacity as associate dean in the Division of Continuing Education.

Dean Jensen holds two degrees from George Washington, Master of Arts in Education (1960) and Doctor of Education (1967). A member of the Governing Board of the General Alumni Association, he has been very active as a volunteer in the annual "George Calling" phonathons for the University's Annual Fund.

PROFESSOR CAMBEL GUIDES "WISE" SUMMER INTERNS

This summer, 18 engineering students from across the country, who are taking part in the American Society of Engineering Education 1986 Washington Internships for Students of Engineering (WISE), are being guided during their 10-week stay by GW Professor of Engineering and Applied Science Ali B. Cambel.

The students, selected from among 96 applicants for their academic excellence, leadership potential and interest in public policy, will observe the interplay of technological expertise and public policy making in Washington. Professor Cambel will be helping the students with their projects -- either a case study or a position paper -- required to receive the internship's three hours of credit. He is also arranging meetings for the interns, who arrived June 10, with government agency heads, congressmen and various special interest organizations.

Professor Cambel, director of the Office of Energy Programs in the CMEE Department, has served as deputy assistant director of science and technology at the National Science Foundation.

The WISE program was started in 1980 by Barry Hyman, professor of mechanical engineering at the University of Washington.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JOHN G. ALLEE, professor emeritus of English, gave the after-dinner address, "Huguenots in Sweden," to the National Huguenot Society, April 18, in Washington, DC. He attended the 39th Annual Kentucky Foreign Language Conference, April 24-26, where he presented a paper, "The Language of the Current (5 Mar '71) Greenlandic Lectionary." On May 2 and 3 he attended the Names Institute in honor of Professor Wallace McMullen at Farleigh-Dickinson University, Madison, New Jersey. He presented a paper at the 21st International Congress on Medieval Studies at Western Michigan University, May 8-10, entitled, "The Literate Norse in Medieval Greenland."

FREDERICK AMLING, professor of business finance, spoke to the Economic Club of Sheboygan, Wisconsin, May 14, on "The Economic Outlook, Reaganomics and Investments." The goal of the club is to aid in the creation and expression of an enlightened public opinion on current and important economic questions.

PETER J. CAWS, university professor of philosophy, delivered three lectures at Baruch College of the City University of New York on April 10, 14, and 17, as the first Phillip Morris Distinguished Lecturer in Business and Society. He addressed the general theme, "The Capital Connection: Business, Science and Government." The individual lectures, "Venture Capital, Taxes and Technological Progress," "Making Choices--the Market Method and Electoral Method," and

(continued next column)

"Beyond the Dialectic--Synergy and Symbiosis of the Public and Private Sectors," are being edited for publication.

MARCUS CUNLIFFE, university professor, has been awarded a Grant-in-Aid for postdoctoral research by the American Council of Learned Societies. The award, one of 96, will be for the research on the emergence of the great popular author in the 19th century.

JOHN EFTIS, professor of engineering and applied science, **DOUGLAS L. JONES**, professor of engineering, and **MOHAMED ABDEL-KADER**, graduate student, presented the papers "An Extension of the Chaboche Theory of Viscoplasticity To Account for Rate Dependent Initial Yield," at the XIII Southeastern Conference on Theoretical and Applied Mechanics, April 17-18, in Columbia, South Carolina; "Modeling Viscoplastic Behavior of Inconel 718 at 1200F degrees," at the Third Symposium on Nonlinear Constitutive Relations for High Temperature Applications, June 11-13 in Akron, Ohio; and "Comparisons Between Chaboche's and Bodner's Viscoplastic Constitutive Theories for High Temperature Applications," at the Tenth National Congress of Applied Mechanics, June 16-20, in Austin, Texas.

AMITAI ETZIONI, university professor, organized one of the four "General Interest" symposia of the 1986 meeting of the American Association for the Advancement of Science entitled, "The Frontiers of the Social Sciences: Integration of the Economic and Other Social Sciences," May 27, in Philadelphia. On June 3, he presented a paper entitled, "History of Interaction Between Sociology and Economics," at the Behavioral Economics Philosophy and Development Session of the History of Economics Society Annual Meeting in New York.

JONATHAN D. FIFE, professor of education, participated as the invited representative of the University in the inauguration ceremony of Robert A. Scott as President of Ramapo College of New Jersey on May 5.

JAMES D. FOLEY, professor of electrical engineering and computer science, presented a half-day seminar and organized a panel on the subject "Managing the Design of User-Computer Interfaces" at the Human Factors in Computing Systems Conference in Boston, April 13-17, and at the NCGA (National Computer Graphics Association) Conference in Anaheim, California, May 12-16.

DENNIS E. GALE, associate professor of urban and regional planning, attended the International Symposium on Neighborhood Policy, May 1 and 2, in Cambridge, Massachusetts, sponsored by the Massachusetts Institute of Technology and the Neaman Institute for Advance Studies of the Technion in Israel. He chaired one of six sessions entitled, "Resident Participation." He has been appointed to the Steering Committee of the DC Commission on the Arts and Humanities in a program to improve the quality of urban design in the national capital.

CAROL H. HOARE, associate professor of education, is a committee member of the James P. Ryan Scholarship. She is one of five professionals who review applications and select finalists for the scholarship, given to children or spouses of employees of The Ryland Group, Inc., which funds the program. The James P. Ryan Scholarship was created this year to assist those in pursuit of an education in the caring professions. The program is named for James P. Ryan, founder of the Ryland Group.

SPANISH DANCE WORKSHOP participants follow directions from instructor Marina Grut, left. They will be studying Spanish classical, regional and flamenco styles here at the University through July 3.

JAMES D. HUNT, professor of education, conducted a day-long workshop on "Issue Analysis and Goal Setting for Tourism Development" for 100 tourism leaders, May 19, sponsored by the Richmond Metropolitan Convention and Visitors Bureau, in Richmond, Virginia. On May 20, he keynoted the New Hampshire Governor's Conference on tourism in Merrimack with a presentation entitled, "A New Tourism--Meeting the Challenges of the Second Half of the 1980s." On May 29, he presented a paper entitled, "An Overview of the International Tourist Market," at the International Tourism Marketing Seminar in Anaheim, California.

FRANK KAVANAUGH, Airlie Professor of Communications, was a guest speaker at the French Embassy on May 9, to address members of the U.S./France Filmmakers Exchange Program. Six master's level film students from each country are being sponsored in their travels by International Arts Enterprises. He spoke on "Foreign Opportunities for Pre-professional Filmmakers."

CLARA M. LOVETT, professor of history, served as a panelist on May 22 and 23 for the National Endowment for the Humanities' Division of Education Programs. On June 12 and 13, she was a panelist for the Division of State Programs, NEH.

HONEY NASHMAN, assistant professor of human kinetics and leisure studies, presented a paper on "Burnout--A Global Concern," at the International Symposium on Comparative Physical Education and Sport, May 28, in Vancouver, Canada.

HENRY NAU, professor of political science and international affairs, delivered a paper entitled, "East-West Trade Policy: Beyond Denial and Detente," at the Conference on Technology, Economic Growth and National Security, Brussels, Belgium, February 4-6, sponsored by U.S. missions to NATO, EEC, OECD and Belgium. He delivered a paper entitled, "Is Europe Driving the United States Toward Asia," at the Conference on Atlantic/Pacific Relations at the Institute for International Studies, University of California, Berkeley, April 24-26.

DAVID B. NEWMAN JR., associate professor of electrical engineering and computer science, was the keynote speaker at the April 17 meeting of the Communication Society of the Institute of Electrical and Electronics Engineers, Inc. He reviewed the subject of Land Mobile Satellite Service (LMSS), which would augment existing terrestial mobile communications including emergency and cellular communications.

LEO P. RIBUFFO, professor of history, delivered a paper, "Warren I. Susman's Methodology," at the convention of the Organization of American Historians on April 11. He delivered a lecture, "The New Christian Right in Historical Perspective" as the inaugural presentation in the W. Augustus Low Lecture Series at the University of Maryland, Baltimore County.

JAMES W. ROBB, professor of Romance languages, participated in a panel on "Art in Latin America," with Mexican artist Jose Luiz Cuevas, in relation to his literary affinities with Franz Kafka, J.L. Borges and J.J. Arreola. The session, with Annick Casciero of the Museum of Modern Art of Latin America presiding, was held April 27 at the Latin American Book Fair, on the Van Ness campus of the University of the District of Columbia.

ROBERTA SPALTER-ROTH, visiting assistant professor of women's studies, moderated two panels and gave two talks on "The Dual Vision of Feminism and Public Policy"

(continued on back)

and on "Feminist Policy Constituencies, Coalitions and Careers," at the National Women's Studies Association meetings, June 12 and 13 at the University of Illinois, Urbana-Champaign.

FREDERIC R. SIEGEL, professor of geochemistry, presented a paper entitled, "Use of Thermoluminescence in Ground Radiation Detection," at the National Science Week Regional Conference on Indoor Radon in the Mid-Atlantic States, May 12, at George Mason University.

JEANNE SNODGRASS, professor of human kinetics and leisure studies, chaired a panel, "Lifespan Motor Development," and presented a paper, "Independent Functioning Throughout the Lifespan," at the 1986 National Convention of the American Alliance for Health, Physical Education, Recreation, and Dance, April 10, in Cincinnati, Ohio.

SCOTT STEBELMAN, reference and instruction librarian, presented a paper, "Integrating Online Searching Into Traditional Bibliographic Instruction," May 8, at the annual LOEX Conference.

PETER F. THALL, associate professor of statistics, presented a talk, "Analysis of Recurrent Events Based on Random Interval Count Data," May 13, at the Society for Clinical Trials Annual Meeting in Montreal, Canada.

ROBERT H. WALKER, professor of American civilization, was keynote speaker at two conferences in West Germany. On May 21, in Grainau, he addressed the annual meeting of the German Association for American Studies on "Everyday Life and Social Change," and on May 26 at Bonn he addressed the annual meeting of secondary school advisers on "Literature and Society." As part of the same USIA sponsored trip, Walker also spoke in Italy at the Universities of Genoa and Turin on May 29 and 30. His topic was "The Changing Shape of American Studies."

DEWEY D. WALLACE JR., professor of religion, presented a paper on "Sherlock Bristol and Western Congregationalism," at the American Society of Church History meetings, April 4, in Fort Worth, Texas.

PUBLICATIONS

MICHAEL D. BRADLEY, assistant professor of economics, an article, co-authored with Susan Potter, "The State of the Federal Budget and the State of the Economy: Further Evidence," in Economic Inquiry, Vol. 24, No. 1, January 1986, pp. 143-53.

MARCUS CUNLIFFE, university professor, editor of a revised version of the Sphere History of Literature, Vol. 8, American Literature to 1900 (May 1986), first published in 1973.

CHRISTOPHER J. DEERING, associate professor of political science, an article, "Leadership in the Slow Lane," which appeared as part of a forum, "Congressional Fellows Assess the 99th Congress," in PS, Vol. XIX, Winter 1986, No. 1, pp. 37-42.

BENDIX AEROSPACE TECHNOLOGY CENTER'S John Flato, left, recently presented a check to the University's Department of Electrical Engineering and Computer Science. Representing the University at the presentation were Associate Professor of Engineering and Applied Science Simon Berkovich, center, and EE and CS Department Chairman, Professor Roger Lang.

AMITAI ETZIONI, university professor, two articles: "Guidance Rules and Rational Decision Making," Social Science Quarterly, December, 1985, Vol. 66, No. 4, pp. 753-769, and "Rationality is Anti-Entropic," in the Journal of Economic Psychology, Vol. 7, 1986, pp. 17-36.

DENNIS E. GALE, associate professor of urban and regional planning, two articles, "Demographic Research on Gentrification and Displacement," in the Journal of Planning Literature (Winter 1985-86) and "Urban Revitalization in Paris, Stockholm and Amsterdam: A View from the United States," in a the book, Research in Urban Economics, (JAI Press, 1985).

JAMES O. HORTON, associate professor of American civilization and history, an article, "Freedom's Yoke: Gender Conventions among Antebellum Free Blacks," in the spring issue of Feminist Studies.

LOUISA A. NIELSON, senior education specialist, instructional designer GWTV, two articles: "George Washington University Television, Video Teleconferencing, and Project SHARE," in the April, 1986, issue of INTELSAT Newsletter to Signatories; and "George Washington University Television and Educational Applications of Domestic and International Communications Satellites," for the Society of Satellite Professionals', The Orbitor, May, 1986.

JAMES W. ROBB, professor of Romance languages, a review of Helia M. Corral's Gastronomia literaria en "Memorias de cocina y bodega" de Alfonso Reyes, in Explicacion de Textos Literarios, Sacramento, California, XIV: (1985-86), pp. 105-106.

ROBERT H. WALKER, professor of American civilization, a social history text for Japanese college students, American Society, as recently announced by Nan'un-do of Tokyo, has entered the 4th printing of its 2nd edition.

DEWEY D. WALLACE JR., professor of religion, an article, "Sects, Cults and Mainstream Religion: A Cultural Interpretation of New Religious Movements in America," in American Studies, Vol. 26, No. 2, pp. 5-16.

PERSONNEL NOTICES

ASSISTANT DIRECTOR, full-time, Continuing Engineering Education. (Individual with 10 or more years experience involving engineering application or design. Duties involve developing, marketing, and managing intensive short courses used in a worldwide continuing engineering education program and assisting in the development and coordination of an extensive off-campus program of contract courses with government agencies and commercial corporations. Required: minimum of a B.S. in science or related field. Experience in engineering education, both nationally and internationally and a background of management in education is desired.) Send or bring resume and three references to: Director, Continuing Engineering Education, SEAS, GW, Room T-308, Phillips Hall, The Academic Center, Washington, DC 20052.

RESEARCH ASSISTANT, half-time, Department of Biochemistry. (Position involves the characterization of neuropeptides and their receptors in normal and malignant cells. Required: B.S. in chemistry or biological sciences and a minimum of one year laboratory experience. Experience in radioammunoassay or receptor binding assay desirable.) Contact: Dr. Terry Moody, Biochemistry Department, GWUMC, Washington, DC 20037.

RESEARCH ASSISTANT, half-time, Center for Family Research. (Person to assist with two ongoing research projects. Applicants should have a minimum of an undergraduate degree in a social science or health-related field. Prior experience working on research projects or conducting interviews preferred, but will provide training. Responsibilities include data collection, coding, and processing.) Send resumes to Dr. Fred Wamboldt, Ross Hall, Room 613.

RESEARCH ASSISTANT, part-time, Gastroenterology Laboratory, Department of Medicine. (Individual to work on experiments involving the characterization of secretion of a digestive enzyme. Required: a bachelor's degree in chemistry, biology, or biochemistry and at least one year of relevant experience. Experience with animal surgical techniques, with in vitro cell culture techniques, and cell isolation techniques preferred.) Contact: Dr. Ingram M. Roberts, Ext. 4214.

POSTDOCTORAL RESEARCH ASSOCIATE, full-time, Department of Chemistry. (Position located at the National Bureau of Standards, Gaithersburg, Md. Research involves probe studies of hydrocarbon diffusion flames. Applicants should have strong backgrounds in one or more of the following fields: mass spectrometry, chemical kinetics, or combustion science.) Forward resume and three letters of reference by July 15 to Dr. J. Houston Miller, Department of Chemistry, Corcoran 105.

POSTDOCTORAL RESEARCH ASSOCIATE, Department of Medicine. (Project entails identification and quantification of low molecular weight products of lipid peroxidation of biological membranes. Some experience in pharmacology and toxicology would be appropriate. Design and implementation of research would include the use of gas chromatography, mass spectroscopy, and high performance chromatography techniques.) Contact: Dr. William Weglicki, Ross Hall, Room 409, Ext. 5080.

RESEARCH ASSOCIATE, full-time, Cancer Immunology Laboratory. (Person experienced in cancer research studies and biological response modifiers. Administration of multi-center study with coordination of institutional research efforts. Work will include participation in the initial phases of preparation of vaccines from tumors removed at surgery, preparation of reagents for tumor cell transportating, coordination of patient accrual and data management for five different institutions. Close interaction with physicians and nurses on the project.) Resumes only to Dr. Richard Schulof, Ross Hall, Room 706.

The following two postdoctoral positions are available in the Department of Biochemistry. Contact: Dr. George Vahouny, Department of Biochemistry, GWUMC, 2300 Eye street, NW, Washington, DC 20037.

RESEARCH ASSOCIATE, full-time. (Qualified Ph.D. with experience in basic and clinical studies in the field of gastrointestinal physiology. The successful applicant will participate in ongoing research on the effects of dietary fibers and lipids on intestinal transport/physiology and development of future research models. Position available immediately.

RESEARCH ASSOCIATE, full-time. (Position involves research on the regulation of cholesterol absorption and mechanisms of sterol and phospholipid transfer proteins in regulating cellular lipid translocations. Required: Ph.D. and minimum one year experience in field basic to the above studies. Position available 8/1.

The George Washington University is an equal opportunity/affirmative action employer.

GW LAW GRADUATE MOOERS RECEIVES FULBRIGHT GRANT

Donald Mooers, who received the degree of Juris Doctor at the National Law Center's May 18 commencement, has been awarded a Fulbright Grant for Graduate Study Abroad.

Mooers will study in Mauritius during the year 1986-1987. He plans to examine the informal and formal methods of dispute and conflict resolution which have developed within the diverse ethnic communities of Mauritius. He will investigate how the ethnic groups have contributed to what is seen as an overlay to the laws and legal system of the country. He will conduct research at the University of Mauritius and the Mahatma Ghandhi Institute, interview barristers, solicitors and judges, and study the method used by the local headmen and other community leaders to resolve disputes. At the end of the year, Mooers will prepare a paper describing his research findings.

Before coming to George Washington, Mooers studied at Duke University and was graduated magna cum laude with a bachelor's degree in political science. He interrupted his law studies to serve in the Peace Corps for two years in Sierra Leone, West Africa. There he worked as the community agricultural education coordinator and the agricultural extension agent. He will leave in August for Mauritius, visiting friends made during his Peace Corps years on the way. After completing his Fulbright program, he hopes to continue his work in developing countries.

The Fulbright Program, the U.S. government's primary educational exchange program, celebrates its 40th anniversary this year. Following World War II, Senator J. William Fulbright of Arkansas came to the conclusion that if citizens of one nation knew and understood those of other nations, "They might," he said, "develop a capacity for sympathy, a distaste for killing other men, and an inclination to peace." He sponsored legislation designed to promote such international exchange which was passed by the United States Congress on August 1, 1946.

More than 150,000 persons have participated in the Fulbright Program since it began, many of them rising to positions of leadership in government, academia, the media and the arts. Prominent Fulbright alumni include Derek Bok, president of Harvard University, who is also a GW alumnus (M.A. 1958) and Daniel Boorstin, Librar-

(continued on back)

KATHY MITCHELL IS ASSOCIATE DIRECTOR OF ADMISSIONS

Kathyrn D. Mitchell became associate director of the Office of Admissions, effective July 1.

Kathy Mitchell

She began working with the Admissions Office in 1975, as an undergraduate student assistant. Since that time she has served as an advanced admissions evaluator, executive assistant, admissions counselor, senior admissions counselor and assistant director.

Kathy holds two degrees from the University. In 1977, she was graduated with a B.A. in Ed. in the field of elementary education from the School of Education and Human Development (SEHD). In 1980, she received her master's degree in public administration from SGBA. Currently, she is a candidate for the doctorate in education in SEHD.

Accomplishments in her 11 years with the Office of Admissions have included designing a five-year marketing plan and establishing the Volunteer Assistance Program which involves GW students, faculty, and alumni in the recruitment process.

GW ROSE GARDENS RANK HIGH

The George Washington University Rose Garden has received a certificate of achievement from All-American Rose Gardens (AARS) Incorporated for outstanding rose garden maintenance in 1985.

The All-American Rose Selections Public Gardens Committee, with the approval of the AARS board of directors, decided to award certificates of achievement annually to those of the AARS accredited public rose gardens that receive high evaluation ratings. The GW Rose Garden received excellent ratings for the year 1985 and thus was eligible for the certificate. The University's Rose Garden has been an accredited public rose garden for a number of years.

U AND RP TEAM WINS FIRST PLACE AWARD

URBAN AND REGIONAL PLANNING -- L to R, Professor Dorn C. McGrath, Jr.; Ruth O'Sullivan, a member of the winning team; and Margaret K. O'Bryon, assistant professorial lecturer in U and RP, stand next to a map of Old Anacostia.

A team of graduate students in the Department of Urban and Regional Planning has received the first place award in the 1986 Student Competition sponsored by the American Planning Association, National Capital Area Chapter. The award was presented in a June ceremony.

The award-winning project was titled "Old Anacostia -- A Capital Gain." The student competition on revitalizing neighborhoods was intended by the chapter to encourage the development of useful, innovative and feasible plans. The plan was to be developed to apply to a specific neighborhood in the Washington Metropolitan Area and the implementation strategies were to be adapted to local requirements.

The jurors, in selecting the GW entry for first place, commented that the plan for Anacostia is "comprehensive as well as creative and innovative in that a group of planning students has worked with a citizens group to develop a plan for their community." The jurors also noted that the plan "is very likely to improve the quality of life of a vital area of the city that is in great need of revitalization," that the plan shows "great sensitivity to the economic and social setting of the neighborhood" and that it has the full involvement and support of area citizens.

The Anacostia Coordinating Council (AAC) was formed in 1983 and requested the assistance of the Department of Urban and Regional Planning in working out a neighborhood/commercial plan for the community looking toward the arrival in Anacostia of the Metro Green Line in 1990 (which is now expected to come in 1991). The plan was completed in December 1984, entered in the competition in October, 1985, and received the award this year.

The guiding concept of the plan, which is now in process of being implemented, has been "Development of Old Anacostia as an integrated retail, office, and light industrial employment/service center designed to complement the area's historic district and stable neighborhoods."

Among the components of the plan are: the development of a primary office/retail enclave on Martin Luther King, Jr. Avenue; the stabilization and improvement of the Good Hope Road commercial corridor; and complementary urban design treatment of the area as well as open space, vehicular and pedestrian circulation improvements.

At a February 4 community meeting in Anacostia, Mayor Marion Barry acknowledged and expressed his support for the plan, "Old Anacostia -- A

NEW LIFE INSURANCE INFORMATION

The University's new TIAA group life insurance program, which became effective at the beginning of July, provides two levels of life insurance coverage for employees: basic and optional coverage.

Basic coverage, provided free of charge by the University, has been increased to one times salary. Optional coverage makes it possible for an individual to purchase an additional one-half times salary, one times or one and a half times salary at a special low group rate. If you sign up for optional coverage by Friday, August 29, you will not have to submit evidence of insurability (i.e., have a medical examination).

You are invited to stop at an information booth and consult with a University Benefits Specialist and a TIAA representative on the following dates:

Tues.	July 22,	6 am to 1 pm,	Hospital Cafeteria Lobby
Wed.	July 23,	noon to 5 pm,	Hospital Cafeteria Lobby
Thurs.	July 24,	noon to 5 pm,	Marvin Center 2nd Floor Lobby.

TRUSTEE-ELECT RICHARD E. PALMER DIES

Dr. Richard E. Palmer, who was elected an Alumni Trustee at the May 15 annual meeting of the Board of Trustees, died in Alexandria, Virginia, on June 23. He would have officially become a member of the Board on July 1.

Dr. Palmer received both his Bachelor of Arts and Doctor of Medicine degrees from the University in 1944. A former president of the American Medical Association (1976-1977), he had been engaged in the private practice of pathology in Alexandria from 1949 until the time of his death.

He had occupied positions of leadership in the field of medicine, having served as president of the Alexandria Medical Society, the medical staff of Circle Terrace Hospital in Alexandria, the Medical Society of Virginia, and the George Washington University Medical Alumni Association. He had been chairman of the Standards Committee of the Joint Commission on Accreditation of Hospitals (1967-1974) and chairman of its Board of Commissioners (1978-1980). A past president of the American Board of Pathology, he was a life trustee of the board.

Dr. Palmer received Alumni Achievement Awards both from the University (1971) and from the Medical School (1975). In 1977, he had received the honorary degree of Doctor of Humane Letters from the Medical University of South Carolina.

VICE PRESIDENT WORTH TO SPEAK ON FUND RAISING

Michael Worth, vice president for development, will speak at a GW Club luncheon on Wednesday, July 23. His subject will be "The Campaign for George Washington." A question and answer period will follow. The buffet will begin at 12 noon. Call the club at Ext. 6610 for reservations.

U AND RP TEAM

(continued from front)

Capital Gain," in response to a question from a panel of community organization leaders. He said, "We welcome it; it will be the basis for making our policy decisions." The plan has been endorsed by several Anacostia community organizations including Advisory Neighborhood Council 6C, Southeast Neighborhood House, the Anacostia Economic Development Corporation, and the National Conference of Christians and Jews of the National Capital Region.

The nine members of the winning team were all students in Urban and Regional Planning 215, the final required studio course for the master's degree. The group included Linda Amato, Rebecca Bartlett, Kim Brown, Dinene O'Connor, Ruth O'Sullivan, Kelley Roark, Cheryl Siskin, Al Stern and Doug Woods.

Professor of Urban and Regional Planning Dorn C. McGrath Jr., who was the workshop instructor, is pleased that the plan has widespread community endorsement. "We were there because we were asked to be there," he says of the team's work in Anacostia and points out that for the past five semesters, Urban and Regional Planning faculty members and students have been interested in and involved with the development of Anacostia.

SARP -- L to R, Craig Stein, and his mother, Mrs. Barbara Stein of Lighthouse Point, Florida; Mrs. Gloria Katz and her son Jon Katz, of Ft. Lauderdale, Florida, were among those enjoying the first SARP (Summer Advance Registration Program) reception. Some 800 students preregistered through SARP. About 500 family members participated.

FULBRIGHT GRANT

(continued from front)

ian of Congress. Christine Meloni, instructor in the University's English for International Students Program is a Fulbright alumna and is currently vice president of the Washington, D.C., Maryland, and Virginia, chapter of the Fulbright Alumni Association. Over the years, a number of members of the George Washington University community have been recipients of Fulbright Grants.

The Fulbright Program is funded and administered by the United States Information Agency under policy guidelines established by the Board of Foreign Scholarships, a presidentially appointed body. Financial support for the program comes from U.S. Congressional appropriations and from the governments of 27 other nations.

Former Senator Fulbright is a George Washington University law graduate (LL.B. 1934). He also holds the honorary degree of Doctor of Laws (1959) from the University.

FELDMAN TO BE ASSISTANT FOR ACADEMIC COMPUTING

According to an announcement by Vice President for Academic Affairs Roderick S. French, Associate Professor of Engineering and Applied Science Michael B. Feldman will serve as assistant for academic computing in his office for the upcoming academic year.

Associate Professor of Engineering Murray H. Loew, currently assistant for academic computing to the Vice President for Academic Affairs, will spend the 1986-87 academic year on sabbatical leave doing research at Technion University in Haifa, Israel, on a Lady Davis Fellowship.

Professor Feldman's office will be on the fifth floor of Rice Hall where the telephone extension is 6906. Vice President French notes that Professor Feldman has a longstanding personal and professional interest in pedagogical applications of computing.

Professors Loew and Feldman are serving on an overlapping basis for the balance of this summer. This is seen as guaranteeing no loss of momentum in the several initiatives underway.

GW

BIRTHDAY LEAVE

Effective July 1, the University is implementing a Birthday Leave Policy, which applies to regular full-time and regular part-time staff with more than 10 years of service.

In a June letter to those who qualify, President Lloyd H. Elliott said, "In recognition of your long-term service to the University, you will be eligible to take an additional day of leave each year. This leave must be taken within 10 calendar days before or after your birthday." He noted that as with other leave requests, advance approval by a supervisor is required.

The letter continued, "We hope that this new policy serves to express our appreciation for the many years of loyal service that you have provided to the University."

ARTIST Retha Walden Gambaro poses with her sculpture, "Power Vision," an honoring shield, part of the exhibition of Native American Art in the Marvin Center's Colonnade Gallery, which may be seen through tomorrow, July 15.

PERSONNEL NOTICE

RESEARCH ASSISTANT, full-time, Department of Radiology. (Cell and molecular radiation biology. Required: degree in biological sciences or biochemistry with experience in liquid scintillation counting, cell culture, and standard biochemical techniques. Preference to candidates with invertebrate cell culture experience, strong writing skills, and personal computer familiarity.) Submit resume to: Dr. T.M. Koval, GWUMC, Ross Hall #103, 2300 Eye Street, NW, Washington, DC 20037.

The George Washington University is an equal opportunity/affirmative action employer.

NEWSNOTES

INTERVIEWS

PETER J. CAWS, university professor of philosophy, was interviewed on the Independent Network News, April 20, as part of a story on Fritz Graeber, the only German to testify against Nazi officials at Nuremberg, on the occasion of Graeber's death.

R. PAUL CHURCHILL, associate professor of philosophy, was interviewed on May 31, by Dr. Albert Moseley for radio station WUDC-FM on the topic, "The Effects of Philosophy on the Development of Reasoning Skills."

HOWARD GILLETTE, associate professor of American civilization, was interviewed, May 14, by the St. Petersburg Times, on the history and contemporary nature of Washington's Florida Avenue.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was interviewed, April 24, by David Helms, business editor for the Mobile, Alabama Register and UPI International on the China market. An article entitled, "China's Market Potential Enormous," appeared in the April 25 edition of the Mobile Register.

MARVA GUMBS, assistant director of the Career Services Center, was interviewed by radio station WGAY for its Metropolitan Viewpoint program. The segment on "Changing Careers," aired May 25.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, was interviewed by Channel 9 on June 10 about the Supreme Court's ruling on the "Baby Doe" case and by USIA Television on June 16 about organ donation.

HENRY NAU, professor of political science and international affairs, was interviewed by Cable News Network (CNN), April 28, on the Tokyo Summit.

JUDITH SCHLOEGEL, executive director of the National Center for Innovation in Corrections (NCIC) at GW, was interviewed on the NBC/Today Show, May 28. The segment was entitled "convict labor" and highlighted the efforts of NCIC in fostering Chief Justice Warren E. Burger's initiative of "factories with fences."

WORK BEGINS ON UNIVERSITY YARD

GROUNDBREAKING for the University Yard renovation took place on July 24. Officiating were, l to r, President Lloyd H. Elliott, Student Association President Adam Freedman, Board of Trustees Chairman Everett H. Bellows and Vice President and Treasurer Charles E. Diehl.

Work on the transformation of the University Yard began in mid-July and is expected to continue through the fall.

The work will include the installation of underground sprinkling systems, new sidewalks and a new podium for Lisner Hall, which will replace the present platform. There will also be extensive landscaping with new trees, shrubbery and lawn.

The plan for the yard has been designed by the architectural firm of Skidmore, Owings & Merrill and is made possible through the generosity of University Trustee Oliver T. Carr Jr.

As Fall Semester classes begin and through September, foot traffic through the University Yard will be very restricted. Everyone's cooperation in maintaining limited travel through the yard will contribute to the completion of the work on schedule, according to Assistant Vice President Robert Dickman. "The final result will be a very handsome centerpiece for our campus," he says.

V.P. WORTH DESCRIBES THE CAMPAIGN FOR GEORGE WASHINGTON

"We are at a point of take-off in the University's development as a result of having reached a confluence of trends and developments over the last 20 years," Vice President for Development Michael J. Worth told a cross-section of members of the University community at a July 23 luncheon at the GW Club.

Dr. Worth told the group that the Campaign for George Washington, the University's ongoing campaign to raise $75 million by 1990, was formally announced to the public on May 15 at a dinner attended by University Trustees and other GW friends. The vice president showed the slide presentation prepared for the dinner titled, "The Time Has Come."

Saying he likes to talk about the campaign in terms of three questions -- why, what and how, he continued, "The theme we have adopted, 'The Time Has Come,' is a short answer to the question of why. The time has come for GW to aspire to and, in fact, take its place among the very finest universities in the country. I think our Washington location is, and will remain, our single greatest asset. Washington is a very different city than it was 20 years ago. It has matured, it is a great urban center, it is an intellectual and a business center as well as a center of government now and we're part of that development."

Vice President Worth pointed out that 20 years ago the physical facilities of the University were so inadequate that having an aspiration to be a leading university was not then realistic. He noted that since then GW has constructed over two and a half million square feet of academic facilities with an investment in excess of $200 million dollars. Worth highlighted GW's dramatic financial development over the last 20 years commenting that the endowment in the mid-1960s stood at around $8 million dollars and that as of July the University's endowment has crossed the $200 million mark. "We are certainly within the competitive range with some universities that are considered to be among the best in the country," he said.

"Virtually the entire University community is very conscious of the fact that we do stand on the threshold of a new era for GW," he continued.

In answer to the question

UNIVERSITY RESEARCH CENTERS AND INSTITUTES ARE CHARTERED

Following a survey of organized research units at the University, President Lloyd H. Elliott has chartered a number of centers and institutes for four years as of July 1, 1986. In three years, the units will be asked to participate in reviews of their work as a basis for renewal of their charters beyond the initial authorization.

This action was taken following a careful review of all the responses submitted by the directors of the units done by Vice President for Administration and Research Carl J. Lange and Vice President for Academic Affairs Roderick S. French.

The research units chartered for four years, with directors names in parentheses, are:

Institute for Artificial Intelligence (Barry G. Silverman)
Institute for Management Science and Engineering (William H. Marlow)
First Federal Congress Project (Charlene Bickford)
Graduate Institute for Policy Education and Research (A. Van Adams)
Institute for Reliability and Risk Analysis (Nozer D. Singpurwalla)
International Water Resources Institute (Vujica Yevjevich)
Joint Institute for Advancement of Flight Sciences (Harold Liebowitz)
Institute for the Study of Fatigue, Fracture and Structural Reliability (Harold Liebowitz)
Division of Research, Psychiatry and Behavioral Sciences (David Reiss)
Rehabilitation Research and Training Center (David Reiss)
Lipid Research Clinic (John C. LaRosa)
Wilson Genetic Counseling Center (John W. Larsen)
ERIC Clearinghouse on Higher Education (Jonathan D. Fife)
Graduate Program in Science, Technology and Public Policy (John M. Logsdon)
Institute for Sino-Soviet Studies (Carl A. Linden)
Center for Washington Area Studies (Dennis E. Gale)
Biostatistics Center (Max Halperin)
Institute for Information Science and Technology (Walter K. Kahn).

Six units were chartered for two years. They will be eligible to apply for a full four-year authorization at the end of that period. They are:

Center for the Study of Education and National Development (John G. Boswell)

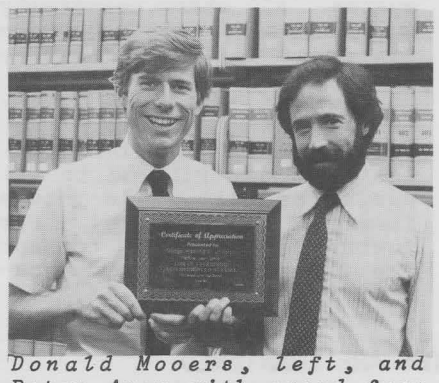
STREET LAW PROGRAM RECEIVES D.C. PUBLIC SCHOOLS AWARD

The National Law Center (Community Legal Clinics) has received an award from the Office of the Superintendent of D.C. Public Schools Floretta D. McKenzie in recognition of the NLC Street Law Program's contribution to the education of D.C. youth.



Donald Mooers, left, and Peter Aron with award from D.C. schools

A plaque reading "Certificate of appreciation presented to George Washington University National Law Center for outstanding and dedicated service to Francis Junior High School," was presented at the school at 24th and N Streets, NW, in the late spring. Donald Mooers, who was the student director of the program, accepted the plaque for the University. Mooers, a 1986 law graduate (J.D.) will leave in August for Mauritius, where he will study dispute and conflict resolution on a Fulbright Grant for Graduate Study Abroad. Approximately 60 GW law students participated in the program. Peter Aron, who has been serving as instructor in clinical law and director of the Small Business Clinic in the NLC Community Legal Clinics Program, was the faculty advisor for the Street Law Program.

The Street Law Program was started in January of 1982 through the D.C. Adopt-A-School Program which contacted the GW Department of Experimental Programs. The program coordinates teams of law students to teach law to ninth graders at Francis Junior High School. Funded primarily by the GW Center for Washington Area Studies during the past several years, the program orients and prepares law students to introduce junior high school students to a number of pertintent areas of the law; provides law students the opportunity to teach in an inner-city public school; and enables both groups of students to interact and work together.

Participation by the law students is wholly voluntary and without academic credit. During the fall, the program worked exclusively with Joyce Collette's Francis Junior High School class, teaching civil and criminal law, family law, consumer law, landlord-tenant law and students' rights. During the spring the program expanded to all ninth graders at Francis, providing them with "mini-units" of credit on civil and criminal law, culminating in mock trials in each of the classes.

An important contribution to the Street Law Program this year was a videotape of Ms. Collette setting out a number of basic teaching and survival pointers for the law students, most of whom were teaching for the first time. The tape was produced jointly by NLC and GWTV. The Street Law Program will operate at Francis Junior High School again this coming year.

WORTH DESCRIBES CAMPAIGN

(continued from front)

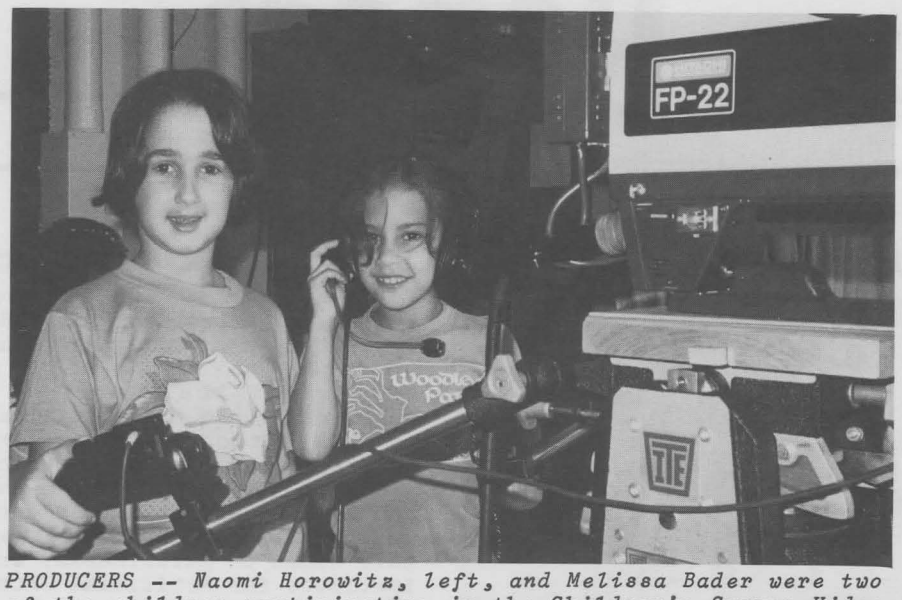
of "what?" the vice president said the purpose of the campaign is to raise funds to increase the academic quality of a George Washington University education, to develop the academic strength of the University to its highest levels. He explained that new facilities are not an objective of the campaign. The annual funds, Dr. Worth emphasized, are a continuing effort that are part of the Campaign for George Washington.

In discussing the "how" of the campaign, Dr. Worth said the campaign is a five-year program divided into phases of approximately one year in length. He said the first phase was the establishment of a nucleus fund with the hope of having 30 to 35 percent of the total goal in hand before any public announcement. The Campaign for George Washington was successful in this with about $22 million, a little over 30 percent. He said that significant gifts are still being raised and succeeding phases will be major gifts, special gifts and general gifts; that this method is called sequential fundraising.

"One of the very encouraging signals for the success of the campaign," he said "is the support of the trustees, who pledged personally over 10 percent of the campaign goal, approximately $8 million." Noting that most of the major gifts are designated for a particular program area, he gave examples of some of the gifts and pledges made by individual trustees. These gifts include professorships, scholarship funds, fellowship funds, and funds for the perpetual maintenance of buildings.

Worth concluded by reading a statement President Elliott had made, "The Campaign for George Washington is a challenge we have brought upon ourselves by what we have achieved. Having created the realistic opportunity for preeminence, we must now seize it, or deny future generations the great university we have within our power to provide them."

GW



PRODUCERS -- Naomi Horowitz, left, and Melissa Bader were two of the children participating in the Children's Summer Video Workshop for the gifted and talented sponsored by the Reading Center in cooperation with GWTV. The children spent three weeks learning to research, plan, adapt a story to a teleplay, and produce the teleplay with their own original music score. The story adapted was Thurber's "Many Moons."

TELEPHONE CHANGES COMING

We all need to be aware, that with the installation of the new telecommunications system, new phoning procedures are gradually being implemented.

In case you haven't heard of the change in procedures for dialing long distance, you will want to take note of the following: To dial long distance from the current Centrex system, dial 16 and receive dial tone; dial nine and receive second dial tone; dial area code and number to be called; hear a "burst of tone"; and dial six-digit personal authorization code. (Note: All personal authorization codes beginning with the number (1) will change to begin with zero (0). All other personal authorization codes not beginning with the number (1) will remain the same.)

The University will begin to implement the new telecommunications system this month. The Academic Center will be the first building to change over to the new system. All other university buildings will follow between September 1986 and February 1987.

News of these and other changes can be found in the Telecommunications bulletins that are distributed to all users, as well as in future issues of the GW Report. For further information, contact the Office of Telecommunications Services, Ext. 6521.

ENGLISH DEPARTMENT SPONSORS FREE PLAYWRITING WORKSHOP

A free playwriting workshop, sponsored by the Department of English, will be taught by playwright Lonnie Carter, GW's 1986-87 Jenny McKean Moore Visiting Lecturer.

Open without charge to members of the Washington community, workshop sessions will be conducted Wednesdays from 8 to 10 pm from September 3 through December 10.

Workshop applicants must submit a letter giving name, address, home and work telephone numbers, along with a brief personal history and a writing sample -- a dramatic scene or a play, not to exceed 25 pages. Applicants should include a stamped, self-addressed envelope for return and state whether or not they have participated in a previous Jenny McKean Moore workshop. Applications should be sent to the Department of English, The George Washington University, Washington, DC, 20052. They must be received by Monday, August 18. For more information, call Ext. 6180.

Lonnie Carter is the author of the play, "The Sovereign State of Boogedy Boogedy," (Locust Hill Press, 1986), which opened to favorable reviews in Chicago's Victory Gardens Studio Theatre in March and is currently in production in New York City's Henry Street Settlement's New Federal Theatre.

RESEARCH CENTERS AND INSTITUTES ARE CHARTERED

(continued from front)

Medical Decision Center (Richard K. Riegelman)
Industrial Relations Institute (Ben Burdetsky)
National Center for Innovation in Corrections (Judith Schloegel)
Center for High Technology (Harold Liebowitz) and
Center for Social Policy Studies (Sar A. Levitan).

In the future, faculty members who wish to establish a research center should submit an application to the Office of the Vice President for Academic Affairs, who along with the Vice President for Administration and Research, will review the proposal and forward it to the president with a recommendation for his action. Applications must carry the endorsement of the appropriate dean(s) and department chair(s). In addition, the following information must be included: a full description of the purpose and need for the proposed unit with particular reference to its importance in the furtherance of graduate education; the unit's proposed administrative organization, particularly the role of regular faculty members; an annual budget, indicating clearly the sources of basic funds; and any particular external services of the unit.

In a July memorandum to deans and department chairs, Vice President French said, "The University recognizes that research contributes significantly to the academic stature, achievement and capability of the faculty in fulfilling its responsibilities as teachers and public servants. To that end, the University seeks to insure the close integration of research and teaching, including the employment of students in sponsored projects and the use of research facilities for instructional purposes. I believe that this new policy for the chartering of research units will facilitate the enhancement of our research capabilities in a coordinated way throughout the institution."

PROCUREMENT AND SUPPLY HAS NEW CATALOGUE COMING

The Procurement and Supply Department is on the threshold of publishing a new catalogue listing all of the material that is carried in the University Warehouse/ Stores. These are the items that are ordered using the Stores Requisition Form. To assist in the efficient distribution of the new catalogue, Procurement and Supply asks that the Administrative Manager of each department, not individual offices within each department, determine the number of copies of the catalogue needed and call in their requirement to Mrs. Patterson at Ext. 6865. Copies will then be mailed to the department Administrative Manager (or appropriate person) for redistribution within the department. Procurement and Supply asks that all those concerned give this first priority.

PERSONNEL NOTICES

ASSOCIATE LIBRARIAN FOR ADMINISTRATION, full-time, Jacob Burns Law Library. (Individual to assist librarian with all phases of law library management and administration, including planning, reporting, and fiscal, personnel and physical plant matters. Required: M.L.S. from accredited library school; degree in law, business administration, or public administration and substantial relevant experience; or extensive experience with law library management. Preferred qualifications: previous relevant experience in a large academic law library; evidence of professional creativity and initiative; demonstrated administrative and supervisory skills; ability to communicate and work effectively with faculty, students and staff.) Available October 1. Contact: Professor Anita K. Head, GWU, Jacob Burns Law Library, Washington, DC 20052.

RESEARCH ASSISTANT, part-time, Division of Hematology and Oncology, Cancer Immunology Laboratory. (Person experienced in laboratory techniques for performing a variety of assays of lymphocyte function, including mitogen-stimulation, mixed lymphocyte reactions, etc. Participation in the anti-tumor vaccine program currently underway. A bachelor's degree is mandatory.) Resumes only to: Dr. Richard Schulof, Ross Hall, Room 706.

RESEARCH ASSISTANT, full-time, Department of Medicine, Division of Rheumatology. (Individual with experience in sterile tissue culture, use of radioisotopes, cell surface labeling techniques, polyacrylamide gel electrophoresis and purification of monoclonal antibodies highly desired. B.S. required.) Contact: David Greenblatt, M.D., Ext. 4416.

SENIOR STAFF SCIENTIST, full-time, ICU Research Unit. (Ph.D., skilled in advanced statistical techniques and study design, needed to work on a new, large-scale national study aimed at improving the scientific basis of prognosis and assessing the ability of this information to enhance hospital care. Will work with four physicians, a physiologist, a health economist, a nurse, and support personnel. Professionals with a statistical, social science, epidemiology, psychology, economics, or related educational background will be considered. Person should have a strong knowledge of multivariate analysis using integrated statistical packages and will be expected to design, implement, and evaluate instruments to measure key factors in decision making.) Please send curriculum vitae and one publication to: Dr. W.A. Knaus, ICU Research Unit, 2300 K Street, NW, Washington, DC 20037.

The George Washington University is an equal opportunity/affirmative action employer.

ELLIOTT LETTER REAFFIRMS UNIVERSITY DRUG POLICY

In a letter mailed August 25 to residence hall students and other members of the University community, President Lloyd H. Elliott stated the long-time University policy against the use of illegal drugs. The text of the letter follows:

"The attention drawn to student use of illegal drugs this past summer prompts me to write this letter to clarify the University's position on the use and sale of illegal drugs on campus. All of us know that drugs are not a new phenomenon. In fact, those who work most closely with students tell me that, if anything, use of illegal drugs has decreased somewhat in recent years.

"Be that as it may, the University continues to be concerned about the adverse effects illegal drugs can have on users. This potential for harm was illustrated most tragically by the death of basketball player Len Bias at our neighbor institution, the University of Maryland. Drug use over and over again has proven to be dangerous. Recognizing this, over the years the University has provided educational programs and access to confidential counseling and health services to aid students who need information and assistance. These efforts will certainly continue this coming year and into the future. The University must be concerned that the possession of most of the drugs used for recreational purposes is a violation of the law. In 1968 The George Washington University Board of Trustees approved a statement and policy relating to the presence of illegal drugs on campus. In this atmosphere of heightened awareness, it is appropriate for us to reaffirm the policy which has guided the University over the last eighteen years:"

The University cannot condone violations of law, including violations of those laws which proscribe possession, use, sale, or distribution of certain drugs. Members of the academic community should know that administrative action, which may include dismissal from residence halls, revocation of other privileges, or suspension from the University, may be taken in order to protect the interests of others. (Board of Trustees Resolution, October 19, 1968).

"Over the years we have tried to administer this policy in a manner which underscores the importance of openness and trust in the academic community and which stresses aid to the individual. At the same time we have not shied away from taking appropriate administrative or traditional action when confronted with specific evidence of violation of the University's policy. We have viewed, and will continue to view, members of the University community as citizens of a larger community who are afforded the same rights and are subject to the same laws as others."

GW WINS TOP PRIZE IN COST REDUCTION INCENTIVE PROGRAM

FIRST PLACE -- Vice President and Treasurer Charles E. Diehl, center, is shown accepting the award the University received this past July from the National Association of College and University Business Officers (NACUBO)/United States Steel Foundation (USSF) Cost Reduction Incentive Awards Program. The Award was presented by NACUBO President Joseph Evans, left. Thomas James, chairperson of the Awards Selection Committee is at the right.

The George Washington University has received the $10,000 first prize in an annual Cost Reduction Incentive Awards Program. Jointly sponsored by the National Association of College and University Business Officers (NACUBO) and the United States Steel Foundation (USSF), the awards program is open to all colleges and universities across the country. This year's awards program recognized outstanding cost reduction procedures implemented during 1985.

Vice President and Treasurer Charles E. Diehl accepted the award for the University at the NACUBO national convention in July.

The University received the award for devising a repair method using sheet materials to completely overlay aging bathroom ceramic tiles. This method resulted in a saving of more than $120,000. Some of GW's residence halls had been apartment buildings or hotels prior to being purchased by the University and water leakage had begun to cause marked deterioration in some of the tiled bathroom walls. In addition to eliminating costly water leaks, the repair system requires no maintenance and cleans easily.

Second and third-place winners were North Carolina State University and Canisius State College: the first with a computer software program that is in the public domain; the second with a faculty resources program which allows older professors to remain on the faculty with reduced responsibilities.

The NACUBO/USSF Cost Reduction Incentive Awards Program was begun in 1976 as a means of recognizing, at the national level, successful cost reduction ventures at colleges and universities. Among the criteria for winning entries is the potential for their use on other campuses, thus generating additional savings.

In this year's competition, 55 cash winners and 11 honorable mentions were selected from 258 entries.

NACUBO COST CONTAINMENT FUND IS ESTABLISHED

The $10,000 first prize the University received in the 1986 NACUBO Cost Reduction Incentive Awards Program has been used to establish the NACUBO Cost Containment Fund. The income from the fund will be used to defray expenses incurred by Physical Plant Department employees in attending meetings, seminars, workshops etc. that could assist in improving the ability to contain costs. Annually, the Director of Physical Plant will make written recommendation to the Vice President and Treasurer for the proposed use of the income. Any income not used in one year will be carried over to the following year.

FOUR DILTHEY FELLOWSHIPS AWARDED THIS SUMMER

The four recipients of the Dilthey Fellowships for Interdisciplinary Scholarship for Summer, 1986, were: Robert F. Dyer, professor of business administration; Ernest Forman, professor of management science; Joseph Pelzman, associate professor of economics; and Alf Hiltebeitel, professor of religion.

Professors Dyer and Forman worked together on "An Examination of Corporate Decision Support Systems for Potential Inclusion in Undergraduate and Graduate Management Education." Professor Pelzman conducted an analysis, "The Supply of Soviet Economic and Military Foreign Aid to Less Developed Countries: The Economic Determinants." Professor Hiltebeitel completed initial planning for a book and videotape film on the South Indian Draupadi Cult.

The fellowhips are awarded annually by the University to enable faculty members to devote two summer months to full-time research and writing.

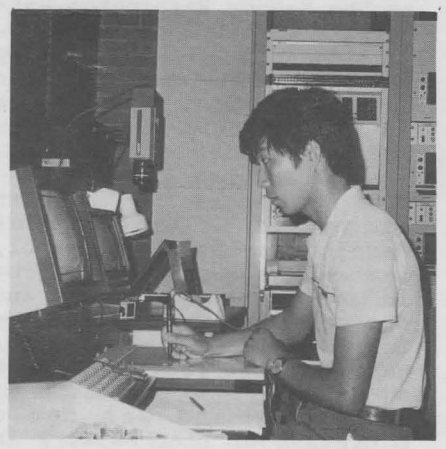
CHINESE CENTRAL TELEVISION TEAM LEARNS FROM GW FACULTY

A nine-person team from China Central Television of the Peoples' Republic of China came to the University in July for orientation and instruction in making documentary films for television.

Sponsored by the International Visitor Program of USIA (under the Fulbright Program), their travel project was titled "Television Production in the United States." The participants were producers and editors involved primarily in documentary and special productions for China Central Television. The Academy for Educational Development was asked by USIA to arrange the six-week program for the visitors.

The team came to Washington, D.C., and The George Washington University for the first module (unit) of their five-module program. The unit here at the University was "An Introduction to the Theory, Research, and Organization of Television Production." Instruction in making a documentary film was provided by Louisa A. Nielsen, instructional designer, GWTV; Joan E. Thiel, associate professor of communication and theatre; and Robert Fortner, associate professor of communication and theatre.

On their first day at the University, the team toured the facilities of GWTV. Of special interest to them was the computer graphics capability of the studio. Several participants tried their success with the computer, which requires the user to look across at the screen, rather than down on paper, to see what is being produced.



LIU SHUNFA, one of a nine-person team from Chinese Central Television to receive instruction at GW in making a documentary film, learned about computer graphics quickly in a GWTV control room. He wrote on the screen, "Thank you," in English and then, in Chinese, "Thanks from CCTV, Chinese Central Television."

"Return from Silence," the documentary produced by GW Professor of Chinese Chung-Wen Shih, was shown to the group as an example of a documentary film.

The two-week Washington period included visits to a White House press briefing and the Corporation for Public Broadcasting and a meeting with USIA Director Charles Z. Wick. The group

PROGRAM FOR SECONDARY SCHOOL STUDENTS EXPANDS

As a result of intensified recruitment, the University's College Program for Secondary School Students (CPSSS) for summer 1986 enjoyed increases in both applications and enrollment.

There were 42 CPSSS students enrolled in the last summer session. Of this group, 29 lived in Madison Hall and 13 commuted. Full-tuition scholarships (not including living expenses) were awarded to 38 of the students. Standardized test scores for the students were impressive, averaging 590 verbal and 660 mathematical on the SAT, with 620 verbal and 660 mathematical for those submitting the PSAT.

CPSSS provides experience in higher education for well-qualified secondary school students. Through the program, high school students may enroll in summer courses at GW prior to their junior or senior years.

Of interest was the widespread geographical distribution of this summer's CPSSS participants. The District of Columbia and the following 18 states were represented by at least one student: California, Colorado, Connecticut, Florida, Georgia, Illinois, Iowa, Maine, Maryland, Massachusetts, Missouri, New Jersey, New Mexico, New York, North Carolina, Pennsylvania, Texas and Virginia.

Outside of classes, the students took part in a series of extracurricular activities planned to supplement their course work and introduce them to the educational and cultural resources of Washington. On July 16, 20 of the CPSSS students attended White House welcoming ceremonies for Pakistan's Prime Minister Mohammad Khan Junejo.

PROFESSOR VAHOUNY DIES

Professor of Biochemistry George V. Vahouny, 54, died at The George Washington University Hospital on August 1.

A GW alumnus, Dr. Vahouny had been affiliated with the University since enrolling as an undergraduate 37 years ago. A native of New York, Dr. Vahouny had lived in the Washington area for the past 43 years. A graduate of Washington-Lee High School, he earned a bachelor's degree in zoology and master's and doctoral degrees in biochemistry at George Washington. He joined the faculty in 1958 as an assistant professor of chemistry and was named professor of biochemistry in 1969.

Dr. Vahouny conducted research in the fields of cholesterol metabolism, dietary fiber and cardiovascular disease. The author of 244 scientific publications and book chapters, he edited six books and spoke at conferences and symposiums around the world.

A member of the board of the Journal of Nutrition, Dr. Vahouny was a consultant to the Veterans Administration and the U.S. Public Health Service. He was a member of the American Society of Biological Chemists, the Society for Experimental Biology and Medicine, the Washington Academy of Medicine and the Washington Heart Association. Active in community affairs, he coached diving teams at the Lake Braddock Secondary School in Burke, Virginia, and participated in the Northern Virginia Swim League.

TELEPHONE SYSTEM UPDATE

The University has begun the change over to the new telecommunications system, which is being phased in over the next six months. Both the old Centrex system and the new System 85 will be in operation. To communicate between systems an access code will be required.

Under the System 85, extension numbers will be five digits instead of four (the "4" from the new exchange, which is 994, should be placed in front of the original extension number). To reach a department or individual on the new System 85 from an extension on the old Centrex system, dial 16 plus the five-digit extension. To reach an extension on the old system from an extension on the new system, dial 51 plus the four-digit extension.

Training will be provided to departmental and office phone coordinators, approximately three weeks prior to a building's change-over. New phone directories will be issued soon, with both the old and new departmental numbers listed.

For further information, contact the Department of Telecommunications Systems, Ext. 6521.

GW

SPECIAL EDUCATION COORDINATES COMPUTER PROJECT WITH SECONDARY SCHOOL STUDENTS

The University's Special Education Department coordinated a new project this summer on the use of computers with secondary-school age students. The project combined University, D.C. government and industry resources.

During the summer, the Special Education Department gave a graduate course for special education and rehabilitation professionals titled "Instructional Computer Applications in Secondary Special Education." As part of the course, the teachers and rehabilitation professionals offered computer-based instruction to 14-and 15-year old students who participated in the D.C. government's Mayor's Summer Youth Program here at the University. The students learned how to use computerized data bases to learn about specific occupations as well as how information on jobs can be organized in general.

In addition, The George Washington University funded a summer research project to study design features of different types of data bases commonly used with school-age students. The research results will be used to help train other educators about instructional uses of date bases.

International Business Machines (IBM) Educational Systems Division has generously loaned the University microcomputer hardware and software. This is part of a continuing effort on the part of IBM to support educational uses of microcomputers.

These activities were coordinated by Juliana M. Taymans and Carl T. Cameron, both faculty who are associated with the Supported Training, Transition and Education Program within the GW Special Education Department.

DE VRIES IS SEPTEMBER'S FIRST WEDNESDAY LECTURER

Dr. Margaret Garritsen de Vries, historian of the International Monetary Fund, will speak on "Current Challenges Facing the International Monetary Fund," Wednesday, September 3, at 8 pm in the GW University Club, Marvin Center, third floor. The event, sponsored by the Friends of the Libraries and the School of Public and International Affairs Alumni Association, is part of the First Wednesday Lecture Series. Overall sponsorship of the First Wednesday lectures comes from the Alumni Relations office.

A wine and cheese reception will follow. If you wish to attend the lecture only, call Alumni Relations, Ext. 6435, to reserve seating. There is a fee for the reception. Call Alumni Relations for further information.

Dinner will be served by the University Club, for both members and non-members, beginning at 6:30 pm. Call Ext. 6610 for dinner reservations.

CHINESE CENTRAL TELEVISION

(continued from front)

also began planning and filming in the Washington, D.C., area for their own mini-documentary production.

The film made by the CCTV visitors was on "American Lifestyles." In the course of producing it, they interviewed a single professional woman; a white middle-class family; a black middle-class family with one child and both parents working; and a single parent-family.

Successive modules of the program have included "Broadcasting: The National Scene," in New York City and Buffalo, New York; "Planning and Executing the Documentary Production," in Lincoln, Nebraska; "The Director Prepares," in Los Angeles, California, with instruction by Hollywood director Murray Golden; and "Production, Evaluation, and Integration," in Provo, Utah, with faculty and staff from Brigham Young University and KBYU-TV, a PBS affiliate. The program evaluation and closing ceremonies are to be conducted today, Monday, August 25, in Provo. The team will attend portions of the National Radio and Television News Directors Conference in Salt Lake City before returning to China.

WEITZNER NAMED ASSISTANT TO THE DEAN OF STUDENTS

Richard A. Weitzner became Assistant to the Dean of Students for Judicial Affairs, effective August 1. He is a 1986 graduate of the National Law Center and holds his B.A. in political science and economics from the University. Weitzner has served as Coordinator for Judicial Affairs on the Vice President for Student Affairs' staff for the last two years. On July 1, Judicial Affairs was added to the responsibilities of the Dean of Students.

PARKING NOTE

The University's on campus summer parking program for staff ended August 22. The Kennedy Center parking arrangement with shuttle service begins today, August 25. Information regarding 1986-87 arrangements for use of the Kennedy Center is available in the Parking Office, 2211 H Street.

PERSONNEL NOTICES

RESEARCH ASSISTANT, half-time, Center for Family Research. (Person to assist with ongoing research on chronic physical illness or disability in family life. Applicants should have a minimum of an undergraduate degree in a social science or a health related field. Responsibilities include assisting in the recruitment phase of the program, interviewing potential research subjects in their homes, and data collection, coding and processing. Applicant should have own car and should have some evening and weekend hours available for home interviews.) Resumes to Dr. Peter Steinglass, CFR, Ross Hall, Room 613.

RESEARCH ASSOCIATE, half-time, Center for Family Research. (Person to collaborate on ongoing research on transmission of alcoholism in families. Applicants should have a minimum of a doctorate in a social science or a health related field. Responsibilities include data collection, data analysis, and supervision of research assistant.) Contact: Dr. Steve Wolin, CFR, Ext. 2624.

RESEARCH ASSOCIATE, full-time, Radiologic Sciences and Technology. (Person with background in biochemistry, pharmacology or related fields to conduct studies on receptor binding and whole animal distribution studies of radiotracers. Experience in tissue preparation for autoradiographic studies is desired.) Contact: Geri Rosen, Adm., Radiologic Sciences and Technology, Ross Hall, Room 708, GWUMC, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSOCIATE, part-time, Department of Pathology. (Individual needed for project involving nucleic acid analysis using Southern blots and protein seperation using SDS polyacrylamide gel electrophoresis. Required: tissue culture experience and a degree in basic sciences at M.S. level or above. Training in pathology is highly desirable including experience in preparation of frozen sections, immunohistochemical stainig, nucleic acid transfer blotting (Southern blotting) and protein electrophoretic transfer blotting (Western blotting.) Contact: Dr. Carleton Garrett, Ext. 3825.

RESEARCH ASSOCIATE, full-time, School of Education and Human Development. (Person to assist in conducting research regarding teacher education systems, conduct library research, synthesize studies and other research for a review of the literature, write draft reports of library research under the direction of a senior researcher, and maintain project records and correspondence. Required: Minimum of a Master's degree in a social science field. Excellent library research and writing skills and skill in using personal computer and word processing software.) Resumes to: Dr. Dennis Holmes, SEHD, Building C, Room 507.

The George Washington University is an equal opportunity/affirmative action employer.

Dan Moshavi, assistant editor

DR. FRENCH SPEAKS OF PROGRESS, OBJECTIVES AT FACULTY ASSEMBLY

In remarks at the September 3 Faculty Assembly in Lisner Auditorium, Vice President for Academic Affairs Roderick S. French, highlighted progress in a number of areas of the University and reported on new initiatives and objectives.

Speaking of the administration's decision to limit the size of the freshman class as part of the overall policy goal of stabilizing the full-time undergraduate student body at a total of 5,000 students, Dr. French reported that as of August 27, 1,114 freshmen and 382 full-time transfers had enrolled. He noted that those numbers will increase with late registration. He said the goal for this fall had been 1,150 new full-time freshmen and 405 transfer students. "Although we are remarkably close to our overall figure, we will overshoot our goal for new full-time freshmen," he observed.

"One very worrisome note" in the generally encouraging enrollment picture, he stated, is that the proportion of the freshman class represented by black students has dropped by nearly 50 percent since 1983. Commenting that the figures are consistent with a "truly alarming national pattern," the vice president announced he had asked Director of Admissions George Stoner and his staff to work toward reversing this trend and that a strategy has been developed to enable the University to at least recover the 1983 level by 1988.

Of international students, he noted that in more recent years, not only have the students become more diversified in terms of country of origin but they have also enrolled more widely throughout the academic units, moving away from purely technical fields. He said the Chair of the Academic Committee of the Board of Trustees has instructed him, in cooperation with the Council of Deans, to conduct a thorough review of all aspects of the academic experience of our international students.

Dr. French announced a new program for graduate teaching assistants who are non-native speakers of English to enable them to refine their grasp of the English language and to become thoroughly familiar with the "classroom culture" of American institutions. The program will be in place prior to the 1987 fall semester.

A new initiative to be called the "Distinguished Alumni Scholars Program," will bring to campus alumni nominated by departments for one formal lecture or other presentation of their most recent work. Informal social events will be planned when undergraduate majors and graduate students in the appropriate fields will be able to meet and talk with their now eminent predecessors.

An Employee Assistance Program to serve both faculty and staff who find themselves in circumstances of stress will be established by the University, Dr. French announced. Services of this support system will be on a voluntary and confidential basis. Discussions of the stressful aspects of contemporary academic careers last year in the Senate Committee on Appointment, Salary and Promotion Policies resulted in a request to the administration to establish such a service.

In a reference to "practical matters requiring patience and cooperation,"

(continued on page 2)

A MEMORANDUM OF UNDERSTANDING was signed in August by Colonel Anthony K. Holtry, U.S.A., right, Director, Plans, Training, Mobilization and Security on Staff of Post Commander, Fort George G. Meade; Dean Carol A. Holden of the Division of Continuing Education, center; and Dean Maurice A. East of the School of Public and International Affairs, for GW to offer two master's degree programs at Fort Meade: an M.A. in Security Policy Studies and an M.A. in Russian/East European Studies.

NATIONAL CENTER FOR INNOVATION IN CORRECTIONS RELEASES REPORT

A comprehensive report, calling for expansion and strengthening of prison industries across the nation, has been released by the National Center for Innovation in Corrections (NCIC), part of the Division of Continuing Education.

Prepared by Chief Justice Warren E. Burger's National Task Force on Prison Industries, the report has drawn widespread attention from government, corrections and business officials nationwide. Representatives from D.C. Mayor Marion Barry's office and the D.C. City Council have requested copies of the report.

In addition, numerous media outlets across the country have focused on the subject. NCIC Executive Director Judith Schloegel has been a guest on radio talk shows with WBAL, Baltimore; WIOD, Miami; WBZ, Boston; KING, Seattle; KFBK, Sacramento; and KTAR, Phoenix. Dr. Schloegel also discussed the report and NCIC's work at a gathering of the GW Law Association in Houston during the State Bar of Texas annual meeting this summer.

Several faculty members served on the National Task Force. They are Gerald Caplan, NLC; Lynda Maddox, SGBA; Florence Hesser, Reading Center, SEHD; and Charles O'Rear, Forensic Sciences.

NCIC was established at GW by President Elliott in 1984 as part of Chief Justice Burger's "Factories with fences" concept. Chief Justice Burger contends that training and employment of inmates will significantly improve the U.S. corrections system. The Center's primary focus is the study and promotion of prison industries and related activities.

Dr. Schloegel says, "We invite faculty and students who may be interested in this field to use NCIC as a resource for research and study. Many disciplines -- including law, business, political science, economics, psychology and sociology -- could benefit from NCIC's activities."

To obtain a copy of the report, or to find out more about NCIC's work, contact Dr. Schloegel in Room 621, Gelman Library or call Ext. 7062.

FRIDAY'S OPENING CONVOCATION TO HAVE INTERNATIONAL THEME

The University's sixth annual Opening Convocation, scheduled for Friday, September 12, at noon in the Marvin Center Theatre, will be an international celebration.

In letters inviting members of the University community, President Lloyd H. Elliott says, "The theme for this year's convocation will be the international aspects of our campus life -- our students, faculty, academic programs and their associations with the international community. The Opening Convocation provides us with one of the few opportunities during the year when we may convene as a university family and renew our commitment to excellence."

Ambassadors and embassy representatives from 38 nations will attend and participate in the ceremony. In the academic procession, each will be accompanied by a George Washington student carrying the flag of the representative's country. The procession will form in the courtyard between Smith and Phillips Halls and proceed along the sidewalk of H Street around the corner into 21st Street and up the ramp to the theatre. A color guard from the GW NROTC unit will lead the procession.

Dean Maurice A. East of the School of Public and International Affairs will be the keynote speaker. Rachel Vincent, president of the International Student Society will be mistress of ceremonies. President Elliott and Adam Freedman, president of the George Washington University Student Association will make brief remarks. There will be greetings by Professor William B. Griffith, chairman of the Executive Committee of the Faculty Senate and by John R. Manning, president of the General Alumni Association. Father Robert Keffer of the Newman Catholic Student Center, current chairman of the Board of Chaplains, will give the invocation and benediction. Associate Professor of Music Roy J. Guenther is serving as chairman of the Opening Convocation Committee.

There will be a musical selection, "Seguidillas" by Albeniz, played by Gina Ismene Chitty, a master of music degree candidate from Sri Lanka, as well as a reading by Helen Santos Narvasa, a bachelor of arts candidate from the Philippines. She will read from A Leak in the Heart, by GW alumna Faye Moskowitz. Music for the convocation will be provided by Associate Professor of Music Neil A. Tilkens on the piano.

A reception on the third-floor terrace of the Marvin Center will follow the convocation. The reception will feature samplings of international cuisine and native foods.

SCHOLARSHIP TO HONOR GLEN A. WILKINSON

The Glen A. Wilkinson Memorial Scholarship Fund has been established by his family and friends in memory of the late Board of Trustees Chairman who served from 1978 until the time of his death in August, 1985. The fund will provide scholarships to persons studying for the J.D. degree at the National Law Center. Recipients must be "of good moral character and honorable conduct and must have both meritorious academic records and a need for financial assistance."

Chairman Wilkinson, who received his Juris Doctor with honors from the University in 1938, was first elected to the Board in 1975; he became chairman in 1978. He was past president of the Law Association and served as a member of the General Alumni Association's Governing Board. He received an Alumni Achievement Award in 1965, an Alumni Service Award in 1973, and, in 1978, the Distinguished Alumnus Award from the Law Alumni Association.

FACULTY AUTHOR EXHIBIT OPENS THURSDAY, SEPTEMBER 11

The 1986 Faculty Authors Exhibit, "Evidence of Excellence: Faculty Scholarship at GW," opens Thursday, September 11, at the Gelman Library. The exhibition is sponsored by the Faculty Senate Committee on Research and the Friends of the University Libraries.

Members of the faculty and staff are invited to a reception on the first floor of the Gelman Library from 3 to 5 pm on the occasion of the opening of the exhibit. New faculty members will be special guests at this annual event.

The exhibit presents the work of GW faculty authors and features publications and results of research published in 1985. A record of faculty publications is compiled annually as a function of the University Archives, Special Collections, in the Gelman Library. A demonstration of the online faculty publications bibliography will be given during the reception. The exhibition will continue through October 31. For more information, call Ext. 6455.

GW ALUMNI ARTISTS EXHIBITION OPENS SEPTEMBER 11 IN DIMOCK

The works of 33 graduates of the University's Art Department will be on exhibition in the Dimock Gallery from this Thursday, September 11, to Thursday, October 9.

For the juried exhibition, 85 artists submitted 239 works of art. From this group, 45 pieces were accepted. The jurors were Kate Jones, of Jones Troyer Gallery; Ned Rifkin, curator of contemporary art, The Corcoran Gallery of Art; and Francoise Yohalem, art advisor.

The Cecille R. Hunt Prize will be awarded at the opening of the exhibition.

Hours of the Dimock Gallery, off the lower lounge of Lisner Auditorium, are: Tuesday, Wednesday and Friday, 10 am to 5 pm; Thursday, 10 am to 7 pm; and Saturday, 12 noon to 5 pm, closed to the public on Monday.

There will be a panel discussion by alumni artists on Saturday, September 20, at 2 pm in the lower lounge of Lisner Auditorium, sponsored by the Columbian College Alumni Association and the Young Alumni Club of the General Alumni Association. Panelists will be David Allison, Bradley Stevens, Mary Anne Warner and Mindy Weisel.

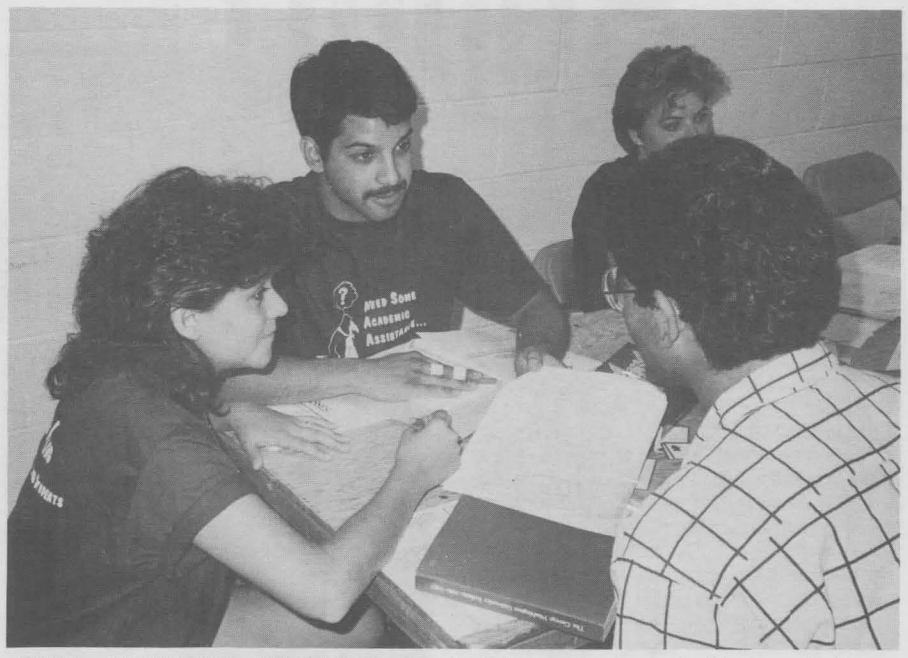
CARPOOL INFORMATION

The government of the District of Columbia is sponsoring a rideshare program called "D.C. Rides."

D.C. Rides is a computerized transportation program that provides assistance and information about carpooling, vanpooling, and public transit. This free service is offered by the Department of Public Works to those who live or work in the District.

D.C. Rides offers computer assisted matching for persons interested in forming carpools, a vanpool brokerage program, outreach to area government and private employers, and assistance during employers' relocations.

For more information or to receive an application, call D.C. Rides at 939-8014 or 332-RIDE.



PEER ACADEMIC ADVISERS Josi Dibernardo, left, and Tony Ramirez, center, both Columbian College seniors, give advice to a student during the recent Fall Semester registration.

DR. FRENCH SPEAKS AT FACULTY ASSEMBLY *(continued from front)*

Vice President French noted this is the first semester of life inside the new time bands for classes and said that at the end of a reasonable period of time, classroom scheduling will be recentralized (from the deans' offices) in the Office of the Registrar. He said, "By the end of the year, you will have a single place to look for all periodicals and journals on the third floor of the Gelman Library." His announcement that the University has contracted to reconstruct "the famous Gelman elevators " brought applause.

In the area of academic planning, he announced the appointment by President Elliott of a new body to be known as the Committee on Coordinated Planning (CCP). The committee will not do the basic academic planning for the University, he explained. "That function must be performed by the faculties and deans in the appropriate units. The CCP will design the formats for institution-wide assessment and planning. It will also be responsible for coordinating fiscal, physical and academic planning and advising on the allocation of new resources in relation to agreed upon priorities."

Dr. French referred to the new policy that requires all organized research centers or institutes to qualify for chartering for fixed periods of time, which was announced in the summer, and asked any faculty interested in organizing research centers or institutes to contact his office.

Dr. French said that opening ceremonies for the new Crystal City Center will be held on September 18, that it will be used for fall semester evening classes and that it is hoped soon to increase daytime use of the center for short courses and professional conferences.

Vice President French announced he has appointed an advisory group to assist him in academic program planning for the new Northern Virginia Center in Loudoun County, which is scheduled to open in the 1989 fall semester. The center will be used by SEAS and also by GSAS, SEHD, and SGBA, all coordinated by the Division of Continuing Education. Dr. French said that Edgar Jones, who served for more than a year as DCE's acting dean, will stay on as associate dean, working with DCE Dean Carol Holden at the time of transition and working with him in coordinating academic planning for the Northern Virginia Center.

"The University is about to enter its cyclical reaccreditation review by the Middle States Association," the vice president announced. "They have agreed to let us use the Year 2,000 Report as our basic educational instrument and to study four selected topics: academic computing, general education, policy studies, and research." He said that GSAS Associate Dean Edward Caress will be the Chair of the Steering Committee for the review.

"We are a private University with a profoundly public mandate," Dr. French said in conclusion. "We are positioned by our history, by our autonomy, by our composition, by our location, as well as by the quality of our scholarship to be not only a national university but to be a university to the world."

HEALTH RISK ANALYSIS SURVEY RESULTS

The Wellness Resource Center, Department of Human Kinetics and Leisure Studies, has announced the results of the health risk analysis survey that almost 1000 GW employees responded to in the spring.

The general wellscore for the respondents was 85.448 (based on 100). Sixty-three percent did not know their blood pressure and 93 percent did not know their cholestoral level. This had some effect on the results.

The greatest health risk among the group surveyed was failure to use seat belts while traveling in a car. (Mandatory seatbelt laws were not in effect in the metropolitan area at the time of the survey.) The second greatest risk was failure to exercise regularly, although 54.6 percent reported that they do participate in active exercise on a regular basis. Other usual high risks were reported at much lower levels for this group of respondents such as smoking, being overweight, and use of alcohol.

The appraisal survey is still available to anyone in the GW community who has not yet taken advantage of it. Call the Wellness Resource Center, Ext. 6927 for more information.

HARPER APPOINTED DIRECTOR OF AUXILIARY SERVICES

John C. Harper, who has been director of the Charles E. Smith Center since 1982, became director of Auxiliary Services on August 11, according to an announcement by Assistant Treasurer Don C. Runyon.

"I feel that John brings with him a tremendous wealth of knowledge and experience and an excellent track record in operating the Smith Center and that he will make an extremely positive contribution to the Office of Business Affairs," said Runyon.

In his new position, Harper will be responsible for the supervision of the University food service, the GW University Club, Lisner Auditorium and all vending contracts.

Prior to coming to George Washington, Harper was assistant director of the Hammons Student Center at Southwest Missouri State University from 1977 to 1982. His earlier experience included the directorship of the Recreational Sports Association at Southwest Missouri State and three years as a physical education teacher and coach in Deposit Central Schools in Deposit, New York. He holds degrees of Bachelor of Science in Physical Education from Ithaca College and Master of Science in Physical Education from Indiana University. He is a member of the International Association of Auditorium Managers and the National Intramural/Recreational Sports Association.

ASP IS NEW DIRECTOR OF DEVELOPMENT ADMINSTRATION

James Asp was appointed Director of Development Administration, effective August 11. He is a 1978 summa cum laude graduate of the University of Minnesota. Asp has six years of direct experience in higher education administration, having served as director of development for Marymount Manhattan College in New York and most recently as director of development for Mount Vernon College in Washington. He will be responsible for all administrative matters pertaining to the Development Office.

MATHEMATICS LABORATORY

Beginning September 3, the Mathematics Department will operate a mathematics laboratory for students needing help in remedial mathematics. The lab will be located in the Gelman Library, Room 718, and the hours will be Monday through Thursday, 1:30 to 6:30 pm. Students in all disciplines are invited to use this service without charge and may make an appointment by signing up with a lab assistant or by calling Ext. 6235.

VICE PRESIDENT FRENCH TO BE GW CLUB BREAKFAST SPEAKER

Vice President for Academic Affairs Roderick S. French will speak at an 8 am breakfast at the GW University Club on Wednesday, September 10. An informal discussion will follow. Reservations are necessary. Call the club at Ext. 6610.

HILLEL SCHEDULES CORNERSTONE DEDICATION CEREMONY SUNDAY

Dr. Abram L. Sachar, chancellor of Brandeis University, will be the principal speaker at a cornerstone dedication ceremony at the site of the new B'nai B'rith Hillel Foundation at 23rd and H Streets, NW, at 5:30 pm, Sunday, September 14.

Dr. Sachar, who served as the founding national, director of Hillel from 1933 to 1948, will present special honors at the ceremony to recognize members of the community who have helped in making the new building a reality. Sharing in the receipt of honors will be representatives of the Jewish Community Foundation of Greater Washington which recently approved a $300,000 challenge grant to complete the campaign for the new Hillel building.

Carl Gewirz, president of the GW Hillel Board of Governors, will preside at the cornerstone dedication. President Lloyd H. Elliott and D.C. Delegate Walter Fauntroy will both speak briefly.

Dr. Sachar, who was the founding president of Brandeis University, received the honorary degree of Doctor of Laws from The George Washington University in 1972. He is the father of GW Professor of History Howard M. Sachar. The senior Dr. Sachar's most popular volume is A History of the Jews, now in its fifth edition and 37th printing, translated into several foreign languages. A few years ago, Dr. Sachar wrote a critique of American privately sponsored education, using Brandeis for illustrative material. It was published under the title of A Host at Last. His latest work is a new volume on the post Holocaust years, The Redemption of the Unwanted. Dr. Sachar served on the State Department Commission on International Cultural Exchange, by appointment of President Johnson.

FELLOWSHIP INFORMATION MEETINGS SCHEDULED

Fellowship information meetings will be held on Wednesday, September 10, at 6 pm in Marvin Center, Room 405, and Friday, September 12, at 3 pm in Marvin Center, Room 403, for students interested in applying for one or more of the national fellowships. These fellowships include the Fulbright Grants for Graduate Study Abroad, Luce Scholars Program, Marshall Scholarships, Mellon Fellowships in the Humanities, National Science Foundation Graduate and Minority Graduate Scholarships and the Rhodes Scholarships.

Assistant Dean Avery D. Andrews, National Faculty Coordinator, Graduate School of Arts and Sciences, and Andrea Stewart, Executive Coordinator for Fellowship Services, Gelman Library, will provide information on each of these opportunities as well as the application process. Seniors and graduate students are particularly encouraged to attend one of these sessions. For more information, call Ext. 6455.

UNITED BLACK FUND/UNITED WAY SENDS THANKS TO GW COMMUNITY

The University has received a letter from Dr. Calvin W. Rolark, president of the United Black Fund, which reads in part, "Thanks to you, the United Black Fund/United Way Partnership Campaign for 1985 was a tremendous success due to your very generous giving. Through your contributions, thousands of local residents are leading quality lives as a result of receiving much needed health and human services."

Accompanying the letter was a United Black Fund Community Service Award to the University "for outstanding contributions to the enhancement of the quality of life of the citizens in the National Capital Area," signed by Dr. Rolark, as president and founder of the United Black Fund.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JOHN F. BANZHAF III, professor of law, testified before the Senate Committee on the Judiciary on the "Constitutionality of Prohibiting Former High-level Governmental Officials from Lobbying on Behalf of Foreign Governments," June 18. On June 27, he testified before House Subcommittee on Health and the Environment on H.R. 4488 and H.R. 4546.

WOODROW BARFIELD, assistant professor of engineering administration, directed the following research papers that were presented at the Mid-Central Human Factors Conference, June 18-20: "Human Factors Applications: Medical Instrumentation," by Lakita Conley, graduate student in medical engineering; and "Graphical Context in Decision Making: A Protocol Analysis," by Mark Lister, graduate student in engineering administration.

JAMES R. BARTH, professor of economics, participated in the Congressional Budget Office's Panel of Economic Advisers on June 9. He made a presentation on the safety and soundness of the U.S. financial system. Other presenters included Alan Greenspan, Townsent-Greenspan and Co., Inc.; Lawrence Klein, Nobel-laureate in economics, University of Pennsylvania; Ray Fair, Yale University; Jeffrey Sachs, Harvard University; and John Makin, AEI. On July 1, he presented a paper, co-authored with Robert Keleher of the Council of Economic Advisers and Frank Russek of the Congressional Budget Office, entitled, "The Scale of Government and Economic Activity," at an invited session of the Western Economic Association meetings in San Francisco.

ALI BULENT CAMBEL, professor of engineering and applied science, was elected the 1986-87 Chairman of the Engineering and Public Policy Division of the American Society for Engineering Education. This summer, he lectured to advanced students and faculty on plasma physics and magnetohydrodynamics at the University of Florence, Italy; on the applications of the second of thermodynamics to technological/economic state space at the Federal Institutes of Technology in Geneva and Zurich, Switzerland. He also chaired workshop sessions and delivered a plenary address on the socio-economics of renewable energy at the Optical Institute of Madrid, Spain held under the auspices of the National Science Foundation in connection with the U.S. - Spain Cooperative Science Agreement.

JONATHAN CHAVES, associate professor of Chinese, presented a lecture, "Chinese Poetry of the Last Three Dynasties," July 1, at Middlebury College. On August 20, he gave a lecture to the Luce Scholars entitled, "Poetry, Painting and Calligraphy: The Scholarly Arts of East Asia," at Princeton University.

MARCUS CUNLIFFE, university professor, was chairman and commentator at a session on "George Washington and 'The Baneful Effects of the Spirit of Party,'" at the annual conference of the Society for the History of the Early American Republic, July 25, in Knoxville, Tennessee.

AMITAI ETZIONI, university professor, delivered the Parker B. Francis Lecture, August 5, at the 1986 annual meeting of the American Hospital Association in Toronto, Canada.

ULF GRAHN, adjunct associate professor of music, participated in the Dana New Music Festival, April 24-25, at Youngstown State University in Ohio. He presented a lecture entitled, "Contemporary Swedish Music," and was a member of a panel discussing "New Music and Broadcasting." His composition "Alone" for solo flute was performed during one of the festival's concerts.

DONALD GROSS, professor of operations research, served as a panelist at a National Science Foundation (NSF) Workshop on Improving the Breadth of the Research Community in Operations Research at Wellesley College in Wellesley, Massachusetts. The panel consisted of established leaders in the field of operations research who were sought by NSF to evaluate work proposed by new young faculty in such a way as to help them strengthen the impact of their research, to increase the potential for funding by such agencies as NSF. Dr. Gross has been principal investigator on research contracts from the Foundation since 1982. **THOMAS A. MAZZUCHI**, assistant professor of operations research, was nominated by the Operations Research Department and selected by NSF to attend the workshop as one of the new young faculty seeking guidance on his research.

FREDERICK GUTHEIM, adjunct professor of urban planning and American civilization, received the Environmental Enhancement Award of the Maryland Chapter of the American Society of Landscape Architects for conceiving and managing a design competition for Baltimore's 125 year-old Druid Hill Park.

FRANK KAVANAUGH, Airlie Professor of Communications, addressed a group of foreign professional filmmakers on the topic, "The Role of Washington in a Perspective of the American Film Industry," at the Motion Picture Association of America on August 18. The presentation was followed by a screening of "The Saving of the President," a film he produced for GW. The audience included producers, directors and screenwriters from 16 countries.

BOB KING, senior food service director, Saga Corporation, has been named Food Service Manager of the Year by the corporation for the region which includes New York, Pennsylvania, New Jersey, Virginia, Maryland and Washington, DC.

LENORE MILLER, curator of the Dimock Gallery and **PAT KIRWIN**, a candidate for the M.F.A. with an emphasis on painting, recently had works on exhibition in Gallery 10 Ltd.'s summer group show titled, "Garden of Earthly Delights," in Washington, DC.

LOUISA A. NIELSEN, senior educational specialist, instructional designer, GWTV, has been appointed education chairperson, mid-atlantic region, The Society of Satellite Professionals. On June 5, she served as a panelist and judge for the Corporation for Public Broadcasting Development Awards.

Two employees of the **PHYSICAL PLANT DEPARTMENT** recently gave presentations at The Association of Physical Plant Administrators of Universities and Colleges (APPA) 73rd annual meeting in Boston. **ROBERT OWSIAK**, industrial analyst, spoke on evaluating technology in the physical plant - computers, audiovisuals, barcoding, and artificial intelligence. **PAUL BIGGERS**, coordinator of maintenance and inspection programs, talked about using microcomputers to manage the performance of campus maintenance and inspection programs. The papers will be included in the published proceedings of the meeting.

Members of the DEPARTMENT OF PHYSICS, B. Berman, W. Briscoe, D. Lehman, A. Mokhtari, W. Parke and M. Taragin, physics graduate students **S. Adrian, C. Christou, A. Eskandarian and C. Seftor,** and physics undergraduates, **A. Bergmann, L. Kramer, and A. Petrov**, presented or were co-authors of fifteen contributions at the spring meeting of the American Physical Society, April 28 to May 1, in Washington, DC. Several of these contributions are collaborations between GW and other national and international institu-

(continued on back)

tions such as UCLA, Los Alamos National Laboratory, Lawrence Livermore National Laboratory, MIT-Bates, NIKHEF-K (The Netherlands), SIN (Switzerland), TRIUMPF (Canada), Tel-Aviv (Israel), and Melbourne University (Australia).

Faculty members and graduate students of the School of Government and Business Administration, presented nine papers at the Washington Consortium Schools of Business, April 19, at Howard University. SGBA faculty participants included **Larry Singleton, Debra Sheldon, Joseph Hilmy, Phillip D. Grub, Bryan L. Sudweeks, Alex Anckonie, Paul S. Peyser, Daniel R. Kane, and Sal Divita.** Graduate student participants included **Philip R. Witmer, Jian Hai Lin, Gregory Schultz, and Nadia El-Abbassy.** Approximately 70 persons attended the forum. Professor **David Zalkind,** Chair SGBA Research Committee, and **Ray Ehrle,** SGBA Director of Research Support served on the Planning Committee. Proceedings were published by the Office of Research Support and Continuing Professional Education, SGBA.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, has been elected a Fellow of the American Association for the Advancement of Science. He achieved this distinction "for outstanding research in telecommunications theory and engineering, and for contributions to electrical engineering and computer science education."

BERNARD REICH, professor of political science and international affairs, met with Vice President Bush, along with several other Middle East specialists, to discuss the peace process and other recent developments, prior to the Vice President's trip to the Middle East in July.

DERRILL C. ROHLFS, associate professor of electrical engineering and computer science, received a Special Achievement Award from the Naval Research Laboratory for exceptional performance of assigned duties.

CHUNG-WEN SHIH, professor of Chinese, has been awarded an Annenburg/Corporation for Public Broadcasting Chairman's Discretionary Grant to do preliminary research on a film series, "China: the People and the Culture."

JEANNE SNODGRASS, professor of human kinetics and leisure studies, presented "The Science of Exercise," at the Holiday Park Multiservice Senior Center, August 6, in Wheaton, Maryland.

NEIL TILKENS, associate professor of music, presented a series of 12 lectures and a piano recital at two piano workshops, one for high school students, and the other for piano teachers and college students, June 24 to July 3, at Pacific Union College, Angwin, California.

STUDENT ACTIVITIES SHOWCASE -- Yukiko Nakashima, left, and Jonathan Hutcheson, both May 1986 graduates, came back to help out at the Japan Club's table at the recent activities fair in Marvin Center's Market Square. Some 75 University groups were represented at the showcase.

CARL TROESTER, professorial lecturer in human kinetics and leisure studies, was awarded a Plaque of Honour by the X Congreso Pan Americanos De Educacion Fisica in July for his contributions to the development of physical education, sports and recreation. He is also the executive secretary of the International Congress for Health, Physical Education and Recreation.

RUTH A. WALLACE, professor of sociology, gave a speech entitled, "Power and Gender Inequality," at Cedar Lane Unitarian Church, Bethesda, Maryland, as part of a program on women's issues, sponsored by the Women's Issues Task Force.

ROBERT C. WATERS, professor of engineering administration, presented a paper, "Search for a Strategy: Innovation and Profitability," June 12, at the First International Congress in Paris, France, on Industrial Engineering and Management. The paper discussed the growth and management of industrial research in the United States.

PUBLICATIONS

ALEX ANCKONIE III, associate professor of business administration, a chapter, "The American Depository Receipt as an Alternative Source of Funds for Multinational Firms," co-authored with Samuel Mecattaf, in The Multinational Enterprise in Transition (Third Edition), edited by **P. D. Grub,** Aryamehr Professor of Multinational Management, and **F. Ghadar,** professor of business administration, and D. Khambata, The Darwin Press, Princeton, N.J., 1986, pp. 131-143; and a co-authored monograph, "Estimating the Expected Variance-Covariance Matrix in the International Financial Portfolio Asset Allocation Problem," Monograph 86-2, Office of Research Support and Continuing Professional Education, SGBA, 1986.

JAMES R. BARTH, professor of economics, a paper, "The Economic Consequences of Federal Deficits: An Examination of the Net Wealth and Instability Issues," with George R. Iden and Frank S. Russek of the Congressional Budget Office, in the July, 1986 issue of the Southern Economic Journal; with **Sheldon E. Haber,** professor of economics, a review of the book American Jobs and the Changing Industrial Base, in the same issue of the journal.

JONATHAN CHAVES, associate professor of Chinese, a book, The Columbia Book of Later Chinese Poetry: Yuan, Ming, and Ch'ing Dynasties (1279-1911), Columbia University Press, 1986.

MARCUS CUNLIFFE, university professor, a book, Literature of the United States, Penguin Books, July 1986.

FREDERICK GUTHEIM, adjunct professor of urban planning and American civilization, a new edition of his 1949 work, The Potomac, by the Johns Hopkins University Press.

EDWIN P. KULAWIEC, professor of education, an article, "Testament of an Extraordinary Educator," in Educational Leadership, May 1986, Volume 43, Number 8, pp. 69-70.

S.H. NASR, university professor of Islamic studies, three articles, "Islamic Work Ethics," in Comparative Work Ethics, published by the Library of Congress, 1986; "The Islamic View of Christianity," in Concilium, 1986; "Spiritual Movements, Philosophy and Theology in the Safavid Period," in Cambridge History of Iran, Vol. 6, Cambridge, 1986.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, editor of a book, Local Area Multiple Access Networks, Computer Science Press, 1986. The book is the first in the "Advances in Telecommunication Network Series."

INTERVIEWS

ROY GUENTHER, associate professor of music, was interviewed in the Music Department by Hodding Carter, host of PBS's "Capital Journal," about the bill before Congress to change the national anthem to "America the Beautiful." The program aired locally July 3 and 5 on WETA-TV Channel 26.

YURI OLKHOVSKY, associate professor of Russian, was interviewed for an article in The New York Times, June 2, entitled "Russians in D.C. Date Back to Tsarism."

PHYLLIS PALMER, assistant professor of women's studies and of American civilization, appeared on the WETA-TV showings of "Modern Maturity," June 21 and 28, a weekly magazine show produced by the American Association of Retired Persons, in a two-part series on women's work and employment since 1900.

PERSONNEL NOTICES

COLLECTION MANAGEMENT LIBRARIAN, full-time, Jacob Burns Law Library. (Individual to participate in reference services. Responsible for reserve materials, circulation functions, maintenance of the collection. Supervises four circulation staff members and numerous student assistants. Evening or weekend work may be required. Required: M.L.S. from accredited library school. Preferred qualifications: J.D. from accredited law achool, previous experience in large academic law library, demonstrated supervisory skills, ability to communicate and work effectively with faculty, students and staff.) Contact: Professor Anita K. Head, GWU, Jacob Burns Law Library, Washington, DC 20052.

The following two positions are available in the Department of Biochemistry. Contact: Nicholas R. Hall, Ph.D., Ross Hall, Room 526, Ext. 8431.

NEUROENDOCRINOLOGIST, full-time. (Person with post-doctoral training and experience in working with immune system peptides and neuroendocrine circuits to maintain pituitary cell cultures and evaluate molecular mechanism of action of regulatory immune system peptides. Experience with HPLC and radioimmunoassays highly desirable.)

RESEARCH ASSISTANT, part-time. (Person with master's degree in organic chemistry with a background and/or strong desire to carry out experiments in the area of immune system effects upon neuroendocrine circuits and neuropeptides. Responsibilities include performing laboratory animal surgery, radioimmunoassays and tissue culture protocols.)

The George Washington University is an equal opportunity/affirmative action employer.

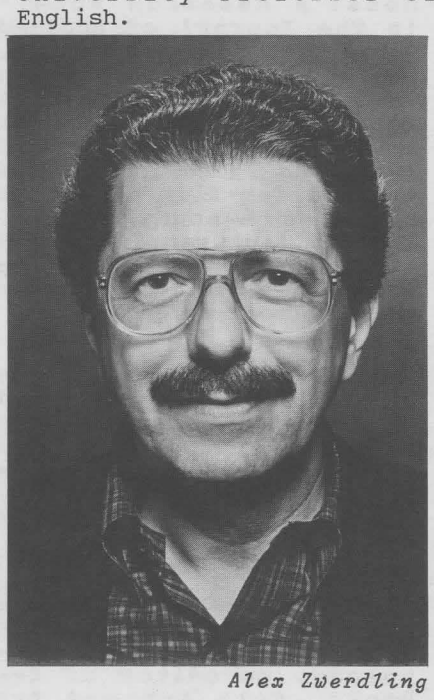
Dan Moshavi, assistant editor

ALEX ZWERDLING IS NEW UNIVERSITY PROFESSOR

Alex Zwerdling, a faculty member of the University of California at Berkeley for 25 years, has joined The George Washington University as University Professor of English.



Alex Zwerdling

Professor Zwerdling did his undergraduate work at Cornell University, where he was elected to Phi Beta Kappa. His master's and Ph.D. degrees are from Princeton. He was a Fulbright Scholar in Germany, a Fellow of the Center for Advanced Study in the Behavioral Sciences, and has held fellowships from both the Guggenheim Foundation and the American Council of Learned Societies.

He has served two terms as chairman of the 20th Century British Literature Division of the Modern Language Association and was, for four years, a member of the advisory board for PMLA (Publications of the Modern Language Association). His fields of specialization are 19th and 20th century British literature and contemporary literature.

In announcing Dr. Zwerdling's appointment, Vice President for Academic Affairs Roderick S. French said, "Alex Zwerdling matches perfectly the criteria for these professorships. His distinguished reputation in his field combined with the distinctive orientation of his scholarship made him the unanimous choice of a broadly interdepartmental search committee. I am confident that students from many disciplines will welcome the opportunity to study with Professor Zwerdling. In his teaching and his research, he has traced the connections between literature and the society in which it is written."

The new University Professor has described his interests as focused on "the intersection between literature and the movements usually studied by historians, sociologists and political theorists. Most of what I have written or planned to write," he says, "deals with these issues. The starting point of my own books is that writers don't write in a vacuum.

"Yeats and the Heroic Ideal (1965) is centrally concerned with Yeats's complex relationship to the movement for Irish independence. Orwell and the Left (1974) is a study of Orwell's response to the left-wing politics of his time. Virginia Wolf and the Real World (1986) shows how the work of this so-called ivory-tower artist in fact reveals the keen, critical observation of the major social and historical forces shaping her society -- the transformation of family life, the growth of the women's movement, the two world wars, the attack on class privilege. In everything I've written, I try to provide a sense of the historical context that can help us to understand literary texts."

Zwerdling's appointment completes the group of three fully endowed university professorships in the humanities which were created with funds raised through a Challenge Grant from the National Endowment for the Humanities. The other two in this group are University Professor of Philosophy Peter Caws and University Professor of Islamic Studies Seyyed H. Nasr. Including University Professors Amitai Etzioni and Marcus Cunliffe, the appointment brings the number of university professors to five.

CRYSTAL CITY CENTER OFFICIAL OPENING THURSDAY

There will be a reception on the occasion of the opening of The George Washington University Crystal City Center on Thursday, September 18. President Lloyd H. Elliott and Dean Carol Holden of the Division of Continuing Education will greet guests in the new facility between 4 and 6 pm.

PANEL DISCUSSION BY ALUMNI ARTISTS

There will be a panel discussion by four GW alumni artists on Saturday, September 20, at 2 pm in the lower lounge of Lisner Auditorium. Panelists will be David Allison, Bradley Stevens, Mary Anne Warner and Mindy Weisel, all of whom are represented in the Dimock Gallery's current GW Art Alumni Exhibition, which will run through October 9. The discussion is sponsored by the Columbian College Alumni Association and the Young Alumni Club of the General Alumni Association. Admission is free.

TRUSTEE FLORETTA D. MCKENZIE SPEAKS TO MINORITY STUDENTS

RECEPTION -- L to R, Jerlys Thompson, president of the Black Peoples Union; Toni Jackson, vice president of the Black Peoples Union and deputy vice president for minority affairs, GWUSA; Director of Student Activities Claudia J. Derricotte; University Trustee Floretta D. McKenzie; and President Lloyd H. Elliott at the September 5 Minority Students Reception.

"Don't be afraid to reveal your feelings and to let people know that you care," University Trustee and D.C. School Superintendent Floretta D. McKenzie told her listeners at the Annual Minority Student Reception September 5 in Marvin Center's Market Square.

In his introduction of Dr. McKenzie, President Lloyd H. Elliott spoke of her as "this state's chief school officer" and said he believed she agreed with him in saying to the students, "What education can do for you and what you can do with your education can many times be the most significant single factor in your entire life."

Trustee McKenzie, who holds her doctorate in education from George Washington, agreed that she does indeed share President Elliott's sentiments with respect to the power of education.

"I wanted to be here," she said of her invitation to come. "My memory, and President Elliott's memory, stretches back to a time when there were not so many black students on this campus. I have a very strong commitment to you as an organization and as individuals but also a very strong commitment to this university and its president. My commitment has to do with my involvement with the university during the '60s. I was a high school counselor among those working to put together a proposal for a talent search project called OPEN, Opportunity Project for Education Now. The project's purpose was to get more minority students into universities and colleges throughout the country but also but also in colleges and universities in this city. This university, under the leadership of Lloyd Elliott, was one of the first to step out and make a commitment to take a number of students on tuition scholarships, but not just to take them but to develop the kind of support program that would make sure that, as much as possible, these students would be successful.

In a reference to what she called "faddism" in society, and to how people work on a problem for a while then move away from it, Dr. McKenzie declared, "This university

(continued on back)

STEERING COMMITTEE APPOINTED FOR MIDDLE STATES REVIEW

The Steering Committee for the self-study the University is required to conduct for the ten-year review of the University's accreditation by the Middle States Association of Colleges and Schools has been appointed by President Lloyd H. Elliott.

Edward A. Caress, professor of chemistry and associate dean of the Graduate School of Arts and Sciences, will chair the Steering Committee. Members will be: Arvil Van Adams, research professor of education policy and of economics and director of the Graduate Institute in Policy Education and Research; Anthony G. Coates, professor of geology and assistant vice president for Academic Affairs; Michael B. Feldman, associate professor of engineering and applied science and assistant for academic computing to the vice president for Academic Affairs; Jonathan D. Fife, professor of education and director, Educational Resources Information Center (ERIC); Adam Freedman, GWUSA president; Roderick S. French, professor of philosophy and vice president for Academic Affairs; John F. Lobuts, associate professor of management science; Christopher G. Long, GWUSA vice president for university policy; Jonathan D. Moreno, associate professor of philosophy and of health care sciences, who will serve as Secretary to the Steering Committee; Marianne R. Phelps, professor of education and associate provost; Stephen J. Wayne, professor of political science and public affairs; and Ruth A. Wallace, professor of sociology, named to the committee by the Faculty Senate.

Ex-officio members will be: Deans Barron, Bowles,

(continued on back)

STEERING COMMITTEE

(continued from front)

East, Holden, Kelly, Liebowitz, Loeser, Lovett and Solomon; Dr. Sharon Rogers, university librarian; and J. Matthew Gaglione, registrar.

The self-study will be done during the 1986-87 academic year, with the visit of the association's team in October of 1987. Since the recommendations of the Commission for the Year 2000 were submitted to the Middle States Association just one year ago, President Elliott proposed to the Middle States Commission on Higher Education that the University use the occasion of the self-study to develop specific detailed plans that will move our institution toward achievement of some of the central objectives outlined in the Year 2000 report. Dr. Robert Kirkwood of the Commission on Higher Education has endorsed this proposal.

Commission recommendations in the four areas have been selected for study: academic computing, general education, policy studies, and research. Subcommittees in these areas are now being formed, charged with assessing the area's current status and with developing plans for reaching the objectives specified for that area by the Commission for the Year 2000.

Chairs for the subcommittees will be: academic eomputing, Michael B. Feldman; general education, Stephen J. Wayne; policy studies, Arvil Van Adams; and research, Anthony G. Coates. Subcommittee members will be announced in a subsequent issue of GW Report.

MARGARET GARRISON DE VRIES, historian of the International Monetary Fund, discussed "Current Challenges Facing the International Monetary Fund," at September's First Wednesday Lecture.

GRANT OPPORTUNITIES

The U.S. Institute for Peace is presently funding interdisciplinary research, education training, and public information projects on issues of international peace and conflict resolution. The Institute's current appropriation is $4 million, at least 25 percent of which is available for grants to universities, research organizations and other non-profit institutions.

Applications will be accepted at any time. For a list of priority areas and a local contact person, call Helen Spencer, Office of Sponsored Research, Ext. 6255.

TRUSTEE MCKENZIE SPEAKS

(continued from front)

has not moved away from the young people of this city." She noted that "people of this university understand that the major vehicle for upward mobility in our society is education at the college and university level."

"It's wonderful to celebrate beginnings," she told the students. "I am informed that your theme is 'Visions of Higher Education.' During this time, we need to deal with the capacity to visualize and organize, to have a vision worth striving for. Trying to re-live the past is a bankrupt notion.

"You are here today because of your vision, a vision of a kind of life that you want for yourself," she continued. "As I get older, I am concerned about those who will become teachers and principals and superintendents and hope very much that they are those who will commit themselves to making sure that the lives of others will be better, who see there is a mission. We must stretch beyond ourselves and care about others, care in such a way that we are willing to commit time and even to dedicate our life's work to professions that demonstrate a care for others.

"Students can be role models for younger students," the superintendent pointed out. "There can be students who sometimes might not have role models in their midst, who have good people in their families but people who have not had education. You can do that now. It doesn't make any difference what ethnic group you come from. You can be a role model.

"We hear so much about drug abuse and teen-age pregnancy," she said. "Drug abuse and teen-age pregnancy are symptoms, symptoms of something that has gone wrong. Part of what has gone wrong is that we no longer know how to show each other that we care about each other," she explained. Commenting on her experience when she became superintendent of D.C. schools, she related, "I had to really let people know what I care about in order to get them mobilized."

"Decide that you are going to be a caring individual," Dr. McKenzie said to the students, "that you are going to reach out to persons less fortunate than you to see what you can do for others."

She quoted the poet Langston Hughes, who said, "Life ain't been no crystal stair," and went on "You, too, can have no crystal stair. If you can see in your mind's eye what it is you want to be and be willing to commit yourselves to the struggle to be that, you can definitely achieve it. There are persons here on this campus ready to help you. Ask for help, if you need help. You'd be surprised at the help you can get."

Dr. McKenzie emphasized the importance of a "willingness to work" and continued, "Your achievement, your success, your ability to reach your goal will depend on how well you can work with others. All of us in this country need to learn more about being part of a team. I want you as part of a very fine, strong, proud ethnic group to see your own opportunity to continue to use our strengths, our power in togetherness and in our willingness to be a part of a larger whole to say that 'I will, I can and I can help others too.'"

BRIEFLY...

University Inn is not part of GW -- The recently opened University Inn on G Street, NW, is privately owned and is not part of The George Washington University although it is within the campus area.

GWUSA Open House on Friday -- The GW Student Association will hold an Open House for the entire University community on Friday, September 19, at 8 pm, in the association's offices, Marvin Center, Room 424.

NEWSNOTES

INTERVIEWS

AMITAI ETZIONI, university professor, was interviewed July 12, on Maryland Public Radio on "The Social Agenda of the Reagan Administration." He appeared on the program "Modern Maturity," hosted by Edwin Newman, which aired on WETA-TV on July 19 and 25.

CHRISTOPHER J. DEERING, associate professor of political science, was interviewed by MBC-TV of Seoul, Korea, July 9, about the balance of executive and legislative power under the American constitution. The interview appeared as part of the station's coverage on the proposed new Korean constitution.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was interviewed July 28, by Patricia Guy of the Financial Section of USA Today concerning the proposed acquisition of Safeway stores by Herbert Haft, President of the Dart Group.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, appeared on Cable News Network's "Newsmaker Sunday," June 22, as part of a program on the national human organ donor network.

BERNARD REICH, professor of political science and international affairs, was interviewed on Cable News Network's "Newsmaker Sunday," July 27, along with former Undersecretary of State Joseph Sisco and former Ambassador Richard Parker to discuss the Hassan-Peres Summit Meeting.

PROFESSIONAL ACTIVITIES

LOUISA NIELSON, GWTV instructional designer and senior education specialist, has been appointed to the Committee for International Tele-Education (CITE) Steering Group. CITE is based at Ohio State University, School of Education.

JOHN L. WHITESIDES, JR., professor of engineering and applied science, was presented the Outstanding Faculty Advisor Award at the annual awards banquet of the Region I Chapter of the American Institute of Aeronautics and Astronautics. He is the associate director of The George Washington University-National Aeronautics and Space Administration-Langley, Joint Institute for Advancement of Flight Studies.

PUBLICATIONS

AMITAI ETZIONI, university professor, three articles: "Teen Idols," in Public Opinion, Summer, 1986; "Rationality is Anti-Entropic," in the Journal of Economic Psychology, Vol. 7, 1986; "Tax Evasion and Perceptions of Tax Fairness: A Research Note," in The Journal of Applied Behavioral Science, Vol. 22, no. 2, 1986. He wrote an article for the August 24 Washington Post Outlook Section entitled, "The Fast-Food Factories: McJobs Are Bad for Kids," in which he cited a study by **A.V. Harrel**, lecturer in management science, and **Philip W. Wirtz**, associate professor of management science.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, an article, "Kicking Them Out: Leaving Institutions is Just the Beginning," in The Social Health Review 3 (1986).

JOHN M. VLACH, associate professor of American civilization and of anthropology, co-editor of two books, Folk Art and Art Worlds, UMI Research Press, 1986; and Common Places: Readings in American Vernacular Architecture, 1986.

ROBERT WALKER, professor of American civilization, co-author with Ralph Gabriel, Yale University, in producing a third edition of Gabriel's The Course of American Democratic Thought. Walker was responsible for new material covering major issues from 1956, the date of the most recent prior edition (Greenwood Press, June 1986).

PERSONNEL NOTICES

RESEARCH ASSISTANT, half-time, Rehabilitation Counselor Education Program. (Person to assist director of program. Responsibilities will include assisting in research, teaching, and administrative work. Knowledge about rehabilitation is necessary. Graduate coursework or recent experience in rehabilitation is required. Position terminates June 30, 1987.) Please send letter of application and resume by September 22 to: Dr. Donald Linkowski, GW, 603 Academic Center, Washington, DC 20052.

RESEARCH ASSISTANT, half-time, Department of Human Kinetics and Leisure Studies. (Person for eight-month position is needed for the Paraprofessional Therapeutic Recreation Program. B.S. or B.A. degree required, as well as some knowledge of and interest in the paraprofessional therapeutic recreation field. Responsibilities include library research, general research, writing, editing, etc. Available immediately.) Send resume and letters of recommendation by September 24 to: Pony H. Harrant, 817 23rd Street, NW, Building K, Room 202, Washington, DC, 20052.

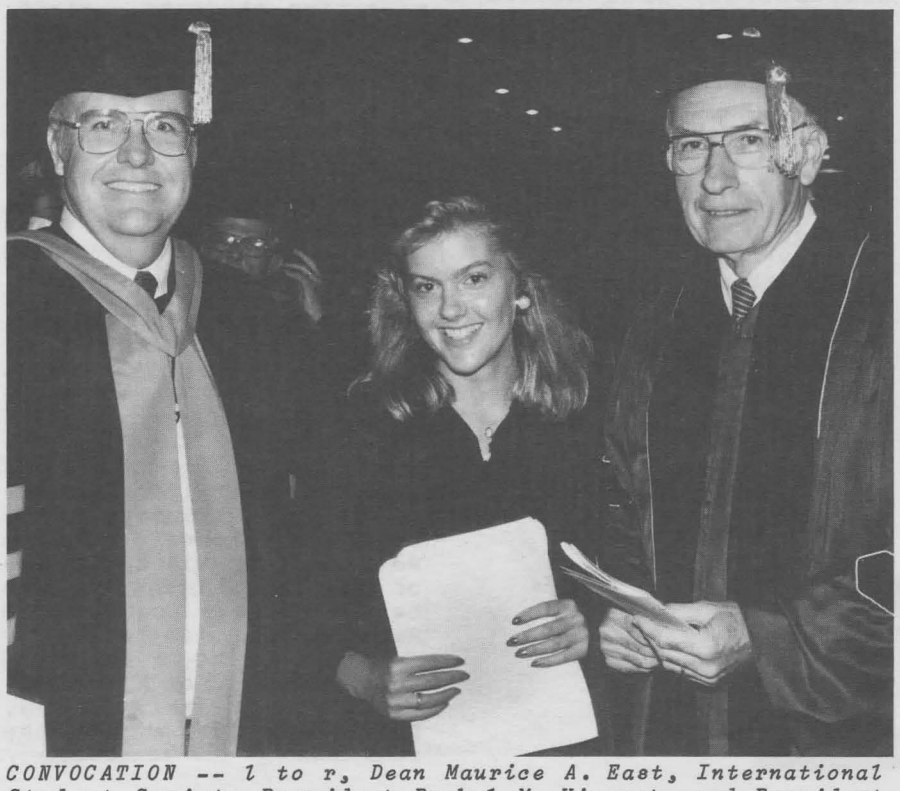
DEAN EAST GIVES ADDRESS AT OPENING CONVOCATION



CONVOCATION -- l to r, Dean Maurice A. East, International Student Society President Rachel M. Vincent, and President Lloyd H. Elliott before the September 12 Opening Convocation.

"The single most important argument for enhancing and enriching the international dimensions of the George Washington University is not to take advantage of our location and our international diversity," SPIA Dean Maurice A. East told a capacity audience at the September 12 Opening Convocation. "Rather it is that the modern era and the fate of our future require us all to have a more sophisticated and complex worldliness," he declared.

East, principal speaker at the convocation, continued, "The spectre of nuclear war, the intricacies of global economic interdependencies, and the phenomenal growth of international travel and communications in every facet of life are just several of the most obvious factors that place unprecedented demands on our capacities to understand and to cope in this increasingly multinational environment.

"Along with an almost exponential increase in the barrage of information available about the world, there is the immediacy of the events we see on our televisions and the vividness of the images shown, unfortunately...giving a misleading and biased picture of the overall ebb and flow of the pattern of cooperation and conflict in our world.

"One result is that people often react first on an intensely emotional level to international situations. The much more difficult processes of analysis and reflection are frequently avoided altogether. Simply put, awareness and consciousness-raising are not enough to deal with today's and tomorrow's world. There must be a solid base of knowledge and experience of the world upon which the awareness and consciousness-raising rests."

The dean referred to the first recommendation of the report of the Commission for the Year 2000 which says that the University should "develop an international emphasis in all schools and colleges." He noted that there are ample opportunities for every member of the University community to develop acquaintances with one or several persons from other nations but that this will not happen automatically. He highlighted a number of international activities in the various schools and remarked that in addition to our extremely rich campus resource base, "We are doubly blessed with the invaluable off-campus resources in our immediate vicinity." He questioned whether as a university or as individuals we are doing enough to take advantage of these off-campus resources.

Dean East concluded with two proposals: first, that every unit, department or program in the University address seriously the question, "What can be done to improve our capabilities to operate effectively in an increasingly complex international environment?" and second, that serious consideration be given to instituting a university-wide requirement that every student have an international experience as part of his/her GW education. He advanced the idea that the requirement could be fulfilled in a variety of different ways and that if it is possible to do this anywhere, it ought to be possible here.

President Lloyd H. Elliott, in brief remarks, said in part, "To our guests from the diplomatic community, let me say that you honor us with

(continued on back)

GWUSA STUDENT-FACULTY BARBEQUE IS THIS FRIDAY

The GW Student Association's annual Student-Faculty Barbeque is this Friday, September 26, from 11:30 am to 1:30 pm. GWUSA President Adam Freedman says the barbeque is "a major goodwell event" and he hopes that many members of the faculty and administration will attend.

COSTANTINO AND SCHOU NAMED ASSISTANT DEANS IN DCE

Dean Carol D. Holden of the Division of Continuing Education has announced two new appointments. Dr. James Costantino became assistant dean for off-campus programs in the Washington area September 1. Dr. Gayle E. Schou became assistant dean at the division's Tidewater Center on the same date.

Dr. Costantino comes to the University with a background in technology, management and education. Before coming to DCE, he was a partner with the Charles River Group, Inc., a technical support firm located in Boston, Newport, and Washington. Prior to that, he had extensive experience in research and development, both as a researcher and a manager, in the National Aeronautics and Space Administration (NASA), the Department of Transportation (DOT), and the Federal Aviation Administration.

His last government assignment was as director of the Transportation Systems Center, DOT's principal research and engineering arm in Cambridge, Massachusetts. He has been a frequent consultant to the National Research Council of the National Academy of Sciences, developing strategic research programs, and has served as executive vice president of a high technology firm in the Washington area.

Assistant Dean Costantino holds a B.S. in Mechanical Engineering from the University of Massachusetts; an M.E.A. from George Washington; and a Ph.D. in business administration from American University. He is a registered Professional Engineer in Massachusetts. Dr. Costantino has lectured at George Washington (SEAS), George Mason University, Temple University, M.I.T.'s Sloan School of Management, and the University of Massachusetts, where he was designated a Distinguished Engineering Alumnus. He is active in a number of technical and management organizations and was recently elected a Fellow of the Association for the Advancement of Science.

NEW ASSISTANT DEANS in the Division of Continuing Education Gayle E. Schou, left, and James Costantino.

Dr. Gayle E. Schou comes to George Washington from the College of Saint Mary in Omaha, Nebraska, where she was associate dean of the college, directing the Institute for the Adult Learner, the Weekend and Evening Colleges, and all off-campus programs. She held the rank of associate professor in the Department of Education there and was also chairperson of the Division of Education/Business.

Before her association with the College of Saint Mary, Dr. Schou had taught and administered programs in the university systems in Texas and at St. Mary's University in San Antonio, Texas, as well as at Northern Illinois University in DeKalb, Illinois. She received her doctorate in education at Northern Illinois University. Her offices are at the Hampton satellite campus.

ELLIOTT, FAUNTROY, SACHAR SPEAK AT HILLEL DEDICATION

The cornerstone for the new B'nai B'rith Hillel Foundation building at 23rd and H Streets, NW, was dedicated in ceremonies on Sunday, September 14, at 5:30 pm at the construction site.

President Lloyd H. Elliott, in brief greetings, said, "On behalf of The George Washington University, it is my great pleasure and honor to welcome the new Hillel and the many broadened programs which the new facility will make possible. As Hillel serves Jewish students and their guests, you also enrich the educational and cultural experiences for all GW students and faculty and members of the staff who come and go. In fact, all of those who study and teach at this university are made richer in their experience by the contributions of Hillel."

D.C. Delegate Walter Fauntroy said, "I want to extend my enthusiastic congratulations to the George Washington University community and to the Jewish community of Washington, D.C., on the occasion of this most important event. ... This dedication is representative of the Jewish community's determination to stay involved with the District of Columbia. It is a decision which I applaud as an enhancement of the rich pluralistic tradition which has benefitted our city so much."

Dr. Abram L. Sachar, chancellor emeritus of Brandeis University, made the principal remarks. He was introduced by Assistant Professor of Hebrew Max Ticktin, who spoke of him as the "master builder" of Hillel foundations and of Brandeis University.

Speaking of the founding of the first Hillel at the University of Illinois more than 50 years ago, Dr. Sachar said, "I can't help commenting not only on the change in our numbers and the fact that Hillel has become a very basic part of every university where there is enough of an enrollment of Jewish students, I can't help also commenting on the fact that the objectives have changed so much. ... We are now in a generation of militants. They've been part of all social action that joins

(continued on back)

HILLEL DEDICATES CORNERSTONE

(continued from front)

up with the counselors at the university itself. I'm proud of the fact that they are often leaders in the fight for civil rights and in all of the other great social causes which should be part of their education. The fact and data that they get in their classrooms is not enough. They have to be on the firing line as well. ... The universities have no longer remained ivory towers. They are now ivory foxholes and they should be, that's the best part of our education.

"The other great change that's taken place is the change in our interpretation of Americanism into which every ethnic and religious group fits." Chancellor Sachar stated that the great ideal in his day was "the melting pot," that immigrants who came to this country wanted to lose their tradition that came from the old country, to assimilate as quickly as possible.

"We no longer believe in the melting pot," he went on. "We look upon America today as encouraging difference within unity; the umbrella over all is the American democratic system but we encourage diversity. We want every group to express its tradition. We don't want them to homogenize. ... We have to remember the heritage that we have just as every other ethnic and religious group has already done. ... We will not be held together by philanthropy, by filial loyalty, by country club memberships or even gastronomy. We are held together by the knowledge of where we came from and who we are, and that's what Hillel has to do. It has to remind us that we're not like the gypsies. The gypsies are older than we are but they have no history. They don't remember their past. They suffer from national amnesia and when you suffer from national amnesia, you cannot have any pride. We want this pride to be emphasized. Hillel must do it. Bless you in your enterprise. I hope to come back when you dedicate the building. That will make you the model both physically and in terms of program for the Hillel foundations and the Jewish life of our country."

GW Hillel Board Chairman Carl Gewirz presided at the ceremony. Robert Golbert, president of the GW Hillel Student Organization, expressed the thanks of the students to the many donors to the building who were present.

The cornerstone dedication and blessing were given by Rabbi Gerald Serotta, GW Hillel Director. The Reverend John Wilber of St. Mary's Episcopal Church, which is next door to the building site, gave the invocation.

BRIEFLY...

Engineers' Council Picnic -- On Saturday, September 27, the Engineers' Council, in cooperation with the Engineer Alumni Association will sponsor a picnic at the park in Carderock, Maryland. All engineering students, faculty, and alumni who plan to attend should call Akbar Khawaja, Ext. 6744, or stop by the Davis-Hodgkins House, 2142 G Street, before September 25. Admission is free.

New Phone Exchange for Academic Center -- The Academic Center will change to the new telecommunications system on Monday, September 29. At that time the telephone exchange will become 994.

GW PERFORMING ARTS ALUMNI IN CONCERT

The Departments of Communication and Theatre, Dance, and Music will celebrate the achievements of their alumni on Friday, September 26, with an evening of alumni performances in the Marvin Theatre at 8 pm.

Actors, dancers, and musicians who have pursued professional careers after graduation will perform in a showcase of alumni talent. The Dimock Gallery will also open its doors for the Art Alumni Exhibition, so that those attending the alumni performance will have an opportunity to see the works of the alumni artists as well.

Gallery hours will be from 7 to 8 pm. Admission to both events is free for all GW students, faculty, staff and alumni. The evening is sponsored by the Columbian College of Arts and Sciences. For further information, call Ext. 6130.

HEALTH FAIR '86 IS OCTOBER 1

Health Fair '86, the second annual GW health fair, will be held on Wednesday, October 1, between noon and 6 pm in the Charles E. Smith Center.

More than 30 free health screenings and active learning centers will be set up. There will be information on blood pressure, fitness, cholestoral, oral health, vision, foot health, skin health, diet analysis, healthy food samples, and health risk appraisal. There will be a low-impact aerobics demonstration at 12:30 pm and a stretching and relaxation demonstration at 5:30 pm. The health fair also includes drawings of free "healthy" door prizes.

The entire GW community is invited. Admission is free, although a GW ID is required. The event is sponsored by the Department of Human Kinetics and Leisure Studies, the Wellness Resource Center, Housing and Residence Life, and Women's Athletics. For more information, call Ext. 6280 or 6927.

OPENING CONVOCATION

(continued from front)

your presence. You bring, not only the recognized prestige of your offices with you, but with your presence you contribute to the overall reality of the term 'one-world.' To our students who come from other lands and other nations, let me express the hope that you find here at George Washington University an opportunity not only to study in your chosen field but an understanding of the way of life of another people."

The president announced the formation of a Council on International Programs and stated, "I shall ask this council to facilitate the University's efforts to expand and enrich its international dimension. May I invite all of our friends around the world, students, diplomats, visiting scholars et cetera, to join this university in helping to achieve that goal."

Professor William B. Griffith, chairman of the Executive Committee of the Faculty Senate, brought greetings from all the faculty and declared, "For those of you who are students, I pledge our enthusiastic collaboration for a fruitful year of growth and development." He noted that some 15 percent of the full-time faculty members hold citizenship or principal degrees from countries other than the United States. "Let us go forward in the efforts to transcend petty rivalries and excessive nationalism to the pursuit of truth, which knows no national boundaries and an excellence in scholarship and teaching which will hold out hope for free inquiry in places where is it not allowed to flourish," he concluded.

John R. Manning, president of the General Alumni Association, quoted a former president of Harvard University, who said "The freshmen bring so much and the seniors take away so little." Speaking of GW, he said he agrees the freshmen bring much, but does not agree that seniors take away little. He noted that the knowledge gained by seniors and graduate students permeates every country in the world and pointed out that many alumni serve and have served in high positions in both the public and private sector.

GWUSA President Adam Freedman described himself as excited about the upcoming year and said he has put together a group of students to look into building some "grass-roots pride in this university." Taking note of the international theme of this year's convocation, he said, "There is so much to be gained by more interaction between the 2500 foreign students that attend here and their American counterparts." He continued, "I'd like to take this opportunity to speak on an international issue, that directly affects GW, our investments in businesses that do business in South Africa." Stating that the university exists to enlighten people to the problems of the world, Freedman said "Today, we are contributing to one of those problems. We should divest." He said, "We should no longer support with our money this racist apartheid regime" in South Africa. He repeated the phrase, "We should divest," and quoted a statement of the late Robert F. Kennedy, made 20 years ago, when he said "It is from numberless diverse acts of courage and belief that human history is shaped." Freedman said he had petitions from 1300 members of the University community asking that the University divest.

During the course of his remarks, a group seated in the Marvin Theatre, removed their shirts to appear in T-shirts, each bearing one letter of the word "divest." Freedman said he looks forward to a year when students, faculty and administration can work together to solve the problems "that face all of us."

Rachel M. Vincent, president of the International Student Society, served as mistress of ceremonies for the event. Some 40 ambassadors and diplomatic representatives attended the ceremony.

COUNSELING CENTER PERSONAL DEVELOPMENT SERIES

During the next few weeks, the Counseling Center will be conducting sign-ups for the Personal Development Series. Since all sessions are free of charge and limited in space, it is necessary to register early, with priority given to full- and part-time students. Staff, faculty, and alumni, however, are also welcome to sign up, on a space-available basis.

All registration will take place between 9 am and 5 pm, Monday-Friday, at the Center, Building N, 718 21st Street, NW, or by calling Ext. 6550. There is a deadline of three days prior to the beginning of each class.

This semester the center staff has put together a series that is designed not only to teach participants useful skills, but also to help them learn more about themselves. Some of the programs to be featured include: Skills for Successful Dating, Mondays, 4 to 5:30 pm, October 6 through November 10; Adult Children of Parents Who Drink, time to be determined; Acquaintance Rape, Thursday, September 25, from 6:30 to 8 pm; and Exploring Your Image, Mondays, 3 to 4:15 pm, September 29 through the remainder of the semester.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Department of Medicine, Division of Infectious Diseases. (Person to work half-time assisting principal investigator with clinical studies in the hospital and half-time assisting research assistant with animal studies and general maintenance of the research laboratory at the Medical School. Bachelor's degree in biology or other related science with one to two years laboratory experience preferred.) Contact: Diane Hebblewaite, research assistant, Ext. 2912.

RESEARCH ASSISTANT, full-time, Department of Pharmacology. (Position requires substantial experience in the quantitative analysis of drugs and proteins by a variety of chromatographic methods; specifically, gas-liquid chromatography, high-performance liquid chromatography, and electrophoresis. Experience in the handling of laboratory animals and biological specimens is also required. A B.S. is chemistry, biology, or related area is a prerequisite. Supervisory experience is preferred.) Contact: Dr. Abramson, Ext. 2946.

RESEARCH ASSISTANT(S), full-time, Department of Medicine. (Two individuals to assist in cardiovascular research project. B.S. in biological sciences with some biochemistry background is required. Begin this month.) Call Ext. 5080.

The George Washington University is an equal opportunity/affirmative action employer.

Dan Moshavi, assistant editor

CRYSTAL CITY CENTER OPENS

The George Washington University Crystal City Center was officially opened with a reception on Thursday, September 18.

Division of Continuing Education Dean Carol D. Holden introduced President Lloyd H. Elliott, who spoke briefly.

"A university has as one of its fundamental obligations an outreach beyond the confines of the campus to its community," President Elliott said. He noted that classes would begin in the center that evening and said he would like deny the "rumor in city hall" that GW is moving to Northern Virginia, Maine, Wisconsin or wherever. "Those of you in continuing education know, that for several years now, we have had classes on this side of the Potomac," he continued, "and it becomes increasingly difficult to find space. So when it was reported to me that it was possible for GW to establish a center here, it did indeed make a lot of sense to me."

The president extended his congratulations to Dean Holden and his good wishes to all who will work in the center, both teaching and learning. "GW has a tremendous heritage in this area of continuing education in off-campus locations," he said. "Dean Holden inherits that, but in a changing market," he added, "we want this part of GW to grow and continue."

AT CRYSTAL CITY -- l to r, Christopher H. Sterling, professor of communication and theatre; Abbie O. Smith, assistant dean of the Division of Continuing Education; DCE Dean Carol Holden, and President Lloyd H. Elliott had a visit at the GW Crystal City Center on September 18, the center's official opening day.

L. THOMPSON BOWLES IS FIRST WEDNESDAY LECTURER

L. Thompson Bowles, M.D., professor of surgery, and dean of the Medical Center for Academic Affairs, will speak on "Myths in Maintaining Health," Wednesday, October 1, at 8 pm in Rooms 413-414 of the Marvin Center. The event, sponsored by Alumni Relations Office, is part of the First Wednesday Lecture Series. Admission is free, but call Alumni Relations, Ext. 6435, to reserve seating.

Dinner will be served by the University Club, for both members and non-members, beginning at 6:30 pm. Call Ext. 6610, for dinner reservations.

BRUNILDE S. RIDGWAY, distinguished visiting professor of art history, right, talked with John E . Ziolkowski at the reception which marked the opening of Gelman Library's current exhibition, "Evidence of Excellence: Faculty Scholarship at GW," which will run through October 31.

NEW FULL-TIME, NON-MEDICAL FACULTY THIS FALL

New members of the full-time, non-medical faculty as of September 1, 1986 are:

HOSSEIN G. ASKARI, visiting professor of business administration;
RAYMOND P. BAIN, assistant research professor of statistics;
DAVID W. BARNES, visiting professor of law;
DENNISE MASLAKOWSKI BARTELO, instructor in special education;
MICHAEL A. BOBRIK, visiting assistant professor of chemistry;
JOHN BODNER JR., Visiting Howrey Professor of Trial Advocacy;
TIMOTHY J. BRENNAN, associate professor of telecommunications policy and of economics;
JUDITH BUTLER, assistant professor of philosophy;
DEBORAH A. CARO, assistant professor of anthropology;
LONNIE CARTER, Jenny McKean Moore Visiting Lecturer in Creative Writing;
WILLIAM J. CHAMBLISS, professor of sociology and chairman, Department of Sociology;
NARINDER S. CHAUHAN, visiting assistant professor of engineering and applied science;
VERNON COLEMAN, assistant professor of political science;
CHARLES B. CRAVER, professor of law;
DONA ANITA DURHAM, assistant professor of communication and theatre;
PHILLIP N. EDMONDSON, instructor in English for international students;
KENNETH BARRY GERMAIN, visiting professor of law;
MICHAEL WALLACE GORDON, Visiting Alverson Professor of Law;
DAVID ALAN GRIER, assistant professor of statistics;
PAUL GRUSSENDORF, instructor in clinical law;
MINA HAMEDANI, visiting instructor in mathematics;
JOHN R. HARRALD, associate professor of administrative sciences;
ROBERT B. HAYS, visiting assistant professor of psychology;
CAROL L. IZUMI, instructor in clinical law;
WILLIAM D. JACKSON, visiting professor of engineering and applied science;
ZEINAB KARAKE, visiting assistant professor of management science;
ZEEV KITOV, visiting assistant professor of engineering and applied science;
YASURO KOIKE, assistant research professor of physics;
STEPHANIE GRECO LARSON, assistant professor of political science;
MARIE C. MALARO, visiting professor of museum studies and director, Museum Studies Program;
LUZ PALTAN MANGURIAN, visiting assistant professor of biological sciences;
ROBERT F. MATHIS, distinguished visiting professor of engineering and applied science;
JOHN H. McFADDEN, visiting assistant professor of political science;
JEAN McGARRY, assistant professor of English;
CYNTHIA J. McSWAIN, associate professor of public administration;
KIM MORELAND, assistant professor of English and director, Writing Laboratory;
YAEL M. MOSES, instructor in Hebrew;
D.N. PRABHAKAR MURTHY, visiting associate professor of engineering and applied science;
LISA E. OSTERMAN, assistant professor of geology;
ROLF A. PETERSON, professor of psychology and director, Clinical Training in Psychology;
BRUNILDE S. RIDGWAY, distinguished visiting professor of art history;
JOHN PHILIP ROGERS, assistant professor of political science;
TERESA J. ROSEGRANT, associate professor of special education;
REUVEN YACOV RUBINSTEIN, distinguished visiting professor of operations research;
DEBABRATA SAHA, assistant professor of engineering and applied science;

(continued on back)

BUILDING C TO BE RENAMED FUNGER HALL

Classroom Building C at 2201 G Street, NW, will now be called the Norma Lee and Morton Funger Hall in recognition of a substantial gift to the Campaign for George Washington from Mr. and Mrs. Morton Funger, President Lloyd H. Elliott has announced.

"The naming of Funger Hall recognizes not only this very generous financial support but also the long-standing dedication and friendship that Norma Lee and Morton Funger have given to this University," President Elliott said.

Both Mr. and Mrs. Funger are active in the Washington area real estate industry. Mr. Funger has been a member of the University's Board of Trustees since 1978. He is a 1953 graduate of the School of Government and Business Administration.

The Funger's gift will be used to establish a permanent endowment fund. Income from this fund will provide for maintenance and replacement needs of the Norma Lee and Morton Funger Hall and will meet the costs of any renovations that may be needed in future years.

Built in 1969, Building C contains 172,000 square feet of space. This includes 21 classrooms, two auditoriums, and a number of offices. The building houses the School of Education and Human Development and the Departments of Economics, Political Science, Statistics/Computer and Information Systems, and Speech and Hearing.

The building received the Metropolitan Washington Board of Trade's Award for Excellence in Architecture in 1969 and was the first major academic building constructed during Dr. Elliott's presidency.

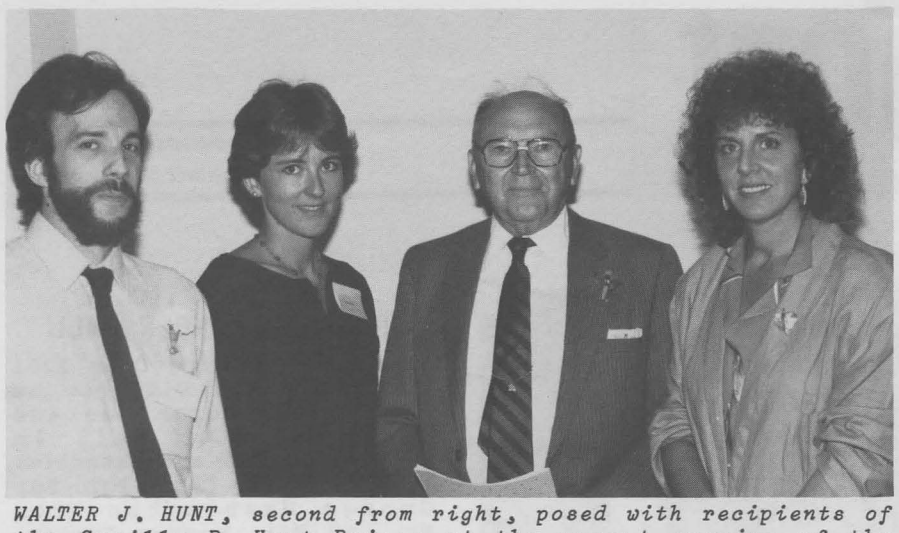
The ongoing Campaign for George Washington, with its goal of $75 million by June, 1990, has reached $24 million, as of this month. Vice President for Development Michael J. Worth comments, "Gifts such as this from the Fungers assure that an excellent academic facility will continue to be of first rate quality to serve future generations of students and faculty."

A formal dedication of the Norma Lee and Morton Funger Hall is planned for November.

DAVID A. ALTSHULER RECIEVES EMMY AWARD

David A. Altshuler, associate professor of religion in the Charles E. Smith Chair of Judaic Studies, has received an "Emmy" for outstanding programming in the annual competition sponsored by the National Academy of Arts and Sciences to select the best of American TV.

Altshuler was selected for the award because of his role as a writer on the PBS program "The Precious Legacy," which had as its subject the history and culture of Czechoslovakian Jews as seen through artifacts which survived the holocaust. The program was broadcast in 1985.



WALTER J. HUNT, second from right, posed with recipients of the Cecille R. Hunt Prizes at the recent opening of the Alumni Artists Exhibition in the Dimock Gallery. They are, l to r, John Wax, Alyson Weege and Judy Bass. (A fourth recipient, David Allison, was not present.) The exhibition will continue through October 9.

NON-MEDICAL FACULTY *(continued from front)*

SHAHRAM SARKANI, visiting assistant professor of civil engineering;
DARLENE BRANNIGAN SMITH, assistant professor of business administration;
DEBORAH SMITH COOK, assistant professor of business administration;
ROBERTA M. SPALTER-ROTH, visiting assistant professor of women's studies;
BARBARA D. STEFFEN, visiting assistant professor of travel and tourism;
LYNN A. STOUT, associate professor of law;
ALICE MARY SULLIVAN, instructor in clinical law;
DANTE A. VERME, visiting instructor in statistics;
ROGER J. VOLKEMA, visiting assistant professor of engineering administration;
HERBERT WEINGARTNER, professor of psychology and chairman, Department of Psychology;
ARTHUR EDWARD WILMARTH JR., associate professor of law;
PHILIP R. WITMER, instructor in accountancy;
FELIPE ZALDIVAR-CRUZ, visiting assistant professor of mathematics;
ALEX ZWERDLING, university professor of English.

JOSEPH J. CORDES TO SPEAK ON TAX REFORM

Professor of Economics Joseph J. Cordes, associate dean of Columbian College, will speak on "Tax Reform, the Economy and You!" at a noon luncheon sponsored by the Columbian College Alumni Association on Wednesday, October 1, in the Continental Room of the Marvin Center. Dean Cordes, who has a long-term interest in tax reform, has been a Brookings Economic Policy Fellow. He contributed to Treasury I, which laid the groundwork for the present tax bill. To make a reservation for the luncheon, call Julie Mangis at Ext. 6130.

BRIEFLY...

Gelman Photocopy Center Moves -- The Gelman Library's Photocopy Center has moved from the third floor to the lower level of the library in preparation for renovation in the periodicals area. Both the third floor Photocopy Center and the new lower level Photocopy Center will be drop-off sites for photocopying requests, although the actual work will be done on the lower level and completed requests must be picked up at the lower level location.

Health Fair Reminder -- Health Fair '86, the second annual GW health fair, will be held on Wednesday, October 1, between noon and 6 pm in the Charles E. Smith Center. Admission is free, although a GW ID is required.

Telecommunications Update -- Two more buildings will begin using the new System 85. Rice Hall is scheduled to change over on Monday, October 6, and Building AA/EE will follow on Thursday, October 9. The new phone exchange will be 994.

HARTT, MORTON JOIN ISS

John A. Hartt became the assistant director of International Student Services on August 28. He holds an M.A. in political science from the University of Wisconsin, an M.A. in counseling from the University of Maryland, and a B.A. in history from Baldwin-Wallace College. Hartt has served as international student adviser and assistant to the dean for student affairs at The Catholic University of America.

Ann Morton is the new international student adviser at International Student Services, as of September 3. She holds her Ed.S. and M.A in counselor education from the University of Florida. Prior to coming to George Washington, she was assistant conference coordinator at the National Association for Foreign Student Affairs (NAFSA) here in Washington, DC. She also served as an international student adviser at the University of Florida.

PERSONNEL NOTICE

RESEARCH ASSISTANT, full-time, The Biostatistics Center. (Person to assist statisticians with data management and analysis for medical research studies. Minimum requirements: B.A/ B.S. and SAS programming experience. Experience with IBM PC compatables, dBase III, Paradox and Crosstalk desirable.) Send resume to: Richard Raymond, GW Biostatistics Center, 7979 Old Georgetown Road, Bethesda, MD. 20814. No phone calls please.

The George Washington University is an equal opportunity/affirmative action employer.

ROBERTA SPALTER-ROTH, visiting assistant professor in women's studies, an article, "Women and the Streets: Nontraditional Employment in the Nation's Capital," in Urban Resources: Special Issue on Women in the City, Winter 1986, Volume 3, Number 2, pp. 39-44.

PROFESSIONAL ACTIVITIES

CHARLES MOSER, professor of Russian literature, participated in the Sixth International Dostoevsky Symposium, August 9-16, in Nottingham, England. He chaired one session and delivered a paper entitled, "The Brothers Karamazov as a Novel of the 1860's." He was elected to the Editorial Board of Dostoevsky Studies, the journal of the International Dostoevsky Society (IDS).

JAMES WILLIS ROBB, professor of Romance languages, presented a Fifth Colloquium on Alfonso Reyes, the Mexican essayist/poet/literary humanist and diplomat, during the annual meetings of the American Association of Teachers of Spanish and Portuguese, August 9-13, in Madrid, Spain. The colloquium, entitled, "Alfonso Reyes in Spain," focused on Reyes' close relationships to two generations of Spanish scholars and poets, including F. Garcia Lorca, the poet assassinated in the Spanish Civil War 50 years ago in August, 1936. Participating with Professor Robb were collaborators Alfonso Rangel Guerra from Mexico and Maria Teresa Babin from Puerto Rico.

IRENE THOMPSON, associate professor of Russian, had her book, How To Be a More Successful Language Learner (Boston: Heinle & Heinle, 1982), co-authored with Joan Rubin, selected by USIA to be part of its circulating exhibit of language teaching materials. The exhibit will travel to 26 different cities in Europe, Africa, Asia and Latin America in 1986-87.

DRUG EDUCATION PROGRAM -- Officers of Delta Sigma Theta Sorority Inc., l to r, Terri Johnson, vice president; Latonja Thompson, president; and Rhonda Pope, secretary, are shown beside the D.C. Drugmobile which was on campus recently as part of the sorority's "Say No to Drugs" month.

DEAN CORDES DISCUSSES NEW TAX LEGISLATION

"In the case of many middle income households, the tax reform promises reductions in total tax payments on the order of a couple of hundred dollars a year," Professor of Economics and Associate Dean of Columbian College Joseph J. Cordes told his audience in a wide-ranging speech on the new tax bill and its probable effects October 1. He spoke in the GW Club at a luncheon sponsored by the Columbian College Alumni Association.

Dean Cordes noted that the bill has been variously described as "the best tax bill in 30 years" and "possibly the most significant tax legislation since 1913." However, he said, more than one person had asked him whether the bill amounts to putting the same old wine into a different bottle. "This may also explain," he commented, "why members of the American public, as distinct from their representatives in Congress, have offered only diffident support for tax reform."

Acknowledging that while there is something to these concerns, Professor Cordes stated, "The present tax bill does represent a major departure, both in concept and outcome, from most legislation in the postwar period. The reason is that it combines, as have few past tax bills, the two objectives of lowering tax rates with that of broadening the base of the income tax. Both types of changes have been made in the past but often in a piecemeal fashion. This bill represents a very conscious and explicit trade-off between a host of deductions that narrowed the base of the income tax and a substantial reduction in the tax rates that are levied on that base."

As to why the restructuring of the tax system has been successfully effected at this time, Professor Cordes said he believes it is "the outcome of a unique confluence of agendas": that of a group of liberal tax reformers who want to broaden the tax base; that of the supply siders who want to cut tax rates; the shift to the right in fiscal politics which makes it unthinkable to simply broaden the base without lowering rates; and the existence of the budget deficit which precludes cutting rates without broadening the base.

Dean Cordes gave an analysis of probable effects on households, first pointing out that the new legislation will remove some six million families from the tax rolls entirely. He presented two cases, the first, a one-earner family with two children and taxable income of $26,630 and, the second, a two-earner family with two children and a taxable income of $64,730.

He discussed choices a family might make such as the level of work effort; how a household chooses to be paid, whether in cash or fringe benefits; the size of charitable contributions; and decisions on savings. He

COMPTROLLER NARAMORE PRAISED AT RETIREMENT

"Fred has served the University well as the comptroller for the last 18 years," said Provost William D. Johnson at the September 26 reception he hosted along with the staff of the Comptroller's Office on the occasion of Comptroller Frederick J. Naramore Jr.'s retirement.

Comptroller Naramore, left, with Provost Johnson

"Both the Office of the Comptroller and the University are stronger," he continued, "and Fred can take a lot of pride in his contribution to that achievement." Addressing Mrs. Naramore, the provost said, "Elaine, you too have served the University well with so very many hours of work and effort that you have given both to the Hospital Women's Board and to the Faculty Women's Club. All if us wish for both of you a very happy, pleasant, satisfying, relaxing retirement."

Provost Johnson presented the comptroller a small gift box with the remark, "Appearances can be very, very deceiving." The box contained a double picture frame with photos of the two styles of the black and gold GW chairs so that Mr. Naramore can make his selection.

In expressing his thanks, Comptroller Naramore said he has "genuinely good feelings about working with the University, President Elliott, Bill Johnson, Chuck Diehl and others over the years." He commented, "I guess if people came back, after years away, they would be impressed with the physical growth of the University and that's important. I was thinking this morning that perhaps more important has been the growth of the University's academic program, the faculty and the student body. In 18 years, I've seen GW get a reputation across the country and in certain parts of the world."

Present at the reception were many past and present associates of the comptroller, including former Vice President and Treasurer Henry W. Herzog with Mrs. Herzog; William Warshauer, a senior partner of Price Waterhouse; and Robert Watson, the former internal auditor of the University. Mr. Naramore's official last day was Tuesday, September 30. He and Mrs. Naramore will be living down on the Eastern Shore of Virginia, where they have moved in the past year.

CHINESE OFFICIAL IS SPECIAL GUEST AT GW CLUB EVENT

CONVERSATION -- l to r, Professor of Economics Charles T. Stewart Jr., Mr. Li Weitong, Educational Counselor, Embassy of the People's Republic of China, and Associate Professor of Economics Richard Yi-chang Yin, are shown at the September 24 tea at the GW Club.

Li Weitong, educational counselor of the Embassy of the People's Republic of China, was the special guest at the September 24 tea at the GW Club.

He was introduced for informal remarks by David Pryor of the GW Club Committee. Counselor Li, speaking through an interpreter, said, in part, "GW is a university with a high reputation in the United States. We are indeed pleased to make friends with faculty and club members here. The university has a lot of contacts with Chinese colleges and universities. We have a lot of Chinese students here doing research and studying in this university. Many of the professors here have made large contributions to Chinese education and they are still making a contribution.

"Our students here have been well taken care of. Thanks to you for your kind concern for them. I'm sure the distant cooperation between this university and the Chinese universities will develop further."

FILBY TO OFFER ADVICE TO BOOK COLLECTORS

P. William Filby, librarian and author, will speak on "Life Under the Golden Bough: Working with Sir James Frazer," Wednesday, October 8 at 4 pm in Room 202 of the Gelman Library. The event is sponsored by the Friends of the University Libraries.

Filby, who spent several years working with author and cultural anthropologist Sir James Frazer, has a long record of accomplishment as a librarian and consultant. He began his career as a rare book librarian at Cambridge University's Science Library. He later served as a captain in the British Intelligence Corps at Bletchley where Hitler's Code ULTRA was broken.

He has authored works on the printing history of "The Star Spangled Banner," the history of calligraphy and handwriting in America and numerous genealogical and bibliographical publications.

Filby will discuss opportunities for individuals interested in book collecting. This is the second in a series of lectures which may be of interest to GW students as they form collections for entry in the 1987 Student Book Collectors' Contest, sponsored by the Friends of the University Libraries. Admission is free. The entire GW community is invited.

MIRIAM'S KITCHEN BIRTHDAY CELEBRATION

A week-long birthday celebration will be held on the George Washington University campus in observance of the third anniversary of Miriam's Kitchen, a Foggy Bottom community project that provides breakfast each morning to 130 homeless people.

Sponsored by GW and the Miriam's Volunteer Network, the celebration will run from today, Monday, October 6, through Friday, October 10, and will include events and exhibits designed to encourage assistance from the GW/Foggy Bottom community.

Representatives from several metropolitan area hunger prevention and social service organizations will be on hand each afternoon at 12:30 pm in the Gelman Library quad (or in the basement of the Marvin Center if the weather is inclement) to discuss current efforts now underway to help DC's homeless and less fortunate.

The week's celebration will culminate in a fund-raising birthday party on Thursday, October 9, at 7:30 pm in the Marvin Center. Admission is $1 or two cans of food.

Founded in October, 1983 and operating solely on donations, Miriam's Kitchen is located in the basement of the Western Presbyterian Church, 19th and H Streets, NW. The kitchen is staffed by volunteers from GW, area churches and the Foggy Bottom community.

NEW TAX LEGISLATION

(continued from front)

said the changes in decisions would probably be more marked in the second family under the new law. Comparing the tax situations of both families between 1985 and the new law fully phased in, Dr. Cordes said the really important factor will be the marginal tax rates or the tax rate on an incremental dollar.

Speaking of possible effects on businesses, Professor Cordes said the depreciation laws have led to all kinds of unevenesses and that decisions based on reasons of economics alone, rather than on reasons of economics and taxes, should have a favorable long-term effect on the nation's economy. He predicted that there will be a better allocation of the nation's resources to savings activities in the future and commented, "When you're taking what you have and using it effectively, that's really having more of it." Another kind of change is that the coming system creates less incentive for people to borrow, he said, and there will probably be a reduced reliance on debts.

"It may be difficult in the next five or 10 years to get any increase in the income tax," he stated. He noted that the closing of "loopholes" has mostly been done, that the character of the federal system may change, and that it is going to be very difficult to use the tax system as a major instrument of social change.

In answer to a question about the possible impact of the new law on the United States' world trade position, Professor Cordes said the answer will largely depend on how American industry ultimately adjusts.

Dean Cordes said his opinion is that the new bill comes close to the significance of the bill of 1913.

GW

MICROFORM PHOTOCOPYING AVAILABLE AT GELMAN

The Gelman Library Photocopy Center now offers an overnight microfilm and microfiche photocopying service. The Photocopy Center, which is temporarily located on the lower level, now copies articles from microfilm and microfiche for seven cents a page with no minimum order requirement.

To make a request, submit a completed microform request form to the Photocopy Center. Late in the evening, library staff will retrieve and copy the microform so that you can pick up your copies the following day.

Monday through Thursday, copies requested by 10 pm will be available by 10 am on the following day; Friday and Saturday, copies requested by 6 pm will be available by 1 pm the following day. On Sunday, for requests submitted by 6 pm, copies will be available by 10 am on Monday.

Payment options include cash, check (with University I.D.), I.P.'s, and faculty personnel, departmental or grant accounts.

Self-service copiers remain available in the Media Resources Department, where the cost per copy varies according to the value of the copy card used.

FREEDOMS FOUNDATION AWARD WINNERS William E. Halal, right, professor of management science, and George T. Solomon, professorial lecturer in management science, display the George Washington Honor Medals received for "their constructive words and deeds which strengthen an understanding of freedom" in the area of economic education. The awards were presented in a ceremony at the United States Capitol, September 18.

GW TO OFFER EXECUTIVE DEVELOPMENT SEMINARS

A comprehensive series of Executive Development Seminars designed for high-level managers preparing to move into top management will be held this fall by the School of Government and Business Administration.

MCI's William McGowan and Harold Paretti, president, Presidential Airways, will be among seven featured guest speakers participating in the seminars.

The seven one-day seminars will be held in GW's Marvin Center on Thursdays, October 23 and 30; November 6,13 and 20; and December 4 and 11. Enrollment is limited to 25. Registration will be for all seven sessions.

The seminars will emphasize the need for awareness of strategic issues affecting such areas as finance, international business, marketing, human resources and business/government relations.

To register, or to obtain more information, contact Edward F. Krieg, Executive in Residence, Ext. 6302.

BRIEFLY...

***GW Club Breakfast Speaker --** Aryamehr Professor of Multinational Management Phillip D. Grub will speak at an October 8 breakfast at the GW Club. His topic will be the Chinese experience. The buffet will open at 8 am. For reservations, call Ext. 6610.

***GW Report Deadline --** Monday is the day for receiving GW Report information to be used in the following issue. In sending us material, be sure to give a name and phone number in case we have questions. We are in Gelman Library 705. Please continue to let us hear from you.

***Life Insurance Memo --** Those employees who signed an "Absolute Assignment" under the Group Life Insurance Plan with Lincoln National, need to complete another form for TIAA. If you have signed, or wish to sign an absolute assignment, please contact Records and Benefits immediately, Ext. 4474.

***Young Alumni Club Evening at the Ballet --** The Young Alumni Club of the General Alumni Association is sponsoring an evening with the Washington Ballet, Friday, October 17, at 8 pm in Lisner Auditorium. The Washington Ballet will perform "La Fille Mal Gardee" and "Time Before the Time After the Time Before." At 6:30 pm, the Young Alumni Club will host a reception in the Alumni House Lounge, 714 21st Street. Call Ext. 6435 for reservations. The deadline is October 8.

PATRICK STEWART OF ROYAL SHAKESPEARE COMPANY HERE

Actor Patrick Stewart of the Royal Shakespeare Company will appear at the University Wednesday, October 8, in "Shylock and Other Strangers," highlights from his most recent leading roles in Hamlet, Antony and Cleopatra, The Merchant of Venice, and Henry IV, Parts One and Two. His appearance is sponsored by the Department of English and the Department of Communication and Theatre. The presentation will be at 8 pm in Marvin Center, Room 414. Admission is free.

GRANT OPPORTUNITIES, DEPARTMENT OF EDUCATION

The Department of Education is inviting applications for new awards under the Secretary's Discretionary Program for Mathematics, Science, Computer Learning and Critical Foreign Languages. The program makes grants for nationally significant projects designed to improve the quality of teaching and instruction in math and science. Awards will range from $50,000 to $100,000 for a project period of 12 months. Application deadline is Monday, November 17. For a local contact person, call Helen Spencer, Office of Sponsored Research, Ext. 6255.

NEWSNOTES

PROFESSIONAL ACTIVITIES

CHARLENE BICKFORD, director of the First Federal Congress Project, recently spoke to a group of elementary and middle school teachers who were taking part in a three-week summer program on teaching the Constitution, co-sponsored by Catholic University and the National Endowment for the Humanities. The session was held at the project's office and focused on the First Congress's role in implementing the Constitution and using historical documents as teaching tools.

JOHN EFTIS, professor of engineering and applied science, was the recipient of an ASEE-NAVY Summer Faculty Research Fellowship for the summer of 1986 at the Naval Research Laboratory, Washington, DC, for research on the fracture of structural materials. He presented an invited paper entitled, "Developments in Viscoplastic Constitutive Theory with Implications for Fracture Mechanics," at the 23rd annual meeting of the Society of Engineering Science, August 25-27, at SUNY, Buffalo.

AMITAI ETZIONI, university professor, delivered a paper entitled, "Emergent Properties: Institutions and Value vs. Aggregated Rationalism," at the 1986 annual meeting of the American Political Science Association on August 28, in Washington, DC. On August 31, he presented a paper entitled, "Social and Political Power as Non-Reducible Attributes," at the 1986 annual meeting of the American Sociological Association in New York. On September 1, he spoke on "Welfare and the Reagan Administration," at the annual meeting of the Society for the Study of Sociological Practice in New York. At the same meeting he was awarded a "Sociological Practice Certificate of Recognition."

DONALD R. LEHMAN, professor of physics, served as vice-chairman of the 1986 Gordon Conference on Photonuclear Reaction which was held, August 3-8, at the Holderness School in Plymouth, New Hampshire. He presented two invited talks in Japan: at the International Workshop on Few-Body Approaches to Nuclear Reactions, August 22-24, in Tokyo; and at the Eleventh International IUPAP Conference on Few-Body Systems in Particle and Nuclear Physics, August 24-30, in Tokyo and Sendai.

NADINE NATOV, professor of Russian literature, chaired a session and delivered a paper entitled, "The Ethical and Structural Significance of the Three Temptations in The Brothers Karamazov," at the Sixth International Dostoevsky Symposium, August 9-16, in Nottingham, England. In her capacity as Executive Secretary of the IDS, she participated in the meetings of the Executive Council of the Society. She was re-elected IDS Executive Secretary and to the Editorial Board of Dostoevsky Studies. She was also elected to the Program Committee for the next International Symposium which will take place in July, 1989, in Yugoslavia.

JOHN ZIOLKOWSKI, associate professor of classics, gave a lecture/ tour on the classical influence on DC public architecture to Fairfax County Latin teachers, August 27, as a practicum for high school teachers to give them ideas on how to incorporate this subject in their curriculum.

KOREAN CONGRESSMAN Han-Yul Yoo, right, a member of the National Assembly, Seoul, Korea, and president of the Peoples' Democratic Party, spoke on "Education in Korea: Historical Perspectives and Current Developments and Reforms," September 23, as part of SEHD's International Education Program. He is shown with his wife, Kim Joon Sook, center, and Dorothy Moore, professor of education.

RALPH J. OLMO APPOINTED UNIVERSITY COMPTROLLER

Ralph J. Olmo, comptroller for the U.S. Department of Education from 1981 until this year, has been appointed comptroller of The George Washington University. The appointment becomes effective today, Monday, October 13. Olmo succeeds Frederick J. Naramore Jr., who retired September 30.

Ralph J. Olmo

In announcing the appointment, Provost William D. Johnson said, "Ralph Olmo brings a distinguished record in higher education finance, management, and policy to the Office of Comptroller. We welcome him to GW with enthusiasm and high expectations."

As comptroller at the Department of Education, Olmo was chief financial officer for the department, and was responsible for the disbursement of the department's appropriations, the collection of its receivables, and the allocation and administration of the department's management budget including personnel and benefits, travel, contracts, equipment and training.

A certified public accountant, Olmo is a graduate of California State University at Long Beach with a bachelor of arts in economics. He has taught business courses at three California colleges and worked as an auditor and accountant with Kenneth Leventhal & Co., a CPA firm in Newport Beach, California. Olmo worked for a year (1975-1976) as municipal auditor in Long Beach, California, and then became supervising general auditor for the Utah System of Higher Education, a post he held for four years. In 1980-1981, he was associate executive director of the Guaranteed Student Loan Program in Salt Lake City, Utah.

He was appointed comptroller of the Department of Education in 1981. During his six-year term, he twice served as acting deputy undersecretary for management, for three months in 1982, and six months in 1984. He received an award for Distinction in Cash Management from the Department of the Treasury in 1984.

His responsibilities as comptroller included representing the department in negotiations with unions and major contractors; drafting and reviewing federal regulations; chairing public hearings with the higher education community; acting as spokesperson to the media on many occasions; and serving as a close advisor to the Secretary of Education and other top administration officials. He served on councils and boards, both within and outside the department, among them: the President's Council on Management Improvement; the President's Cabinet Council on Management and Administration, Working Group on Real Property; Federal Procurement Council; and the Government-wide Personnel Policy Group.

A member of the Association of Government Accountants and the American Institute of Certified Public Accountants, he has written articles for publications and professional journals on a variety of subjects including real estate finance, psychology and chess. He worked for a year as a sportswriter and sportscaster in Long Beach and was for two years a missionary for the Mormon Church. Married and the father of five children, he is active in the Parent Teachers Association (PTA) and children's sports programs.

OCTOBER 16 WORLD FOOD DAY TELECONFERENCE AT GWTV

The third annual World Food Day Teleconference on Thursday, October 16, will originate at the University's television station, GWTV.

The teleconference will feature presentations by international experts, programs at 300 revceiving sites and a live call-in. The event is sponsored by the National Committee for World Food Day, an agency of the Food and Agriculture Organization (FAO) of the United Nations.

There will be four panelists and a moderator. The panelists are: Her Excellency Cecilia Lopez de Rodriguez, Ambassador of Colombia to the Netherlands; Dr. Muhammad Yunus, managing director of the Grameen (Rural) Bank in Dhaka, Bangladesh; Dr. Patricia Barnes-McConnell, director of the Michigan State University Bean/Cowpea Collaborative Research Support Program (CRSP); and the Honorable Barber Conable, president of the World Bank. Moderator will be John Scali, ABC News senior correspondent and former U.S. Ambassador to the United Nations.

The 1986 teleconference will focus on the dilemma of hunger amidst plenty. The panelists will share contrasting views on the relationship between policy and practice in aid, trade and long-term agricultural development.

The program will be broadcast live on satellite Westar 4 from noon to 3 pm Eastern Time. The panel discussion is scheduled for the first hour. The second hour has been set aside for town meetings at the 300 receiving sites. The hour from 2 to 3 pm is reserved for the live call-ins with questions for the panelists.

For more information, call Ext. 8233.

LECTURE ON RATIFICATION DEBATES ON THE CONSTITUTION

Norman A. Graebner, professor emeritus, former Compton Professor of History and Public Affairs, the University of Virginia, will lecture on "America and the World: The Ratification Debates on the Constitution, 1788," Tuesday, October 14 at 2 pm in Room 403 of the Marvin Center.

Professor Graebner's talk will deal with the debates in the state assemblies over the ratification of the Constitution as the discussions pertained to the role of the United States in foreign affairs. A question and answer period will follow. Admission is free. For further information call Ext. 5740.

The event is sponsored by the Foreign Service History Center and the School of Public and International Affairs.

GW ART FACULTY COLLECTORS IN DIMOCK GALLERY EXHIBITION

Works from the private collections of members of the Art Department will be on exhibition in the Dimock Gallery from Thursday, October 16, through Friday, November 7. The members of GW's fine arts and art history faculty have principally collected works of European and American artists of the past and present.

There will be nearly 30 works shown in this one-time exhibition of professors' choices. Included will be the works of such world-renounced artists as Edouard Manet, Pablo Picasso, Giorgio de Chirico, Edgar Degas and William Hogarth. Enthusiasts for the more contemporary will enjoy the playfulness of Pedro Friedeberg's "Hand and Foot Chair" and works showing the skill of Raphael Boyer.

Gallery hours are Tuesday through Saturday, 10 a.m. to 5 p.m. The gallery is closed to the public on Mondays.

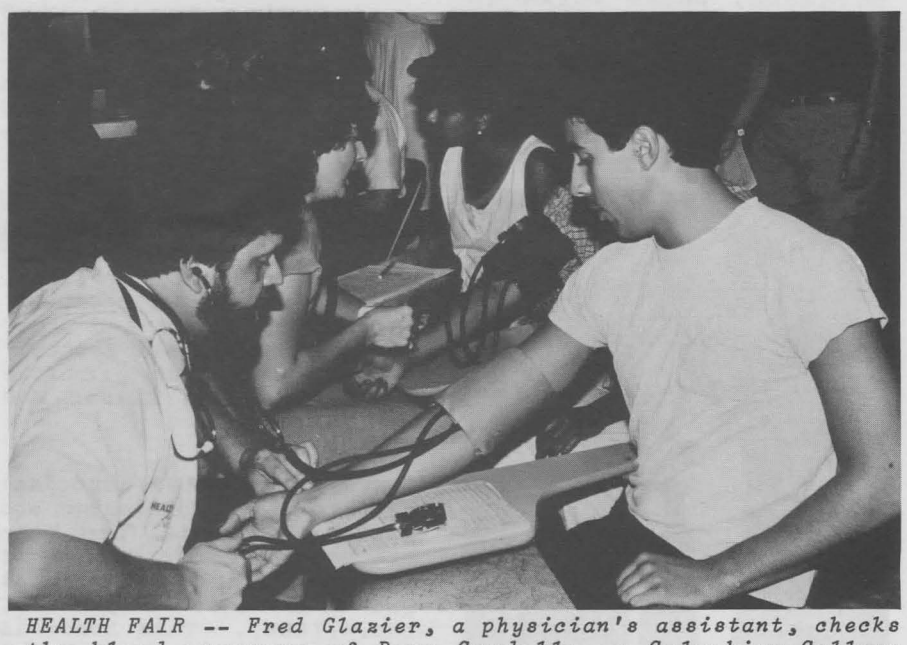
CARNEGIE ENDOWMENT FOR INTERNATIONAL PEACE COLLECTION EXHIBITION IN GELMAN

The Friends of the Libraries of the University invite faculty, staff and graduate students to attend a reception on Tuesday, October 14, to mark the opening of the exhibition "Creating International Research Opportunities at Gelman Library: Carnegie Endowment for International Peace Collection." The reception will take place in the library's Department of Special Collections, Room 207, from 4 to 6 pm.

Charles Herber, associate professor of European history, and Jean Preer, adjunct associate professor of American civilization, will outline the Carnegie Collection's wide range of research opportunities. Opportunities exist in the fields of sociology, history, education, women's studies and international relations. Connie K. McCarthy, assistant university librarian for collections, will give a short history of the Carnegie grant from the U.S. Department of Education and an overview of the exhibit.

The Department of Education grant had made access to the collection a reality -- the material is now a part of the OCLC (Online Computer Library Center) data base and the Gelman Library automated catalogue. Fragile materials too brittle to use, are being converted to preservation microfilm to ensure their availability to scholars.

Sharon J. Rogers, university librarian, will discuss the Carnegie Grant and the Foreign Service History Center as examples of the Gelman Library's response to the spirit of the Commission for the Year 2000. The remarks, all brief, will begin at 4:30 pm. The exhibit will continue through Friday, December 5. For more information, call Andrea Stewart, Ext. 6455.



HEALTH FAIR -- Fred Glazier, a physician's assistant, checks the blood pressure of Dean Cardulla, a Columbian College senior. The October 1 event drew more than 700 people who took advantage of the free health screenings and active learning centers.

GW UNIVERSITY THEATRE PRESENTS "ANYTHING GOES"

The GW University Theatre will present Cole Porter's "Anything Goes," Thursday, October 16, through Sunday, October 19, in the Marvin Theatre. On October 16, 17 and 18 performances will be at 8 pm. On October 19, a 2 pm matinee is scheduled. Tickets are $6 for general admission and $3 for students and senior citizens. For reservations and ticket information, call Ext. 6178.

GW OLYMPICS THIS WEEKEND

The GW Olympic events, sponsored and run by the GW Student Association, are scheduled for Saturday and Sunday, October 18 and 19.

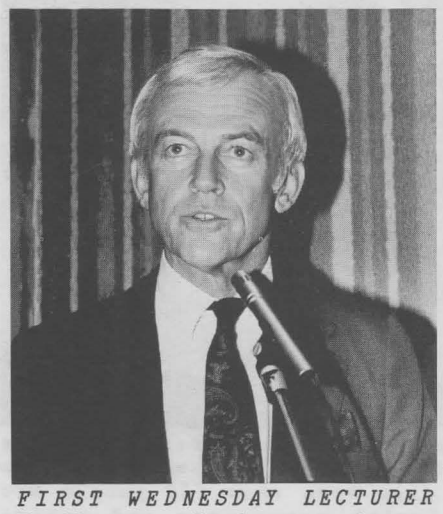
The olympics will include such events as tug-of-war, relay races, an obstacle course and a spelling bee. Open to all GW students, the olympic competitions will be between teams of eight. Events will take place all over campus. The spelling bee will be in the Marvin Center. Participants must sign up by 5 pm, Thursday, October 16, in Marvin Center, Room 424. For more information, call Ext. 7100.

BRIEFLY...

***Colloquium on Laser Spectroscopy --** The Department of Physics and the Division of Physics of the National Science Foundation is sponsoring a joint colloquium on "Laser Spectroscopy" featuring Arthur L. Schawlow, J.G. Jackson-C.J. Wood Professor of Physics at Stanford University. The event is scheduled for Thursday, October 16, at 1:30 pm in Room 405 of the Marvin Center. Admission is free.

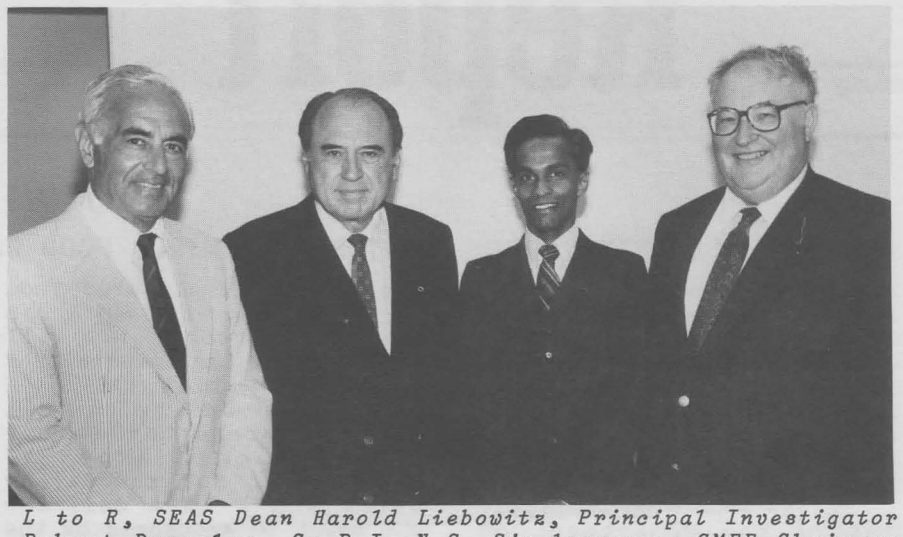
***Quit Smoking Clinic --** The Wellness Resource Center and the American Cancer Society are sponsoring a free quit smoking clinic October 20, 22, 24, 27 and 29. The five-session workshop (MWF-MW) will be held from noon to 1 pm in Room 405 of the Marvin Center. To pre-register, call Ext. 6927.

***Seminar on Feminism and Economic Thinking --** The Women's Studies Program and the Department of Economics are sponsoring a seminar on "Feminism and Economic Thinking: Beyond Benign Choice," Tuesday, October 14, at 12:30 pm, in Room 415 of the Marvin Center. The seminar features economists Heidi Hartmann and Barbara Bergmann, whose works in economic theory challenge traditional neo-classical accounts of women's role in the economy. Admission is free. For more information, call Ext. 6942 or 6150.



FIRST WEDNESDAY LECTURER L. Thompson Bowles, professor of surgery, answered a wide range of questions following his October 1 lecture on "Myths in Maintaining Health."

SEAS RECEIVES GRANT FOR EXPERIMENT IN SPACE SHUTTLE



L to R, SEAS Dean Harold Liebowitz, Principal Investigator Robert Dressler, Co-P.I. N.S. Sivakumaran, CMEE Chairman Raymond Fox.

The School of Engineering and Applied Science has received a grant from NASA to design and build an experiment for the Space Shuttle. This is GW's first grant for a space experiment. The purpose will be to reduce surface-tension-driven convection in semiconductor crystal growth.

As currently made on earth, molten silicon recrystallizes with high liquid velocities, which spoil crystal quality. The thermal component of velocity will be eliminated in zero-gravity in space, but the surface-tension component of velocity unfortunately remains. The idea of Principal Investigator Dressler to use jets of inert gas to reduce this velocity has already been proved feasible in his work with Co-Principal Investigator Sivakumaran in a GW laboratory experiment for NASA. Suppression of velocity will be essential for future commercial utilization of space. This will produce superior silicon crystals, resulting in greatly improved transistors.

Dressler came to George Washington in 1983. His previous posts have included that of professor of mechanical engineering at City University of New York; Chief of the Mathematical Physics Division of the National Bureau of Standards; and visiting professor at the Universities of Munich, West Berlin and Aachen. Sivakumaran earned his doctorate at the Asian Institute of Technology, Bangkok, and taught at the University of Sri Lanka.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JAMES R. BARTH, professor of economics, was one of 20 participants invited to a symposium, sponsored by the Cato Institute on September 12, to discuss the government's role in protecting the financial assets held by U.S. citizens. The participants came from universities and research institutes throughout the country, including the Brookings Institution, American Enterprise Institute, and Heritage Foundation.

JAMES FOLEY, professor of engineering and applied science, and **JOHN SIBERT**, associate professor of engineering and applied science, taught a full-day tutorial course entitled, "How to Design User-Computer Interfaces," at the SIGGRAPH (ACM Special Interest Group for Computer Graphics) Conference, August 18-22, in Dallas, Texas. Professor Foley also taught a portion of an introductory computer graphics course. Professor Sibert gave a paper entitled, "An Object-Oriented User Interface Management System," co-authored with graduate students **Teresa Bleser** and **David Hurley**.

LANCE J. HOFFMAN, associate professor of engineering and applied science, has been elected a Senior Member of the Institute of Electrical and Electronics Engineers, Inc. (IEEE). This honor is the highest professional grade for which application may be made and requires experience reflecting professional maturity. It is estimated that 10 percent of IEEE's 275,000 members have been elected to this grade.

EUGENE W. KELLY, JR., professor of education, was recently elected Vice Chairperson of the Trustees Council of the YMCA of Metropolitan Washington. He will also continue to serve as a member of the Metropolitan Washington Y's Research and Development Committee.

RICHARD LONGSTRETH, associate professor of architectural history, was elected to the board of directors of the Vernacular Architecture Forum at its annual meeting in May, in Kingston, New York. During the month of May, he gave the commencement address at the College of Architecture and Design, Kansas State University, Manhattan. During June and July, he worked with the National Main Street Center's pilot Urban Demonstration Program studying patterns of commercial development in more than 20 cities in the South, Southwest, West and Central United States.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, has been re-elected vice president of the Institute of Electrical and Electronic Engineers' Communications Society. The society, with almost 30,000 members worldwide, is the major technical society in the field of telecommunications.

INTERVIEW

CHRISTOPHER J. DEERING, associate professor of political science, was interviewed by Jim Bohannon of the Mutual Radio Network, September 10, regarding the outcomes of the September 9 election primaries in nine states and the District of Columbia.

MALARO IS NEW DIRECTOR OF MUSEUM STUDIES PROGRAM

Marie C. Malaro is the new director of the Graduate Program in Museum Studies. An attorney, her areas of expertise are non-profit governance and legal issues relating to museum management. Mrs. Malaro is the author of A Legal Primer On Managing Museum Collections. Prior to coming to the University, she was Associate General Counsel of the Smithsonian Institution.

PARENT'S DAY IS OCTOBER 18

Members of the faculty and administrative staff are especially invited to attend the President's reception which has been planned as part of Parent's Day, Saturday, October 18. The reception will provide an opportunity for parents and students to visit with faculty members and administrators. The 4 to 5:30 pm event will be held in Market Square, Marvin Center, first floor. President Lloyd H. Elliott will speak briefly. Those who plan to attend are asked to call the Student Activities Office, Ext. 6455.

PROCUREMENT SUBSTANTIATION REQUIREMENTS MEMORANDUM

A memorandum on procurement substantiation requirements is currently being sent by Vice President and Treasurer Charles E. Diehl to all deans, department chairmen, department heads and officers.

The memorandum points out that because the University participates in federally sponsored grant and contract programs, there is a requirement to implement certain policies in regard to procurement. Attached to Vice President Diehl's communication is a statement which indicates those procurement factors which must receive specific attention in order to comply with federally mandated requirements.

The cooperation and assistance of those concerned with compliance will be greatly appreciated by the Office of the Vice President and Treasurer.

PERSONNEL NOTICE

RESEARCH ASSISTANT, half-time, Center for Family Research. (Person to assist with ongoing research on chronic physical illness or disability in family life. Applicants should have a minimum of an undergraduate degree in a social science or a health related field. Responsibilities include assisting in the recruitment phase of the program, interviewing potential research subjects in their homes, and data collection, coding and processing. Applicant should have own car and should have some evening and weekend hours available for home interviews.) Resumes to Dr. Peter Steinglass. CFR, Ross Hall, Room 613.

The George Washington University is an equal opportunity/affirmative action employer.

GW AND AMI DISCONTINUE TALKS ON HOSPITAL LEASE

The George Washington University and American Medical International have decided to discontinue further discussions concerning a possible lease of GW Hospital. Both organizations have concluded that their missions and interests would not be served by a joint-venture at this time.

American Medical International and other investor-owned hospital organizations have been re-evaluating their strategic plans in a variety of ways because of new realities in the health care environment. "Due to reshaping and consolidation at AMI--as a result of dramatic changes in the health care environment--it is not prudent at this time for AMI to consider a major investment in an academic medical center, even one as outstanding as George Washington," said Walter Weisman, president and CEO of American Medical International.

"The health care delivery environment nationwide has undergone continuous, rapid, and dramatic change in the past one-and-a-half to two years. As a consequence, concepts and plans which appeared sound at the time discussions were begun with AMI do not hold as much promise as previously projected," said Dr. Ronald P. Kaufman, vice president for medical affairs and executive dean of The George Washington University Medical Center.

During the coming months, Medical Center and University officials will be developing alternative approaches for long-term strategic planning.

JEWISH COMMUNITY COUNCIL ARCHIVES PRESENTED TO GW

PRESENTATION -- l to r, University Librarian Sharon J. Rogers, Jewish Community Council President Norman Goldstein, President Lloyd H. Elliott.

On October 8, in the Office of the President, the Jewish Community Council of Greater Washington presented to The George Washington University its complete archives. The papers, which will be supplemented by regular additions in the future, are now being arranged and processed by an archivist. They will be available next year for research use in the Department of Special Collections in Gelman Library.

Making the presentation to President Lloyd H. Elliott was Norman Goldstein, president of the Jewish Community Council of Greater Washington. Participants in the ceremony included Sharon J. Rogers, university librarian; Dr. Sidney H. Schwarz, executive director, Jewish Community Council of Greater Washington; David Altshuler, associate professor of religion in the Charles E. Smith Chair of Judaic Studies; and William B. Keller, head, Department of Special Collections.

The Jewish Community Council is the coordinating agency and representative body of the organized Jewish community of metropolitan Washington. Founded in 1938 in the wake of the influx of European Jewish refugees to this area, the council has acted for nearly 50 years as the initiating and coordinating agency for community-wide projects, as mediator for intra-community disputes, and as the promoter of the social, cultural, economic, philanthropic and spiritual life of the Jewish community. The council seeks to safeguard the rights of the Jewish community while promoting mutual understanding between Jews and the various non-Jewish communities of greater Washington.

The council archives reflect the activities of the organization from its beginning in 1938 to the early 1980s. The records document such issues and subject areas as Jewish-Christian relations, race relations, discrimination, the 1968 riots in Washington, prayer in the public schools, drugs, Jewish education, hunger, Soviet Jewry, Israel and the Middle East, and the holocaust.

Special Collections Head Keller notes that the archives of the Jewish Community Council will be used by scholars engaged in the study of Washington, DC, an area receiving increased emphasis in the Department of Special Collections. The archives will also provide direct support to the University's Judaic Studies Program, he states.

RICHARD H. SCHLAGEL IS ELTON PROFESSOR OF PHILOSOPHY

Richard H. Schlagel, who came to the University in 1956 as assistant professor of philosophy, was named Elton Professor of Philosophy, effective in July.

Born in Springfield, Massachusetts, he is a 1949 cum laude graduate of Springfield College. He received his graduate degrees in the field of philosophy from Boston University, his M.A. in 1952 and his Ph.D. in 1955. At Boston University, he was a Borden Parker Bowne Fellow. Before coming to George Washington, he taught at the College of Wooster and at Clark University. Here at the University, he attained the rank of full professor in 1968. He has served three times as chairman of the Department of Philosophy.

Professor Schlagel has traveled extensively. He is a member of the American Philosophical Association, Eastern Division; the American Association of University Professors; and the Washington Philosophy Club, which he served as president in 1965-1966. He is listed in the Directory of American Scholars, Marquis - Who's Who, Inc., Who's Who in American Education and Who's Who in America.

His book, Contextual Realism: A Meta-physical Framework for Modern Science, has recently been published by Paragon House Publishers, New York. He is also the author of From Myth to the Modern Mind: A Study of the Origins and Growth of Scientific Thought, Vol. 1, Animism to Archimedes, Peter Lange Publishers, Berne, 1985.

He is a prolific writer of reviews and articles, particularly articles on perception and phenomenology. His work has appeared in such scholarly journals as The Philosophical Forum; The Journal of Philosophy; Philosophy and Phenomenological Research; American Scientist; Review of Metaphysics; American Philosophical Quarterly; The Wilson Quarterly; and The British Journal for the Philosophy of Science.

RED CROSS BLOOD DRIVE IS OCTOBER 29 AND 30

The University will be assisting the American Red Cross with the biannual campus blood drive on Wednesday and Thursday, October 29 and 30, between 11 am and 5 pm.

In a letter to the University community, President Lloyd H. Elliott states that the need for blood in the Washington metropolitan area is greater this year than ever before. He urges each of us "to take this opportunity to make a truly individual contribution by participating in the blood drive."

An appointment system will be in effect both days to keep processing time for donors to about one hour. Appointments will be necessary. Donors can schedule a time by calling the Student Activities Office at Ext. 6555. Questions concerning donor eligibility should be directed to Alice Tyler of the Red Cross Nursing Office at 728-6520.

HEALTH CARE COVERAGE INFORMATION MEETINGS

All eligible University employees will have the opportunity to make changes in their current health care coverage or to enroll in any of the plans offered between now and Friday, November 14.

Information meetings will be held Monday, October 20, from 1 to 4 pm in Marvin Center, Room 410; and Wednesday, October 22, from 8 am to 12 noon in Marvin Center, Room 406. Coverage selected during this open enrollment period will become effective January 1, 1987.

Representatives from all of the University's health plans will be present at the meetings to answer questions about the different types of available plans. A comparison chart of the major benefit features will also be available.

All changes in coverage must be submitted to the Records and Benefits Office by November 14. For more information, call the Records and Benefits Office, Ext. 4480.

WORKS OF LAURIE TRATENSEK TO BE SHOWN IN COLONNADE

"Laurie Tratensek: A Memorial Exhibition" is the title of the Colonnade Gallery's October 22 to November 30 exhibit. The collection of 52 works, mostly watercolors and drawings, can be seen daily between the hours of 10 am and 7 pm.

Laurie Tratensek (1943-1984) was born in Richmond, Virginia, and spent her childhood in Washington, DC, and St. Louis, Missouri. She received her Bachelor of Fine Arts from the University of Colorado in 1965. In May of 1984, she completed her second semester at The George Washington University and intended to continue her studies as a Master of Fine Arts candidate. She died in August, 1984.

She lived in many parts of the United States as well as in Germany before settling in Alexandria, Virginia, in 1979. At George Washington, she studied with Associate Professor of Painting William Woodward. The main subjects of her work were people, animals, landscapes and mythology.

The exhibition is sponsored by the Art Department and the Governing Board of the Marvin Center.

The entire University community is invited to a reception in conjunction with the exhibition in the Colonnade Gallery on Monday, October 27, from 5 to 7 pm.

GW TO HOST GRADUATE AND PROFESSIONAL SCHOOL FAIR

The University will host a Graduate and Professional School Fair, Tuesday, October 21, and Wednesday, October 22, from 2 to 7 pm in the Marvin Center. Over 150 representatives from universities will be available to discuss plans for graduate study.

The event is sponsored by The American University, The Catholic University of America, Gallaudet College, George Mason University, The George Washington University, Georgetown University, Hood College, Marymount University, Mount Vernon College, Trinity College and the University of Maryland.

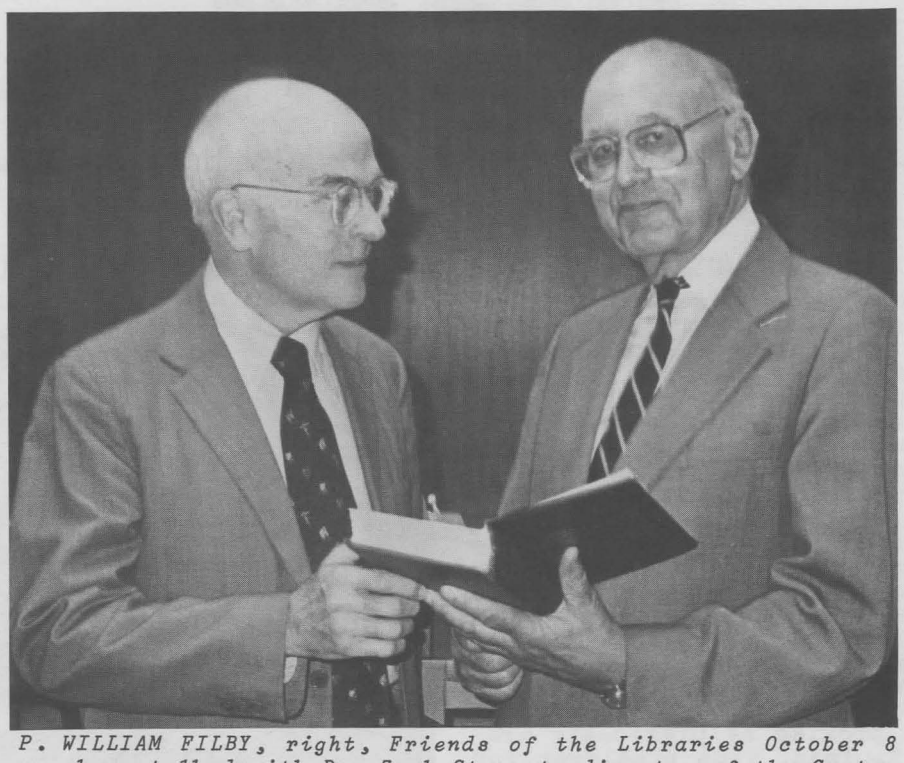
October 21 will be devoted to law schools and October 22 to graduate schools. There will be panels on how to apply, financing graduate study and careers in law. For further information, call Ext. 6217.

NATIONAL ENGINEERING ACADEMY INDUCTS HAROLD A. WHEELER

Distinguished engineer and scientist Harold A. Wheeler, who holds both earned and honorary degrees from the University, was inducted into the National Academy of Engineering in a ceremony on October 1.

In becoming a member of the National Academy of Engineering, he joins the 1,281 members of the academy whose achievements represent the engineering profession's highest standards. He was chosen for membership in the academy "for an outstanding lifetime of contributions to the analysis and fundamental understanding of radio, FM, television, microwave and antenna technologies."

Wheeler received the degree of Bachelor of Science in Engineering in 1925. The University conferred on him the honorary degree of Doctor of Science in 1972. He is now chairman emeritus and consultant to the Hazeltine Corporation in Greenlawn, New York. His contributions to science and technology extend over half a century.



P. WILLIAM FILBY, right, Friends of the Libraries October 8 speaker, talked with Dr. Zeph Stewart, director of the Center for Hellenic Studies, following Filby's lecture on his experiences working with author and cultural anthropologist Sir James Frazer. His anecdotal account pleased his audience.

READING CENTER OFFERS PROGRAM FOR GIFTED CHILDREN

Members of the University community are invited to enroll their children in the Reading Center's After School Program for Gifted Children, a nationally recognized university model, now in its tenth year. The invitation is extended to GW faculty and staff as priority participants. Since space in the program is limited, enrollment is on a first-come, first-serve basis.

During this tenth year, the After School Program is exploring the concept of "Discovery" with children ages 5 to 14. The Maya, Inca, and Aztec civilizations will provide the thematic content for study in the disciplines of reading, mathematics, and the interrelated arts: music, dance, art and drama.

A professional discount is being offered for GW faculty and staff. The program times are Tuesdays and Thursdays, 3:45 to 5:45 pm. Enrollment decisions should be made as soon as possible. For more information, call Ext. 6286.

ARTISTIC UNIVERSITY FAMILY EXHIBITION ENTRIES INVITED

The Artistic University Family, a second annual exhibition, is scheduled for the Colonnade Gallery from December 3 to January 9.

The juried exhibit is intended to display the diverse talents of University students, staff and faculty who are not currently enrolled in an art degree program. Acceptable submissions will include two and/or three dimensional fiber, clay, stone and glass objects and works of art on paper, paintings, drawings, prints and photographs.

Members of the University community are encouraged to submit works for consideration. Submission dates are mid to late November. For more information, call Ext. 7469.

BRIEFLY...

***Law Alumni Association Luncheon --** The DC Chapter of The George Washington University Law Alumni Association is sponsoring a luncheon in honor of the National Law Center faculty on Thursday, October 23. The luncheon will be held at the National Lawyers Club, 1815 H Street, NW, 3rd floor, at 12 noon. There is a fee. For reservations, call Ext. 6420.

***Laura Furman in Reading --** Novelist and short-story writer Laura Furman will read from her works on Thursday, October 23 , at 8 pm in the Academic Center, Room B-120. She is the author of several books of fiction including Watch Time Fly, The Shadow Line, story collections, and Tuxedo Park, a novel. Her stories appear frequently in the New Yorker, and she teaches creative writing at the University of Texas at Austin. The reading is part of the Jenny McKean Moore Reading Series. A reception will follow. Admission is free. For more information, call Ext. 6180.

***Health Promotion and Alcohol Awareness Week --** Today through October 24, displays and information booths will be located on the ground floor of the Marvin Center. There will also be a series of presentations throughout the week at various locations in the Marvin Center. Sponsors are Alpha Epsilon Delta, Program Board, Wellness Resource Center, Counseling Center, and the Alcohol Awareness Committee. For further information, call Ext. 6927.

***University Theatre Seeks Young Actor --** The University Theatre announces that it is seeking the service of a young actor, male, age 10 to 12, to perform in the upcoming production of Arthur Kopit's comedy, End of the World. Directors William Balling and Nathan Garner say they would prefer to have the role played by the son of a GW student, faculty or staff member. For more information, contact Nathan Garner, Ext. 6305 or 8072.

NEWSNOTES

PROFESSIONAL ACTIVITIES

NIK ALEXANDRIDIS, professor of engineering and applied science, was the co-author of the following conference papers" "Architectural Adaptations for Hierarchical Image Processing/Transmission" (with GW graduate student S.G. Ziavris and P.D. Tsanakas), for the International Conference on Communications '86, June 22-25, in Toronto, Canada; "Reconfiguration Strategies for Fault-Tolerant Array and Multiprocessor Architectures" (with P.D. Tsanakas), for the First European Workshop on Fault Diagnostics, Reliability and Related Knowledge-Based Approaches, August 31 through September 3, in Rhodes, Greece; and "On an Adaptable Pipeline Architecture with Fault Tolerance Capabilities (with P.D. Tsanakas and T. Panagiotopoulos) at the same conference in Rhodes, Greece.

WILLIAM E. CALDWELL, professor emeritus of psychology, has been selected for inclusion in the 1986 edition of Who's Who Among Human Service Professionals by the National Reference Institute. This was for significant contributions to the broad area of human service accomplishment. He received an invitation to attend The International Symposium on Electro-Biology and It's Therapeutic Applications. The symposium will be held at the Karolinska Hospital in Stockholm, Sweden. Professor Caldwell was one of the pioneers in applying the principles of electro-biology to the nervous system and behavior of lower organisms.

MARVA GUMBS, assistant director, Career Services Center, presented a lecture entitled, "Is There Life After Higher Education?" September 17, to the National Association for Women Deans, Administrators, and Counselors. On October 11, she participated in a panel discussion on "The Power of Today's New Workforce," as part of the Institute of Financial Education's 1986 Eastern Seaboard Regional Conference entitled, "The Power of Change."

OLI HAVRYLYSHYN, professor of economics, presented a paper on "Changes in Comparative Advantage and Trade Among Developing Countries" to the International Economics Study Group of the United Kingdom at Sussex University, September 5-7. The conference is held annually by invitation only and is sponsored by the U.K. Association of Economists.

SUSAN J. TOLCHIN, professor of public administration, testified before the Subcommittee of Telecommunications, Consumer Protection and Finance, Committee on Energy and Commerce of the U.S. House of Representatives, May 8, on "The Public Policy Implications of Increased Foreign Investment in the United States." She was appointed to the advisory panel on Technology, Public Policy, and the Changing Nature of Federal Information Dissemination, by the Office of Technology Assessment of the U.S. Congress.

RUTH A. WALLACE, professor of sociology, presented a paper entitled, "Elements of Religion in Friendship: A Durkheimian Analysis," at the annual meeting of the American Sociological Association, August 31 to September 3, in New York.

PRESIDENT ELLIOTT OFFERS ADVICE TO STUDENTS AND PARENTS

PARENTS' DAY -- l to r, Mrs. Peter A. Lawton; Provost William D. Johnson; Mrs. Frank Tarter; her grandson, Walter Lawton, an SGBA sophomore in marketing; Dr. Lawton. The Lawton family is from New City, Rockland County, New York.

"If I were an undergraduate today, one of the things that I would insist upon would be that I, as an undergraduate, become proficient in one more language," President Lloyd H. Elliott told an audience of parents and students at the October 18 Parents' Day President's Reception.

"If I came to college with a second language, and some facility in it," he continued, "I would almost make myself enter the study of a third. If I were an undergraduate and had a capacity or skill only in my native language of English, I certainly would waste no time in moving into the second language. The choice wouldn't be as important as the fact that I am entering another language and, through that language, I am seeing, within due course, another culture, another civilization and all that has to offer.

"Secondly," President Elliott said, "If I were an undergraduate today, no matter where I might be majoring, I would insist on working into my schedule some course which takes me to another part of the world, whether it be a survey course in the Orient, a course in Russian history, a course in Latin-American politics, a course in contemporary European economics or politics, I would insist upon courses which would make me learn more about the geography of, living conditions and the cultural achievement of another people."

Referring to a visit he had had the day before from a retired GW professor, a Chinese scholar of 80 who has no time for a hip operation because he is on his way to an assignment in China, President Elliott said, "I want to state the obvious. The world in which the undergraduates today, not only are moving into, but already are now living in, is so small. This world of yours is very small. Get ready, increasingly ready, don't wait any longer to understand it and appreciate it, help to resolve its problems and enjoy it. All of those things are parts of the life you have ahead.

"Parents, don't fail to listen when your son or daughter says, 'There's a big world out there and I'd like to explore it.' Don't you hesitate to say, when that son or daughter comes home and kind of digs in and once again, wants again all of the security which you have provided so lovingly, don't you forget or hesitate to say,'There's a big world out there, why don't we get on with learning more about it?' "

Some 300 family members came to Parents' Day, among them five families from California and one from Eagle River, Alaska.

WORLD FOOD DAY PANELISTS AGREE ON MANY ISSUES

The four panelists on the October 16 World Food Day Teleconference originating from GWTV agreed on many issues related to world hunger and its economic and political aspects.

The panelists were Her Excellency Cecilia Lopez de Rodriguez, Ambassador of Colombia to the Netherlands; Dr. Muhammad Yunus, managing director of the Grameen (Rural) Bank in Dhaka, Bangladesh; Dr. Patricia Barnes-McConnell, director of the Michigan State University Bean/Cowpea Collaborative Research Support Program (CRSP); and the Honorable Barber Conable, president of the World Bank. Moderator was John Scali, ABC News senior correspondent and former U.S. Ambassador to the United Nations.

There was general agreement that it is most difficult and most important to reach the very poor. Dr. Yunus described his experiences in going into villages and "entering households" by talking with the women. He emphasized that poverty is more traumatic for poor women because of the great need to feed their children and their families. "The desperate ones are easiest to reach," he said.

It was agreed that the Grameen Bank in Bangladesh has been of enormous help to the poor in that country and that the idea of a private bank that makes small loans with no collateral would be very useful in other countries. World Bank President Barber Conable stated that Africa is a place where such banks could be extremely helpful.

The large number of women among the world's poor was seen as a factor which must be further recognized and reckoned with. Ambassador Lopez said that the women of Columbia had responded "in an amazing way" to the opportunity to take a greater part in agricultural production since many of the men in the rural areas had gone to the cities to work.

President Conable pointed out that in Africa, 80 percent of the agricultural work is done by women while they own approximately one and a half percent of the property. He stated that it is important for women to be able to borrow money, whether or not they are property owners. The other panelists agreed.

Dr. Barnes-McConnell emphasized the importance of what she called "the consumption factor" and said it is more important than production or distribution. She outlined the structure of the organization CRSP, now in its 10th year.

The use of food subsidies was viewed by the panel as a problem both to the poor and to developing countries. "Subsidy is one of the great distorting elements," said President Conable. "One way to reach the poorest people is to permit them to get the rewards of their work."

The second and third hours of the teleconference were devoted to town-meeting type discussions at the 300 receiving sites and to an hour of call-ins for the panel.

FIRST WEDNESDAY LECTURE ON ATHLETICS AND ACADEMICS

The November First Wednesday Lecture, "Academics and Athletics: A Discussion," will take place Wednesday, November 5, at 8 pm in the GW University Club.

This topic will be discussed by Edward A. Caress, professor of chemistry, and NCAA faculty representative; Sheila Hoben, academic coordinator - men's and women's athletics; Patricia Sullivan, lecturer in human kinetics and leisure studies and head coach, Varsity Women's Volleyball Team; and Steven L. Frick, senior, pre-medicine and First Team Academic All-American in basketball.

The event is sponsored by the Alumni Relations Office. Admission is free. To reserve seating, call Ext. 6435.

Dinner will be served by the University Club, for both members and non-members, beginning at 6:30 pm. Call Ext. 6610 for dinner reservations.

CRAINS MAKE GIFT TO CAMPAIGN FOR GEORGE WASHINGTON

SGBA Dean Norma Maine Loeser has announced a challenge gift to the school.

The gift, a part of the Campaign for George Washington, is a pledge of up to $250,000 from Mr. and Mrs. J. Wendell Crain. The gift will establish an endowment fund to support the School of Government and Business Administration and to challenge SGBA alumni and friends to increase their ongoing support of the school.

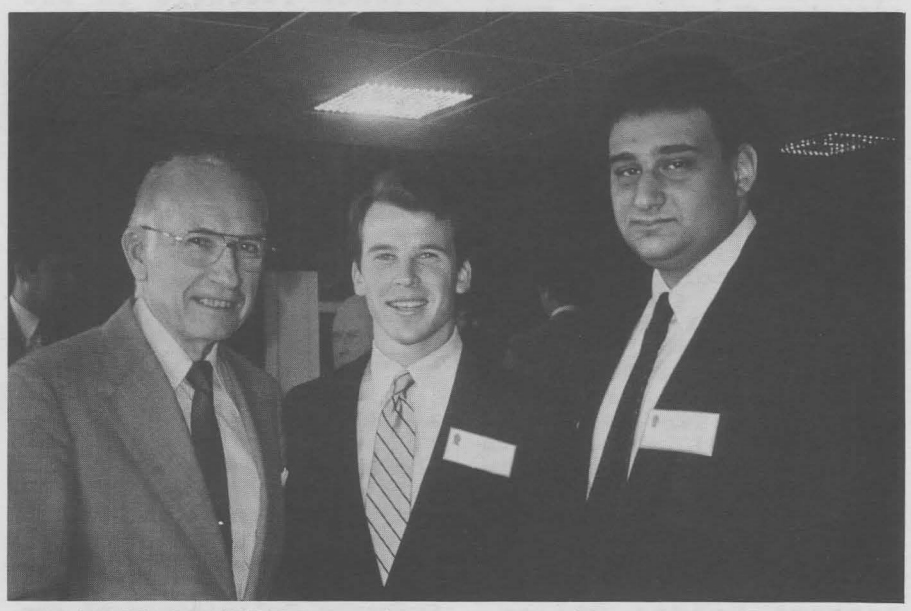
Mr. and Mrs. Crain have agreed to match, on the basis of $2-to-$1 up to a maximum of $250,000, new and increased gifts to SGBA during the years 1986-87, 1987-88 and 1988-89. During the three years, the Crains will double-match the entire gift from a donor who did not give the previous year or will double-match the amount of increase in an annual gift from a previous-year donor.

While Mr. and Mrs. Crain's gift will match annual gifts to SGBA, their gift will be placed in the Mr. and Mrs. J. Wendell Crain Fund For Excellence to build up a permanent endowment to support the school. Income from the endowment, which will continue in perpetuity, will be available to support the general improvement of the school's programs and activities.

Dean Loeser said, in accepting the gift, "Mr. and Mrs. Crain have demonstrated a wonderful understanding of SGBA's needs and great foresight in addressing them through this creative approach to giving."

Vice President for

(continued on back)



TRUSTEES BREAKFAST - l to r, President Lloyd H. Elliott, University Trustee Andrew J. Colao, and GWUSA President Adam Freedman were among those enjoying the October 16 breakfast given by the GW Student Association for University Trustees.

CRAINS MAKE GIFT TO GW

(continued from front)

Development Michael J. Worth stated, "This is an outstanding gift to the Campaign for George Washington because it addresses simultaneously the two top priorities of the Campaign -- increasing Annual Fund Support and additions to endowment. The impact is multiplied because of the challenge feature and the boost that will give to annual giving."

Annual Fund Chairman and University Trustee Robert G. Perry commented, "This gift provides the impetus we need to significantly increase SGBA's Annual fund results over the next three years. We intend to take full advantage of this opportunity and work hard to meet the challenge."

J. Wendell Crain has been an Executive-in-Residence in SGBA since 1981. He is a graduate of the Business School of Northwestern University, the Harvard University Graduate School of Business Administration and National Law Center of The George Washington University. He and Mrs. Crain have been previous generous supporters of SGBA.

GW Music

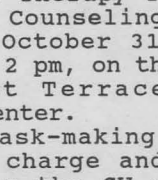
UPCOMING PERFORMANCES

Pamela Conrad will be featured in an Electronic Music Concert and Graduate Composition Recital, Sunday, November 2, at 4 pm in the Marvin Theatre. She will perform selections from her own works. Other composers represented on the program will be Jon Appleton, Ulf Grahn, and Emerson Meyers. Admission is free.

On Monday, November 3, Pianist Sura Kim will perform works by Mozart, Copland, Bachewicz and Beethoven at 8 pm in the Marvin Theatre. Tickets, available at the door, are $5, general admission; $3, GW faculty, alumni and staff; and $1, students and senior citizens.

For further information, call the Music Department, Ext. 46245.

HALLOWEEN ARTBREAK FEATURES MASK-MAKING



A Halloween artbreak is being sponsored by the Residence Life Art Therapy Task Force and the Counseling Center, Friday, October 31, between noon and 2 pm, on the outside H Street Terrace of the Marvin Center.

The mask-making event is free of charge and open to anyone in the GW community. Participants are invited to make a mask of any size, shape, or color. All art supplies are furnished and free cider will be served.

The word from the counseling center is, "Whether you're creative, artistic, curious, or just headed for lunch, it will be well worth your time to stop by and make a face. So don't be spooked and join the holiday fun before it's all over and you turn into a pumpkin."

For more information, contact Sondra Geller, coordinator of Art Therapy Services, or T. Thorne Wiggers, coordinator of outreach, at Ext. 6550.

SEHD TO HOLD OPEN HOUSE

The School of Education and Human Development (SEHD) will host an open house, Saturday, November 1, from 8:30 am to 12:45 pm, to acquaint graduate students with its programs.

Participants will have an opportunity to talk with faculty members about the various education, human service and service industry programs offered by the school. There will also be a financial information session where financial aid, tax advantages and graduate fellowships will be discussed.

The open house activities will take place in Building C, 2201 G Street, NW. The event is free. Reservations are recommended, though not required. Call Ext. 6160 for reservations.

BRIEFLY...

***Blood Drive Reminder --** The University's Red Cross blood drive will be held Wednesday, October 29, and Thursday, October 30. Donors can schedule a time by calling the Student Activities Office at Ext. 6455.

***Wellness Brown Bag Lecture Series --** Bring your lunch and learn about "Nutrition on the Run," Wednesday, October 29, from noon to 1 pm in Marvin Center, Room 406. Ginny Inglese, R.D., nutrition and physical fitness consultant, will be the featured speaker. Admission is free. The event is sponsored by the Wellness Resource Center, Department of Human Kinetics and Leisure Studies.

NEWSNOTES

INTERVIEWS

SONYA QUITSLAND, assistant professor of religion, was interviewed in August by Washington News Service for a USIA overseas broadcast on "The Catholic Church in America." She was interviewed for an article in the September 19 National Catholic Reporter entitled, "It All Began With Altar Girls."

JAY R. SHOTEL, professor of special education, was interviewed by WGMS Radio on the subject of the critical need for secondary math and science teachers in the United States. The program aired July 1, on "Dialogue."

JAMES E. STARRS, professor of law and of forensic sciences, was interviewed for a news article entitled, "Testimony in Rape Trial is Called 'Gobbledygook,'" which appeared in the St. Louis Post-Dispatch, September 14.

PROFESSIONAL ACTIVITIES

ALF HILTEBEITEL, professor of religion, gave a paper entitled, "South Indian Gardens of Adonis, Revisited," as one of the invited participants at the centenary celebration of the Fifth Section, "Le Rituel," on Sciences Religieuses of the Ecole Pratique des Hautes Etudes at the Sorbonne, College de France, September 22-25.

GW FACULTY COLLECTS -- H.I. Gates, associate professor of sculpture, is shown with his Hand and Foot Chair (1970) by Pedro Friedeberg, wood, 36"x 16" which is part of the Dimock Gallery's current exhibition. The show will run through November 7.

LANCE J. HOFFMAN, professor of engineering and applied science, presented a paper, "Risk Analysis and Computer Security: Bridging the Cultural Gaps," at the Ninth National Computer Security Conference, September 18, at the National Bureau of Standards in Gaithersburg, Maryland. During the week of September 22, he spoke on "Automated Risk Analysis Techniques" to the 12th annual EDP Audit Conference in Atlanta and to a group at the Lawrence Livermore National Laboratories. On September 25, he discussed "Power Users and Personal Computers" as a member of the keynote panel at the Fourth Computer Fair in San Francisco.

JAMES O. HORTON, associate professor of American history and civilization, presented a lecture entitled, "Using the Museum for Family Research," at the ninth annual conference of the Afro-American Historical and Genealogical Society, September 11-13, at the Smithsonian's National Museum of American History.

ALI M. KIPER, professor of engineering, attended, at the NASA Goddard Space Flight Center, the NASA-ASEE Summer Faculty Research Fellowship under a grant that was awarded to him for the second consecutive summer. He participated in the project activities to develop the thermal management system for the Space Station, which is scheduled to be assembled and in operation by the early 1990s.

ROGER H. LANG, professor of engineering and applied science, has been elected a Senior Member of the Institute of Electrical and Electronics Engineers, Inc. (IEEE). This honor is the highest professional grade for which application may be made and requires experience reflecting professional maturity. It is estimated that 10 percent of IEEE's approximately 275,000 members have been elected to this grade.

D. JEFFREY LENN, associate professor of business administration, presented a paper entitled, "Management Development in the Emerging Organization: An International Perspective," and was a discussant in a session on "The Impact of Political Action Committees on the Electoral Process," in August at the Academy of Management, in Chicago.

MALCOLM R. LOVELL JR., SGBA executive-in-residence, has been invited to serve on the Senior Advisory Board of the UAW-Ford Labor-Management Studies Program. The board will assist in the development of an education program in labor studies as part of an Employee Development and Training Program. The purpose of the program is to enhance the fundamental skills required for effectively carrying out labor-management assignments and obligations.

LEO C. MOERSEN, assistant professor of accountancy, presented a paper entitled, "Wearing an Eyeshade and a Veil: Limiting Accountants' Liability for Malpractice," at the national conference of the American Business Laws Association, August 22, in Minneapolis.

PUBLICATIONS

EDWARD BERKOWITZ, associate professor of history, and **WENDY WOLFF**, research associate in history and public policy, an essay, "Disability Insurance and the Limits of American History," in Public Historian, Spring 1986.

MICHAEL D. BRADLEY, assistant professor of economics, an article, co-authored with Dennis Jansen, "Federal Reserve Operating Procedure in the Eighties: A Dynamic Analysis," in the Journal of Money, Credit and Banking, Vol. 18, No. 3, August 1986, pp. 323-335.

G.P. LAUTER, professor of business administration, an article, "Avoid Financial Free-For-All," in Japan Times, Tokyo, July 24.

D. JEFFREY LENN, associate professor of business administration, two articles in Issues Management Letter: "Corporate Culture and Issues Management, July 30; and "Reshaping Corporate Culture to Incorporate Issues Management," August 13.

RICHARD H. SCHLAGEL, Elton Professor of Philosophy, a book, Contextual Realism: A Meta-physical Framework for Modern Science (New York: Paragon House, 1986.)

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Department of Biochemistry. (Position entails studies of the regulation of cellular lipoxygenases. Experience in common biochemical and chromatographic techniques desirable. B.S. and a minimum of one year related experience required.) Contact: Dr. Jack Vanderhoek, Ross Hall, Room 554, 2300 I Street, NW, Washington, DC 20037.

RESEARCH ASSISTANT, full-time, Department of Medicine. (Individual with experience in sterile tissue culture, use of radioisotopes, cell surface labeling techniques, polyacrylamide gel electrophoresis and purification of monoclonal antibodies highly desired. B.S. required.) Contact: David Greenblatt, M.D., Ext. 4416.

URBAN LAND INSTITUTE AWARD FOR 2000 PENNSYLVANIA AVENUE

The University's 2000 Pennsylvania Avenue has received an award for excellence from the Urban Land Institute (ULI). 2000 Pennsylvania was one of seven real estate projects recognized for "superior design, relevance to contemporary issues and needs, and resourceful use of land while improving the quality of the living environment."

Kenneth D. Brooks, GW's real estate development/leasing program officer, accepted the award for the University in October 25 ceremonies at the Urban Land Institute's 50th Anniversary Fall Meeting in Chicago, Illinois. 2000 Pennsylvania was the winner of the ULI's 1986 Award for Excellence for Small-Scale Urban Development/Mixed Use.

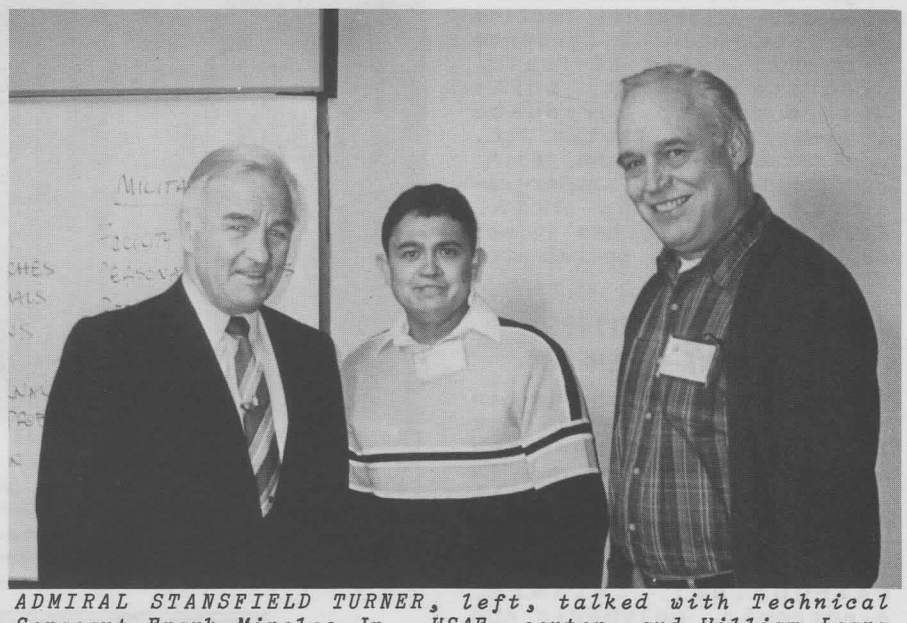
This is the eighth year the ULI has presented its Awards for Excellence. ULI is a Washington, D.C. based non-profit research and educational organization dedicated to improving the quality of land use planning and development. It was established in 1936.

The other six winners were: the Landings on Skidaway Island, Savannah, Georgia; Kaanapali Beach Resort, Maui, Hawaii; the Purdue Frederick Company, Norwalk, Connecticut; Water Tower Place, Chicago, Illinois; Downtown Costa Mesa, Costa Mesa, California; and Inner Harbor Shoreline, Baltimore, Maryland.

More than 140 projects were submitted for the 1986 competition, the largest number ever received by ULI. The jury selecting the winners consisted of 14 ULI members who represented different geographical areas and fields of development expertise. The jury met in June for two days to choose finalist projects. Following on-site inspections, the jury met again in August and selected the seven 1986 award winners.

"The projects the jury chose as the winners truly exemplify the standards of land planning and development that the Awards program was designed to promote," said 1986 Awards Jury Chairman Henry J. Paparazzo, president, Heritage Development Group, Inc. of Southbury, Connecticut.

The front cover of ULI's monthly magazine, Urban Land will consist of color photos of the seven winning projects. In addition, the magazine will carry an article on the winners.



ADMIRAL STANSFIELD TURNER, left, talked with Technical Sergeant Frank Mireles Jr., USAF, center, and William Leary Jr. of Tricon Associates Inc., a chemical consulting firm, during a break at the October 27 seminar on terrorism conducted by Turner, former Central Intelligence Agency director, sponsored by Continuing Engineering Education using the facilities of GWTV.

COUNCIL FORMED ON INTERNATIONAL PROGRAMS

The Council on International Programs, announced by President Lloyd H. Elliott at the Opening Convocation, has now been formed. The council, which was recommended by the Commission for the Year 2000, will facilitate the University's efforts to expand and enrich its international dimensions.

The council will perform several functions: provide campus-wide coordination of an expanded program of international activities; facilitate the implementation of this expansion of international programs; and publicize more effectively the University's present and expanding international dimensions.

Items the council will be expected to consider include the following: enhancing the international aspects of the GW educational experience; enlarging study abroad and international internship opportunities; examining ways to integrate international students and scholars more effectively into University life; planning several annual University-wide international programs; reviewing the University's many international agreements with other nations and foreign universities; implementing a University-wide computerized mailing list for promoting international programs; and assessing the constraints and limitations hindering the University's efforts to enhance international programming.

Members of the council have been appointed by President Elliott based on recommendations from deans, directors of institutes and centers, and chairs of departments particularly related to the study of international affairs.

Dean Maurice A. East of the School of Public and International Affairs will chair the council. Members of the council, appointed for a term of two years, are: L. Thompson Bowles, professor of surgery, dean of the medical center for academic affairs; E. Donald Driver, director, International Student Services; Phillip D. Grub, Aryamehr Professor of Multinational Management; Carl A. Linden, professor of international affairs and political science and acting director, Institute for Sino-Soviet Studies; Gregory Ludlow, associate professor of French, assistant dean, SPIA; Khalid Mahmood, professor of engineering; Cynthia McClintock, associate professor of political science; Bernard M. Mergen, professor of American civilization; Dorothy A. Moore, professor of education; Chung-Wen Shih,

WILLIAM HALAL DEFINES "THE NEW CAPITALISM"

"The economy is in crisis because the entire social order itself is in a state of crisis," says William E. Halal, professor of management science. The remedy is not to impose new taxes, but "to redefine major institutions, especially the large corporations that dominate the economy," Halal says.

Halal makes his assessments in his recently published book, The New Capitalism (Wiley, 1986). The book provides a glimpse of America's post-industrial future involving what the author describes as a new system of political economy, which Halal has called the "New Capitalism."

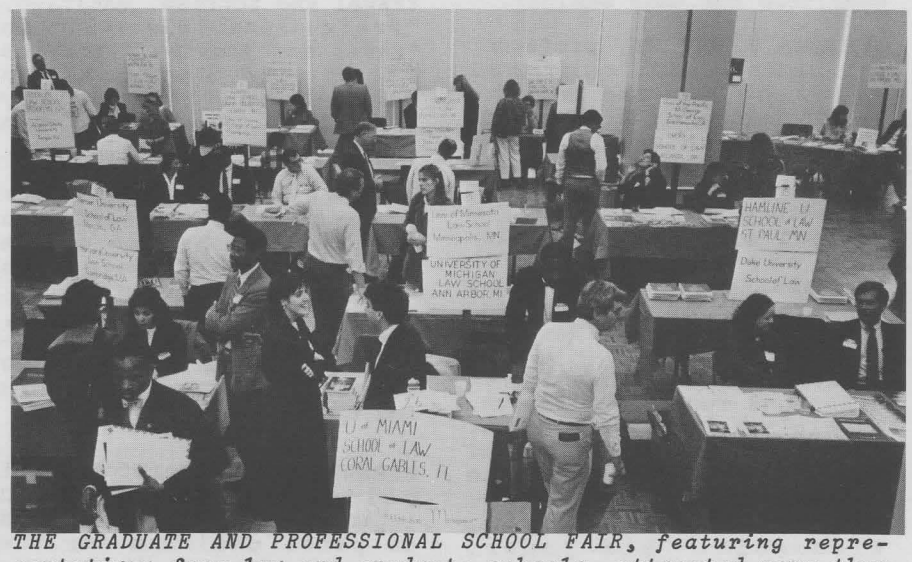
The economy, he says, is undergoing "an historic transformation" propelled by the growth of the information industry. Moreover, old formulas for business success, focused on power and profit, no longer will work, he says.

The thrust of Halal's "New Capitalism" concept is a synthesis of left- and right-wing ideologies. Halal contends that economic productivity as well as human welfare will be improved by unifying the "profit" and "social" goals of business. The result, he says, will be a more powerful form of political economy which fulfills America's basic values of cooperation and competition, forming a system of "Democratic Free Enterprise."

The book is delineated in terms of seven key concepts, which are groupings of 40 major trends based on several hundred examples of innovative management. It documents more than two decades of research, including 30 of Halal's own studies, probing the successes and failures of corporate America. The future success of corporate America, he says, is tied to its ability to view problems as opportunities.

Halal plans to revise his book periodically and track the transition to the new system of business and economics as it unfolds. He predicts the "New Capitalism" will have fully evolved by the year 2000.

In recognition of his work in this area, Halal has been awarded the Mitchell Prize by the Club of Rome for a paper titled, "Beyond the Profit Motive." On September 18, 1986, he received an honor medal from the Freedoms Foundation for fostering excellence in the study of private enterprise.



THE GRADUATE AND PROFESSIONAL SCHOOL FAIR, featuring representatives from law and graduate schools, attracted more than 1400 students over a two day period, October 21 and 22.

GW

JOHN CHOMEAU OF CENTRAL INTELLIGENCE TO SPEAK HERE

Under the sponsorship of the School of Public and International Affairs and the Security Policy Studies Program, John Chomeau of the Central Intelligence Agency will speak at the University, tomorrow, Tuesday, November 4. His subject will be "Ethics and the Intelligence Officer: Compatabilities and Incompatabilities." The event is scheduled for the Marvin Center, Room 411, between 2 and 4 pm, and is open to members of the University community.

INTERNATIONAL PROGRAMS

(continued from front)

professor of Chinese, chairman, Department of East Asian Languages and Literatures; Ralph G. Steinhardt III, associate professor of law; Shirley M. Wright, assistant professor of English for international students, director, English for International Students Program; Hamid Al-Fraih, graduate student, SGBA; Leslie Oskamp, graduate student, SPIA; Laurie Ott, undergraduate student, SPIA; and Stephen Stuart, undergraduate student, SPIA. Jennifer Rolling has joined SPIA to serve as coordinator for the council.

GRANT OPPORTUNITIES: DEPARTMENT OF ENERGY

The Department of Energy has announced its fiscal year 1987 university research instrumentation program. In 1987, the program will emphasize purchases of capital equipment costing $100,000 or more in these categories: ceramic, electronic, polymeric and metallurgical materials; combustion; geochemistry and geophysics; and health and environmental effects of energy development. For a local contact person, call Helen Spencer, Office of Sponsored Research, Ext. 6255.

NEWSNOTES

PROFESSIONAL ACTIVITIES

MURIEL ATKIN, associate professor of history, presented a paper entitled, "Soviet Islam on the Afghan Border: the Case of Tajikistan," at a conference, "The Implications of the Soviet Presence in Afghanistan," September 25, organized by the Foreign Policy Research Institute.

WOODROW BARFIELD, assistant professor of engineering administration, presented a paper with **Mark Lister**, graduate student in engineering administration, on the effects of two and three dimensional graphics on decision making, at the Annual Human Factors Society Conference, October 2, in Dayton, Ohio.

JAMES R. BARTH, professor of economics, was the luncheon speaker at a meeting of the Society of Government Economists on October 8. The topic of his speech was "Bank and Thrift Failures: Who Pays?" After the speech he was interviewed by World Financial Magazine, The American Banker, and the Washington Post.

CHARLENE BICKFORD, director of the First Federal Congress Project, lectured at the National Archives, September 18, on the importance of the First Federal Congress and the records being published as The Documentary History of the First Federal Congress, 1789-1791. She recently completed a term as president of the Association for Documentary Editing by delivering the Presidential Address at the association's annual meeting in Charlottesville, Virginia. The speech, entitled "An Agenda for Professional Survival," was presented after the association's annual banquet in the Dome Room of the Rotunda of the University of Virginia.

HEALTH PROMOTION AND ALCOHOL AWARENESS WEEK -- L to r, Soo Shin, Eileen Scott, Michael Kaplan, and Donald Roland, all Columbian College students, were among those assisting at an information booth during the week of October 20 to 24. The information program was sponsored by Alpha Epsilon Delta, the Program Board, Wellness Resource Center, Counseling Center, and the Alcohol Awareness Committee.

JAMES L. BREEN, professor of human kinetics and leisure studies, is a 1986 recipient of the Distinguished Alumnus Award of Eastern Illinois University. He is a 1948 graduate of the institution. The award is given annually to graduates who "reflect credit on themselves and the University through their pursuit of excellence in their professions and through their contributions to society."

ANTHONY COATES, professor of geology, spoke on "The Evolutionary Consequences of Clonal Growth: The Separate Histories of Corals and Reefs," to the Geology and Biology Departments of the University of Iowa at Iowa City, October 3. He gave the same talk, September 17, to the Paleontological Society of Washington at the Museum of Natural History, Washington, DC.

PAMELA FINNERTY-FRIED, assistant professor of psychology and behavioral science, has been selected to be an honorary Switzer Scholar in Rehabilitation for 1986. Only 20 persons from around the nation were chosen for their leadership, expertise and achievements in the subject of this year's seminar, "The Aging Workforce: Implications for Rehabilitation." She was also a member of the planning committee for this seminar.

STEPHEN S. FULLER, professor of urban and regional planning, spoke at the Baltimore/Washington Corridor Economic Development Symposium, October 16, at Johns Hopkins Applied Physics Laboratory in Baltimore. The subject of his presentation was employment growth travels, opportunities and constraints in the Washington-Baltimore Common Market.

SHERWIN GREENE, professor of urban and regional planning, participated on a panel at the 28th Annual Conference of the American Collegiate Schools of Planning (ACSP), October 10-12, in Milwaukee, Wisconsin. His paper, "Making the Studio Experience Work or 'I Hear - I Forget, I See - I Remember, I Do - I Understand,'" focused on the importance of the planning/design studios and requirements for accomadating the special needs of part-time graduate planning students.

FREDEICK GUTHEIM, adjunct professor of American civilization and urban and regional planning, was a recent guest of the Venice Athenaeum to present a paper on "Venice: The Urban Hinge, the Urban Future," at its symposium on Venice and the Cities of the Near East.

DONALD E. HAWKINS, professor of travel and tourism, presented a paper entitled, "The Impact of World Events on Tourism: Implications for the Travel Industry," at an editorial roundtable, October 9, at the Explorer's Club in New York City.

JOHN D. HUNT, professor of travel and tourism, presented the keynote address entitled, "The Changing Times in Tourism Marketing and Development: An Overview," at the Washington State Tourism Conference in Yakima. He presented a similar paper, October 14, at the Seminar on Tourism Development of the Laurel Highlands, Inc. Tourism Council in Ligonier, Pennsylvania. On October 16, he gave the banquet address at the Annual Membership Meeting of the Tourism Council of Frederick, Maryland, entitled, "A New Tourism: Meeting the Challenges of the Second Half of the 1980s." He co-authored a conference paper with **Donald E. Hawkins**, professor of travel and tourism, entitled, "Professional Education in Travel and Tourism," for the 7th World Congress on Tourism and Hospitality Education, October 1, in Toronto, Canada.

JOHN W. KENDRICK, professor of economics, attended a meeting in Washington of the Executive Committee of the American Productivity Center, August 26. On September 12, he addressed the Inter-American Defense College on "The Economic System: Structure and Operation."

BERNARD REICH, professor of political science and international affairs, served as panel chairman for the panel on "Israel in Transition, " at the 40th Annual Conference of the Middle East Institute.

FERNANDO ROBLES, associate professor of business adminstration, presented a paper entitled, "Marketing and the Informal Sector in Developing Countries," co-authored with **ADEL EL-ANSARY**, professor of business administration, and Professor El-Haddad of Assiut University in Egypt, at the International Conference on Marketing and Development, September 1-4, in Istanbul, Turkey. The meeting attracted about 100 noted international marketing specialists from around the world.

ROBERT C. WATERS, professor of engineering administration, presented a paper entitled, "Quantification of Current Maritime Protectionism," at the 1986 annual meeting of the Transportation Research Forum, September 22, in Seattle. The paper discussed the extent of legal and de facto protectionism which impacts U.S. maritime foreign trade.

MAIDA WITHERS, associate professor of human kinetics and leisure studies, lectured on "Text and Context in Poetry and Dance," October 10, during a three-day conference, "Art on Art," at the University of North Carolina, Chapel Hill.

PUBLICATIONS

JAMES R. BARTH, professor of economics, a co-authored article, "The Thrift Industry's Rough Road Ahead," in Challenge: The Magazine of Economic Affairs, September/October 1986.

PETER J. CAWS, university professor of philosophy, an article, "The Scaffolding of Psychoanalysis," in Behavioral and Brain Sciences, Vol. 9, no. 2, June 1986, pp. 229-230.

EUGENE W. KELLY JR., professor of education, an article, "Relationship of Public Policy to the Goals of Teacher Education," in Action in Teacher Education, Fall, 1986, Vol. 8, No. 3, pp. 1-7.

JOHN W. KENDRICK, professor of economics, an article, "Productivity Trends and Prospects, in AEI Economist, August, 1986. The Johns Hopkins University Press has issued a new paperback edition of his 1984 book done with the American Productivity Center, Improving Company Productivity: Handbook with Case Studies.

ROBERT C. WATERS, professor of engineering administration, an article, "Karriere-training auf der Hochschule," September 12, in VDI Nachrechten, a weekly publication of the Society of German Engineers. The article describes the development of engineering management education in the United States.

PERSONNEL NOTICE

RESEARCH ASSISTANT, full-time, Deaprtment of Medicine, Renal Division. (Individual with knowledge of basic chemical and immunochemical techniques, animal care and surgery required. B.S. degree also required.) Call Dr. Kimmel, Ext. 4244.

The George Washington University is an equal opportunity/affirmative action employer.

ELLIOTT NAMED IN SURVEY OF MOST EFFECTIVE LEADERS

President Lloyd H. Elliott has been named in a survey of the 100 most effective college leaders, chosen by their peers.

The 100 were nominated as strong leaders in a survey of 485 chief executives, higher education officials and scholars who study the college presidency.

The effective college president is a "strong, risk-taking loner with a dream," said James L. Fisher, president emeritus of the Council for Advancement and Support of Education (CASE) and co-director of the study. Martha W. Tack, professor of educational administration and supervision at Bowling Green State University, was the other co-director of the study.

The study identifies the 100 presidents who received the most nominations as effective leaders in the survey. According to the study, the most effective presidents rely on respect rather than popularity, work longer hours, make decisions more easily and confide less frequently in other presidents.

The study, entitled, "The Effective College President," was financed by a grant from the Exxon Education Foundation. It will be included in a book to be published next year.

CHILEAN SPEAKER GIVES VIEW OF WOMEN'S MOVEMENT THERE

"It is very important for women working in the women's movement in Chile to be in contact with North American women," said Paulina Weber Ubilla in a talk sponsored by the Women's Studies Program here at the University on October 30.

Ms. Ubilla is a leader in the women's movement "Mujeres por la Vida" (Women for Life) in Chile. She has organized demonstrations of Chilean women working with the organization "Somos Mas" (We Are More).

"For these past 13 years, there is no precedent in Chilean history," she said, adding that at present more than 30 percent of the labor force is unemployed and that a large number of families have salaries of less than $25 a month.

Paulina Weber Ubilla

She explained that the hardships created by the current regime in Chile, the military dictatorship of President Augusto Pinochet, impact most severely on women because of their concern for their families and the needs for food and health care.

Outlining the development of the present women's movement in her country since 1983, she spoke of MEMCH, (Movimiento de Emancipacion de la Mujer Chilena - Movement for the Emancipation of the Chilean Woman). MEMCH coordinates more than 20 of the most important women's organizations in Chile.

The women's movement in Chile seeks not only to alleviate the present difficulties, she said, but also to work for democracy and equality, not only for women but also for men, for society as a whole.

"We function very openly," she said, describing a number of strategies the groups use to bring their demands to the attention of the government and the people of Chile. "We have found that women dressed in black are effective in drawing attention. 50 women appearing in black stand out more than 200 women dressed normally." She said that women can do things that men can not do, such as ask a police officer "What kind of man are you that hits women?"

The women engage in civil disobedience, stand in the street, stop traffic, sing songs, hand out flyers. "For the military," she said, "it's no problem to beat a student or a man in the street but it's much harder for them to beat a woman. This is not to say they don't hit us. When they do, it's generally on the back and they almost never look at us when they are oppressing us."

Transport in Chile is very expensive, Ms. Ubilla explained, so that they are not able to bring hundreds of thousands of women to demonstrate in downtown Santiago often since one bus ride from the outlying neighborhoods costs the same as two kilos of bread. According to Ms. Ubilla, the women's movement in Chile is gaining popularity. "When we go out on the street, we never feel alone," she stated.

Ms. Ubilla told her listeners, "We are forming a house of women, a cultural center, open to all women who are free from prejudice. It will be a kind of meeting place for all the different organizations so they can unify more and grow. We hope to have it open in a couple of months. To be visited by international delegations would contribute to its protection. It would be a great help if some women's groups here would show some kind of support and sponsorship." The house will be called Centro de Desarrollo de la Mujer (Center for the Development of Women).

Ms. Ubilla spoke in Spanish and her remarks were translated by Pascale Bonnefoy, a senior in her last semester in SPIA, who is majoring in international affairs with a concentration in Latin America.

LAURIE TRATENSEK REMEMBERED AT COLONNADE GALLERY OPENING

COLONNADE GALLERY -- L to R, Professor William Woodward, Elizabeth Herrington, and Vesna Tratensek, daughter of Laurie Tratensek, at the opening of the gallery's current exhibition.

"I think that, for a teacher, to have a student like Laurie in a class is an inspiration," said Associate Professor of Painting William Woodward of the late Laurie Tratensek at the October 27 opening of the exhibition of her works in the Colonnade Gallery.

"Her pleasure in working as an artist expanded to joy," he continued. "I found in Laurie a joy in the process of making art. We can see the joy she is sharing with us. . . . In painting, students sometimes approach it as a duty. Most people when given the choice between duty and joy would probably choose duty. When you go to artist's heaven, then you have the courage to accept the joy."

The exhibit, titled "Laurie Tratensek: A Memorial Exhibition," will run through November 30. The collection of 52 works, mostly watercolors and drawings, can be seen daily between 10 am and 7 pm.

Laurie Tratensek (1943-1984) was born in Richmond, Virginia. She received her Bachelor of Fine Arts from the University of Colorado in 1965. In May of 1984, she completed her second semester here at the University and intended to continue her studies as a Master of Fine Arts candidate. She died in August, 1984.

The exhibition is sponsored by the Art Department and the Governing Board of the Marvin Center.

RODERIC H. DAVISON TO BE HONORED BY HIS COLLEAGUES

The colleagues of Roderic H. Davison, professor emeritus of history, are inviting his friends and admirers to celebrate his career at a lecture in his honor on Friday, November 14, at 4:30 pm in the Marvin Theatre.

Professor Davison came to the University in 1947 and was a member of the faculty for 39 years. He received emeritus status at the May, 1986, commencement ceremony of Columbian College.

The lecturer will be Cyril Black, director of the Center of International Studies, and professor of history and international affairs emeritus of Princeton University. He will speak on "Modernization in Comparative Perspective."

There will be a reception in Market Square, Marvin Center, immediately following the lecture. Everyone in the University community is invited to attend the lecture and reception.

GW Music

INVITATION TO SING IN THE "MESSIAH" CHORUS

Singers from the University community and the Foggy Bottom neighborhood are invited to sing the "Messiah" on stage with the GW University Singers of Friday, December 5.

The only requirement is prior familiarity with the choruses from Part I of the "Messiah" and attendance at the rehearsals. There will be three chorus rehearsals: Thursday, November 13, and Thursday, November 20, from 5:45 to 7 pm in Room B-120 of the Academic Center; and Thursday, December 4, at 7:30 pm in the Marvin Theatre.

Call 994-6338 if you wish to reserve a space in the chorus. Otherwise, come to the performance on Friday, December 5, and join the Sing-Along from the audience.

GW UNIVERSITY THEATRE TO PRESENT "END OF THE WORLD"

The GW University Theatre will present Arthur Kopit's "End of the World," Thursday, November 13 through Saturday, November 15, at 8 pm in the Marvin Theatre. There will also be a matinee performance, Sunday, November 16, at 2 pm.

Tickets are $3 for students and senior citizens and $6 for general admission. For reservations and ticket information, call Ext. 6178.

ANNUAL STUDENT SHOW IN DIMOCK GALLERY

Works by GW art students, both graduate and undergraduate, will be on exhibition in the Dimock Gallery from Thursday, November 13 through Friday, December 5.

The exhibition will present works in all media including painting, drawing, sculpture, ceramics, photography, printmaking, visual communications and design. Many of the works will be for sale.

Sponsored by the Dimock Gallery, Art Department, the exhibition will be open from 10 am to 5 pm, Tuesday through Saturday. The gallery is closed Monday. Admission is free. For further information, call Ext. 7091.

ARTISTIC UNIVERSITY FAMILY ENTRY FORMS DUE NOVEMBER 14

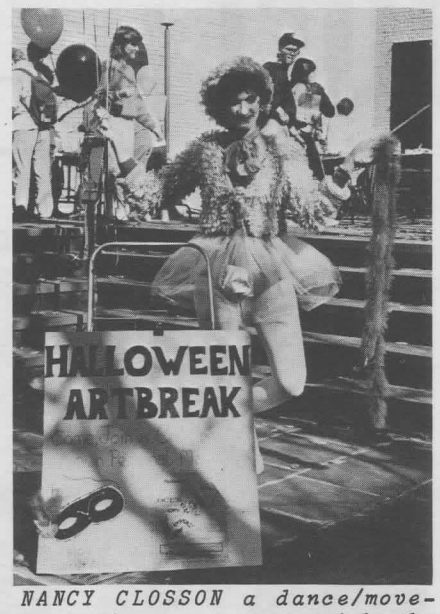
Entry forms for art works to be submitted for the second annual exhibition, the Artistic University Family, are due on Friday, November 14. The date for the actual submissions of work will be Monday, November 24. Entry forms can be picked up from the Marvin Center Scheduling Office Monday through Friday.

The juried exhibition will run from December 3 to January 4 in the Colonnade Gallery. Acceptable submissions include two and/or three dimensional fiber, clay, stone and glass objects, works of art on paper, paintings, drawings, prints and photographs. For more information, call Miriam Nathan or Paul Galullo at Ext. 7469.

BRIEFLY...

***Debate on Capitalism vs. Socialism --** The Program Board and the GW Objectivist Club will present a debate on "Capitalism vs. Socialism: Which is the Moral System?" on Tuesday, November 11, at 8 pm in Lisner Auditorium. Capitalist morality will be defended by Dr. Harry Binswanger and Dr. John Ridpath while journalists Christopher Hitchens and John Judis will defend socialist morality. Admission is free for students and faculty of all consortium schools. General admission is $4.50 at the door.

***Lecture on NATO Defense Planning --** Stuart Johnson of the National Defense University will speak on "NATO Defense Planning: Adapting to Change" Thursday, November 13, from 2 to 4 pm in Marvin Center, Room 404. The event is sponsored by SPIA and the Security Policy Studies Program. Admission is free.



NANCY CLOSSON a dance/movement therapy extern with the Counseling Center, recruited potential mask-makers at the third annual Halloween Artbreak sponsored by the Residence Life Art Therapy Task Force and the Counseling Center, October 31.

CHAIRMAN BELLOWS TO SPEAK AT GW CLUB BREAKFAST

Board of Trustees Chairman Everett H. Bellows will speak at a breakfast at the GW Club this Wednesday, November 12, at 8 am.

Chairman Bellows holds two degrees from the University: a Bachelor of Arts from the Columbian College of Arts and Sciences (1939) and a Master of Arts from the Graduate School of Arts and Sciences (1941). He is a former vice president of the Olin Corporation and was previously associated with Booz, Allen and Hamilton. He was elected to the Board in January of 1970.

Call Ext. 6610 for reservations.

***Fall Tennis Tournament --** The Alumni Relations Office is sponsoring a Fall 1986 Tennis Tournament, Saturday, November 15, at 8 pm at the Arlington Y Tennis and Squash Club. All alumni, students, faculty and staff are invited. There is an entry fee. Entries will be accepted on a first-come, first-served basis. For further information and to register, call Alumni Relations, Ext. 6435.

***Music Lecture --** Betty E. Chmaj, professor of humanities and American studies, California State University, Sacramento, will speak on "Ives, Emerson, and the American Double Consciousness," Wednesday, November 12, at 2:30 pm in Academic Center, Room B-120. Admission is free. The lecture is sponsored by the Department of Music.

***Playwright Steve Carter in Reading --** Steve Carter, author of Nevis Mountain Dew and other plays, will read from his work on Thursday, November 13 at 8 pm in Funger Hall, Room 108. Carter is Playwright-in-Residence at Victory Gardens Theater in Chicago. Admission is free. The reading will be followed by a reception. For more information, call the English Department, Ext. 6180.

NEWSNOTES

INTERVIEWS

HARVEY FEIGENBAUM, assistant professor of political science, was interviewed on WAMU's Diane Rehm Show about the recent wave of terrorist bombings in France. The half-hour interview took place on October 2.

JONATHAN D. FIFE, professor of education, was interviewed on September 24 by Stephen Teske of the Education Daily, for an article on the redesign of the ERIC National Information System.

PROFESSIONAL ACTIVITIES

BERNARD MERGEN, professor of American civilization, was part of a delegation from the Center for Advanced Study of the Americas (CASA) that met with representatives of the Universidad Nacional Autonoma de Mexico under the auspices of the Fundacion Miguel Aleman, October 2 and 3, in Mexico City. The purpose of the meetings was to explore the possibility of student and faculty exchanges to facilitate the study of the United States by Mexican students and the study of Mexico by GW and other consortium university students. He was a guest panelist for a discussion of the verse drama, "A Brave Man's Part," based on the life of the explorer John C. Freemont, presented at the National Portrait Gallery, October 17, and at the National Museum of Natural History, October 18.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, gave a presentation on "Ethical and Philosophical Issues in the Case of Impaired Newborns," at the annual meeting of the American Public Health Association, September 29, in Las Vegas, Nevada. He participated in a conference, "Emerging Problems in Prenatal and Neonatal Ethics," October 9-11, at the Kennedy Institute of Ethics of Georgetown University. He was a respondent to a presentation titled, "Ethics and Human Genetics: A Cross-Cultural Perspective," and participated in a workshop entitled, "Beyond Baby Doe."

GAIL PASTER, associate professor of English, gave a lecture/workshop at the University of Maryland, College Park, October 11, as part of a Master Teacher Conference of the Shakespeare Institute Follow-up Program, sponsored by the National Endowment for the Humanities for Maryland high school teachers as a follow-up to the Summer Shakespeare Institute at Maryland. The topic was "A Place for the Maids?" a review of current feminist thinking about controversial issues in the comedies.

JOSEPH PELZMAN, professor of economics, presented a co-authored paper, "Soviet-American Competition in the Middle East: The Economic Dimension - The Soviet Union," at the conference on Soviet-American Competition in the Middle East, sponsored by the Center for International and Strategic Affairs, University of California, Los Angeles; The Dayan Center for Middle Eastern Affairs, Tel Aviv University; and the Jaffe Center for Strategic Affairs, Tel Aviv University, September 29 and 30, in Los Angeles.

RAYMOND L PICKHOLTZ, professor of engineering and applied science, was recently re-elected as Vice President for Technical Affairs of the Institute of Electrical and Electronics Engineers Communications Society.

LEO P. RIBUFFO, professor of history, gave a lecture, "Jimmy Carter, Ronald Reagan, and the Rise of the American New Right," September 29, at the University of Bombay, India.

ROBERT C. WATERS, professor of engineering administration, presented an invited paper on the situation and trends associated with maritime cargo protectionism in U.S. foreign trade, at the Symposium on Transportation and the Competitiveness of U.S. Agricultural Products in World Markets, October 14, at the Department of Agriculture in Washington, DC. On October 21, he spoke to the National Capital Section of the American Society for Engineering Management. His topic was "Innovation, Industrial Research and Management: a Perspective." He discussed the evolution of industrial research organizations in the U.S. and the management challenge it represents.

PUBLICATIONS

WOODROW BARFIELD, assistant professor of engineering administration, co-author of a book, Human Aspects of Computer-Aided Design, Taylor and Francis, 1986.

ANTHONY COATES, professor of geology, an article co-authored with Jeremy B.C. Jackson of the Smithsonian Institute of Tropical Research, "Life Cycles and Evolution of Clonal (Modular) Benthic, Marine Animals," in the philosophical transactions of the Royal Society, London, Ser. B, 313, pp. 7-22, 1986.

JEFFREY R. HENIG, associate professor of political science, a chapter, "Collected Responses to the Urban Crisis: Ideology and Mobilization," in Cities in Stress, Mark Gottdeiener, ed., Sage Publications, Beverly Hills, California, 1986.

JAMES C. KING, professor of German, a book, Notker latinus zum Martianus Capella, (Tuebingen, Federal Republic of Germany: Max Niemeyer Verlag, 1986, xxxvii, 253 pages). Of special interest to art historians and astronomers are 12 reproductions of ninth-century manuscript drawings of constellations depicted as persons and animals.

RUTH A. WALLACE, professor of sociology, a book co-authored with Alison Wolf, London University, a translation into Japanese of Contemporary Sociological Theory, Shinsen Sha, Ltd., Tokyo, Japan, 1986.

THE GREAT AMERICAN SMOKEOUT CELEBRATES 10TH ANNIVERSARY

On Thursday, November 20, the American Cancer Society and the GW Wellness Resource Center are inviting all smokers to kick the habit for 24 hours, or, support those who plan to quit for the day.

Trade-in booths will be located throughout campus on November 20, encouraging smokers to turn in their cigarettes for a "quit kit." For those interested in helping a friend quit, "adopt a smoker" contracts will be available Wednesday and Thursday, November 19 and 20 in the Marvin Center.

Trade-in booth locations will be: Marvin Center H Street Terrace, noon to 2 pm; Thurston Hall, 11 am to 1 pm; and Gelman Library courtyard, 4 to 5:30 pm.

In support of this event, the dining service will be serving "cold turkey" sandwich specials at Market Square and other dining facilities.

VISITING SCHOLAR -- L to R, Associate Professor of Romance Languages Mary Ann Coffland, Victor Brombert of Princeton University, and Columbian College Dean Clara M. Lovett, before Professor Brombert's October 31 lecture, "The Prison Symbol in Stendhal, Dickens and Dostoyevsky." Professor Brombert visited the University October 30 and 31 under the auspices of the United Chapters of Phi Beta Kappa Visiting Scholar Program. His visit was sponsored by the Romance Languages, Slavic and English Departments.

TRUSTEE THEODORE N. LERNER HONORED BY LAW ASSOCIATION

University Trustee Theodore N. Lerner, Washington businessman and philanthropist, received the Distinguished Alumnus Award of the GW Law Alumni Association at the association's Founders Day Banquet on Saturday, November 15, at the Capital Hilton.

Lerner is a 1950 graduate of the University's National Law Center. The award was given in recognition of his support for the Law Center, the University and the community at large.

Trustee Lerner's associations with the University are many. His son, daughter and son-in-law all have GW degrees, the latter two as graduates of the National Law Center. The National Law Center's Theodore N. Lerner Hall was made possible by a gift from Mr. Lerner and his wife, Annette.

Known for his efforts to bring baseball back to Washington, he supports numerous local and national charities, including the Cancer Society, the Heart Fund, and the United Jewish Appeal. He is a member of the building committee for the U.S. Holocaust Museum, and he has co-sponsored a number of art exhibits organized by the Public Art Trust.

Last year, Washingtonian magazine honored Theodore N. Lerner as one of the 20 men and women who have had the greatest impact on the Washington metropolitan area over the past 20 years.

SYMPOSIUM ON TRADE SANCTIONS

The School of Public and International Affairs and the Department of Economics are presenting a symposium on "Trade Sanctions: The Pros and Cons," Wednesday, November 19, from 2 to 4 pm at the International Monetary Fund Visitor's Center Auditorium, 700 19th Street, NW.

Panelists will be Robert M. Dunn Jr., professor of economics; Henry R. Nau, professor of political science and international affairs; Anthony Yezer, professor of economics; and Gary C. Hufbauer, Marcus Wallenberg professor of economics and international financial diplomacy, School of Foreign Service, Georgetown University.

The event is free and open to the members of the GW community.

GELMAN LIBRARY SERVICES FOR TERM PAPERS, RESEARCH

The Gelman Library is offering several services for GW students and faculty who are working on term papers and other research projects.

For undergraduates, the library offers term paper assistance. By appointment, students work with a librarian to identify books, periodical articles and other materials relevant to their topics.

For graduate students and faculty members, research consultation appointments are available with subject specialist librarians who are trained in the research tools and strategies of a particular discipline. Subject specialists, often having advanced degrees in their disciplines, particularly encourage students who are beginning work on theses or dissertations to take advantage of this service. Names of subject specialists are available at the Reference and Information Desks of Gelman Library.

For faculty, students and staff, "Search It Yourself" workshops teach the individual how to conduct online computer searches. Through these sessions offered by the Reference and Instruction Department, researchers learn the advantages and limitations of online searching as well as the procedures for conducting their own searches through BRS/AfterDark.

This is a simplified search system available on evenings and weekends at significantly discounted prices. In addition to general information, each session focuses on database searching in a specific subject, such as business literature or health planning.

Sign-up sheets for training, consultation times, and search appointments are available at the Reference Desk.

For more information, call the Reference and Instruction Department at Ext. 6049 or stop by the Reference Desk on the first floor of Gelman Library.

FRIENDS OF THE LIBRARIES PRESENT LEE ASH ON COLLECTING

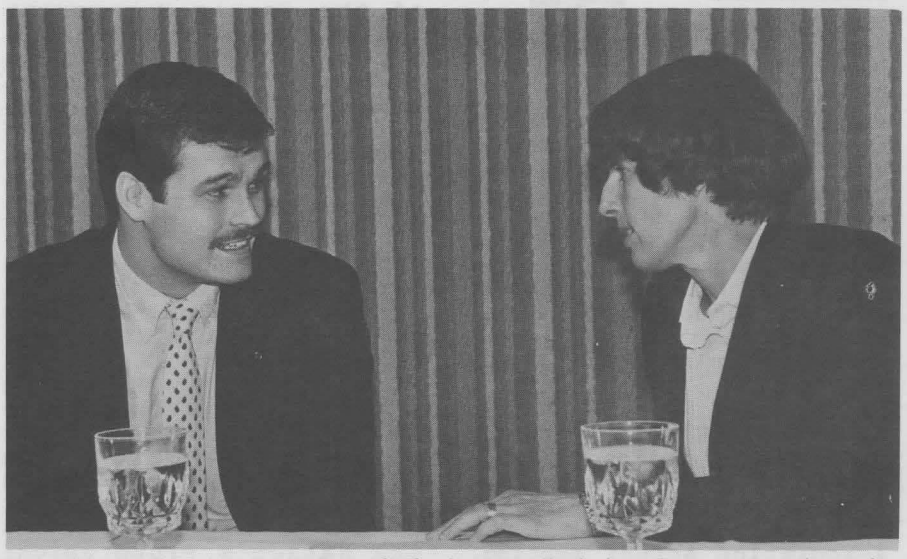
Lee Ash, library consultant, will speak on "Subject Collecting" Wednesday, November 19, at 4 pm in Room 202 of Gelman Library. The event is sponsored by the Friends of the University Libraries.

The speaker will bring to his subject over 50 years of experience in the administration of academic and special libraries and in the antiquarian book trade. Ash appraises private collections for estate, tax or insurance evaluation. He also appraises collections for special libraries located in the American Museum of Natural History (where he also serves as collection development consultant), the Smithsonian Institution, the Museum of Broadcasting, the American Geographical Society, and several universities.

Ash has edited all six editions of the standard reference work, Subject Collections: A Guide to Special Collections (sixth edition, 1985) and is a former editor of Library Journal. He conducts the business of his own rare book firm, The Antiquarian, from his home.

The consultant will discuss opportunities for individuals interested in book collecting, especially students. The lecture is third in a series designed to be of interest to GW students forming collections

(continued on back)



FIRST WEDNESDAY PANELISTS Steve Frick, left, senior in pre-medicine and First Team Academic All-American in basketball, and Sheila Hoben, academic coordinator - men's and women's athletics, visited before the November 5 First Wednesday discussion of academics and athletics. Other panelists were Edward A. Caress, professor of chemistry and NCAA faculty representative; Patricia Sullivan, lecturer in human kinetics and leisure studies and head coach, Varsity Women's Basketball Team.

BARRY JAGODA TO LEAVE GW

Barry Jagoda, director of news and public affairs at the University for nearly four years, has resigned effective February 28, 1987. He will become chief executive officer of a new communications company in early spring.

In tendering his resignation, Jagoda said, "My time at GW has been rewarding and I leave with good feelings and many fond memories. I hope this advance notification will provide time for an effective search process and an appropriate transition."

President Lloyd H. Elliott thanked Jagoda for his service and said, "We accept your resignation with regret, but with best wishes for your new professional challenges."

Vice President for Development Michael J. Worth announced that Provost William D. Johnson will head a search committee to seek a successor.

SERVICE FOR MAX FARRINGTON SET FOR FRIDAY, NOVEMBER 21

A memorial service for the late C. Max Farrington will be held on Friday, November 21, at 11 am, in the Marvin Theatre.

Farrington, who died at 82, on March 4 of this year in Springfield, Missouri, served the University as athletic director, dean of men and assistant to the president. Coming to the University in 1929, he was active in athletics, education and civic affairs in the Washington area for over 40 years.

Speakers at the memorial service will include President Lloyd H. Elliott; Andy Davis, former president of the Touchdown Club; University Trustee Thaddeus A. Lindner, former president of Colonials, Inc.; James C. Van Story, a fraternity brother in Kappa Alpha fraternity; Seymour Alpert former vice president for development; his son, C. Max Farrington Jr.; and John F. Latimer, president of the Society of the Emeriti.

All members of the University community are invited to attend the service.

J. LAWRENCE ANGEL DIES

J. Lawrence Angel, who had been professorial lecturer in anatomy and anthropology at the University since 1963, died November 3 at The George Washington University Hospital. He was 71.

Dr. Angel was curator of physical anthropology at the Smithsonian Institution's National Museum of Natural History and one of the nation's leading forensic authorities. He was an expert on human bones as well as classical anthropology. He made 11 trips to Greece, Cyprus and Turkey to examine the excavated bones of the ancient peoples who lived there.

Born in London, Dr. Angel was the son of a sculptor who kept a skeleton in his studio. He came to the United States when he was 13 and later graduated from Harvard, where he also earned a doctorate in physical anthropology.

At the time of his death, Dr. Angel was finishing a study of the bones of a group of blacks buried around the mid-1800s in the cemetery of the First African Baptist Church in Philadelphia.

LEE ASH *(continued from front)*

for entry in the 1987 Student Book Collectors' Contest, sponsored by the Friends of the Libraries. Students, faculty and staff are invited to attend the lecture and a reception following. For more information, call Ext. 6544.

GRANT OPPORTUNITIES

The Office of Naval Research has announced the third cycle of its Young Investigators Program, which supports new scientists and engineers. These awards provide $50,000 per year for three years. U.S. academic researchers who have received their Ph.D.s since December 1981 and who hold tenure track positions are eligible. The deadline is March 4, 1987. For a local contact person, call Helen Spencer, Office of Sponsored Research, Ext. 46255.

BRIEFLY...

Fall Dance Concert -- The Department of Human Kinetics and Leisure Studies, Dance Production Groups, is sponsoring a dance concert with guest artists Terry Creach and Stephen Koester. Performances will be Thursday, Friday and Saturday, November 20, 21 and 22, at 8 pm in the Marvin Theatre. Admission is $6 for the general public and $3 for students.

James Merrill in Poetry Reading -- American poet James Merrill, author of nine volumes of poetry and twice winner of the National Book Award, will read from his works Thursday, November 20, at 8 pm in the Marvin Center, Room 410. The event is free of charge and open to the public. A reception will follow. For more information, contact the English Department, Ext. 6180.

Marketing Lecture -- Robert Buzzell, holder of the Sebastian S. Kresge Chair at Harvard University's Graduate School of Business, will speak on "The Rediscovery of Marketing," Wednesday, November 19, at 8 pm, in Funger Hall, Room 108. The lecture is open to the public. Admission is free.

Norman Polmar to Speak -- Norman Polmar, a defense consultant, author, columnist and editor, will speak on "Directions: The U.S. and Soviet Navies," Tuesday, November 18, at 7 pm in Funger Hall, Room 108. His writings on military and naval subjects include 15 books and numerous articles. He also writes a monthly column for the Proceedings, the Navy's professional journal. The event, sponsored by the GW NROTC Trident Society and the Program Board, is free and open to the GW community. For more information, call 333-8809.

Richard Siegel to speak on DC fiscal policy -- Richard Siegel, director of the DC Office of the Budget, will speak on fiscal policy and the District of Columbia, Wednesday, November 19, at 8:15 pm, in the SGBA Doctoral Conference Room, Hall of Government, second floor. The event is sponsored by the Public Administration Masters Students Association (PAMSA) and the GW Forum on Urban Studies (GWUFUS). Admission is free and open to the public. For more information, call Ext. 6295.

Round Table Dinner Discussion with John Hunt -- John D. Hunt, professor of education, will lead a round table dinner discussion on Wednesday, November 19, at 5:30 pm in the GW University Club. He will talk about "World Events and Their Impact on Travel and Tourism." Dinner is open to club members and guests. For more information and reservations, call Ext. 6610.

Turkey Trot Fun Run -- The Department of Recreation and Intramurals and the Alumni Relations Office are sponsoring a Turkey Trot Fun Run, three times around the Reflecting Pool, on Saturday, November 22, at 10 am. The sign-up deadline is Friday, November 21, and the rain date is Sunday, November 23. For more information, call Ext. 6251.

BLOOD DONOR Michael Kessel, a third-year law student, was one of those participating in the recent University sponsored Red Cross Blood Drive.

GW Music

GW CHAMBER CHOIR CONCERT

The GW Chamber Choir will give a concert on Tuesday, November 18, at 8 pm, in the Academic Center, Room B-120. Works by Thomas Morley, John Dowland, Juan Del Encina and Orlando Di Lasso will be performed. Admission is free and open to the public.

GW COMMUNITY ORCHESTRA

The GW Community Orchestra will perform on Sunday, November 23, at 8 pm in the Marvin Theatre. William Wright will be conducting. Admission is free. The entire GW community is invited.

TROUBADOURS FALL CONCERT

The GW Troubadours, under the direction of Catherine J. Pickar, will present their fall concert on Sunday, November 23, at 4 pm in the Marvin Theatre. Ticket prices are general admissiom, $5; alumni, faculty and staff, $3; and students and senior citizens, $1.

An Afterglow Reception will be held immediately following for alumni singers at Alumni House. For more information on the reception, call Ext. 6245.

NEWSNOTES

PROFESSIONAL ACTIVITIES

SIMON BERKOVICH, professor of engineering and applied science, gave a paper entitled, "Informational Structure of the Developmental Tree of Multi-Cellular Organisms," as one of the invited participants at the symposium, Aging Processes in Animals, October 19-22, at the Brookhaven National Laboratory in Upton, New York.

PETER CAWS, university professor of philosophy, led a seminar on "Foucault and Philosophy of Science" at the Philosophy of Science Association annual meeting, October 25, in Pittsburgh. On November 5, he read a paper, "Is There (Scientific) Knowledge: Who Knows?" to the Philosophy Department Colloquium at the University of Maryland, Baltimore County.

JONATHAN CHAVES, associate professor of Chinese, gave a reading from his new book, The Columbia Book of Later Chinese Poetry, at a publication party for the book at Chapters Bookstore, Washington, DC, on October 26. He presented a paper, "The Later Development of Shih Poetry," at the Mid-Atlantic Region Association of Asian Studies meeting, November 1, at the University of Delaware.

LINDA GRANT DEPAUW, professor of American history, addressed the National Park Service Bicentennial Symposium, October 29, at the Essex Institute, Salem, Massachusetts. Her subject was, "The Constitution Survives, 1789-1815."

STEPHEN S. FULLER, professor of urban and regional planning, spoke at the Baltimore/Washington Corridor Economic Development Symposium held at the Johns Hopkins Applied Physics Laboratory, October 16. The subject areas of his presentation were employment growth travels, opportunities, and constraints in the Washington-Baltimore Common Market.

PETER F. KLAREN, professor of history, was a speaker on a panel entitled, "Peru: The Fragility of Democracy" for the Carnegie Endowment for International Peace Face to Face Program, October 28. He spoke on "APRA and the Role of Alan Garcia."

D. JEFFREY LENN, associate professor of business administration, was director of the Issues Management Tutorial and presented a paper on "The Strategic Management of Public Policy Issues" at the annual meeting of the Issues Management Association (IMA), October 8, in Washington, DC. He was also elected to the board of directors of IMA.

RICHARD LONGSTRETH, associate professor of architectural history, spoke on "Assessing the Historic Significance of the Campus" at an international symposium, "Preserving a Quality Environment for Learning," October 3, sponsored by Ohio State University in Columbus. On October 16, he gave a paper on "The Country Club Plaza as the Nation's Prototypical Regional Shopping Center" for the Society for Commercial Archaeology and served as a juror for the Student Design Competition at the 40th National Historic Preservation Conference in Kansas City, Missouri.

UNITED WAY CAMPAIGN BEGINS

UNITED WAY -- L to R, Geraldean L. Ormonde, assistant to the treasurer, financial management; Leslie G. O'Bryant, executive aide in Personnel Services; and Joan Whitaker, assistant director, financial aid payments, are among those who are working for the success of the GW 1986 United Way campaign.

"The United Way has come a long way and the United Way at GW has come a long way," President Lloyd H. Elliott told the coordinators at the kick-off meeting for the 1986 GW campaign.

"As an institution, we are a responsible community citizen," he continued. "The aches and pains of the community are ours and we feel them. I thank all of you for what you do and what you are going to do," he told the coordinators.

"Probably the only way to retain a free society is the through the work of volunteers," he went on, referring to the lack of concern and actual disdain he had observed in his travels in some other countries. "Volunteerism is a part of our way of life," he said, "part of what we value. Helping our fellow man is what we really want to do. This reflects on the very best part of our country, our kind of world and our kind of life in it."

Serving as co-chairmen for the campaign again this year are James E. Clifford, director of Personnel Services, and Michael M. Bach, administrator of the Medical Center. "The University is tremendously indebted to these two men," President Elliott said of them at the meeting.

Clifford, said in brief remarks, "The most important thing is to give everyone a chance to say yes or no... Of the 1985 total of $125,374,

(continued on back)

PROFESSOR CYRIL BLACK DISCUSSES MODERNIZATION

"It takes tons of charisma to move a society a single inch," Professor Cyril Black, director of the Center of International Studies and professor of history and international affairs emeritus of Princeton University, told his audience in a speech November 14 in the Marvin Theatre. The event was organized by colleagues of Professor Emeritus of History Roderic H. Davison in celebration of his 39 years of service to the University.

"There are many roads to modernity," Black continued in a wide-ranging discussion of the modernization of nations. "Individualism is not a universal value. It is a western value, but for some people, it's a sin," he stated. Pointing out that one of the ways a country modernizes itself is by the acceptance of modern knowledge, he took the example of China where Confucianism occasioned a delay in this acceptance. The values of hard work, cooperation, reverence for family and elders is one reason for the so-called "Eastern edge" he observed. He called the Confucian heritage both an obstacle and an advantage to the Chinese and other Asian peoples.

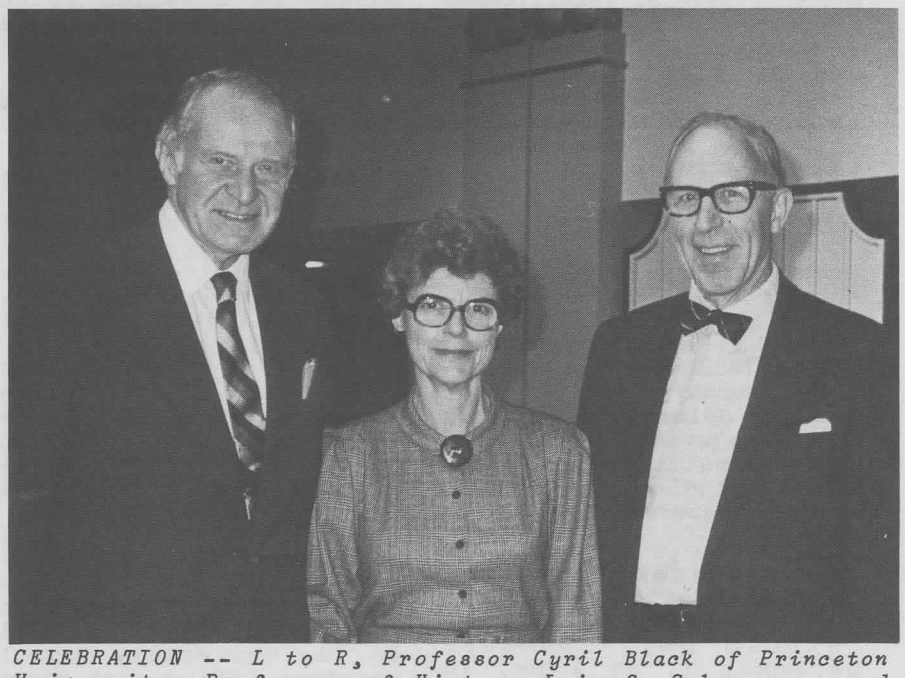
Professor Black referred to the experience of the toddy tappers of India, who raised themselves from a low position in Indian society to an improved situation. "That's one half of modernization," he said, "You break out of a caste and do what the toddy tappers did."

In the case of Turkey, he noted that President Kemal Ataturk personally moved Turkey toward modernization by the vigor of his personality.

"One simply has to get used to the idea that they (other countries) are not like us," he declared. "There is no such thing as instant democracy." Pointing out the years and stages that were required in Britain, France and the United States before the establishment of universal suffrage, Professor Black asked, "So how can we expect Nicaragua and Guatemala or Korea or the Philippines to become democracies overnight?" He added, "It's a very slow process."

Of the communist bloc, he said, "In Hungary, they are having elections with two candidates -- in a sense what we have here."

"Modernization is a very gradual process," the speaker emphasized. "While all societies are moving toward modernization, the institutional forms that change will take will vary widely. We cannot expect other countries to be like us. One has to be able to live with countries which are different. We, (the United States) had a unique experience and nobody will ever be like us." Dr. Black concluded, "Let us hope that over the years, our political leaders will become more sophisticated in looking at the outside world."



CELEBRATION -- L to R, Professor Cyril Black of Princeton University, Professor of History Lois G. Schwoerer, and Professor Emeritus of History Roderic H. Davison at the reception following Black's lecture.

1987 VALIDATION INFORMATION FOR UNIVERSITY PHOTO ID CARDS

The blue or pink photo identification cards currently held by eligible faculty and staff will become invalid on January 1, 1986. The following is a schedule for the 1987 validation of these identification cards.

Personnel Services Building GG Lobby

DATE		TIME
Monday,	December 1	9 am - 4 pm
Tuesday,	December 2	7:30 am - 3 pm
Wednesday,	December 3	9 am - 4 pm
Thursday,	December 4	7:30 am to 3 pm
Friday,	December 5	9 am to 4 pm

Hospital Cafeteria Lobby

DATE		TIME
Monday,	December 8	7 am - 3 pm
Tuesday,	December 9	9 am - 4 pm
Wednesday,	December 10	7 am - 3 pm
Thursday,	December 11	9 am - 4 pm
Friday,	December 12,	7 am - 3 pm

Each individual must bring his/her current blue or pink University photo identification card to the designated location. At that time, a staff member of the Department of Personnel Services will verify eligibility and affix a 1987 validation sticker on the card.

At this time, the only part-time on-campus University faculty for whom 1987 validation stickers will be issued are those who have been appointed through Spring Semester, 1987. Others should wait until they receive a Spring Semester letter of appointment from the Vice President for Academic Affairs before requesting the 1987 stickers.

In the event that the current photo identification card has been lost, please contact the Records and Benefits Division of Personnel Services, Ext. 4480, for assistance.

The validation process will involve a large number of faculty and staff. Every effort will be made to ensure a smooth process. Everyone's cooperation will be appreciated.

ARTISTIC UNIVERSITY FAMILY EXHIBITION OPENS DECEMBER 3

The juried exhibition of art works by members of the University family, not currently enrolled in classes in the Art Department, will open with a 5 to 7 pm reception on Wednesday, December 3, in the Colonnade Gallery. Everyone in the University community is invited to attend.

LOIS G. SCHWOERER IS FIRST WEDNESDAY LECTURER

Professor of History Lois G. Schwoerer will give the next First Wednesday Lecture, sponsored by the Alumni Relations Office, on December 3. Her topic will be "Women and Revolution." She will speak in Room 410-415 of the Marvin Center. Admission is free, but call Ext. 6435 to reserve seating. Dinner, for both members and non-members of the GW University Club will be served beforehand, beginning at 6:30 pm. Call Ext. 6610 for dinner reservations.

UNITED WAY CAMPAIGN

(continued from front)

we'd like to at least meet that and hopefully improve by about 10 percent."

Barch said, "Regardless of your ideology, it's clear that commitment on the part of the central government to social programs is decreasing. All you have to do is walk around and see people on street grates. The private sector has got to pick up the slack. I can't imagine anyone with education, a job, security not wanting to help and the United Way is the most efficient way to give."

Joe Thompson of IBM, the United Way Loaned Executive for the GW campaign, said, "GW is number one in giving by a two to one ratio of area universities. I'm proud to be here as a loaned executive."

In a showing of this year's United Way film it was emphasized that over 200 human care agencies are helped by the United Way, that all kinds of human services go to all kinds of people, that 90 cents of every dollar collected in the campaign goes directly into the community and that one of every three of our neighbors is touched by the United Way.

BRIEFLY...

The Afghans -- Andrew Eiva, a representative of the Federation for American Afghan Action, will speak on "The Afghans: Do They Still Have a Chance?" Monday, December 8, at 2 pm, in Gelman Library, Room 730. For more information, call the Institute for Sino-Soviet Studies, Ext. 6340.

Artificial Intelligence Talk -- Richard Waters of MIT's Artificial Intelligence Laboratory will discuss "The Programmer's Apprentice: A session with KBEmacs," on Tuesday, December 2, at 4 pm in Marvin Center, Room 403. The event is open to the GW community. For further information, call Ext. 3771 or 7181.

Current Trends in South Korean Politics -- Edward Kloth of the Department of State will speak on "Current Trends in South Korean Politics," Monday, December 1, at 2 pm, in Gelman Library, Room 730. The event is sponsored by the Institute for Sino-Soviet Studies. Call Ext. 6340 for reservations.

Dance Degree Programs' "Studio Day" -- The Dance Degree Programs will present "Studio Day," Sunday, December 7, at 2 pm, in Building K, 817 23rd Street, NW. GW dance students will present final and independent projects. For more information, contact Nancy Johnson, Ext. 6629. Admission is free.

Linguistic Lectures -- Rosaleen Howard, research linguist for the French National Center for Scientific Research, will speak on "Narrator Subjectivity and Oral Tradition," Monday, December 1, at 4 pm in Building WW, Room 201. Dr. Howard will also speak Tuesday, December 2, at 12:30 pm in Gelman Library, Room 643, on "Oral Tradition of Ecuadorean Quechua-Speakers." For further information contact Professor Catherine Allen, Ext. 7545.

STUDENT ARTISTS Kim Neale, left, and Joann Spamer stand beside a case showing some of their works in stoneware (Neale) and porcelain (Spamer) in the Dimock Gallery's current Annual Student Show which runs through December 5.

CHANGES IN RETIREMENT PLAN

The Tax Reform Act of 1986 has instituted some changes which may affect some participants in the University's retirement plan. TIAA/CREF will send information to plan participants outlining some of these changes.

The University is changing the effective date for Salary Reduction Agreements from July 1 to January 1 for each calendar year. Employees who wish to change their contribution percentage for 1987 must complete the necessary forms in the Records and Benefits Office no later than December 30, 1986.

You will not be permitted to change your contribution percentage in July, or at any other time in 1987.

Questions about your Salary Reduction Agreement should be directed to the Records and Benefits Office, Ext. 4480.

1986 VIRGINIA TAX EXEMPTIONS EXPIRE DECEMBER 31

All 1986 exemptions from withholding authorized by form VA-4a currently on file in the University Payroll Services Office will expire on December 31, 1986. Virginia tax form VA-4a states, "I certify that I incurred no Virginia State income tax liability for taxable year _____, and anticipate that I will incur no liability for Virginia State income tax for taxable year ____."

If you live in Virginia and form VA-4a will apply to your tax status for 1987, you must submit a new form. Forms VA-4a will be available in the University Payroll Services Office, 1st floor, Rome Hall, and the Records and Benefits Office of Personnel Services, Building GG.

Please note that this form is used mostly by students. It is not the standard form used for claiming dependents, which remains in effect until changed by the employee.

GW Music

"MESSIAH" SING-ALONG IS FRIDAY, DECEMBER 5

The George Washington University Singers Winter Concert and "Messiah" Sing-Along is scheduled for 8 pm, Friday, December 5, in the Marvin Theatre. The concert is open to the public. Admission is free.

NEWSNOTES

PROFESSIONAL ACTIVITIES

Members of the **Department of Operations Research** attended the Joint National Meeting of the Operations Research Society of America and the Institute of Management Sciences (ORSA/TIMS), October 27-29, in Miami Beach, Florida. Their participation included the following:

JAMES E. FALK, professor of operations research, presented a paper entitled, "Dynamic Defenses of Targets."

ANTHONY V. FIACCO, professor of operations research and applied science, organized the session entitled "Mathematical Programming," with co-chairperson **JERZY KYPARISIS** (D.Sc. (OR) '83, GW) of Florida International University.

DONALD GROSS, professor of operations research chaired the session entitled, "Inventory I."

W.H. MARLOW, professor of operations research, organized the session entitled, "Military Applications I." He co-authored a paper entitled, "Assessing the Performance of Military Units," which was presented by co-author **WILLIAM E. CAVES**, research scientist.

THOMAS A. MAZZUCHI, visiting assistant professor of operations research, presented a paper entitled "Quality Control Problems in Automated Manufacturing," which he wrote with research scientist **REFIK SOYER.**

GARTH P. MCCORMICK, professor of applied science, presented a paper entitled, "Algorithm Problems in Factorable Programming with Applications to Solution of a Non-linear Programming Problem."

DOUGLAS R. MILLER, professor of operations research, co-authored a paper entitled, "Probabilities for Repair Facilities with Multiple Sources and Dynamic Return Priorities," which was presented by co-author **SIKANDER DARYANANI** (M.S. (OR) '86, GW).

REUVEN Y. RUBINSTEIN, distinguished visiting professor of operations research, presented a paper entitled "Perturbation Analysis for Estimating Sensitivity Measures in Queueing Networks."

NOZER D. SINGPURWALLA, professor of operations research, presented a paper entitled, "Bayesian Inspection Plans with Producer's and Consumer's Prior Distributions."

RICHARD M. SOLAND, professor of operations research, presented a paper entitled, "An Interactive Branch and Bound Program for Discrete Multiple-attribute Decision Making," co-authored with **H. RIC BLACKSTEN** (App.Sc. (OR) '84, GW).

FUNGER HALL IS DEDICATED IN NOVEMBER 19 CEREMONY

The University's Norma Lee and Morton Funger Hall at the corner of 22nd and G Street was dedicated in a ceremony on Wednesday, November 19, at 6:30 pm.

Norma Lee and Morton Funger

"They are generous and caring people who readily give of themselves to improve the lives of others," said Vice President for Development Michael J. Worth in welcoming remarks. "Wherever there has been opportunity to uplift the human spirit, alleviate human suffering or advance the cause of justice, Norma Lee and Morty Funger have been involved," he continued, "giving of their time, their energy, their resources and their leadership. Having their names associated with this building is a tribute to them for the work that they have done. The tribute is theirs but the honor is ours to have their names permanently a part of our campus and our history."

President Lloyd H. Elliott, in an appreciation of Funger Hall, said in part, "We are privileged this evening to see history. We don't have to read about it, being an active part of it, we are in it -- the history that is the evolution of The George Washington University. We are witnessing the addition of Norma Lee and Morton Funger Hall to the campus, its physical being." Noting that the building, located at G and 23rd Streets, is in the direct path of Washington Circle and the Lincoln Memorial, Dr. Elliott said, "This building will reveal its name and historical significance daily to thousands of people and will serve hundreds of students with its many classrooms, lecture halls and laboratories."

He stated that more than 100 faculty and staff offices are located in the building. "We would expect that Funger Hall, as it is already coming to be known, will be here as long as there is a George Washington University. For that, I have the honor, speaking as president, to thank Norma Lee and Morton Funger for making this possible."

In dedicating Funger Hall, President Elliott said, "Exercising the authority delegated by the United States of America in the charter to the trustees of this university and further delegated by the trustees to me, I now declare, that this hall shall forever be known as Norma Lee and Morton Funger Hall."

In a brief response, Trustee Funger said, "It is always wonderful to be honored. The fact is, Norma Lee and I could not stand alone in being the recipients of this honor." He named all four of his and Mrs. Funger's parents, his four children, his brother and sister and declared, "All share a part in this honor."

He spoke of George Washington as "this fine university and its President Lloyd Elliott who has directed this university to great heights of excellence which make us feel the privilege, desire and pride in giving to it." He concluded, "With this in mind, Norma Lee and I accept this honor on behalf of all those mentioned."

Trustee Funger is a graduate of the University (B.A. 1953). He is president of Community Realty Company Inc., vice president of SAMCO Service Inc. and a principal in Michael Enterprises. A leader in real estate development and management, he holds membership in the Apartment and Office Building Association, the National Association of Home Builders and the World Business Council.

Mrs. Funger received her Bachelor of Science degree after attending Syracuse University and Wilson Teachers College. Like her husband, a professional in the field of real estate, Mrs. Funger's many activities have focused on the well-being of children. The Fungers themselves are parents of four children, including a son, W. Scott, who is a graduate of The George Washington University National Law Center.

GW INAUGURATES MARTIN LUTHER KING JR. MEDALS

The University has announced the establishment of the Martin Luther King Jr. Medals for outstanding service in the field of human rights.

One award will recognize annually a person who has maintained a faithful public life consonant with the ideals for which Dr. King lived and died: commitment, personal integrity, conscience, ethical and religious reflection, community service, integration, peace and non-violence. A second medal will be presented each year to a GW student who has recognized Dr. King's vision, and is serving others as a result.

Both awards will be in the form of a medal struck by the University and presented in a special convocation to be held on campus January 19, 1987, in conjunction with the national celebration of Dr. King's birthday.

The action comes as a result of a decision taken by the Board of Trustees, acting through the Executive Committee of the Board in a session on November 19, 1986.

25TH ANNIVERSARY OF FACULTY SENATE OBSERVED

The Faculty Senate's 25th anniversary was observed at a reception in the GW University Club on December 1, sponsored by the Senate and the Office of the Vice President for Academic Affairs. Guests included former and present members of the Senate and individuals closely associated with the work of the Senate.

Speakers included Professor Emeritus of History Roderic H. Davison, current Senate Executive Committee Chairman Professor William B. Griffith, and President Lloyd H. Elliott.

Professor Davison traced the senate's early history and stated that the senate came out of four roots. These, he said, were a general faculty ferment in the 1950s coupled with a discontent over lack of faculty participation in university governance; the activities of the AAUP (American Association of University Professors) chapter organized by the late Wood Gray, professor of history; the prospect of the retirement of the late President Cloyd H. Marvin and a concern with faculty participation in the search for a new president; and the encouragement of the then Dean of Faculties O.S. Colclough.

Davison related that at a faculty meeting on September 17, 1958, a large committee was created to study the problem of university government, although this was not so stated in the resolution adopted.

The resolution, drafted by the late Professor of English Fred S. Tupper, read "that the University faculty create a Committee to study the policies of the University with the object of recommending to the appropriate University officials procedures best calculated to bring about the advancement of the University's academic programs." The resolution, which Professor Davison characterized as "very cautious," was passed overwhelmingly at a general faculty meeting in the fall of 1958.

Professor Davison outlined the development of the Faculty Organization Plan

(continued on page 2)

URBAN LAND INSTITUTE AWARD PRESENTED TO GW

"I might say that 2000 Pennsylvania was really an easy choice," said Henry Paparazzo in presenting to the University the Urban Land Institute's 1986 Award for Excellence (Small-Scale Urban Development/Mixed Use) at a reception in the building's east gallery November 20. Paparazzo was the chairman of the awards committee.

"The idea of the award started some 10 years ago," he continued. "Essentially it's research and education. We want to identify those projects we want people to see, to know about." He commented that from many submissions, "This one really surfaced. I think it's an excellent job and it's interesting that a university is involved in this kind of thing. I believe this is the first (ULI) award in Washington.

"The award is for the project, it is not a design award, not a beauty contest kind of situation, but there are very strict criteria that it must meet. Certainly it must have design, the planning has to be good, but it must be economically feasible and it has to be something that is worthy of emulation. We want these award winners to show other people what development is all about."

President Lloyd H. Elliott, in accepting the award on behalf of the University, remarked "We have been most appreciative of the support from everyone involved in this project. This project required action by the District of Columbia Zoning Commission, the District of Columbia City Council, the Joint Committee on Landmarks of the National Capital and the National Capital Planning Commission in addition to the normal regulatory and liscensing agencies."

(continued on page 3)

ULI AWARD -- L to R, Robert E. Dickman, assistant treasurer for facilities design and construction; Kenneth D. Brooks, real estate investment/leasing program officer; Charles E. Diehl, vice president and treasurer; and Paul Lawrence, board member of the Public School Employees Retirement System of Pennsylvania, with the University's Urban Land Institute Award.

PROFESSOR EMERITUS EDWARD E. SEHRT DIES

Professor Emeritus of German Edward H. Sehrt died on Thursday, November 20, at the Manor Care Nursing Home in Arlington, Virginia. He was 98.

Professor Sehrt came to the University in 1926 as professor of German and chairman of the Department of Germanic Languages and Literatures. He became professor emeritus in 1953.

Born March 3, 1888, in Highlandtown, Baltimore County, Maryland, he received his baccalaureate degree from the Johns Hopkins University in 1911 and his doctorate in 1915. Both degrees were taken in Germanic languages and literatures. He spent the year 1913-1914 at the University of Leipzig.

Dr. Sehrt began his academic career as instructor of German at the University of Delaware (1915-1916). He lectured on German philology at Bryn Mawr College from 1916 to 1918 and for the next two years (1918-1920) held a professorship in modern languages at Washington College in Chestertown, Maryland. A research fellowship in German philology at the Johns Hopkins University (1920-1922) followed.

Sehrt was professor of modern languages at Gettysburg College for four years immediately prior to coming to George Washington. He taught in a wide range of subjects within his field and friends remember that he delighted in teaching beginning and intermediate students as well as those more advanced.

An authority on the works of Notker the German of St. Gall, Switzerland, who flourished about 1000 A.D., he wrote numerous articles and books on this as well as on German linguistics and philology.

Dr. Sehrt's professional memberships included the Baltimore Chapter of the Goethe Society, the Linguistic Society, the Medieval Academy, and the Modern Language Association of America. He served the Fulbright Program as a member of its screening committee for Germanic studies. Elected to membership in Phi Beta Kappa at Johns Hopkins, he was active in the organization on several campuses.

On his 80th birthday, in 1968, his colleagues, students and friends presented him the Festschrift Germanic Studies in Honor of Edward Henry Sehrt (Coral Gables, Florida).

He is survived by his wife, Helen Ludwig, and a sister, Lula Cameron of Gaithersburg, Maryland. He was a resident of McLean, Virginia.

BRIEFLY...

GW Club Breakfast -- The GW University Club will host breakfast with Ron Howard, director of alumni relations, on Wednesday, December 10, at 8 am. For reservations and further information call Ext. 6610.

Law Alumni Luncheon -- The DC chapter of the GW Law Alumni Association is sponsoring a luncheon on Thursday, December 11, at 12 noon at the National Lawyers Club, 1815 H Street, NW. The honored guest will be Judge Edward S. Northrop (LL.B. 1937), U.S. District Court for Maryland. He will speak on "Reflections on 25 Years on the Federal Bench." For further information, call Ext. 6420.

REMINISCENCES -- L to R, Professors William B. Griffith, Roderic H. Davison, and President Lloyd H. Elliott at the Faculty Senate Anniversary Reception.

FACULTY SENATE 25TH ANNIVERSARY *(continued from front)*

which embodied the Faculty Assembly and the Senate and which was passed by the Board of Trustees in the spring of 1960. The Senate first met on January 13, 1961. At its third meeting, then President Thomas H. Carroll came and presided, expressing approval of the Senate right away.

Among the accomplishments of the Senate, Professor Davison enumerated a statement on University objectives, a recommendation for a major medical insurance plan, and recommendation of free tuition for faculty children. He said the greatest task was the revision of the Code and Ordinances for the Faculty.

"The Senate took up all kinds of things," he noted, adding, "this was all done in an age which had no electric typewriter, no computer, no photocopy machine. It was all done by the laudable carbon copy, the purple ditto and the inky mimeograph."

Faculty Senate Executive Committee Chairman William B.Griffith said he had chosen as the topic for his remarks "What Has the Senate Done for Us Lately?" He stated, "One of the things the Senate has done is to persevere, to survive and to continue to function as the academic voice of the University." He referred to several recent surveys having to do with decline in faculty morale on the country's campuses and noted that the reinstitution of a faculty senate was recommended as a way of reducing some of what is called "distress of faculty."

Professor Griffith said, "The continuing existence of the Senate as an institution is an important achievement and it is perhaps pertinent to look at the score card after 25 years." He noted that the results of an inquiry by a special committee of the Senate last year had shown a fairly general high level of satisfaction with Senate representation with regard to issues of academic freedom and faculty grievance procedures, and with regard to the mode of cooperation with the university administration and somewhat less satisfaction with the Senate's role in budgeting procedures.

He spoke of many issues which have come up over the years and pointed out that the Senate has been active in pressing for the improvement of acquisitions in the Gelman Library. "I mainly want is to express the gratitude of the current Senate to all the many, many people whose cooperation has been essential to its performance. One person whose contribution I wish especially to acknowledge is that of President Elliott," he said. "I think there is simply no doubt that the president has greatly contributed to an exceptionally civil climate of debate. I think we owe quite a lot to President Elliott on that."

President Elliott in "Reflections on 21 Years of Presiding over Senate Meetings," stated, "I had the honor of presiding over the Faculty Senate's meeting on October 8, 1965, for the first time." Since that time, in 21 years, research shows, he noted, that he has devoted 1512 hours and 29 minutes to meetings of the Senate, its Executive Committee, and as a guest at meetings of other committees. He remarked that considering that some 263 resolutions have passed through the Senate since 1965, "this suggests that about six hours are required to pass a resolution."

The president shared with his listeners his "own secret for survival" with faculty senates. "First of all," he said, "the presiding officer must come to any meeting prepared to stay longer than any member of the body. The point is everyone has to have a chance to have his or her full say. Another aspect of patience is self-restraint. I always tried to be slow, very slow, to take offense." He referred to "Wood's Law," set forth by the late Reuben Wood, Senate Executive Committee Chairman for five terms. "It clearly stated that if one would remain silent, the thoughts he wanted to express would be equally, if not better, said by another."

He said the presiding officer should be attentive, but not apprehensive. "If the presiding officer, especially the president, shows irritation, such will only make the behavior more confrontational. There will be time, lots of time, where the administration may have its say, as well as presidents, professors, students, alumni, researchers and all others."

He continued, "Presiding over the Faculty Senate has not been for me an unpleasant experience. I was always able to learn things about the University which were helpful and which often gave me insights which I was able to get in no other way." He noted that in the 1960s GW's Faulty Code and Ordinances served as a national model through the AAUP and that by 1970 some 300 to 400 campuses had adopted similar plans.

Professor of Art Lilien F. Robinson served as chairman for the event.

YOCHELSON COLLECTION OF ISRAELI ART IN DIMOCK

The first public exhibition of Israeli art selected from the collection of Kathryn Yochelson of Washington, DC, will open on Wednesday, December 10, in the Dimock Gallery.

The collection is made up of a cross-section of Israeli art produced in the period beginning just before Israel achieved independence in 1948, and extending to 1970. It reflects the life and landscape of Israel during a time of turbulence and the impact upon a group of mostly European immigrant-artists, many of them refugees from the Holocaust.

Only two of the artists are native Israelis: Yaacov Agam and Moshe Castel; others emigrated from Poland, Russia, the Ukraine, Czechoslovakia, Romania, Germany, Austria and Switzerland. One was born in Iraq and another in China. One, Arie Lubin, was born in the United States.

Along with Agam, the best-known among the 24 artists are Mordecai Ardon, Marcel Janco, Reuven Rubin, Jakob Steinhardt and Anna Ticho.

The exhibition is titled "Personal Vision: The Yochelson Collection of Israeli Art." It includes oils, watercolors and prints, assembled from 1937 to the recent past.

"These are artists of my own generation," observes Mrs. Yochelson, "I felt strongly that something extraordinary was happening in the arts of Israel that needed to be captured and preserved."

Because reliable information -- there were almost no books on the subject -- was so hard to come by, Mrs. Yochelson resolved to pursue her inquiries at the source. She made many visits to Israel, seeking out newly arrived artists in cities, towns, kibbutzim (cooperative farms), and, often, in remote outposts.

Mrs. Yochelson, art educator and lecturer, is a patron of the Israel Museum and a member of the international board of governors of the Tel Aviv Museum.

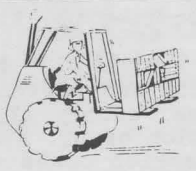
GW TO HOST JOB SEARCH WORKSHOP

The Career Services Center will host a "Career Search Workshop," Thursday, December 11, from 6 to 8 pm in the Marvin Theatre.

Sponsored by Chrysler-Plymouth and Business Week's Guide to Careers, the program is designed to give soon-to-graduate collegians the "basic tools" to begin a career search. From resume to interview, self-presentation to follow-up techniques, this program with video illustrations will lead students through virtually every step required for gaining career development confidence.

The workshop will examine such topics as: how not to get a job, choosing a career, writing a perfect resume, dressing for success, and how to have a great interview.

The workshop is free of charge and is open to the public. For more information, call Ext. 46495.



Gelman Library Periodicals Move -- Gelman's periodicals have moved and the collection in now in its location on the library's third floor.

URBAN LAND INSTITUTE AWARD *(continued from front)*

He commented, "while the University has been blessed with its location, it has also been placed in the position of trying to develop educational activities within a burgeoning and costly downtown environment." Noting that land prices have skyrocketed in Washington, D.C., President Elliott said that many years ago, the University embarked on a policy of purchasing land along and within its campus boundaries to insure its future. "This investment in land has been of value to the University and its partner in the project (2000 Pennsylvania), the Public School Employees' Retirement System of Pennsylvania. In addition to the development of revenue and the economic holding of land, the project had several other objectives."

President Elliott stated that the first objective was the development of income to help pay university operating budgets and that the second priority was to preserve the existing townhouses in such a way as to make them functional. "As you can see," he said, "we have preserved these rowhouses to the full depth of their original footprints, and have created a living environment for these old buildings rather than a mere decorative wall." He called attention to the fine quality of workmanship in the restorations.

A major objective was to build an office building that did not detract from the rowhouses and another prime objective was to have a university gateway opening on Pennsylvania Avenue, the president stated. He called the gateway "a bridge between the University and the community." He expressed the opinion that the University has "accomplished a successful balance" in providing retail facilities that serve not only the University community but also the neighboring residential and office communities. Dr. Elliott declared that the 2000 Pennsylvania project has achieved its objectives and expressed deep appreciation for the recognition by the Urban Land Institute which he termed "a most prestigious organization in the field of development and development management."

Vice President and Treasurer Charles E. Diehl expressed appreciation to organizations and individuals who have made contributions to the project. "It would be unseemly and incorrect to think that the project is the doing of any one individual," he said. "Like most successful ventures, it is the collaboration of many working together to make it possible."

The organizations and individuals he mentioned included the University's Board of Trustees; the Public School Employees Retirement System of Pennsylvania and Assistant Treasurer of the State of Pennsylvania Paul Lawrence; City Council members David Clarke and John Wilson and former members Arrington Dixon and Jerry Moore; the Deputy Mayor for Economic Development and his staff; the firm of Walker and Dunlop; Fidelity Bank and Dick Goldbeck and Doug Callantine; the Charles E. Smith Company and Chuck Lapine; the Joint Venture architects -- the firm of Hellmuth, Obata & Kassabaum and the firm of John Carl Warneke and Associates; the George Hyman Construction Company and James Clark; the law firm of Reasoner, Davis & Fox, particularly South Trimble; the law firm of Linowes and Blocher; the engineering firm of Joseph K. Loring and Associates; Ken Brooks, the University's real estate project officer, Bob Dickman, assistant treasurer for facilities design and construction, and President Elliott.

UNIVERSITY REGISTRAR J. Matthew Gaglione, center, and Tracy Stevenson, right, a temporary aide, assist Columbian College freshman Dan Ganz in the pre-registration process for Spring Semester, 1987.

NEWSNOTES

PROFESSIONAL ACTIVITIES

CHARLENE BICKFORD, director of the First Federal Congress Project, has been appointed to the Virginia State Historical Records Advisory Board by Governor Gerald L. Baliles.

DAVID S. BROWN, professor emeritus of management, was a guest lecturer at a recent United Nations management training program for senior governmental executives in Tunis.

HERBERT J. DAVIS, associate professor of business administration, presented two papers at the Academy of International Business, Southeastern U.S. meeting, held jointly with the Allied Southern Business Association annual meetings, November 13-15, in Atlanta, Georgia: "Management Education and Development in Bangladesh: An Overview and Some Observations," and "Personal Values of MBAs in the United States, India, and Mexico: Implications for the Developing Field of International Personnel Management." In addition, he co-edited the Proceedings of the meeting with **JAMES B. THURMAN**, associate professor of business administration.

LINDA GRANT DEPAUW, professor of American history, was a panelist in a session on "The United States Constitution: Political and Historical Background," at a conference on "The Media and the Bicentennial of the Constitution," November 20-21, in Williamsburg, Virginia. The conference was jointly sponsored by the Institute of Bill of Rights Law at the College of William and Mary and the Virginia Commission on the Bicentennial of the United States Constitution.

E. DONALD DRIVER, director of International Student Services (ISS), was a participant on a panel session entitled, "People's Republic of Chinese Students and Scholars," at the annual National Association for Foreign Students Affairs (NAFSA) Region 8 Conference in College Park, Maryland, November 2-4. **JOHN HARTT**, assistant director of ISS, participated on a panel session "Legal Rights of International Students" at the same conference. Driver has been appointed the Government Regulations Advisory Committee Representative for Region 8 of NAFSA. John Hartt has been appointed Region 8 Sectional Representative for The Council of Advisors to Foreign Students and Scholars (CAFSS).

ERNEST ENGLANDER, assistant professor of business administration, has been appointed by President Lloyd H. Elliott to chair the University Committee on Student Publications.

AMITAI ETZIONI, university professor, has been elected by the members of the American Association for the Advancement of Science as Member-at-Large of the Section K Committee (social, economic and political sciences) for a four-year term. He discussed "Morality in America" with members of the Foreign Correspondents Association, September 18, at the National Press Building in Washington, DC.

HOWARD GILLETTE, professor of American civilization, gave a paper, "White City and Capital City," October 23, at the Urban History Seminar, Chicago Historical Society, and October 28, at the University of Maryland, Baltimore County.

SAMUEL GREENHOUSE, professor of statistics, has been elected to the Council of the American Association for the Advancement of Science (AAAS). He will serve for three years beginning January 1, 1987.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, gave introductory remarks at a luncheon seminar meeting co-sponsored by the International Business Programs and the Korean Economic Institute, November 5 at GW. The seminar featured **ALEX ANCKONIE III**, associate professor of business administration, and **CHANG CHI**, Hyundai Scholar and Ph.D. candidate in business administration, who spoke on the "Internationalization of the Korean Stock Market."

On November 22, Professor Grub presented a paper entitled, "Foreign Investment in China: A Study and Analysis of the Factors Influencing U.S. Firms' Attitudes and Motivations" at the International Convention of the Academy of International Business held at the London School of Business in England. He also attended the annual meeting of the Fellows of the Academy, the group of 35 professors of international business who are recognized internationally for their leadership and contributions to the field.

DONALD E. HAWKINS, professor of travel and tourism, was appointed General Editor of the National Publishers of the Black Hills, Inc. new textbook series for career preparation in the fields of hospitality and commercial recreation.

ALF HILTEBEITEL, professor of religion, chaired three panels on "Transgressive Sacrality" at the 15th Annual South Asia Conference held at the University of Wisconsin, Madison. The program was arranged by Hiltebeitel and Dr. Sunthar Visuvalingam of Banaras Hindu University, India. In the morning session on "Transgressive Sacrality in the Hindu Sacrifice," he presented a paper entitled, "Draupadi's Two Guardians, the Buffalo King and the Muslim Devotee: Transgressive Notations in the South Indian Draupadi Cult."

CAROL HOARE, associate professor of education, has been appointed to the Board of Trustees of Carlow College in Pittsburgh, and to the Board of Directors of the National Capital Area YWCA.

KATHLEEN JORDAN, associate director of Housing and Residence Life, presented a workshop, October 19, to the Housing Staff at Sheldon Jackson College in Sitka, Alaska, on "International Communication in a Multi-Cultural Setting." At the Middle Atlantic College and University Housing Officers Conference at the University of Pittsburgh, October 30 through November 1, she and **R. PAUL CHURCHILL**, associate professor of philosophy, presented a session on current research topic exploring applications of Myers-Briggs Type Theory to the study of logic.

DANIEL R. KANE, assistant professor of business administration, presented a paper at the annual meeting of the Southeastern Regional Business Law Association, October 23-24, in Atlanta, Georgia. He was a participant in the forum on "Curriculum and Teaching Methods" and discussed teaching the social responsibility of business in the business law curriculum.

MARVIN KATZMAN, associate professor of business administration, presented a paper entitled, "AHP: Some Help for Decision Makers," at the annual meeting of the Southern Management Association, in November, in Atlanta, Georgia. The paper suggested a methodology for providing decision support to the decision maker who is interested in using a state-of-the-art approach to strategic management.

JOHN M. LACHIN, professor of statistics, attended the annual meeting of the International Society for Clinical Biostatistics in Cardiff, Great Britain, September 15-19. On November 3 and 4, he participated in a National Institute of Health conference on "A National Institute of Diabetes, Digestive and Kidney Diseases Centennial Initiative: Kidney Disease of Diabetes Mellitus," jointly sponsored by the NIDDK, voluntary health agencies and private corporations. He participated as an invited member of the Clinical Research Committee, charged with a statement of program objectives for future clinical research in kidney disease of diabetes mellitus. On November 7 and 8, he was an invited speaker at the meeting of the Perepherial Neuropathy Association of America. He participated in a session on clinical trials and gave a presentation entitled, "Statistical Considerations in the Design of Clinical Trials of Perepherial Neuropathy."

JOHN LOGSDON, professor of public affairs and political science, addressed the staff of NASA's Lewis Research Center, September 17, in Cleveland, Ohio. On October 1, he was the principal speaker for a Brookings

(continued on back)

Institution National Policy Forum on "The U.S. Space Program: Directions for the Future." He presented two papers during the 37th Congress of the International Astronautical Federation in Innsbruck, Austria, during the week of October 6 and was keynote speaker for a symposium on space utilization sponsored by Japan's space agency, October 16. On October 21, he spoke to a luncheon seminar of the senior specialists of the Congressional Research Service of the Library of Congress.

CYNTHIA McCLINTOCK, associate professor of political science, participated in the Latin American Studies Association meeting in Boston, October 23-25. She presented a paper on Peru on the panel "Redemocratization in Latin America: The Role of 'Political Learning.'" She also served as a discussant on the panel "Political Participation and Protest in Peru." As chair of the association's Media Task Force, she presented the award for outstanding media coverage during 1985-86 to Bill Buzenberg of National Public Radio.

DORN C. MCGRATH, professor of urban and regional planning, discussed "The 'Big Fix' Approach to Business District Development" before the National Main Street Center Conference on Revitalizing Urban Business Districts, November 12, in Washington, DC. On November 14, at the annual meeting of the National Conference of Christians and Jews in Alexandria, Virginia, he gave a keynote address on "The Implications of Ethnic and Economic Diversification in the Metropolitan Washington Area."

SEYYED H. NASR, university professor of Islamic studies, delivered a lecture on "The Spiritual Crisis of Modern Man" at the Ninth International Congress of the Family, September 11, in Paris.

AHMED K. NOOR, professor of engineering and applied science, co-chaired and helped organize the First World Congress on Computational Mechanics, September 22-25, at the University of Texas at Austin. On November 11, he gave an invited talk on "Computational Strategy for Making Complicated Structural Problems Simple," at the University of Tennessee, Knoxville.

CATHERINE J. PICKAR, assistant professor of music, spoke at the joint mid-Atlantic regional meetings of the American Musicological Society and the Music Library Association, October 4, at the University of Richmond. She spoke about her project of compiling an annotated index of women composers from Maryland, Virginia and Washington, DC, from 1900-1986.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, presented a paper entitled, "Effect of HF Differential Propagation Delay on FH Communications," October 7, at the Institute of Electrical and Electronics Engineers' MILCOM '86 Conference in Monterey, California.

BERNARD REICH, professor of political science and international affairs, delivered a paper on "Political Risk in the Middle East and North Africa" to the 11th International Conference on Political Risk, October 21, in New York. On October 28, he spoke to the 13th Annual International Chemical Roundtable in Miami.

LEO P. RIBUFFO, professor of history, recently delivered the keynote address, "The New Christian Right in Historical Perspective," at the 20th Queens University Conference for Secondary School Teachers in Kingston, Ontario. He also delivered the after dinner talk, "God and Ronald Reagan."

RICHARD H. SCHLAGEL, Elton Professor of Philosophy, read a paper entitled, "Experimental Realism: A Critique of Bas van Fraassen's 'Constructive Empiricism,'" October 24, at the Catholic University of America's Lecture Program on Nature and Natural Science. On October 29, he read a paper at Howard University on "Contextual Realism."

STEPHEN SMITH, assistant professor of economics, presented an invited seminar entitled, "The Incidence of Profit and Equity Sharing: Theory and Evidence," November 13, at the World Bank.

HENRY M. STEINER, professor of engineering administration, will be a visiting professor in the Department of Industrial Engineering and Operations Research at the University of California, Berkeley, in the spring semester of 1987. He will be teaching a course in engineering economy.

PUBLICATIONS

WOODROW BARFIELD, assistant professor of engineering administration, a book, Human Aspects of Computer-Aided Design, 1986, co-authored with three members of the Purdue University faculty; and an article, "The Effects of Graphics and Cognitive Style on Managerial Decision Making," in the Proceedings of the 30th Annual Human Factors Society Meeting, Dayton, Ohio. The paper was co-authored with **MARK LISTER, ROB ROBLESS AND GLENN BOTTOMS**, graduate students in engineering administration.

CHARLENE BICKFORD, director of the First Federal Congress Project, an article, "Launching the Ship of State: The First Federal Congress and the Constitution" in a collection of essays entitled, The Blessings of Liberty: Bicentennial Lectures at the National Archives, published by the American Bar Association.

MICHAEL D. BRADLEY, assistant professor of economics, an article, "Government Spending or Deficit Financing: Which Causes Crowding Out?" Journal of Economics and Business, Vol. 38, No. 3, August, 1986, pp. 203-213.

DAVID S. BROWN, professor emeritus of management, author of a two-part series, "The New Management Ethic," in succeeding issues of Vezetes Szervezes (Leadership in Organizations), Budapest, Hungary; and a book review of Kaisha: The Japanese Corporation, "How the Competition Does It," in The Bureaucrat, Fall, 1986.

WILLIAM E. CALDWELL, professor emeritus of psychology, a monograph, "Conditioned Hyperventilation as a Factor in Animal, Infant and Adult Apnea: A Theoretical Analysis of Experimental and Clinical Data," in Genetic, Social and General Psychology Monographs, Heldref Publications, Vol. 112, No. 3, August 1986.

ALI BULENT CAMBEL, professor of engineering and applied science, and **BRUCE A. BELL**, professor of engineering, a co-authored paper, "Shale Conversion with Plasmas," in Energy - The International Journal, September, 1986.

PETER CAWS, university professor of philosophy, two articles, "The Scaffolding of Psychoanalysis," in Behavioral and Brain Sciences 9, 2, June 1986, pp. 229-30; and "L'Idiot savant," in Etudes Sartriennes II-III, 1986, pp. 251-260.

HERBERT J. DAVIS, associate professor of business administration, an article, "An International Study of Intrinsic Motivation Composition," in Management International Review, Vol. 26, No. 3, 1986, pp. 28-35.

MAURICE A. EAST, professor of international affairs and political science, an article co-authored with Olav F. Knudsen, "Spillerom for personlig innvirkning..." (Leeway for Personal Impact: The Case of Foreign Policy-Making in Norway), in Internasjonal Politikk, No. 3, 1986, pp. 7-32.

AMITAI ETZIONI, university professor, an article, "Founding a New Socioeconomics," in Challenge, November/December, 1986.

HOWARD GILLETTE, professor of American civilization, two articles co-authored with Alan Kraut: "The Evolution of Washington's Italian-American Community, 1890-World War II," in Journal of American Ethnic History, Fall, 1986; and "The Evolution of Washington's Italian-American Community, 1890-Present," in Support and Struggle: Italians and Italian Americans in a Comparative Perspective, **JOSPEH TROPEA**, associate professor of sociology, ed., American Italian Historical Association, 1986.

JOHN D. HUNT, professor of travel and tourism, an article, "Tourism Comes of Age in the 1980s," in Parks and Recreation, Vol. 21, No. 10, October, 1986, pp. 30-36, 66-67.

BERNARD REICH, professor of political science and international affairs, and **GERSHON R. KIEVAL**, associate professorial lecturer in political science, a co-authored and co-edited book, Israel Faces the Future, Praeger, New York, 1986, which includes chapters by **MAURICE ROUMANI**, associate research professor of political science, **RENEE TAFT**, Ph.D. candidate in political science and **JOSEPH PELZMAN**, professor of economics, in addition to those by a number of authors from other institutions.

INTERVIEWS

DAVID S. BROWN, professor emeritus of management, was interviewed by Sharon Caudle of the National Academy of Public Administration for an article which appeared in the Education Supplement of Education Times, October 15, entitled, "A Professor Looks at His Profession."

PETER F. KLAREN, professor of history, was interviewed on the subject of the ruling APRA party in Peru for the Voice of America program "Focus" on September 10.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, was interviewed about the ethical issues surrounding surrogate motherhood on Cable News Networks's "Take Two," which aired November 19.

STUART A. UMPLEBY, associate professor of management science, was interviewed by Scripps Howard News Service and by Cox Newspapers, about ethical systems and negotiating strategies in the United States and the Soviet Union in the wake of the summit meeting in Iceland.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Department of Biochemistry Laboratory. (Experience in HPLC and TLC highly desirable. Required: B.S. and one year related experience. Available immediately.) Send resume to Dr. Jack Vanderhoek, Department of Biochemistry, GW School of Medicine, 2300 I Street, NW, Washington, DC, 20037.

RESEARCH ASSISTANTS (two), full-time, Department of Chemistry. (Individuals will conduct research and prepare reports on the generation and characterization of helium inductively coupled plasma and sample introduction systems for chemical analysis or be involved in the development of smart robots and smart detectors for spectrochemical analysis. Required: B.S. in chemistry with a minimum of two years experience. Available immediately.) Contact Dr. A. Montaser, Department of Chemistry, The George Washington University, Washington, DC 20052, Ext. 6480.

RESEARCH ASSISTANT, full-time, Department of Psychiatry and Behavioral Sciences. (Individual's duties 60 percent of time will relate to coordination of all aspects of a clinical research patient study, in which patients will receive drug treatment for depression; assist in publicity, recruitment of patients, completion of data forms, coordinate with granting agency. Remaining time will be used for a variety of clinical research projects, in coordination, tracking, direct patient contact and statistical work. Required: bachelor's or master's degree in health-related field with strong background in statistics and research as well as experience and facility with SAS or equivalent.) Contact: Dr. Marc Hertzman, Ext. 3355, 901 23rd St., NW, Washington, DC. 20037.

The George Washington University is an equal opportunity/affirmative action employer.

Office of News & Public Affairs

Jane Lingo, editor (202) 676-6460
Dan Moshavi, assistant editor

CAMPUS COMMITTEE-CAMPAIGN FOR GEORGE WASHINGTON

A Campus Committee for the Campaign for George Washington, under the direction of Professor of Public Administration Susan J. Tolchin, began its work in the fall and is moving ahead with plans and programs.

Chairman Tolchin announced the start of the faculty/staff campaign at the September 3 Faculty Assembly. Overall Campaign Chairman Oliver T. Carr Jr. said, in a recent report, "GW's faculty and staff have a long tradition of generously supporting their institution. A goal of $2 million has been set and already gifts totalling $700,00 have been received."

Members of the Campus Committee include Fred Amling, School of Government and Business Administration; John G. Boswell, School of Education and Human Development; Charles F. Elliott, School of Public and International Affairs; John S. Jenkins, National Law Center; Arnold C. Meltzer, School of Engineering and Applied Science; Seymour Perlin, School of Medicine and Health Sciences; Lilien Robinson, Columbian College of Arts and Sciences; Anthony M. Yezer, Graduate School of Arts and Sciences; and Don A. Runyon, assistant treasurer, staff representative.

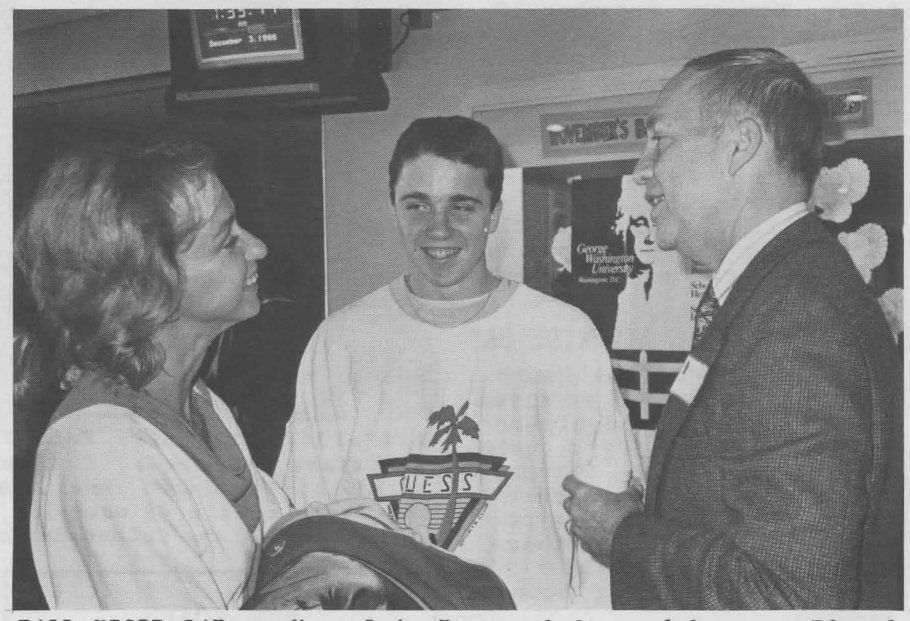
Dr. Tolchin notes that with the coming changes in the tax laws, there could be advantages to contributing to the Campaign for George Washington before the end of the year.

M. ELIZABETH TIDBALL TO GIVE FIRST WEDNESDAY LECTURE

M. Elizabeth Tidball, professor of physiology, will speak on "Baccalaureate Origins of Scientists and Physicians," Wednesday, January 7, at 8 pm in the Marvin Theatre. The event, sponsored by Alumni Relations, is part of the First Wednesday Lecture Series. Admission is free, but call Ext. 6435 for reservations.

Dinner, for both members and non-members of the GW University Club, will be served beforehand, beginning at 6:30 pm. Call Ext. 6610 for dinner reservations.

LOIS S. SCHWOERER, December's First Wednesday Lecturer, smiled at her many questioners following her talk on "Women and Revolution."



FALL VISIT DAY -- Mrs. Lois Hyman, left, and her son Edward Meyers, center, a student at Glenelg High School in Maryland, talked with Marvin S. Katzman, SGBA assistant dean for undergraduate programs, on December 3 at Fall Visit Day, sponsored by the Admissions Office for area high school students.

JAMES PERKINS SPEAKS TO COUNCIL ON INTERNATIONAL PROGRAMS

"From President's Committee to President's Committee" (from Jimmy Carter to Lloyd Elliott) was the title chosen by Chairman James Perkins of the International Council for Educational Development for his remarks December 8 at an occasion in the GW Club, marking the inauguration of GW's Council on International Programs. He was introduced by SPIA Dean Maurice A. East.

Dr. Perkins, who served as the chairman of President Carter's Commission on Foreign Language and International Studies, which issued its report in 1979, took that date as a point of departure for his remarks. He outlined what he called "facts of life" facing the commission as it began its work in 1978.

He said they were: the downhill direction of United States language competence, further influenced by the State Department's lack of a language requirement which was reflected in lack of language requirements at the college and secondary school levels; the "extremely out-of-order" level of understanding of the American public about what was going on outside our borders; the lack of attention from the business community to the need for international competence; and the avoidance of security studies which tended to leave security matters in the hands of military and bureaucratic authorities.

"There has been a deepening and broadening of the problems in the last decade," Chairman Perkins asserted, "as well as an increase in their complexity for those who would understand them or train people to manage them."

The speaker gave attention to the national concerns for security, prosperity and democracy.

"Security isn't what it used to be," he said. "It isn't just a matter of building up military competence. The very instruments that are a part of the security system have now become a problem all by themselves. We are only now beginning to pull the lid off this bottle to see in it extreme dangers, complexities and contradictions and it needs a hard look."

Noting the Japanese and German superiority in auto manufacture and electronics, he commented, "Overseas markets and the domestic markets are now the playthings or the resultants of an extreme form of sophisticated competence competition that did not exist nine years ago or at least it wasn't fully discerned."

On the promotion of democracy, he cited the need for "some very careful understanding of what the political situation is in countries that are either going communist or are trying to come back to democratic life." He declared, "We have allowed this to become, in my judgement, the plaything of military pushes and pulls."

In an overview of the responses to the deepening

FREE PLAYWRITING WORKSHOP

The University's Jenny McKean Moore Fund for Writers is sponsoring a free playwriting workshop, January 14 through April 22, Wednesdays, 8 to 10 pm. The workshop will be led by Lonnie Carter, playwright-in-residence and author of The Sovereign State of Boogedy Boogedy (Locust Hill Press, 1986) and other plays including Bicicletta, Certain Things About the Trombone, and The Big House.

Applicants need not have academic qualifications. No fees are charged. Students at GW and other Consortium schools are not eligible. To apply, submit a letter giving name, address, home and work telephone numbers, and a brief personal history. Indicate whether you have participated in a previous Jenny McKean Moore workshop. Enclose a sample of your work, a dramatic scene or play, not to exceed 25 pages (include self-addressed, stamped envelope for return).

Apply by Friday, January 2, to: Department of English, The George Washington University, Washington, DC 20052.

SIX GW EDUCATIONAL LEADERS RECOGNIZED

Six graduates of the University's School of Education and Human Development are among the 16 recipients of the Washington Post First Annual Distinguished Educational Leadership Awards.

The awards have been established to recognize those school principals "who go beyond the day-to-day demands of their position to create exceptional educational environments." In establishing the awards, the Post hopes to encourage excellence in school leadership and "to contribute in a substantive way to the improvement of education in public schools in the Washington metropolitan area." The awards were presented December 2 in a ceremony at the Washington Post building.

Our six award recipients and their schools are: Stephen F. Osisek, M.A. in Ed.&H.D., 1966, George Washington Junior High School, Alexandria, Virginia; Margaret McCourt-Dirner, B.A. in Ed.&H.D., 1970, M.A. in Ed.&H.D., 1974, Abingdon Elementary School, Arlington, Virginia; Judy W. Estep, M.A. in Ed.&H.D., 1976, Mt. Hope/Nanjemoy Elementary School, Charles County, Maryland; Vera M. White, M.A. in Ed.&H.D., 1976, Jefferson Junior High School, District of Columbia; Geraldine B. Meltz, M.A. in Ed.&H.D., 1964, Rolling Terrace Elementary School, Montgomery County, Maryland; and Arthur J. Dock, M.A. in Ed.&H.D., 1969, Berkshire Elementary School, Prince George's County, Maryland.

ALAM E. HAMMAD RECEIVES OMAN'S HIGHEST DECORATION

His Majesty Sultan Quaboos bin Said of Oman, left, with Professor Alam E. Hammad.

Professorial Lecturer in Business Administration Alam E. Hammad received the Sultan Quaboos Order, the highest decoration in the Country of Oman, directly from his Majesty Sultan Quaboos bin Said on Sunday, November 9, of this year in a ceremony marking the inauguration of Sultan Quaboos University in Muscat, Oman.

Dr. Hammad was honored for his efforts as one of the founders of the new institution. The Foundation Committee has been at work on the establishment of the new five-college university since 1980. Dr. Hammad, who received the Doctor of Business Administration from The George Washington University in 1977, is a member of the SGBA Alumni Association's Board of Directors.

JAMES PERKINS SPEAKS

(continued from front)

and broadening problems, he touched on those of the federal government, foundations, the states, and education. Perkins said, "During this nine years, the response from the federal government (to the International Council for Educational Development) has been almost nil." He went on to say that an idea for a National Endowment of International Affairs, now being floated, has no support from the State Department but that the Department of Defense is actively interested.

Among foundations, he told his listeners that the Exxon Foundation is the only one which has been consistently helpful. In the states, he said, the school boards, the teachers, and the local farm groups are very interested in the furthering of international and language studies. Noting that educational institutions sometimes move slowly, he held up a compilation done by Change magazine of some 30 to 40 colleges and universities which have markedly broadened their international offerings.

Dr. Perkins had some general comments for the GW Council as it undertakes its work. "I gather there's still a certain amount of decision-making going on," he said. "I can only tell you that all of this can fall apart if there is not a structure. It's going to take time so that people learn how to relate to each other in their various fields. This time is one of the best investments you can make."

In a brief question and answer period, he spoke highly of the Report of the Commission for the Year 2000 and emphasized his view that language competence is very important. He recommended that this competence, particularly at the graduate level, be noted on the graduation certificate and become a part of a student's permanent record.

PERSONNEL NOTICES

PSYCHOLOGIST/COUNSELOR, part-time (14-21 hours), temporary (5 to 6 months), Counseling Center. (Individual to begin in January for short-term individual therapy, group therapy and supervision. Counseling center experience, doctorate and licensure in psychology preferred.) Submit letter of interest, resume, two letters of recommendation, schedule and salary expectations immediately to: Dr. D. DePalma, GW, 718 21st Street, NW, Washington, DC 20052, or call Ext. 6550.

RESEARCH ASSOCIATE, full-time, Department of Medicine. (Position available immediately for an enthusiastic individual interested in studying the regulatory properties of thymic hormones and lymphokines in the immune response to mitogenic and antigenic stimulation. Required: Ph.D. in immunology, microbiology, molecular biology or related field. Background in lymphokine research, molecular biology and/or flow cytometric techniques preferred.) Contact: Dr. Marcelo B. Sztein, Ross Hall, Room 705, Ext. 8290.

MRS. YOCHELSON TO SPEAK ON ISRAELI ART IN DIMOCK

Kathryn M. Yochelson, art educator and lecturer, will give a gallery talk on the Dimock Gallery's current exhibition, "Personal Vision: The Yochelson Collection of Israeli Art," today, Monday, December 15, at 2 pm.

The collection is made up of a cross-section of Israeli art produced in the period beginning just before Israel achieved independence in 1948, and extending to 1970. There will be tea in the gallery following the talk. The event is open to everyone in the University community.

FIVE RECOGNIZED AT PRIDE DAY

Five members of the Housekeeping Department received awards for clean equipment at the University's 11th annual Pride Day on November 20 at 6:30 am in the Marvin Center. The awards were presented by David B. Smothers, assistant director of Physical Plant for housekeeping.

The Clean Equipment Contest winners are: Allene Medlin, Medical Center; Joyce Jennings, Marvin Center; Carrie Morris, Main Campus; Genevieve Quick, East Campus; and Mary McCrimmon, Residence Life.

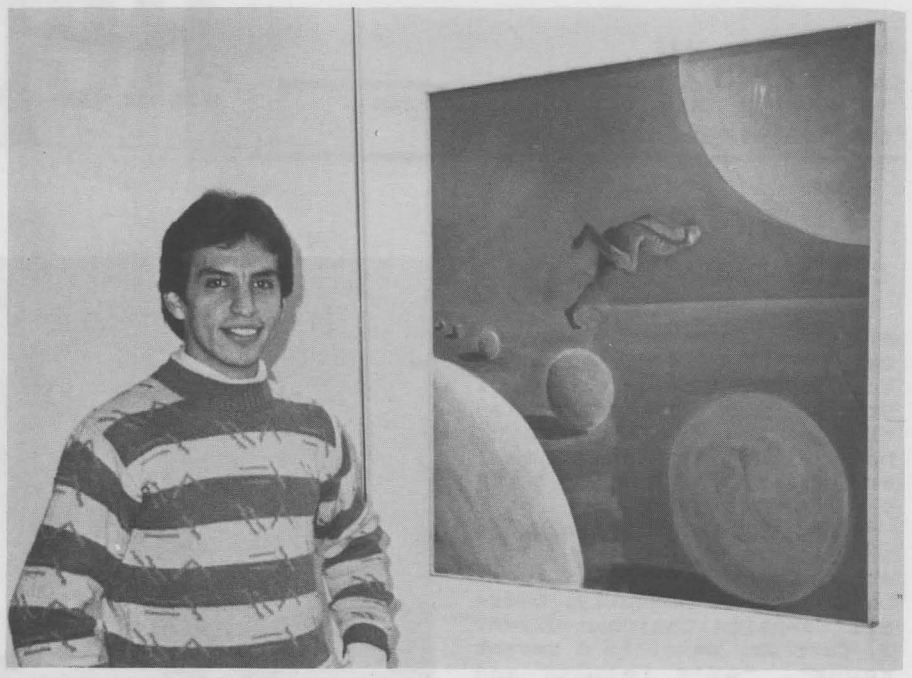
Those representing the University administration at Pride Day included Vice President and Treasurer Charles E. Diehl, Assistant Treasurer Robert E. Dickman, Director of Housing Ann E. Webster, Physical Plant Director Robert F. Burch, Employee Relations Manager Ann Jewett, and Marvin Center Director Boris Bell.

REWARD of $50 for information leading to the recovery of two notebooks of Murli and Karmin taken from Ross Hall, Room 726. Notify Ted Bell at 282-0045.

BOOKSIGNING -- Lonnie Carter, right, Jenny McKean Moore Visiting Lecturer in Creative Writing, signed a copy of his volume The Sovereign State of Boogedy Boogedy and Other Plays for Cyndi Hammond, a member of the GW Troubadours, at a recent booksigning session at the GW Bookstore.

SENIOR RESEARCH SCIENTIST, full-time, Department of Medicine. (Individual to plan and conduct research at an advanced level. Person will study the free radical mechanisms induced by ischemia/reperfusion associated with myocardial injury and will attempt to quantify free radicals produced during ischemia/reperfusion. Required: skill in the theory and practice of Electron Spin Resonance Spectroscopy, in chemical techniques for monitoring free radical reactions in biological systems, and knowledge of mathematics, computer science, physics and physical chemistry.) Contact Dr. William Weglicki, Ross Hall, Room 409, Ext. 5080.

The George Washington University is an equal opportunity/affirmative action employer.



ARTISTIC UNIVERSITY FAMILY -- Oswaldo Jimenez, library assistant in Special Collections, Gelman Library, stands beside his "Backward Inner Glances," acrylic on canvas, 35" x 35", one of the 42 works by members of the GW community on exhibition in the Colonnade Gallery through January 9.

NEWSNOTES

PUBLICATIONS

BARRY BERMAN, professor of physics, two book chapters, "Channeling Radiation Experiments," in Coherent Radiation Sources, Springer--Verlag, Heidelberg, 1986; and "Nuclear Giant Resonances - A Historical Review," in Energy in Physics, War and Peace, International Science Services, Rehovot, Israel, 1986.

AMITAI ETZIONI, university professor, an article, "The Case for a Multiple-Utility Conception," in Economics and Philosophy, October, 1986.

EUGENE W. KELLY, professor of education, an opinion piece, "How Prayer and Public Schools Can Coexist," in Education Week, November 12, 1986.

JOHN M. LACHIN, professor of statistics, co-authored with M.A. Foulkes, "Evaluation of Sample Size and Power for Analyses of Survival with Allowance for Non-Uniform Patient Entry, Losses to Follow up, Non-Compliance and Stratification," in Biometrics, Vol. 42, 1986, pp. 507-519.

SEYYED H. NASR, university professor of Islamic studies, a book published in Turkey, Bati Felsefeleri ve Islam, 1985; and editor of a book, The Essential Writings of Frithjof Schoun, Warwick, Amity House, 1986.

AHMED K. NOOR, professor of engineering and applied science, several papers: "Nonlinear Analysis of Anisotropic Panels," in AIAA Journal, Vol. 24, No. 9, September, 1986, pp. 1545-1553, co-authored with Jeanne M. Peters; "Element Stiffness Computation on CDC CYBER 205 Computer," in Communications in Applied Numerical Methods, Vol. 2, 1986, pp. 317-328, co-authored with Jeanne M. Peters; "Reduction Method for the Nonlinear Analysis of Symmetric Anisotropic Panels," in Finite Element Methods for Nonlinear Problems, P.G. Bergan, K.J. Bathe and W. Wunderlich, eds., Springer-Verlag, 1986, pp. 389-407, also published in International Journal for Numerical Methods in Engineering, Vol. 23, 1986, pp. 1329-1341; and "Anisotropic Continuum Models for Beamlike Lattice Trusses," in Computer Methods in Applied Mechanics and Engineering, Vol. 57, 1986, pp. 257-277, co-authored with William C. Russell.

CHARLES T. STEWART, professor of economics, a book, Technology Transfer and Human Factors, Lexington Books, 1986.

PROFESSIONAL ACTIVITIES

AMITAI ETZIONI, university professor, delivered the 40th Annual Convocation address at Montgomery College, November 18.

RICHARD LONGSTRETH, associate professor of architectural history, delivered a lecture on "The Origins and Early Development of the Planned Neighborhood Shopping Center," October 30, at the School of Architecture, University of Virginia.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, presented an invited talk on "Algorithms and Adaptive Signal Processing and Their Analysis" to the Department of Electrical Engineering, Systems and Computer Science of the University of Virginia, Charlottesvile, on October 31.

INTERVIEWS

CHRISTOPHER J. DEERING, associate professor of political science, appeared on an hour-long interview call-in program, November 6, on C-SPAN to discuss the outcomes of the 1986 midterm congressional elections. he also appeared on WNVC's "On the Hill" which aired November 9.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was interviewed by William Halstein of Business Week for a feature study on "Management Styles and Organizational Structures of Korean Multinational Corporations" for an article in the International Edition of Business Week, November 21.

JOSEPH PELZMAN, professor of economics, was interviewed by the PBS "Business Report", December 4, on U.S. - Soviet trade problems. At the time, a Soviet trade delegation was having meetings with the U.S. Department of Commerce concerning a number of bilateral trade problems.
